Curte Justice Abe Fortas Will Speak on Campus

Abe Fortas, Justice of the Supreme Court, will be the guest speaker in this year's Student Congress Forum. He will be speaking at the College on October 29.

When President Lyndon B. Johnson announced the appointment of the soft-spoken, introspective lawyer to the Supreme Court bench to succeed Arthur J. Goldberg who resigned to become U. S. Ambassador to the United Nations, the President described Fortas as "One of this nation's most able and most respected, and most outstanding citizens—a scholar, a profound thinker, a lawyer of ability and a man of humane and deeply compassionate feelings...a fellow soldier in the battle for our liberties."

Johnson said Fortas had consistently turned down a place in the administration on the grounds of the close friendship between the two men. One position was that of Attorney General after Robert F. Kennedy resigned.

But Johnson said in the matter of the Supreme Court, "the job has sought the man." In joining the court Fortas continued the undeclared custom of the late Benjamin N. Cardozo and the late Felix Frankfurter and the late Benjamin N. Cardozo.

The Supreme Court was not unfamiliar ground to Fortas. A friend of Johnson's since the President was a U. S. Representative, Fortas was a member of the New Deal administration, Fortas went to the Supreme Court in behalf of the future president in 1946.

Johnson had won a Texas primary for the U. S. Senate by only 87 votes. A Federal judge ordered his name from the general ballot until the re-election could be investigated.

Fortas' background suggested that he would be a member of the liberal wing of the court. A review of his "freshman" year proved this.

He voted most like Chief Justice Earl Warren and Justice William J. Brennan, Jr. With them and Justices William O. Douglas and Black, who set a more independent course, he gave the court a decidedly liberal look.

He was on the winning and liberal side as the court upheld the 1965 federal voting rights law, killed off payment of a poll tax as a condition to voting in state and local elections and held unconstitutional a requirement that members of the Communist party register with the Federal government.

On at least four occasions Fortas' vote was decisive in the general ballot until the re-election could be investigated.

The results of last spring's Student-Faculty Evaluation have been announced by Dr. Paul van K. Thomson, Vice-President for Academic Affairs.

 Replies to the survey fall into five categories: Superior, includes those members of the faculty about whom the students gave 46% or more of their evaluations in the A answer category; Good, includes those with 30% or more of their evaluations in the B and A answer categories; Satisfactory, includes those with 50% or more in the A and B answer categories; Fair, includes those with 30% or more in the C and D answer categories; Un satisfactory, includes those with 30% or more of their answers in the D and E categories.

Based on the five categories, the faculty was rated as follows:

Superior, .01%; Good, 48%; Satisfactory, 19%; Fair, 19%; Unsatisfactory, 13%.

Mr. Arthur J. Newton, Director of Student Affairs, stated that the evaluation forms were handed out in the classrooms.

Dr. Thomson stated that each faculty member will receive a copy of the evaluation of his teaching. In the future, the evaluation forms will be kept on file.

The Office of the President has announced that Rev. Francis D. Nealy, O.P., has been appointed as moderator of the Class of '71.

Fr. Nealy, who is an Assistant Professor in the Education Department, returned to Providence College in 1966. He had formerly been a member of the faculty here during the 1946-47 academic year.

Fr. Nealy was born in Canada and received his B.A. degree from University of St. Mary in 1932. He then went on to Aquinas Institute where he received his M.A. in Philosophy in 1942. Fr. Nealy also holds an M.A. in Education from the University of Notre Dame and a Ph.D. in Education which was earned at Aquinas Institute, Rivier College.

Center for Promotion of Arts Being Developed on Campus

The Fine Arts Center, which is part of the Audio-Visual Center, is this year offering such electives as American Art history, drawing, design and sculpture.

Previously, only an elective course in art appreciation was offered, but these other courses were added this year. There are five teachers in the Art Center, including Father Edward H. Gray, O.P., who has been a pioneer in the effort to develop the Arts Center.

The other faculty members are Mr. Guido Leopizzi, who teaches Art Appreciation; James Baker, of Newport's Vermont College Junior College, who teaches English; Mr. Avivi, who teaches drawing and Mr. Richard A. McAlister, O.P., who teaches American Art history, drawing, and sculpture.

Mr. McAlister, who received his Bachelor of Fine Arts Degree from Wayne State University in Detroit, stated that creative expression is part of the well educated man. Such courses, therefore, have a place on the P.C. campus.

