**The College Evaluation Falls Way Short**

Exactly forty per cent of Providence College’s student body took part in the recent course evaluation, a figure far short of all expectations. The evaluation, sponsored by the Student Congress, was conducted over a three-day period, February 26, 27, and 28.

“The breakdown of final figures for the individual classes showed that 29.2% of the Senior Class, 54.1% of the Junior Class, 43.8% of the Sophomore Class and 33.4% of the Freshman Class participated in the poll.”

Junior James Montague and Jay Ryan, co-chairmen of the course evaluation committee, were extremely disappointed with the student response, particularly on the part of members of the Freshman Class, since they would benefit most from the results.

---

**Fund Drive Plans Announced**

Providence College will launch, in September, a $150 million fund raising program, by announcing a $10 million fund raising program in the school’s 45 year history, it was announced today by Clarence H. Gifford, Jr., chairman of the college’s President’s Council.

Last fall the college announced a master plan calling for the expenditure of 23.7 million dollars over the next ten years.

This morning Mr. Gifford said a financial study shows that the college can reasonably anticipate annual giving of $7.5 million dollars from normal revenue during the next ten years. This leaves 10 million dollars which must be raised in other ways.

Mr. Gifford’s announcement came at a congratulation of faculty and students. The drive will be called “The Providence College Seventeenth Century Campaign.”

There are a great many people in Rhode Island who came from homes of modest circumstances but who are College graduates today thanks to Providence College. Had there been a Providence College they would not be able to come to college at all. This is a debt to the College that the whole community must repay,” Mr. Gifford said.

The campaign will formally begin with a kick-off dinner in September for volunteer workers. Mr. Gammino said the first year of the drive will be devoted to the soliciting of Leadership Gifts from alumni, parents, non-alumni individuals and foundations.

The second year the college will seek the soliciting of general alumni, parents, and the Rhode Island community as a whole.

“The program will be presented to all those who have Sustained from Providence’s work and service,” Mr. Gammino said, “and to all those who value higher education in general and the special qualities of excellence and values which characterize Providence College.”

---

**Father John Cunningham Is Elected Faculty Senate Head**

Providence College, Providence, R.I., March 7, 1968.

The committee had hoped to publish the results of the evaluation in a booklet form, listing each course, the professor, and his individual ratings. This matter was under consideration by the administration, but no final decision has been reached at the present time. Montague had indicated that a turn-out of approximately 50% to 75% of the student body would be needed for publication.

The evaluation itself was divided into three parts: student identification, course description, and teacher evaluation. Mr. Montague felt that with this format, the poll presented more pertinent questions than those from previous years. Non-pertinent questions regarding the dress and voice of the professor were emitted from the student’s point of view.

---

**Movie and Poetry to End Art Week; Jug Band to Finish Week of Contrast**

To stimulate student interest and regard for the creative arts, a fine arts festival entitled “A Week Of The Creative Arts—Beginnings” is being held this week, Men’s Day thru Friday, in Alumni Hall Annex.

Sponsored by the Student Activities Program and coordinated by the Fine Arts Committee, the exhibit includes representative work from the college. Each day of the week a number of selected works is on display.

Included in the display are works of John and Mary DeLellis. Mr. DeLellis is an art professor teaching at Rhode Island School of Design. With the exhibiting three “oil and colleges” and one print, the latter having been chosen for an honorable mention at the Providence Art Club.

The works of both Mr. DeLellis (Continued on Page 9) and Mrs. Walter F. Gibbons will seek Major Gifts from the same sources as well as from business and industry. The third year will see the soliciting of the general alumni, parents, and the Rhode Island community as a whole.

---

**Mr. Walter F. Gibbons**

Mr. Walter F. Gibbons, president of Providence College with the largest money gift ever given by any graduating class in its history. This undertaking, named Operation Pacesetter, is an innovation in the field of organized class gifts.

