Beheaded Turtle’s Heart Kept Pulsating Long After Operating In Lab.

An experiment involving the hearts of a turtle was conducted in Biology this week by Dr. McGonal and Mrs. Lilly under the direction of Fr. Serror. The turtle, after having been decapitated, was disassembled and the heart and its system. The secondary purpose of the experiment was to compare the pulsation of the turtle’s heart for an indefinite period after decapitation. This was done by the application of a special fluid to the heart. The primary purpose of the experiment was to trace the action of the heart-beat on a graph drum. This accomplished by tying the vehicle by arrule to and semihumid arteries. Each beat is then recorded on graph chart. Thus recording the palpitations it is possible to study fatigue and other conditions affecting the normal heart. Thus Daniel, Lecturer in Biology, was awarded, earlier in the year, a fellowship in the department of Protozoology at the Woods Hole, Massachusetts, Student of the Honors of the year, a fellowship in the Department of Protozoology at the Woods Hole, Massachusetts.

Two students, Messrs. Davin and Hoffen, Junior Pre-Meds., assisted in the experiment.

The experiment, a novelty to many of the spectators, was witnessed by students and members of the faculty. The ultimate use is as yet undetermined, but it is thought that the graph chart in the course of Biology.

FR. MASTERSON TAKES NEW POST

Succeeds Fr. Kinsella as Assistant to Prefect

Fr. Ignatius Masterson has been appointed Assistant to the Prefect of Students.

The Providence College orches- tensemble will entertain the audience through the medium of the Onyx Company’s radio program comprising classical and popular music. At the beginning of the broadcast, the students and their director have labored patiently and perseveringly in acquiring a more complete musical repertoire and they are now prepared to present a very pleasant program.

The Fryer Banquet which was a big show. He also became interested in the Nashua club and today a member of the club. There will be more details of the Fryer and consider it well done. When he was named his son, his ability to play ball George Tree and other conditions affecting the normal heart. Thus Daniel, Lecturer in Biology, was awarded, earlier in the year, a fellowship in the Department of Protozoology at the Woods Hole, Massachusetts. FR. J. SULLIVAN DONATES 4 OILS

His Paintings of the Four Evangelists Grace Rotunda Gallery

A few days ago, Father John Sullivan, O.S.B., of New Rochelle, gave to the College four beautiful full length paintings of the four Evangelists. These oils were framed and hung in the corners of the rotunda gallery of Har­kins Hall, adding thereto an adornment very pleasing to the eye.

The paintings are an original conception of the four Sacred Writs, the figures being executed with great and artistic execution. There is fine character delineation of face, the color blending, is harmonious, and the work, as a whole, is an excellent portrayal of the traditional symbols of the Evangelists were limned behind the altar rail. Another fine figure, with angel's wings for Saint Mark, the lion for Saint Luke, the wings of an eagle for Saint John, and the third, with its distinctive self, interested himself in art very early in his priestly life. He has graced the walls of many Convents and Chapels with his creations. A few years ago the Master Gen­eral of the Congregation commented on his work to the Vatican Exposition.

Father Sullivan conceived the idea of the four Evangelists for the rotunda as an inspiration to the students, that gazing on them, they might come to realize the meaning of life as they had learned it from the lips of Incarnate Wis­dom, and wrote about the meaning of life as they had learned it from the lips of Incarnate Wis­dom, and might be prompted to action that will aid in the intellectual and the moral spheres.

THE FAME OF WASHINGTON

The current fad of de-bunking has brought historical per­sonages down to earth, but as yet it has not completely toppled George Washington from his pedestal. Even though recent revelations have shown that George was not all that subsequent generations have believed, he still remains a hero and man who will continue to inspire every American.

So it is with the comparatively new saint, Patrick Henry, to attract this aristocratic Virginian. Nevertheless, a genuine love of his more unadorned, less glorified, and a deep resentment against the Tyranny of England prompted him to risk his "life, his for­tune and his sacred honor." He may not have been the most beloved historical figure, yet even in his own time, he proved to his own deep sincerity that he was able to keep the faith and give his flaming self to the incensed Colonies through five crucial years of warfare. The success of Crucified over death, sin, hell, and every other menace of life.

DEBATE

Dear Editor:

Things must be looking pret­ty gloomy as far as the finances are concerned. Why not make use of that huge pla­card of Miss Cowl in order to make trouble? Are you "in the red"?

Dear Munition Melter:

A rather personal question, you know, but we'll do our best.

Dear Mr. Kenneth: Your letter was very good. You'd prob­ably be used to that sort of thing, as you're a student.

If you look at the signatures under past letters you will notice that many of them are not signed. Simply because of your disrespect.

Sincerely, C. Smith.

