Mr. Robert M. Purich Appointed To Director of Admissions Post

Mr. Robert M. Purich has been appointed Director of Admissions at Providence College. He will replace Father Royal J. Gardner, O.P., who will devote more of his time to his position as Prior of the Dominican religious community.

Mr. Purich, who graduated from Providence College in 1959, served as Assistant Director of Admissions for four years. Previous to this, Mr. Purich taught for three and a half years in Bellingham, Massachusetts, where he has lived all his life. He has been married for two years.

"Father Gardner will be a very difficult man to replace," said Mr. Purich. "I don't expect any new problems at the present," Mr. Purich said, "but something may come up which is unforeseeable."

The Providence College Faculty, in admissions in particular, that I feel that the negro soldiers, who began to assert their blackness.

Mr. Purich said that he hoped better than anyone will be able to do this. A great deal of Mr. Purich's time will be spent on the road speaking to various high school groups. Father Halton, the Dean of Freshmen, will help him to do this.

Mr. Purich said that he hoped to carry on the same procedures as his two predecessors, Father Gardner and Father Gallaher. "I expect to do a fine job," said Father Gardner. "With his experience he knows the many facets of the position." Father Gardner became Prior of the St. Thomas Aquinas Priory on October 1, 1965. A native of Brooklyn, New York, Father Gardner graduated from Providence College in 1945 and entered the Dominican Order that same year. In 1950, he received the degree of Bachelor of Sacred Theology and was ordained to the priesthood the following year in Washington, D.C. He was assigned to the Providence College faculty in 1955. He had been previously associated with St. Ferrer's Church, New York City.

"I've seen so many changes in the college, in admissions in particular, that I feel that the college is a great part of my life. But I felt a great injustice to all concerned this past year attempting to hold two offices, Religious Superior and Director of Admissions. With a large number of Negro students, there are many duties which are definitely full time responsibilities," Father Gardner explained.

Seniors Named To Who's Who

Thirty-three Providence College seniors were nominated last week to be listed in the publication "Who's Who Among Students in American Universities and Colleges."

"Who's Who Among Students" is an annual directory of distinguished students selected from colleges throughout America. The directory has been published every school year since 1924 in Tuscaloosa, Alabama. There is no connection between "Who's Who Among Students" and the publication known as "Who's Who In America."

A student recognized in "Who's Who Among Students" must first be officially recommended by the institution which he attends and then accepted by the "Who's Who" organization. Nominations are submitted annually by four-year degree-granting institutions. College juniors, seniors, and graduate students are eligible for nomination.

"Who's Who" requests nominating committees to consider the student's scholarship, leadership and cooperation in educational and extra-curricular activities, his general citizenship, and his promise of future usefulness. Each participating institution is assigned a separate quota large enough to give a well-rounded representation of the student body, small enough to confine nominations to an exceptional group of students, and based upon current enrollment.

A "Who's Who" student will have his name and a sketch of his personal and college record listed in the annual publication for the year in which he was selected. As a fringe benefit of their selection, students can use "Who's Who" as a reference in job and graduate school applications. "Who's Who" maintains a special "Student Placement Service" for this purpose.

In the school year 1965-66, 13,977 students were named in "Who's Who." Three Rhode Island schools, including Providence College, were represented last year. Fifty-two were Rhode Island residents. By way of contrast, California had 27 schools and 601 residents represented.

The nominating committee included Raymond Laguere, Paul Gianelli, Kenneth Shea, John Minicucci, Dennis Wentrath, and Rev. John P. Gerhard, O.P. The student members of the committee were chosen as presidents of the more important campus organizations; Father (Continued on Page 4)

James Farmer, Racial Leader Speaks

The Providence College Forum presented its third speaker, James Farmer, the nationally known author and former director of CORE, at 8 p.m., Dec. 15, in Alumni Hall.