Pacesetter is unique because it realizes several main objectives at the same time. Through careful planning the gift committee, with the professional help of Mr. William Nero of the Alumni Office, has arrived at a system of installment giving that will realize a goal of $75,000 in five years and not place any strain on the giver. In addition to helping his class achieve its goal each participating senior will receive credit for an alumni contribution and is accorded all the privileges of active membership in the Alumni Association which includes priority for purchasing basketball tickets. A brief look at the conception and operational structure of Pacesetter will make obvious its many advantages over other types of gifts.

---

**‘Operation Pacesetter’ is Largest in History**

By Joseph Brum

The Class of 1968 will present Providence College with the largest money gift ever given by any graduating class in its history. This undertaking, named Operation Pacesetter, is an innovation in the field of organized class gifts.

---

**Father John Cunningham Is Elected Faculty Senate Head**

Providence, Rhode Island, Feb. 13 — The Rev. John F. Cunningham, O.F.S., has been elected president of the first faculty senate at Providence College.

The senate formally organized this week. Approval for its formation was given by the college corporation in November.

Father Cunningham, a Providence native, is professor of philosophy and director of residence Colleges student body.

---

**Tuition Increase Amounts To $150**

The tuition increase, effective next September, which Providence College announced a year ago, will amount to $150, the Very Rev. William Haas, O.F.M., college president, said today.

In a letter to parents this week, the administration has been able to limit the increase “because of the generous support of our new Parent’s Fund, the ever increasing annual support of our Alumni Loyalty Fund, and management economies.”

The new tuition rates for September will be $1,350 for first year, $1,350 for sophomores and $1,350 for juniors and seniors. The rates differ each year but do not effect upper classmen.

Father Haas pointed out that even with the increase, a student is being held this week, Monday thru Friday, in Alumni Hall Annex.

The idea of five year gift plans is not new to Providence College. The Class of 1964 inaugurated the practice with its “Fifty Five Fifty” plan which set up a $50,000 five year objective. The success of this program encouraged following classes to copy it and each year the goal has grown until the Class of 1967 which has not set up a definite figure but is trying to surpass every gift by 1972.

Basically the previous five year plans have been the same as the Providence College $10,000, $250 and $500 to choose from. All of the classes have
Student Congress Engaged in Projects: Placement, Counseling Officers Paramount

Presently, the Student Congress is engaged in several major projects. One of these projects, the Placement and Counselling Offices, is headed by a committee composed of Mr. Edward D. Machado, Raymond Thibeault, Jr., Murphy, Mr. John Colby, Brian Rosen, and Paul O'Neill. This committee intends to discover why students do not make more extensive use of these facilities and to suggest how these facilities might upgrade and expand the services offered to the student. To facilitate their study, the committee devised a poll seeking to determine student knowledge of the Placement and Counselling Centers and to elicit student opinions on the quality and usefulness of these services. The poll was conducted in Alumnus Hall Annex on Wednesdays, March 7. From the results of this poll, the committee will formulate a report which hopefully will enhance the service of these offices to students.

Among the suggestions which are already being considered are the possible value of vocational and psychological tests administered to all incoming freshmen and a plan to integrate the services of the Placement and Counselling Centers into one centralized organization.

To cater to the vocational needs of P. C. students, the Providence College Management Intern Program has been created. This program is designed to place students in summer and or part time academic year jobs which are related to their concentrations. By means of these jobs, it is hoped that students will gain in career choices by obtaining practical experience and by allowing them to consider for their lives' work. The work of this program has been progressing rapidly in recent months, contacting area businesses and soliciting their participation with the program. There have been several favorable responses from both state and out-of-state business firms with offers to place P. C. students in training programs which promise both financial and experiential benefits. Students interested in this program may apply at the Placement Office and arrange interviews with the student director of the program.