"We are aware that many students not only are capable of artistic expression, but also desire to develop their knowledge and ability to do so. With this in mind, we hope to continue to add elective art program so that a student seriously interested in art may in his four years be introduced to the basic art fundamentals. With such knowledge, he will be equipped to further his art studies after graduation."

At present, the facilities are limited by the lack of money and space. But as new buildings go up and the number of students who want these courses is better estimated, more space and facilities will be available.

On Saturday, from noon to 4:00 P.M., there will be a picnic at Watkinson's Day Camp in Gloucester, R. I. There will be a band and refreshments. "The Young Rascals" will perform in concert from 8 to 10 P.M. in Alumni Hall. Tickets for the concert are included in the bid.

Tentative plans have been set to hold open house in the dormitories on Sunday afternoon. Bids cost $16 and will be on sale until October 20 in the Alumni and Raymond Hall cafeterias.

In order to receive class rings at the Ring Dance, they must be paid for by October 19.

The Ring Dance will be held Friday night from 8:00 P.M. to 1:00 A.M. at the Venus de Milo restaurant in Swansea, Mass. Music will be by Dick Campos' Orchestra, a group which has recorded on Columbia records. The dance will be formal and formal. Ladies in attendance will receive favors.

The Ring Weekend Set for End of October

Plans for the Junior Ring Weekend, October 27 and 28, have been completed.

The Dance will be held Friday night from 8:00 P.M. to 1:00 A.M. at the Venus de Milo restaurant in Swansea, Mass. Music will be by Dick Campos' Orchestra, a group which has recorded on Columbia records. The dance will be formal and formal. Ladies in attendance will receive favors.

Co-Education

We commend the Student Government of the College of the Holy Cross for its initiative and persistence in establishing the Co-education Day scheduled for tomorrow on its Worcester campus.

In the interest of studying the possibilities of the Jesuit college becoming co-educational, the Student Government decided—indispensably of the Administration’s favor—to sponsor the attendance of female college students at its classes for one day.

It was reliably reported to the Cowl that the Student Government would have attempted to conduct the event even if it did not have the Administration’s approval. (Indeed, the consent of the College administration was even formally sought.) Viewing the event as a peaceful, orderly, unofficial and beneficial experiment, we respect the attitude of the student leaders Holy Cross.

Crusaders, we wish you success.

The Enlightenment

We read of “generation gaps” and “credibility gaps.” Here at Providence College we have a gap of our own; a cultural gap. Nevertheless and notwithstanding, the embarrassing situation is that a definite program or series of activities to regularly explore classical literature and to close the gap is non-existent. Consequently the cultural aspect of the “college experience,” which is considered a vital area of intellectual development at other colleges and universities, is being overlooked at PC.

Periodically various campus organizations such as the Arts and Letters Society take the initiative and sponsor events such as lectures and dramatic readings. The Class of 1969 last year made a very commendable effort to establish a Fine Arts Week on campus. Such singular efforts, however, are not sufficient in number and content to capture the interest of a large segment of the students and faculty. The groups which are concerned enough to sponsor such activities usually have limited budgets with which to work. They cannot sustain the regular losses which must be expected in presenting cultural programs since they are usually not profitable ventures.

Presently the Student Congress is considering the establishment of a Fine Arts Committee, an idea which has been tried in past years with little success because of lack of capital. The most practical course of action in pursuit in order to secure a Fine Arts Series on campus is for the major organizations interested to pool resources. A central committee should be formed with representatives from the administration, faculty, Student Congress, Carolan Club, Dillon Club, and from clubs related to the arts. This committee should be allocated a large budget, the expense of which could be shared by the administration, Student Congress, Carolan Club, and Dillon Club. This unified financial effort would assure enough working capital to establish a good pilot program for a Fine Arts Series varied enough to capture the attention of the college community.

The problem of student support could possibly be solved by directing a major portion of the program towards student participation projects. Student and faculty exhibits of art, sculpture, photography, and other areas of interest could be staged with substantial cash rewards for the best contributions. Intercollegiate programs with local colleges could also be established. The mechanics of such a program are actually secondary considerations and open to many suggestions and ideas. The main concern is the initial formation of a definite program in time for its enactment this year.

Friar Football

Only the totally numb could have ignored the recent revival of football as an intercollegiate activity at Providence College. Just about anyone who has even a mild interest in the affairs of the College would have nearly all contributed to the formation of the team. Obviously our contributions of time and money were well invested.