Mr. Farmer presently is a teacher at Lincoln University, as well as an active member of the civil rights movement. He founded CORE, the Congress on Racial Equality, in 1942, at the University of Chicago. This non-violent group strives for equality between whites and non-whites and draws its basic ideas from a movement in India many years ago. Mr. Farmer suggested that CORE was looked upon at its outset, as a group of idealists who participated in sit-ins and the like, with the emphasis on non-violence. He stated, "If we were not for this emphasis on non-violence, the entire civil rights movement would have evolved into a blood bath."

Mr. Farmer stated a couple of reasons lying behind the beginnings of the civil rights movement in this country. He felt that the negro soldiers, who had fought for the U.S. in World War II, emerged with the determination which would afford their sons a position of equality. Mr. Farmer said that "the new negroes in America, those cast off the old images of the native, cannibal tribes, and led the negroes in America to no longer look upon their color as a skin deformity, but rather to begin to assert their blackness."

Mr. Farmer suggested that this was the beginning of the so (Continued on Page 3)
Right Direction?

The Cowl is receiving "peace literature," not from the students themselves, but from some other group, the "Chicago Peace Council." The Council is trying to enlist this college's support for a late December meeting preparatory to the calling of a national, anti-war student strike in the spring.

There are many serious objections to this direction of activity. There simply is no need for such a move. All the intelligent criticism of the present war effort is being done efficiently and by more rational, responsible men—many in high office. Ostensibly, the so-called "nominating committee" of the American College? and Universities is intended: in a college where the nomination process is trying to their followers, and it is only...
Dear Editor:

Eight years after completing my last class in Theology, I am assuredly not now a theologian. For, when you have no money. Well sir, there are many wonderful gifts which cost hardly anything. A bottle of good whiskey, who shaves with Personna, give him a safe. You easily and breezily, quickly and slickly, scratchlessly and matchlessly; that come both in Double-Edge style and Stainless Steel Blades.

Next let us take up the thorny problem of buying gifts when you have no money. Well sir, here are some tips I'll bet he doesn't have: 1) a dentist's chair, 2) a Mach number, 3) a street map of Perth, Australia, 4) Fifty pounds of chicken fat, 5) a pack of Persona Super Stainless Steel Blades.

"What?" you exclaim, your eyebrows leaping in wild incredulity. "The man who has everything doesn't have Persona Super Stainless Steel Blades? What arrant nonsense!" you scoff, making a coarse gesture.

But I insist. The man who has everything doesn't have Persona because everyone in the dorm is always borrowing them. And small wonder! Wouldn't you be there with them? The tender sentiment: a rock, a bottle of water, a bit of ribbon, and attached a card with this tender sentiment: "Here now is a lovely gift for an American History major." (Mr. Fillmore, incidentally, was the only American president with a clock in his stomach.)

Here now, a lovely gift for an American History major—a brass statuette of Millard Fillmore with a clock in the stomach. (Mr. Fillmore, incidentally, was the only American president with a clock in his stomach. James K. Polk had a wind-up clock in his pocket. In fact, one Christian Taylor had 17 jewels and Martin V. Burdi, fiddled but I repeat, Mr. Fillmore and Mr. Fillmore alone had a clock in his stomach. Moreover, Mr. Fillmore was the first president to sign an executive order; he never signed anything. No wonder they called him "Old Hickory"!)

Returning to Christmas gifts, here's one that's sure to please—a gift certificate from the American Society of Chiropractors. Accompanying each certificate is this fetching little poem:

Merry Christmas, Happy New Year, Joyous season-dale, My spines forever shine, Blessings on your aching back, May your lumbar we're grow number, May your backbone never dislodge, May your caudal never daudle, Joseph Noel! Heureux voyage! And greetings of the season from the makers of Persona Super Stainless Steel Blades, and from Persona's partner in shaving luxury, Burme-Shave, regular or mental.