The Congress is directing a major portion of its energies toward the improvement of its constitution. It has been observed that in certain instances Congress activity has been impeded by defects and obscurities in the constitution. The Congress envisions a simplified constitution and general streamlining of its constitution in which will have the effect of expediting future Congress activities.

A Student Congress committee has formulated a report on the subject of alcohol on the Providence College campus. The report advises that campus drinkings privileges be conceded to students over twenty-one. As the report notes, alcohol on any college campus is here to stay. The report questions the validity of the criteria in which some cases establishes adulthood at the age of eighteen (for example, the draft) and in other cases at the age of twenty-one (for example, legal drinking ages). The report suggests further that alcoholism in a college community has not materialized as anything but a very rare and infrequent problem. This opinion is substantiated in the report by references to prominent personalities in the field of education and relevant study groups. This report, after certain revisions and rephrasings, will be submitted to the Administration.

A recent, hill passed by Congress clarified the requisite academic standing for students intending to run for the Student Congress or class office. According to the bill, candidates must have attained a cumulative index of 2.40 regardless of the individual marks.

Future activity of the Congress will revolve around such questions as the feasibility of part-time employment, the establishment of fraternities, a limited pass/fail system, and the work of the Congress Blazer Committee. The report suggests that acceptance bids from other companies and consider the introduction of a double-breasted college blazer.

1. Now that graduation's getting close, have you given any thought to the kind of work you'd like to do?
2. I might have suspected.
3. It is required?
4. What do you expect to earn?
5. I'd really like to work.
6. I'll probably grow a beard.

What Do PC Boys Think of Salve Girls?

(Reprinted with permission from THE COWL, MARCH 7, 1968)

Just what do the boys we come in contact with the most think of us? This question was posed at a recent mixer. The majority of the views given belonged to the Junior Class, but the tone of the discussion differed from case to case.

Barry Goldwater last week that the United States is in Vietnam because of the promises of three Presidents and "to prevent the communists from doing what the Japanese could not defend as much as I would like to," he said that it was preparing the non-white people for self-government.

PCSP Plans Class Strike

The Providence College Students For Peace is planning to participate in a student-faculty strike this spring. The origin for this strike comes from Rev. Martin Luther King. It is hoped that this will effectively show the strong support that is growing in this country against the conduct of the war in Vietnam.

In conjunction with Rhode Island School of Design, Brown University and Providence College Students For Peace, there is a series of demonstrations planned for downtown Providence this spring. These efforts of the group are all planned in the spirit of "intelligence and orderly" sentiment against the conduct of the war in Vietnam.

Two films, "Year of the Locust" and "Vivre," were shown on campus in the latter part of last week by the group. The PCSP is supporting Senator McGovern for a dietor, or a communitian government which excerpts were earlier seen in the COWL and PolI Committee membership.

The Providence College Film Society conducted by the Political Science and Psychology Department is planning polls planned.

STUDENTS CAST BALLOTS at Vietnam Opinion Poll Thursday 7:00 p.m.

According to the report, the Committee was disappointed in the turnout approximately one third of the students who participated in the poll, half of the faculty participating in the poll will be available for at least two class days.

At the next general meeting of the Political Union, this report will be presented in full, as well as a critical analysis of the results. For this reason, the meeting is open to the public so that those wishing to gather on this and future polls planned.

La Dolce Vita Thursday 7:00 p.m. A-100

Sponsored by The Providence College Film Society Discussion following movie by Dr. John F. Kennedy

Open to All - - - Free

A majority of the students of Providence College support the U.S. government's military involvement in Vietnam. This and other conclusions were drawn from an opinion poll recently conducted by the Political Union.

In a final report on the poll, scheduled to be formally presented at the next general meeting, March 12th, of which excerpts were earlier sent to the COWL and Poll Committee members. Geoffrey Sorrów (Chairman), Raymond Patton, Richard Krasna, Walter Smith and Thomas O'Conner summarized and attempted to interpret the results.