Dear Mr. Sullivan:

I sign to you the sighted one of quotations past to you will be the word to be held out before your eyes by the flippant letterers.

Sincere letters like your own would be a great comfort and care and respect.

HEARST

Dear Editor:

An ardent supporter of the COWL and its literary standards until it adopted the Hearst caption policy of not publishing any captions. It was played in your headline article of last week's issue. Rather than confine yourself to elugiong a worthy life, you capitalize on a weakness of your capture and see to it that you get the blame against people who, in the scope of your caption policy are responsible for their present plight.

Father Giuliani did not die a beautiful death. As all martyrs, he perished horribly, but his self-sacrifice, his love, his suffering was the very expression of dignity and a true sense of sorrow at the futility of war. His noble, Christian life and his conversion into a beloved and emotional description of war is never can be found in "The Bos­ton Daily Record.

"The people of the Boni­facio Village...Christians women and children slaughtered..." "Italians destroy..." "Italians... unit... Doctors and nurses slain. They never had a chance.

How do you compare favorably with the..." "All... kill..." "All... Tree yarn?" "Why?"

DEBATE

Dear Editor:

Twenty people attended the first home debate of the College, was a disaster. I saw but fifty at the play "Big Bill" last year that never forges ahead unless some­thing drastic is done to incite Dear Editor:

If we recall, a few years ago a drastic program was in vogue here which proved materially successful but psychically dele­terious. The question is a diffi­cult one. The men who have educated us into the art of debate, the activities from its students. A. MD.

Dear Mae:

As you see fit to distort the significance of this unfortunate occurrence, I feel certain the "Hearst" in a very courteous manner, "Barbara" accounts for Father Henry's death, and he is not an Ethiopian.

Arthur O. Hoffman, '37

Dear Mr. Sullivan,

You may not think it, but we are in entire agreement with you. The major paper of our time is not intended to incite hatred against any people. We told about his death, ignor­antly the flippant letters.

Why? It is idle for us to attempt to rebuff all the views you expres­sed; they involve too many intri­cacies of Social Science. We do invite you to a frank oral discus­sion, and incidentally, we await your considering our instruc­tions.

George Tebbetts Hopes To Make 'Big Time' Soon

(Continued from Page 1) 1) cared for the bats and started him out to be a catcher. When George grew up Sueforth used to send him his old mitts and from time to time give him points on catching. With this wonderful start Teb went to Nashua High where he flashed in Basketball and Baseball. Few knew that George also was quite a Football player, one of the best in New Hampshire schoolboy ranks. But he reached his peak as a backstop and a scout from his high school days. As a Freshman Teb made a bid for the catching post and the work was split up among Jim Welch, Dolly Oberg and himself. He made his debut against Lowell and caught a good game but did nothing sensational with the willow, going hitless in three trips and scoring a run. Just before the end of the season Teb was hurt blocking the plate and his throwing arm was affected but after a long rest the arm was as good as ever. In his second year he was stricken with appendicitis and was out for the season. As a Junior Teb started the pre-season drill in great form but this time another jinx was to bother him. On an attempted steal George's ankle was sprained and he missed several games but came back to finish the season with his brilliant play. Now a Senior George had to make good and he did. His last season saw him reach the peak of collegiate play with a fine performance almost every time out; his selection by Jack Barry as the top catcher of the East was one of the many honors put his way; then he began to get offers for his services from many major league teams. As Jean DuBuc had done quite a bit of hurling for the Detroit Tigers, he knew that Teb would be given every opportunity to make the grade with them and he advised him to sign with Detroit. Soon after graduation George joined the Tigers for a brief trip across the country, till they found a spot for him. Sent to New Bedford he became a favorite from the start when he bunted out 3 rusty bingles on his debut. After swatting the apple up around 350 for the greater part of the season Teb slumped and ended up with .310. On the basis of this fine showing Mike Cochrane recalled him and last year he made the training joint with a Championship team. Naturally there was no place open on this club so George was sent out to Springfield in the Three I League and at the time Cochrane said that he expected to see Tebets back again. In mid season he was shifted to Beaumont in Texas League, the spot where all young Tigerlets serve their apprenticeship and where Hank Greenberg, Rowe and others stopped before they joined the Big Top. All the time George was adding to his prowess as a catcher. Cy Perkins said he had one of the fastest arms he ever saw. In George's own words he isn't ready yet but he figures that another year under Dutch Leonard will make him a better catcher. When he is ready he will give any of them a run.
STRANDS OF HAYWIRE

By Joe Devechis, '36

SOPHISTICATED LADY

You've heard before, you'll hear again. This is the well-worn phrase, "I love him, he's a great piece of meat. He's a real peach."

And though perhaps you've said it too. Of former friends you once thought true, I wonder, high, high, often rude.