We have, with the aid of our coaches, formed a team which displays such determination as to engender enthusiasm that it would put an entire regiment of Marines to shame. Our coaches agree that they have never before witnessed such “esprit de corps” on the gridiron. The players themselves admit that they have never played for a football unit that was held together with such cohesion. But the great magnetism of this team is most obvious to the fans.

We are sure that those of us who were in the stands Friday night can attest to that.

Let’s all join in the spirit of OUR creation. Let’s show the team how we feel by attending the game Friday night and giving them support they deserve!
Fr. Halton Discusses Twenty Years' Service

"Freshmen frequently try to carry over their own internal study habits that provided success in high school." This, according to the Rev. Edward B. Halton, Dean of Freshmen for the past twenty years, is the most recurring problem of freshmen.

Students often study only on the night before exams, Father Halton said. He cited lack of motivation and maturity as other problems.

"The biggest single asset a freshman can have is not flashy college board marks or a high school record but a determination and willingness to get the most out of the college education he has," Father Halton added.

Besides his duties as Dean of Freshmen, he is a professor of physics and electronics and Chairman of the Committee on Scholarships. From the beginning of his career as dean, college nights were common at high schools in the area. Father Halton addressed groups of college prospects to speak about the advantages of college education. Responsibility for these events has been taken over by others, however. Father Halton still attends several every month.

"As in any job with people, there is as much variation as there is in the people that one meets crossing the campus. The enthusiasm and innate honesty of young people makes the job more rewarding. It makes me want to go another twenty years."
Lives Lost

To the Editor: 

While the war is over the loss of American lives is admirable. Our hopes that your conclusion is due to the loss of Vietnamese lives.

Anthony Vanderhaar, O.F. Cos.  

Space Hunter

To the Editor: 

I am a third-year student attending Providence College, and I have the distinct “pleasure” of living only a few miles from the illustrious campus, the drive in is shore and often enjoyable. It is not uncommon to find students’ parking lots that my are become crowded.

In this time, I enter the mysterious maze of jungle paths, in search of the editing quarry, a formidable parking space. As I move closer to was not to find a large number of “half spaces” (Perhaps I should quickly clarify that I said “spaces” because a where a car obstructs or takes upon it is not that) a situation comes about through the carelessness of my fellow marksmen. Their aim was left off. Offentimes this means that I find myself parking in the other half space.

Considering that each car is worth a 50 dollar regulation, I would say that anyone carelessly parking is rectangles an outback.” The Pinklott’s are always on the prowl for unstick-

ed cars. No exceptions. Maybe if they spend a little time tpling the car to the “right” direction, they, the aim on campus would improve. What do you think Mr. Carlingson?

Sincerely,

Terry Cregg (Class of ’70)

Anti-NSA

To the Editor:

During the three years since I have been attending Providence College, I have been tempted to write letters to The Cowl on numerous occasions. I would write in response to criticism of events at the College, but more often in praise. For some reason those letters were never written. However, the front page of The Cowl of September 27 has pro

vided me sufficiently.

I refer to the re-entry of PC into NSA. I could not, as Edi

tor of The Cowl four years ago, nor can I now, as an alumnus, nor can I now, as an alumnus, as Edi

tor of The Cowl four years ago, nor can I now, as an alumnus, as Editor of The Cowl four years ago, nor can I now, as an alumnus, nor can I now, as an alumnus, for that NSA was acting more as a lobbying agency for a select group of students, than as a student body organization at which the representatives of the students at the College or the Student Government, is a last point.

The Crusader explained.

“The Cowl’s error in restating the facts of the day is that of Miss Rose

Bail, a teacher assistant in the English Department.

Miss Vaile, a 1965 graduate of Catherine Spaulding College in Louisville, Kentucky, is current

ly in her second year of post graduate studies at P.C. During the 1966-67 school year she worked part-time in the English office, and this year has assumed the added responsibility of teaching two sections of English literature.

Born in Chicago and raised in Milwaukee, Miss Vaile admits that the New England atmos

phere is new to her now. Nor did the SC supporters "feel" that NSA was acting more as a lobby

ing agency for a select group of students, than as a student body organization at which the representatives of the students at the College or the Student Government, is a last point.