If the report is "in the super-hawks" were able to express their true sentiments." At the same time, only 12% of the faculty advocated unlimited military escalation.

Yet, the Committee noted "a tendency among the majority of both students and faculty, to select from varied proposals, to choose a more moderate course of action for conducting the war than that currently being pursued by our government. In fact, 55% of the students and 88% of the faculty advocated a centrally controlled government, a dictator, or a communist government which can give them everything they want the U.S. to do."
Why Give?

Around Class Gift time a certain phenomenon occurs. The usual element of the usual people voice the usual knee-jerk complaints in the usual manner. However this year is an exception. This year is not usual. The difference lies in the Senior Class and the Class Gift.

The Class is '68, a group of enterprising young men who have combined, in the right proportion, a work hard-play hard reputation and a penchant for doing things big, with a great amount of spirit. The result is a unique class character and sense of unity that many other classes are striving to emulate.

The gift is "Operation Pacesetter," a $75,000 investment in the future. The members of '68 have realized "en masse" what many others haven't...mainly that "Providence College is what you make of it." This perhaps is a trite statement but that does not diminish its significance or truth. Let us also add a correlative statement..."What you make of Providence College to a large extent makes you.

Sixty Eight has taken the initiative at the right time. Providence College is at a crucial point in its history when dreams of growth must be made to conform with the hard reality of the dollar. Operation Pacesetter is a bold step to try and insure that excellence does not have to be forsaken for financial expediency. Building a better Providence College is a retroactive action; it benefits past students as much as present and future students. The Cowl congratulates a bold class for bold action and wishes '68 great success in reaching the goal of Operation Pacesetter.

The President's Priority

Last Friday, John W. Gardner, Secretary of Health, Education and Welfare, left his office at 5:50 p.m., an hour earlier than his normal departure time, yet it was a special occasion — his last day as head of HEW. There were, however, no medals, no speeches, no honor guard and no public words of praise from the President of the United States, just a crowded corridor of employees expressing their "despair and admiration" at his departure. The scene was in stark contrast to ceremonies held the previous day marking the withdrawal of Robert S. McNamara from his position as Secretary of Defense. An honor guard of 150 service men, a score of dignitaries and notably the President of the United States gathered to honor the resigning secretary.

The contrast is indicative of a disturbing and pathetic reality plaguing this country today; while ignoring the problems of the Great Society, a term which rings of empty promises, the country continues to be obsessed with the business of war. The situation becomes all the more unsettling when one considers the implications of the "Kerner Report on Civil Disorders," released last week. After an exhaustive seven month investigation, the 11 member Commission made the grim prediction that unless "drastic and constructive changes are begun at once...there will be a continuing polarization of the American community and ultimately, the destruction of basic democratic values."

Some of the drastic and costly remedies which the Commission recommends, are a revamping of the welfare system with the Federal Government assuming as much as 50% of the cost, immediate action to promulgate the jobs by the local, state and national governments, a program to build 600,000 new dwellings by next year for those of low or moderate income, and a Federal subsidized program of on-the-job training.

Yet where does our priority lie? — four thousand miles away in the rice paddies of a small Asian nation whose population does not seem so enthusiastic about our presence there. We are faced with the possible destruction of our nation, yet there is hope if only the Federal Government is willing to take bold steps to right the 1961 wrongs.

The President's answer— 50 to 100 thousand more men are needed for Vietnam.

Apathy Evaluation

With the Student Congress-sponsored course evaluation completed and the season tabulated, the student body is drawing strong criticism from all corners for its disappointing response at the polls. Admittedly, forty percent of the student body is a poor turn out, especially in view of the fact that the evaluation was offered over a three-day period.

Nonetheless, student leaders are tirelessly working to salvage some benefits from the evaluation. Plans are being formulated to publish the results are being stymied by factions in the administration who claim the right to prevent publication. With whom does the right of publication lie? Can certain members of the administration render weeks of careful, thoughtful deliberation on the part of the evaluation committee — the sole purpose of which was to benefit the students — useless?