Sheraton Hotels & Motor Inns

The philosophical framework by Fr. Lorrigan, S.J., in his monumental Insight: Can on Moeller elsewhere indicates his interest in Fr. Karl Rahner. S.J. The two juxtaposed, not that far apart for both have acknowledged their dependence on their fellow Jesuit, Fr. Jean Marchepel of Louvain. Fr. Edward Schillebeeckx, Jr., likewise acknowledges the impact of Marclhseth, although this creativity theoretical framework is actually a la Louvain author, D. De Peutter. My point, in this, is that few students here on campus—else—even Columbia Univer­ sity students—could be aware of the significant divergences of Marclhseth, Rah­ ner, Lorrigan or Schillebeeckx from the theological, metal physical analysis, ideogenesis or methodology of St. Thomas Aquinas.

In brief, these thinkers find Aquinas valid and relevant. Of course, they supplement him by other traditions and we shall touch this point next, but let me continue on my present point. Thus, if P.C. students, unlike these men, find Aquinas irrelevant in their attempt at the intellectual, then some—perhaps most—P.C. students may be so stricken with intellectual futility for such a serious attempt. For many of us, much of most of her sons and she may have to search out easier methods.

On the other hand, for some P.C. students are surely capable of succeeding in their attempt at intellectual futility. Curriculumists may well wish to center on teaching methods or classical instruction of classes. These problems are more easily solved when they are faced than that presented by the majority of students, already much of most of her sons and she may have to search out easier methods.

For one, the ecstatic conclusion and a valid one. For Canon Charles Mod­ lorfer, recently assistant to Cardinal Otta­ riani, in teaching, "theology is adequate for con­ temporary man, in perusing the ancient texts and cities, must be grounded in the faith of a century of archeological research. But I insist. The man who has everything doesn't have

James Farmer...

(Continued from Page 1) calls itself "Freedom for the American" negro outlook in this country. He also stated that one of the worst ghettos in the north, an area with the highest per cent of South Providence. To combat against such areas, he feels, federal aid is needed in rebuilding the facilities of cities, along with the financial aid grants for the next five to ten years would relieve a good deal of the poverty in such areas."

In conclusion, Mr. Farmer recommends more liberal capital in this area, and the innocent hypocrisy of a black president but guilty." His speech was met with a resounding applause by the Very Reverend William P. Haas, and an appreciative audi­ ence.

From Teacher to Millionaire

Louis A. Pieri, raconteur, entrepreneur, connoisseur, has owned outright or in part the Boston Celtics, Holiday on Ice, the R. I. Reds, the R. I. Auditorium, a successful stable of race horses, and 25,000 acres of blueberries.

Lou Pieri has lost thousands of dollars, but has made himself a millionaire. In 1946, Walter A. Brown, owner of the Boston Bruins hockey club, asked Pieri to join him in a venture to start a professional basketball team to be called the Boston Celtics. Pieri, although apprehensive about pro basketball after losing $200,000 with his own Providence Steamroller quintet, went along with Brown, each investing $100,000. After two years, the combine lost a grand total of one half million dollars.

One day, out of the clear blue sky, a Brown trustee and member of the Auditorium Board of Governors, Paul De Wolfe, offered Pieri the job as manager of the Auditorium. At that time, Pieri organized the Auditorium, a successful stable of male skaters. At the time, the cast consisted of 98 girls and six boys. Since the late 30s, Pieri had suggested the idea of a professional basketball league. After 10 years trying to convince anyone, Pieri abandoned the idea.

Continued next week; Pieri gets Cousy in a hat and the dynasty starts.

Medical Film Shown at P.C.

The students of Providence College turned out in large numbers last Monday night to see a new film and the success of the film's purpose was to shock the students into avoiding venereal disease, it only succeeded in disgusting them by its somewhat gruesome pictures.

Many facts of valuable interest to the average P. C. student were discussed in the film. For example, those who attended knew that 2,400,000 units of penicillin are necessary to cure early, primary syphilis. A careful listener may remember the four kinds of non-syphilitic venereal diseases.

The film was a good clinical study of the problem of venereal disease, but it was rather irrelevant to anyone but a biologically minded. The purpose of the film, according to Father Wade, who gave the introduction, was for information and education. "The moral aspects of the disease are not to be discussed here," he stated. He was correct in his analysis, the film was a completely clinical discussion of the effects and the cure of venereal disease.