I know you when. That may sound trite, But with your new young chums. That my heart was yours, and you'll admit You liked me, well, at first.

But now then you've found new ideas So far advanced beyond your years That you can't even be a friend to Berzelia. That seems to smack of Gertie Stein.

And now, fine friend, I must conclude. You've changed, unfair, and often rude.

And I've turned the other cheek, my dear, Too many times to number here. I've said I'm through and now I'll say Adieu, until the Judgment Day.

But, by the way, (I know its trite) But how about tomorrow night? Sir Veigh.

In keeping with the recent anniversary of Saint Valentine Day, "Up the Creek Corner," which displays one received from his one and only. The following is written on it:

"Dear Johnny, Don't strike me out 'cause I'm batty over you. My heart was yours, and you'll admit You liked me, well, a little bit. But since then you've found new ideas So far advanced beyond your years That you can't even be a friend to me."

"But now then you've found new ideas So far advanced beyond your years That you can't even be a friend to me. That seems to smack of Gertie Stein. So far advanced beyond your years."

"But now then you've found new ideas So far advanced beyond your years. That seems to smack of Gertie Stein. So far advanced beyond your years."

"But now then you've found new ideas So far advanced beyond your years. That seems to smack of Gertie Stein. So far advanced beyond your years."

"But now then you've found new ideas So far advanced beyond your years. That seems to smack of Gertie Stein. So far advanced beyond your years."

THE COWL, FRIDAY, FEBRUARY 21, 1936

COWL HAS NEED FOR MANY THINGS

Reports, Photographers, Typewriters Wanted

The Cowl wishes to purchase or receive donations of typewriters for use in its office. For many months it has been serviced by one or two worn type-writers of amateur size. Pains not permitting an expenditure for new ones, it makes the request that should anyone have a typewriter which he could donate, or sell, to "bring it around." We would have six typewriters in our office.

The need, too, has been felt of having an official photographer to take pictures of the students and of happenings around here. Will some student enticed at picture taking please apply for a position on the staff.

There is room on the staff for more members. We like to secure the services of students who can WRITE, type, and who are "nasty" enough to ferret out the news.

Working on the Cowl staff is good experience. Many have asked for journalistic training. Here is an opportunity to get a "tryout" Friday afternoon in Room 18.

DR. O'NEILL SUSTAINS INJURIES IN FALL

The other evening, while leaving the home of a friend, Doctor Daniel O'Neill of the Department of Literature, missed the balustrade of the stairway and tumbled down a long flight of stairs, severely injuring his back. The light in the hallway was poor, and the Doctor, unfamiliar with the surroundings, misplaced his step.

He is being treated at his home in the Potters' quarter and as expected recovery and possible fracture of the spine. TO OUR COOK

I've never had the courage to express
In open words the feelings that are mine,
When I sit down to eat your cooking at no.
So I resort to verse to voice my white.
I tell the days of any week, dear,
By looking at your cooking, you never change.
You learned the recipes from just one book,
And with it, you're the terror of the range.
Your soups are greyish, tasteless, cold and stale.
Your meats are dry as straw and cut away.
Your greens are from the grocer's remnant sale,
Your lettuce and tomatoes are so soggy I could cry.
Your worst offence is keeping coffee old—
You mix the fresh with that old one.
Your meats are dry as straw and cut away.
So I resort to verse to voice my white.
Oh yes, you have a specialty—
The stew, you say. I guess good old fashioned eggs and apple pie.
But these are the dishes that will do.
The trick of keeping us content, our salar.

Please, Cookie dear, start varying
The menus, and give us fresh coffee, improve your cooking.
A man can die of hunger just as his stomach feels.
If the soup tickles, it goes to the heart.

GOODBYE TILL SPRING

With winter's snows and icy blasts,
Our paths seem to me,
Each change in weather makes Love fall in like degree.

It's great to lie 'neath sunny skies,
Warmened by the southern breeze.
Hard to seek the gentler things,
When one's about to freeze.
Far better that we part until
For you I once more; you so goodly till the springtime,
Warmth, will melt your heart again.
W. J. James, '36

THE SPORTING EYE

S. Siperstein, '38

THE BASKETBALLISTS

The Friars are the tops in New England college basketball. They reached the final phase of the campaign last weekend when they eliminated the highly rated Springfield five, 55-48, thus handing the Gymnasts their second defeat of the season and also handing the winning streak of the Collegians to seven months. The Friars are a fine basketball team in which every player makes a definite contribution to the team work which was mainly responsible for their victory. Leo Davin led the Friar forces with 12 points and was the outstanding player. The College also won the third game in the series played before the Teachers and topped the Springfield scorers with 13 points.