The evaluation has been devised and executed almost completely by students thus far. Student leaders should be allowed to carry through with their plans for publication. In a matter of even greater consequences, it does not seem that the administration has any basis for its presupposed power of control over the question of publication.
Dear Sirs:

Now that the long awaited and apparently much feared Political Science Comprehensives have served to replace the Graduate Record Examinations as a Departmental requirement, I would consider the best of all. It is evident that many topics studied are forgotten over a period of months. These examinations could be turned into a rich source of political Science is supposed to be about. It may be well to remember that the knowledge body of humanity which has already been taken examinations could be kept at the same time at which the exams are administered, are at, best, depressing, and an indication of the extent to which organized chaos can extend. The attempt to cram them into two hours twenty minutes, where the demonstrable benefits of examinations can be in any way emphasized, is not.
Summer Management Intern Program
Beginning to Recruit Talent

As a response to the intense competition among business firms to recruit college talent for the summer and beyond, Providence College initiated what is formally designated as the Providence College Intern Management Program (PCIMP). In essence, the program's intent is to assist students in obtaining employment for the summer and, at the same time, to assist most qualified students in the very fabric of corporate management during the summer and/or during the academic year.

Credited with giving the PCIMP its initial impetus is Mr. Raymond Thibeault, director of the college Placement Office. Mr. Thibeault originated the idea of such a program for the school and mustered student support to staff a committee which would attend to the myriad details of arranging interviews with personnel directors, screening student applicants for the program, and sending the PCIMP with as much publicity as is possible a viable and effective program. The bulk of this work is presently being handled by a sub-committee of ten under the guidance of Mr. Thibeault. Currently, this sub-committee of the Student Senate, if successful this summer, will expand the student staff and the scope of its operations. All interviews will be independent of both the Student Senate and the Placement Office, and will be extended to meals at meals upon obtaining a permit to fill in for Father Cunningham until his return. He did announce, however, a change in the policy that will be extended to meals

Commenting on the change, Father Cunningham stated that it is the result of a suggestion made at a recent meeting of the Senate Council. After consideration, it was jointly approved by the Committee on Residence Life and Father Cunningham. Students will be allowed to entertain women guests at weekend luncheons and dinners on an experimental basis. If the full cooperation of students is forthcoming, the policy task will be to fill in for Father Cunningham until the end of the academic year.

As a result of the change, Father Cunningham emphasized that "this school is in a transitional period. More and more 'authority' are coming from the East and West Coasts and we find that they are clashing with the instruction and discipline of the school. Northerns students just are not used to doing things the way they should be done. It is possible, but even the most nestled system could merely point out a good showroom."

"They tried a system of using the top 10 percent of the student body to do the evaluation — this can't work either. In a sense then the teacher is failing 90 per cent of his students I am not in favor of such a system.

Fr. Johnson New Residence Head

Father Christopher Johnson, O.P., a 1959 graduate of Providence College and a member of the Sociology Department, has been appointed acting Director of Residence. He replaces Father John Cunningham, O.P., who has resigned effective May 1.

Because of the nature of his appointment, Father Johnson de­lineates the possibility of any change in the policy of the Director of Residence. This is in accordance with the policy that the task will be to fill in for Father Cunningham until his return and, therefore, a change in the policy will be extended to meals at meals upon obtaining a permit.

Commenting on the change, Father Cunningham stated that the plan was made by the committee and would be extended to meals throughout the week.