The film will be shown again after the next conference at 2:30 p.m. in Harrisk Hall.

Statement of Policy:

Let it at this time be known that the executive board of the John J. Dillon Club of Providence College states its position on the much discussed, current subject of student drinking and conduct.

I. Drinking

Whereas there are sometimes facilities to obtain alcoholic beverages at all the club's activities, the executive board states that it will not be held responsible for the sale of alcoholic beverages to any student at an activity. Full responsibility for any unlawful selling, buying, and consuming of alcoholic beverages will be that of the student involved and the management of the establishment.

II. Conduct

Whereas the Dillon Club holds social activities for the enjoyment and relaxation of its members, the club retains the right to revoke admittance or to expel cooperatively or forcibly, any person or persons whose conduct will jeopardize the activity and subsequently injure the club. Anyone suspended from an activity will have the opportunity to discuss the situation with the executive board.

This statement of policy is not made to lessen the enjoyment of the club's activities, but to inform all participants of the responsibilities.
Holiday Dance Plans

Dillon Club President Kenneth Shea has announced that the Club will hold a Christmas Dance Saturday evening, December 10 at the Dillon Council Hall of Columbus in North Providence.

The dance is open to a limited number of Dillon Club members at $4 per ticket. Included in the price of the ticket is a buffet dinner.

The dance, the highlight of Dillon Club social activities for the semester, will feature the appearance of Santa Claus. Mr. Claus will present each male guest with a special surprise gift.

Music will be by "The Unpredictables." This group has recently completed a tour of the country which was highlighted by an appearance in Union City, New Jersey.

Tickets are available in Alumni Hall cafeteria from 9:30 to 1:30 from Joe Pilla, dance chairman, or any member of the Dillon Club Executive Board.

President Shea requests that those students who volunteered to participate in the Dillon Club Tutorial Program but have not yet met their commitments please report to the Student Affairs Office. More volunteers are still needed and may sign up in the same office.

The recently held "demolition derby," which was sponsored by the Dillon Club netted a sizeable sum. The money will be turned over to the Providence Journal Christmas fund for needy children. The automobile used in the undertaking was donated by the father of Martin Madden, a member of the Dillon Club. Mr. Madden is an automobile dealer.

February 11, March 18, and April 13 have been set as dates upon which the Dillon Club will hold its functions during the second semester. As yet it has not been decided specifically what the vents on these dates will be. The Dillon Club's annual mixer on campus, which will be open to all students, will be held on May 19.

COMING TO NEW YORK?

MAKE WILLIAM SLOANE HOUSE YMCA YOUR HEADQUARTERS IN N.Y.C.

THE WORLD OF THE MIND

Would you like to learn things about your psyche that your psyche didn't know? How about entering the world of the mystique and the unexpected? LSD, The Kinsey Report, Neurosis, Psychosis, Frigidity, Sex. All will be dealt with in the coming discussions and lectures which your new Psych Club will undertake. Interested? If you're not, you may find that one of the topics under examination is you. So come to the first gig, seance, whatever you want to call it Thursday night, December 8, at 7:00 in the Guild Room or we'll levitate you out of existence!

It's trade-in time for tired old myths.

Like the one about business. Especially big business. That it is beyond the rugged individualist's wildest daydream to enter this holy of holies because he'll lose something that's very sacred — like his independence.

Sure, it can happen. If a guy or gal wants to hide, or just get by, or not accept responsibility, or challenges.

We're not omniscient enough or stupid enough to speak for all business, but at a company like Western Electric, bright ideas are not only welcome, they are encouraged. And no door is shut. Create a little stir, go ahead, upset an old applecart (we replace shibboleths at a terrific pace — we have to as manufacturing and supply unit of the Bell System — in order to provide your Bell telephone company with equipment it needs to serve you.)

There's an excitement in business. True, we're in it to make a profit, but working to find new and better ways to make things that help people communicate is very rewarding and satisfying. Did you ever hear those wry words of Oliver Wendell Holmes? "Never trust a generality — not even this one."