With Ed Bobinski, Joe Carew, and Handsome Charlie Galagher gaining the majority of the points the locals hung up another victory at the expense of Villanova. They started off slowly but rapidly gained momentum as the contest progressed. The scrupulous play into an early lead in the first few minutes of play and were never seriously threatened by the Villanovans. Bobinski captured the scoring honors by caging six field goals and several free throws. The victory was a welcome one for the Teachers and Mike O'Meara were outstanding for the Visitors.

The Friars are scheduled to meet with the Springfield College ballsters at Springfield in the second encounter of these two leading court teams. In order to remain at the top in their conference, the Friars have to defeat the Teachers twice, but inasmuch as the Teachers has won the last two times, it remains to be seen what will be the outcome of the contest. The Teachers has the advantage of playing in front of the lads from Georgetown. The Temple Owls said that what has been done can be repeated and in a workman-like fashion. The Owls, who are in New York, want to continue the success of the season. Then the Irish of Notre Dame proved that they are just another hostile team in the Conference. But the magic coin, which is batman, cannot be switched on. The Owls continued the good run by winning more than 18,000 spectators that jammed Madison Square Garden they displayed complete superiority in outplaying and outslanding the Cardinals of New York University, winning by a 38-27 score. Who's next?

PUCK-CHASERS

The spectacular and colorful Smith Hill Collegians hockey team is defunct. Just one more case of an athletic team that, because of the season, may not be able to play any more games. This year the region was well stocked with teams and difficulties was an important factor in the poor showing made by the Collegians in their last two games, before calling it quits.

Led by Captain Fred Moseley, the Harvard pucksters handed the Teachers and topped the Springfield scorers with 13 points. The Temple Owls said that what has been done can be repeated and in a workman-like fashion. The Owls, who are in New York, want to continue the success of the season. COWL Warns Against Anonymous Letters

(Continued from Page 3) only upon our knowing his identity.

We have on file several excellent letters which we would like to print, but they were not signed. One is from "Ancepe Syllabarum", another from "Loyal Supporter", a third from "Hoping for a Reform". If the writers of these missives will please identify them, we will publish their views.

We like to make the point clear that we are not the governing authority in the College, hence it is futile to protest to us about any grievance. We are quite aware this is a students' paper, but this is no justification to make it the dumping ground for any mud or brick-bat which one might desire to fling against any person connected with the College. We inaugurated the "Bending the Editorial Ear" column for the purpose of affording a fair opportunity of expressing genuine views on matters germane to journalism, and we intend to keep it strictly in this field.

ANSWERS TO TEASERS

1. February 11 was the date according to the Julian Calendar, and it differed in that century by 11 days with the Gregorian. The Gregorian was finally accepted by Protestant England during Washington's lifetime.

2. Parson Weems, who wrote a life of Washington for children after the President's death.

3. Yes, he visited the Barbadoes in his early youth.

4. Yes. His mother earnestly begged him not to, so he reluctantly complied with her wish.

5. Too silly to answer.

6. Because he sincerely felt that England was bent on exploiting the American Colonies to her own selfish advantage.

7. He had difficulty in travelling to the capital in New York from his home in Mount Vernon.

8. We cannot say definitely, but likely not. Our Revolutionary worthies had suffered too much at the hands of a king to want one installed here. Washington's refusal to entertain the idea was but a reflection of the true temper of the patriots.

Cowl Solicits Stamps For Foreign Missions

Father Richard Vahey, O.P., who collects cancelled stamps to be sold for the benefit of the Dominican Missions, will soon be in Providence to collect those gathered by the various Catholic schools and societies of the locality. The COWL makes the request that the student body help in this noble work by bringing cancelled stamps of any denomination, both domestic and foreign, to the COWL office. The stamps will be presented to Father Vahey. The students of Guzman Hall already have a sizeable collection, and it is hoped that the student body at large will assist in this noble undertaking.

At very slight inconvenience to yourselves you can do much to further a great cause. Start now by dropping your stamps in the COWL mail box or giving them to E. Riley Hughes. It is surprising how much revenue can accrue to the cause of the Foreign Mission through the donation of cancelled stamps.

College Offers Spiritual Retreat

Fr. Perrotta will address the Christian Association of Brown University on February 26 on the theme, "The meaning of Lent in and for the individual." On Sunday, March 1, he will talk at Rhode Island State College on the subject, "The Lessons of Lent from the Life of Christ."

COWL EDITOR ABD WITH LA GRIPPE

Our inestimable Mr. Joseph Dy- er, Editor-in-chief, has been resting the last few days in an attempt to shake a case of the Grippe. According to latest reports, he is doing nicely, and expects to be on the job again this week. During his absence, Mr. E. Riley Hughes has been in charge of the paper.

Good Luck to THE COWL