Weird Listening With Budd and Gerstel

The program is conceived on the basis of reciprocal benefit to both company and student. From the standpoint of the participating companies, it will establish a headstart in recruiting qualified employees for their permanent staffs since many are still juniors in college. Furthermore, it ac­cords to the fact that interns are selected from the junior class in that these students will be returning for a final year of college during which they will undoubtedly convey to fellow students any favorite impressions received from the previous summer's employment with a particular company. Providing a year of experience in corporate management and which will provide the student with an opportunity to implement his education in a corporation, the program of the PCMIP is a carefully selected under­graduate student for the purpose of giving the student ample opportunity to make a meaningful and edu­cated decision on whether or not a career in business manage­ment and with a particular company is compatible with his character and personality. A reasonable degree of responsible and extensive training in management is provided the student.

Prospective management trainees are selected by the pro­gram's executive committee which judges a potential candidate on the basis of a general criteria reflecting evident leadership, academic achievement, facility in writing and speaking, evident interest in sociology, and suitability of character and personality. A listing of students deemed ac­ceptable according to the above criteria is then forwarded to participating companies, and from this list of recommended candidates, the company will make the final decision on whom it wishes to employ.

International Relations Club Represents Spain at Model UN

The International Relations Club recently presented Providence College at the National Model United Nations in New York City.

In preparation for the convention, held Feb. 15, 16, 17 and 18 at the Statler Hilton Hotel, was attended by more than one hundred and fifty colleges and universities from all over the United States. The purpose of the National Model United Nations is to expose the students to the actual working conditions of the real U.N., which operates about two hundred and fifty colleges and universities from all over the United States, and to provide them with a fuller understanding of the United Nations.

The Providence College delegation consisted of fourteen International Relations Club members. Led by IRC President James Hosley and Delegate Co-ordinator Don Ryan, the delegation consisted of seniors Paul Germain and Bob Blanche, juniors John Hagan, Bill McGillin, Steve Nelson, Bill Killean, Jim Greene, Bob Smith, Andy Dorman, Mark Michaels, and sophomores Don Stanek and Jim Schaeffer.

Student observers accompanying the delegation were Bill Molloy, Jack Cassidy, and Greg Haywood.

Each school attending the N.M.U.N. is assigned a nation and views of the community. The Providence College delegation was selected to represent Spain at the United Nations building or one of the ballrooms at the Hilton.

General Assembly Plienary meetings, to which the resolutions passed by the various committees were read for a vote, were attended by the delegates in shifts since over two thousand people in one room was rather burdensome.

In addition to these activities which filled the convention, there was a banquet and dance on Saturday evening for all who wished to attend.

\'The Winds Thy Messengers\'

How a group of college students left their classroom and discovered a meaning of relevant worship, and what they found, was shown in a special worship service Saturday afternoon at 5 p.m. in Harkins Auditorium.

The unusually creative program showed the results of seven year's experimentation and evolution by students at the University of Michigan. The program was conducted by the Rev. William J. Carey, O.P., president of the Great on the campus of New Mexico State University at Las Cruces.

Led by Fr. Blase Schauer, O.F.S., who is on a nation wide speaking tour, the students found a means to integrate their experiences and vocation into their worship as they explored the meaning of feast day and liturgical season.

The production used the latest in multi-media technique. Three screens were used, on the center screen, the main actions took place while the screens on either side provided close-up views and other details. The pictures were the result of the ten thousand that have been taken over five years.

A cast of twelve speakers filled the auditorium with the texts, songs, and background music that has been recorded in stenographic sound. As well, the program included a monumenal that added to the production an additional touch of spectacular. It is composed of men with top financial, managerial and legal experience.

It is read in accepting the chairmanship By. Mr. Gifford told the Council that its work will be vital in the years to come in light of academic and physical development plans formulated for the College for the next ten years.

"Near the 25th anniversary, Providence College is embarking on an unprecedented expansion of facilities and resources. The College's commitment to society demands it and we must accomplish it without a compromise," Mr. Gifford said.

In the November convention an announcement was made of a scholarship that will cost 237.7 million dollars. Included in the plan are a library, student union and additional dormitories. The plan also calls for an additional endowment fund of 625 million dollars for faculty salaries and student aid.