That's how we feel about the generality that claims you'll just become a little cog in a company like Western Electric. You might, of course, but if you consider yourself an individual now, odds are 10 to 1 that you'll keep your individuality. And cherish it. And watch it grow. Even at big, big Western Electric.

You know, that's the only way we'd want you to feel. If you feel like coming in with us.
Junior Class Presents Ring Portrait

An oil painting depicting symbolic elements of the junior class ring has been presented to the Very Rev. William Paul Haas, president of the college.

Peter Gallogly, class president, and James Vigneau, co-chairman of the ring committee, made the presentation recently in a closed ceremony in Father Haas' office.

Painted by John Luini of the art department of the Dieges & Clust Company, manufacturers of the class ring, the painting features the young sculptured Friar's head, the modern torch with flame shaped like the number 50 (representing the class as the fiftieth to be graduated from P.C.) and the number 1968 above the torch.

The picture was presented to Father Haas, an art enthusiast and painter of many works, "in appreciation," Mr. Vigneau said.

Mr. Luini will donate his payment for the work to a charitable agency.

Mr. Purich...

(Continued from Page 1) of Admissions Officers and Registrars. This was the first time that a religious had held this post. At Providence, he formerly served on the Committee of Studies, and is presently on the Arts Honors Committee and is the moderator of Theta Chapter of Delta Epsilon Sigma.

Although he is no longer Director of Admissions, Father Gardner will remain on the Committee of Admission to show that he has a continuing interest in college activity.

Frosh Basketball...

(Continued from Page 10) Walt Violand and Gary McKenna combined for a number of steals that forced Assumption to gamble on their shots.

Gerry McNair paced the Friar attack with 18 points. He was closely followed by Craig Callen, who had 17 points for the evening. Coach Bill O'Connor emptied the bench late in the game. The victory not only marked a first for the Friar freshmen but also the initial win for the newly appointed mentor.

WANTED: STUDENT REP FOR NEW MAJOR SKI AREA

Must be a skier. Will act as ski area representative, handling promotional activities at school and in town, in return for free season's lift pass. Contact Ed Siegel, Waterville Co., Inc., Waterville Valley, New Hampshire 03223. Tel. (603) 726-8911.

Here's the heartbreaker... '67 Dodge Coronet 500. A campus favorite with its great new looks, ride, and list of extras that are standard. Like bucket seats with either a companion seat in the middle or a center console. Plush carpeting. Padded instrument panel. Padded sun visors. Seat belts, front and rear. A choice of Six or V8 models. And lots more. So get with '67 Dodge Coronet and get busy.
Peace Corps on Campus

Next week Providence College will be a recruiting station of the Peace Corps. Three components from New York will be on campus conducting interviews with interested students and participating in the panel discussions and explanations of the modern foreign service. The recruiting session will last from Monday morning to Wednesday afternoon (Dec. 12-14) with programs planned continuously through the three days.

From 9 a.m. to 5 p.m. on Monday and Tuesday and from 9 to 12 a.m. on Wednesday, an information booth will be open in Alumni Hall where the volunteer recruiters will individually confer with students. At the booth students will be able to register for the Peace Corps test which will be given Wednesday afternoon after the convocation.

On Monday night there will be a convocation in Aquinas Hall at 8:00. Fr. Haas will preside at a panel discussion, and the recruiters will recount their experiences in the service (all have been overseas) with the visual aids of movies and slides. On Tuesday at 8 p.m., there will be another rally in Aquinas, where more information can be obtained and questions can be answered. Finally, on Wednesday the drive will conclude with a convocation in Hartins Hall at 2 p.m. After this final session the test will be administered.

The recruiters will be volunteers who have just arrived back from assignments abroad. Patricia Ebert, a social studies major from San Diego, taught health classes in Brazil for two years while James Cawley, a football player from Connecticut, instructed elementary athletic classes in Venezuela. Signe Wood, another West Coast girl who was educated at the University of Denver, worked on the other side of the globe as a librarian in Iran. Now the three are combining their experiences in one of the Corps unceasing drives for college volunteers.