Teacher Gains From Evaluation — Thomson

"The most important value of the Student Faculty Evaluation is for the individual instructor," Dr. Paul van K. Thomson, Vice-President for Academic Affairs, said recently.

"The principal value of the survey," Dr. Thomson said, "is for the individual teacher. He can see the categories and the requirements for them, also the effect of the evaluation may not be felt for several years.

"If we use the same questions for several years and the same replies keep occurring, then we will know that the evaluation has had little effect. But if there is an improvement in the replies, then we can see the value of it.

"If we had a preponderance of replies in one end of the scale, then we might want to know about it. But when the judgments fell as they did, it indicated that reasonable and sincere judgments were made by the students."

Noting that only 48% of the student body took part in the survey, Dr. Thomson said he did not think a sufficient number of students was participated to give a reliable poll. He suggested that more time and more student participation be given to future surveys.

Dr. Thomson said he would be surprised if there were not any questionnaire alterations. "We are not satisfied with the present questionnaire, and we always look for a more effective survey which is better geared to the IBM process," he said.

"There is a problem that has been occurring, then we will have a more effective evaluation. Even if we are able to understand the future in the use of the survey for our purpose, it will only be one of the criteria by which a teacher would be judged."
Fr. Schepers Explains Ecumenical Activities

On Friday, October 6th, a meeting was held in Aquinas Hall to discuss the opportunities in Higher Education Today. Speaking on behalf of the Department of Religious Studies of P.C. and the Ecumenical Commission of the University of Providence, the guest speaker was the Reverend Fr. Schepers, O.P., S.T.D. Father Schepers, as well as being Professor on Ecumenism at the Old Stone College of G latinum, the famous Dominican institute in Rome, is also a Consultant for the Secretariat for Christian Unity. Fr. Schepers explained that the Directory, as an organ of the Secretariat for Christian Unity, is responsible for setting out the norms for ecumenical activity in the Church. The first part of the Directory, concerning the norms for Catholic participation in common worship, was just recently published.

The topic for Fr. Schepers’ discussion was primarily on the second part of the Directory, concerning the norms for ecumenical activities in higher education, both on the college campus, secular as well as church-sponsored, and seminaries. This section, Fr. Schepers explained, will probably not be published until the next year, since it still remains to be approved at the annual session of the Secretariat in April, 1968. At this time, 40 member countries, including the Americans taking the lead in the United States, will be considering the norm.

Fr. Schepers noted that what the consultants on the Directory first met to discuss the topic of ecumenism in Higher Education in February, 1967, there were many diverse views offered, with the Americans taking the lead in the liberal camp. The liberalism favored the idea of ecumenism broadening its scope even before the passage of the American Division of Secular Humanists. The conservatives have been divided in the norm. In this way, ecumenism has been linked to the entire Christian Churches.

The consultants, in their recommendations to the Secretariat, “recognized today’s students’ desire for new ideas on ecumenism, but are inhibited by a lack of the proper tools in which to carry on these ideas.” The Directory staff has provided a recommended syllabus for this course on ecumenism, which consists primarily of doctrinal foundations, practical exercises, exposition of the dogmatics of various sects (which would include inviting non-churchmen to speak of their religion), and the problems involved in reconciling these doctrines.

Because of the specialized character of this recommended curricula, the consultants have likewise proposed the formation of professional ecumenists, with special training in this field, in order to prepare both faculty and students.

At the end of the meeting, a group of Princeton graduate students was held with ministers of various churches participating.

The peace movement which began last semester has been concretized under the title “Providence College Students for Peace.” The organization, which is seeking Student Congress approval, states its purpose as follows:

The Providence College Students for Peace is an organization of and for the entire college community which seeks an end to United States involvement in Vietnam.

“We feel that the presence of the United States in Southeast Asia is the single greatest threat to peace in the world today.”

PC Students For Peace Organizes

The two others came on the closing day of the 1965-66 court session. In one Fortas lined up with Warren He had been to the bar with a “no bounds in trials all inculminating statements made by a suspect when constitutional rights against possible self-incrimination were not safeguarded by police.

As a “freshman” justice Fortas spoke for the court in only 10 of 104 decisions it has announced. And he objected to the majority view only 10 times. That record is particularly noteworthy.

When the entire held 5 to 4 that parties to labor disputes may be sued for damages under state law for maliciously libelous statements, Fortas contended that the decision “opens a major breach in the wall which has heretofore confined labor disputes to the area and weapons defined by the Federal Labor Law.”