A portion of the 237.7 million dollars will be raised in a capital fund campaign, the Heart of which will be announced in March.

Mr. Gifford has been president of the Providence Health Trust Company since January, 1963. He is a graduate of Brown University and has been active in numerous civic and charitable organizations.

Mr. Gifford is a former director of the B. I. Division of the American Cancer Society and served as 1964 general fund chairman of the Episcopal Charities of Rhode Island. He was general chairman of the United Fund of Rhode Island for the past five years, and served as the national director of United Fund campaigns.

In addition to the six General Assembly committees, Providence College sent representa-

GOOD WORK P. C.

Fr. Murphy Congratulated For Response to Heart Fund

The Office of Students Affairs has received a congratulatory letter from Lt. Governor of Rhode Island Heart Association for its role in organizing an Emergency Heart Drive for Heart Sunday last February 24.

The drive, which employed volunteers from twenty-two schools, was organized by the Reverend James Raap, Ph.D. with the assistance of Mr. Arthur Newton, Frank and Andrew Heath, and Mr. Dennis McGovern.

Mrs. Robert E. Barrett, Provost Chairman of the Heart Drive, informed Father Murphy in her letter that the Providence students had collected a total of $163.16. "This sum helped tremendously to increase the total reached in Providence on Heart Sunday," she said, "and I wish to express the gratitude of the entire Heart Association for its efforts."

In addition, each Volunteer received the thanks of the local community for the outstanding efforts. Mrs. Barrett stated that it was her hope that the certificate and thanks would be "an appropriate expression of our appreciation to and admiration for each of them."

MR. CLARENCE H. GIFFORD

Enthusiasm of PC Glee Club
Noted in Concert with Annhurst

This is hardly an excuse for lack of professionalism.

A refreshing break was a group of girls from the Glee Club who go under the name of The Silvans. These girls afforded us a selection of contemporary songs in a lively beat and in excellent taste. No doubt they are the best singers in the Annhurst Glee Club.

The Providence College Glee Club filled the rest of the afternoon. The first three songs were typical of what this group can do under the direction of Rev. Raymond B. St. George, P. F. These men really enjoyed what they were doing and consequently surprised many people who were not expecting anything so skilful or so satisfactory.

"The Pasture" Frontispiece is worthy of note since it incorporates such a change of tempo and vocal range as to make it outstanding as well as entertaining.

The adaptability of the Glee Club was proved by their rendition of "Doo Saraphim" on the Boston Harbor. Here the men of the PC Glee Club demonstrated their songs of recent vintage, which were a refreshing break.

"(Continued on Page 10)"

New Moderator Named
For Present Senior Class

The Reverend James Murphy, O.P., Vice-Rector for Student Relations, has announced the appointment of the Reverend Paul Walshe, O.P., as interim moderator for the Class of 1968.

Fr. Walshe, a native of the Rev. Thomas Fallon, O.P., who is presently continuing work on his doctoral dissertation in Theology at the Dominican House of Studies in Washington, D.C., will serve as class advisor for the duration of his term, and then return to his current duty as chaplain of the college.

In other recent appointments, Fr. Murphy named the Reverend Richard McAllister, O.P., to serve as moderator for the Providence College Camera Club and the Reverend Giles Dimock, O.P., to fill the post of faculty advisor for The Veritas. Mr. Joseph Krys of the mathematics department will assist Fr. Dimock in working with the yearbook staff.

Fr. McAllister is an assistant professor of art at P.C. Fr. Murphy feels that his background in the arts and his interest in photographic work, should be of great benefit to the Camera Club.

The post as moderator of The Veritas was previously handled by the senior class faculty advisor. Fr. Dimock will continue in his post of yearbook advisor, a permanent basis, thus allowing the senior moderator to devote his full time efforts to other class activities.

Fr. Vanderhaar
At Love Feast

Father Gerard Vanderhaar, O.P. of the Religious Studies Department, held a discussion on the "Liturgy and My Neighborhood", Saturday, March 2, in the conclusion of the two day conference.