Providence College ranks third among Rhode Island's colleges and universities in the number of assignments that have been or are overseas. Graduates have served in all three continents served by the Peace Corps since almost the Corps' inception about five years ago. The Class of 1966 has two volunteers, Christopher Dodd and Salvatore Federici, both of whom are in training now.

Mr. Richard Deasy is the Peace Corps representative on campus and the organizer of all of the events for this recruiting session. He said that PC is privileged to have the recruiters come so early in the year but he feared that it might be the last time this year if the response is poor.

Yuletide Party

The annual Carolan Club Christmas party will be held December 12 in Stephen Hall lounge. The holiday festivities will begin at 9:00 p.m. The affair will feature amateur entertainment and skits presented by Carolan Club members.

In charge of the yuletide program are Bill Bennett, Mike Sheehan, Dick Stoltz, the three Senior class C.C. representatives during the party two awards of $5 each will be presented to the winners of the Christmas Decoration contest.

In the yuletide party there will be free refreshments for all. Admission to the party is free with the Carolan Club identification card.

We asked Westinghouse to send us study aids for serious students.

So what did they send us?

Portable phonographs! Pint sized tape recorders! Clock radios that wake you up to frug music! Study aids?

1. This is a 10 pound battery operated or plug-in portable phonograph. It's the new Westinghouse Solid State, 4-speed automatic. Plays anything, anywhere: language records at jam sessions. Or the Frug at cram sessions. Some study aid! Model 1354C—$59.95.

2. For the student who has nothing: a high intensity lamp, a clock and a radio all in one. The alarm gizmo works with a buzzer or the radio. The lamp is dandy for needlepoint. And the clock keeps time. Its name is Lumina. Model 974XL—$49.95.

3. You too can be a secret agent with this battery powered, highly portable tape recorder. It has an uncanny stow-away mike that makes it indispensable for those eight o'clocks when note taking is a must. Westinghouse Model 1205L—$99.95.

4. The Westinghouse Space Maker Clock Radio was designed for the average encyclopaedia college room. It's only 7 inches wide, fits on a cluttered night table and gets you up to music, or a heartbreaking buzzer. Model 21SL5—$23.95.

5. This is a tiny travel alarm clock-radio that folds up flat and fits into an over stuffed suitcase. And just so you don't miss it, it has a metal plate for your initials or name. It's the ideal study aid to take home for the holidays. Model 968PL—$29.95.
Fried's Fearless Forecasts

(EDITOR'S NOTE: Having just completed an astounding season, Fearless Fried has compiled a 97.8% accuracy, and Fried has gone into semi-retirement as that does not forecast this will be the end of our intrepid commentator. To avoid appearances and clearance on the basketball scene, as in the past.)

In March of 1963 little Loyola of Chicago started the basketball world by upsetting CINCINNATI Bearcats in the semi final game of the Western Tournament. The Bearcats were on a roll that included a 40-game winning streak and were the Texas Western club, which failed to make the eastern half of the pre season polls. Texas Western's opponent in the final was the Kentucky Wildcats. Kentucky, which was supposed to be in a rebuilding year, had made a 38 to 6. In spite of this, O'Rourke "Rockets" by a 6-5 win. The Miners to hold on to their national crown in four years. The football equipment and uniforms were excellent radio listeners heard the game but could not hit the bullseye, but look for the Miners to hold on to their title for next season.

Duke is the pre-season favorite to represent the East in the NCAA, but Davidson's Wildcats are ready to claw their way to the top of the Southeast. Duke, which has enjoyed an excellent half-time entertainment. Duke was built like treets with a core of five. Every new season brings with it a cinderella team. This year the team is an independent—DAYTON. This past Saturday afternoon, the Flyers upsetting a highly probable) they will have to avoid that one big upset. However, the Flyers upsetting the University of Virginia, Tech. They are a team that has made a name for themselves. In fact, it was this fine performance that got them the NCAA's champion. Only a fool would bet against Duke's star-studded Bruns. But wise men rarely bet on the big shots.