The two others came on the closing day of the 1965-66 court session. In one Fortas lined up with Warren He had been to the bar with a “no bounds in trials all inculminating statements made by a suspect when constitutional rights against possible self-incrimination were not safeguarded by police.

As a “freshman” justice Fortas spoke for the court in only 10 of 104 decisions it has announced. And he objected to the majority view only 10 times. That record is particularly noteworthy.

When the entire held 5 to 4 that parties to labor disputes may be sued for damages under state law for maliciously libelous statements, Fortas contended that the decision “opens a major breach in the wall which has heretofore confined labor disputes to the area and weapons defined by the Federal Labor Law.”

In two meets during the past week, the Friars crushed the Huskies in their first road thrust this year. The Providence Cross-Country team unleashed its awesome running power that has been amassing throughout the past few weeks. On Wednesday the Friars cruised the Huskies of Northeastern, 21-39, and on Sunday ran away with the Msgr. Grange. Bob Crooke ran by taking eight out of the first 10 places.

All future home games will be on the air at 7:55 p.m. each Friday night and will continue to feature the efforts of Paul DiGangi and Vin Papi as they seek to bring the action live to their listening audience.

Thinclds Take Two; Face B.U. Tomorrow

By PETER MEADE

"...the greatest thing to happen to Providence College since the Notre Dame game." These words were uttered by the Very Reverend William Paul Haas, O.P., president of the College, as he watched the Club Football team crush New Haven College in its official debut.

Although this game marked the success which many long hours have been aiming for, behind all of this heady triumph and bonus activity has also achieved noteworthy advances.

WDOM, for years the phantom radio station, has taken great strides in the last two years and is now broadcasting on both the FM and the AM frequencies. Due to the limited range of its transmitters, the AM station is heard only on campus but has started to draw listeners.

As evidence of the new look of WDOM, the station was given permission to broadcast the three home games this year. The Friars are trying to get the go-ahead for the away games. To be sure, the presence of play-by-play announcer, Vin Papi, and color commentator, Paul DiGangi, did surprise a few of the feeble, gay notables. These men, along with player-spotter, Paul Dunphy, and George Rippel who handled all the game statistics, brought WDOM closer to the popular success that has been eluding them over the years.

In its first attempt at broadcasting football, WDOM gave a very laudable performance. Not only was the broadcast itself an admirable attraction for the station's listening audience, but the on-the-spot half-time interviews which featured Father Haas and the Administrators for Club Football, Father Driscoll, were also well done.

Bar heads and shoulders are knocking against each other once again, as the 1967 Intramural Football League inaugurated play last Wednesday afternoon. For the most part, each individual game consisted of a heavy favorite opposing a hopelessly underdog. This is standard procedure for any success.

By matching fortresses against probable also-rans, exciting, head-to-head battles that will climax the season. The intramural schedule, as is normally the case, should undoubtedly follow this pattern.

It was a sad day for Waterbury as Tom Brunock's Wizards and Fan Dintoni's Rat Pack suffered decisive opening day setbacks. The Wizards, number two team in the Waterbury Club, could not match the ability and experience of the New Bedford Swampfoxes, dropping a 15-0 decision.

The next meet will be against the New Haven Acorns. This should be a pushover for the Crimson Tide. The Friars, bolstered by a strong running attack featuring the likes of Dick Martin, should have the edge over the tough St. Mike's squad. Friars.

Colorado vs. Missouri: Colorado's push for national recognition should keep rolling in what should give us a good idea on who will be the Big Eight Champion. Colorado.

Alabama vs. Vanderbilt: Bryant's got 'Bama movin' on. It's capable and defensively--should be a pushover for the Crimson Tide. Alabama.

Tennessee vs. Georgia Tech: Tennessee's great offense, with its quarterback Wally Woodard and Richmond Flowers and Charlie Fulton running, should give the Vols a hard earned win. Tennessee.

Georgia vs. Mississippi: Ole Miss looked pretty good against Alabama but lost and Georgia's in the same class as Alabama, Georgia.

Houston vs. Mississippi St.: The Cougars paced by McVea will roar back after last week's upset. Houston.

Michigan State vs. Michigan: The Spartans can still salvage a good season if they win the Big 10 championship and Rose Bowl. This should be conference win number two. Michigan State.

