THE FRIARS' CELL

Now in its fourth year, the Friars' Cell is a student-produced and operated laboratory theatre program sponsored by the Theatre Department. It seeks to provide students with the opportunity to be fully responsible for all artistic choices made in the production of the play. In addition, the Friars' Cell creates a venue for students to experience the administrative and management responsibilities involved in preparing a stage play for public performance. The Friars' Cell is operated by Theatre majors and minors, but all students are invited to participate in its projects.

The Providence College Theatre Dept. announces

OPEN AUDITIONS