FEARLESS FRIED'S PRE-SEASON ALL-AMERICANS

First Team

Cliff Anderson—St. Joseph's
Louis Dampier—Kentucky
Wesley Unseld—Louisville
Elvin Hayes—Houston
Lew Alcindor—UCLA

Second Team

Wesley Unseld—Louisville
Cliff Anderson—St. Joseph's
Bob Vogra—UCLA
JoJo White—Kansas
Dick Anderson—St. Joseph's

Honorable Mention:
Hubie Marshall, LaSalle
Sonny Duret, St. John's
Steve Adleman, BC
Bill Hewitt, USC
Luscin Allen and Mike Warren, UCLA
Rod Knowles 6'9"-Kentucky

Lamaroo Chart's Projections

Coach Lou Lamoriello's freshmen six turned in an impressive opening game performance last Friday night as they beat as a 97.8% accuracy, and Fried has gone into semi-retirement as that does not forecast this will be the end of our intrepid commentator. Friars Walk 'Hounds; Meet Bruins Tonight

The Providence College Friars opened the 1966-67 basketball season successfully as they downed the Greyhounds from Assumption College at Alumni Hall last Saturday, 73-59.

PC's All-American Jim Walker combined his uncanny passing ability and some timely shooting with the strong rebounding of Mike Riordan and Tony Koski as the Friars took command early in the second half by parlaying Greyhound mistakes and missed shots into an insurmountable nine point bulge.

In the first half the Friars were somewhat disorganized as the Assumption players worked their way through PC's defenses and managed a seven point lead before Coach Joe Mullane could regroup his charges. With the "Walk" taking charge, the Friars came to life and began whittling away at the Assumption lead. Finally, with 7:57 left in the first half, Walker hit a driving, twisting lay-up to put the Friars into the lead for good. At half time the Friars led by a 35-28 margin.

Behind, but not finished by any means, Assumption closed the gap to a single point at the start of the second half. It was at this moment that the Friars went on their eight point tear to put the game beyond reach for the Greyhounds. Steadily pulling away behind the scoring of Stu Kerner, PC's lead reached a high of 19 points before Mullane cleared his bench, giving his first line reserves a chance to gain valuable experience.

Overall, once the Friars got themselves straightened out, the Greyhounds proved to be no match for them. Tony Koski, the big center which PC has been waiting for proved to be everything expected of him. Aggressive and very strong, Koski led all the rebounders with 21 and joined skills with Riordan as they completely dominated the offensive as well as the defensive boards.

For the Friars, Jim Walker led with 19 points on seven field goals and five of six from the free throw stripe. Koski was next with 15 and Kerner added 12, most of them coming in the later stages of the second half as PC was pulling away.

In the rebounding department, the Friars gathered in 35 against Assumption's 23. Not since the 1964-65 season have the boards been dominated by PC in a fashion similar to that demonstrated against the Greyhounds in the season opener. With the already proven ability of Riordan and the long awaited height and aggressiveness of Koski, the Friars look very strong up front and should hold their own against the taller teams on the 1966-67 schedule.

Tonight the charges of Coach Mullane take on the Bruins from Brown University. This year the charges of Coach Stan Ward were not expected to set the world afire, but the Bruins have won both of their starts and will be looking for the chance to play the spoiler's role in the two teams meet tonight.

Al Fishman, Brown's highly respected guard, has been last season's second leading scorer, Dave Gale, is expected to take advantage of any breaks given the Bruins opposition. In all, the Bruins are not to be lightly regarded and could prove to be a stubborn opponent if they get a chance to play their game.

Albertus Cops 2nd Intramural Crown

The wide-open scramble for the Intramural Basketball Championship league has been concluded (7-0-2), emerging from the tightly-knit pack as the winner. Albertus can also boast of having one of the league's greatest players in the form of a cham­ pion, Don Looney who was the main bul­