Northern Illinois vs. Southern California: This could be the game of the year. The Irish must win to retain any hope for a national championship. In order to win, their great defense must contain O. J. Simpson and the powerful Gunther. The Bruins should have an excellent passer, wasn't that bad, but a normally sound blocking unit led by big Nick Baid broke down too often.

Albertus Magnus B opens defense of the league championship by dethroning the Knights of Columbia. The Saints take control of the league.

Paul Iacono's

As I see it

The Red Sox, whom I picked as a ninth place club, and the Cardinals, who were supposed to finish seventh, could wind up the world series today. Good luck to the Sox. . . . And now turning to the task at hand, last week I picked a tremendous sixteen out of twenty for an 800 percentage. Looking ahead to this week I see . . .

Providence College vs. St. Michael's: The Friars, bolstered by a strong running attack featuring the likes of Dick Martin, should have the edge over the tough St. Mike's squad. Friars.

Paul Iacono's
The Providence College Club Football team proved dreams can come true as it defeated New Haven College 41-14 in its season opener last Friday night. The Football Friars led all of the first quarter to insure victory. The Friars scored the first touchdown, had the ball Dick Martin capped a 45 yard drive with a 22 yard sweep around left end and PC's defense held and the offense was moving the ball well, but a fumble and an interception by New Haven at the goal line stymied any further scoring in the first quarter. Early in the second period the Friars got two points when New Haven punter Al Johnson fumbled his knee in the end zone for a safety. Minutes later Carmine Sansone intercepted a Mike Durante pass and took it up New Haven's first score. Quarterback Mike Durante passed 10 yards to end Ralph Rarfone for the six points.

PC came back strong, with a balanced running attack led by halfback Wally Weeks. Martin and fullback George McMahon. Together they ground out 72 yards with the hard running fullback basting over the first two for the tally. Mike Eagan added the extra point and PC carried a 16 lead into the locker room.

Getting good field position after the second half kickoff. PC marched 50 yards for an answer touchdown. McMahon again scored on a 15 yard sprint off tackle. New Haven got rolling at the end of the third quarter and scored on an uncharacteristic fourth down play. Durante, avoiding a heavy Friar rush, threw towards the end and the ball bounced through the intended receiver's hands, past two PC defenders, and was picked off by Bob Recchio, the New Haven halfback. A two point conversion cut PC's lead to eight points. PC got the ball it scored again. Jack Mordente was at quarterback and showed great poise in the unusual fourth down play. Dick swept halfback Martin on a 22 yard sweep around left end. Martin tied the ball in for the score on the next play. On the next series the Friars picked up vital yardage during the first half action. The Friars take on an experienced team from St. Michael's. No scouting report is available on them so Coach Lynch will stick to the same type of game, although he will be concentrating on passing and pass defense this week in practice. The team took the victory over New Haven in the right way," said coach Chet Hanewich looking forward to Friday night. He will know what to expect this weekend.

**Friars Trample New Haven, 41-14**

Martin Named COWL Player Of The Week

By virtue of his three touchdowns and consistent defensive work, Dick Martin has been named COWL Player of the Week. His selection is the first in a series of awards which will encompass all of the major sports at Providence College. From this select group of players, the first annual COWL Player of the Year will be chosen.

**Friar Golf Team Qualifies For Trip To ECAC's In New York**

The Providence College Golf team drove themselves into the Eighth Annual Eastern College Athletic Conference Golf Tournament last Saturday by placing second to Boston College in the qualifying round of the ECAC championships. The Friars and the Eagles of Boston College will be the area representatives to the ECAC tournament which will be held at Bethpage Park, L. I., New York, on October 21.

Quartermaster Paul McQuire of the Friars scored the second time in a week, 309-314, to gain one of two berths for the ECAC finals. McBride and Peres shared top honors with scores of 78 apiece. Adamonis finished with 77 and Kiefer completed the course with a round of 80. Fourth place went to Worcester Poly Tech and fifth to M.I.T. scoring 312 and 314 respectively.

The Friar linksters, New England champions for the past two years, are coached by Joe Presto. This will be the sixth consecutive year of participation by Providence College in the ECAC championships. The best ever for any Friar squad was a second place finish to Penn State in the 1964 tournament. The Friars also collected an additional second place finish in the individual competition that same year.

PC is scheduled for a return match with the U.R.I. Rams on October 17. This will complete their abbreviated Fall schedule and should also help as a prearrangement for the ECAC finals held that same week.