The feast, or more properly "agape," was a distinct feature of the conference. As was the case in previous years, it was a common meal with deep religious significance. It was observed at the conference with prayers, songs and Scripture readings, and was a moving experience for all who attended.

Placement Crier

March 7—G. FOX & COMPANY will interview for accounting, business trainees, merchandising.

LEESONA CORPORATION will interview for business trainees, data processing, production, sales.

March 11—UJOHN COMPANY will interview for sales.

BURROUGHS CORPORATION will interview for sales.

S.S. KRESSE will interview for business trainees, merchandising.

DICTAPHONE will interview for sales.

The recently held seminar for juniors and underclassmen will be held again on the fourteenth of March at 2:30 in Angell Lounge.

Possibly, the Lowell Institute will repeat their "Theatre Audition" program as a professional demonstration.

Following is the Dean's List for the Spring Term of the Class of 1968.

had gift committees and have conducted the initial solicitation and follow-up primarily by mail. The money realized by each of the classes has been placed in savings accounts or invested and at the end of the five year period will be turned over to the college and a suitable class memorial designated.

The five-year class gift plans have proved to be extremely beneficial to the college while being well accepted by the participants.

These programs have resulted in raising the giving levels, particularly of other Alumni and the total receipts of the annual Alumni Loyalty Fund Drives. With this impressive record of financial success and the proven desirability of this type of program to the participant, the five year plans have attracted much interest from other schools, including Providence, Dartmouth, Yale and Harvard. These are studying the possibility of instituting similar programs.

Also Father Morris, Vice-President of Development, was asked to present a paper on the Providence College Program to a New England Conference of the American Alumni Council.

Pucksters Finish Season With Oust of Boston U.

By PETER MEADE

The 1967-68 Winter Sports season will long be remembered at Providence College. It was marked by the record amount of firsts, high scoring efforts, the heart-breaking defeats of the Mullaneymen, and the third straight losing season for the pucksters.

In the Basketball season, the Friars along with the rest of the country, saw the heyday of the three point shot. The Friars could have taken possession of twenty-five points to add to any scores of the past season, the Friars would definitely have been NIT candidates. Lack of a high, consistent scorer hurt the Friars this year, but help is on the way from the sophomores and freshmen ranks.

Jimmy Laruranga, Bill Walsh, Vic Colucci, Junior Ferro, and Mike McGuinn will be the frosh standouts moving up to the varsity. These will be combined with holdovers Andy Chry, Walt Vlieland, Skip Hayes, Craig Callen, Gerry McNair, Jay Conway and Tay Walsh. Looking ahead to next season it appears that Coach Mullaney will have more depth at each spot than ever before. Ray Gaffney, and Tom Sheehan will provide even more offense which will be combined with Sampson and Mike Leonard will be the high scoring duo. These will be supplemented by Wesley Unseld, Louisville; Merv Larry Miller, North Carolina; Skip Hayes, Utah and Jo Jo White, Kentucky. The Providence College basketball team played a tough season with a 1-4 season on a sad note as it suffered a 141-1 maturing from the loss to the University of Terriers. Before this defeat, the Friars were being led by senior captain, John Tibbetts, who was called upon to try to tie the score, when center John Tibbetts broke in alone on Soph goalie Jack Feeney. However Feeney was able to get off the colorless Tibbetts’ attempt at the equalizer. The Friars, however, did play laudably in two games out of the season. They scored four goals and one assist and tied their line of John Tibbets and Fredly Costello who each netted two respectively.

The Frosh hockey squad stumbled out to an early 3-0 lead in the second period. The Providence College Frosh features three seniors, Badyk, Pumple and Sheehan each had two goals and one assist. The Friars however met no success in regaining command of the game. The Friars main highlight of this trip was the play of Larranaga and Collucci both became the two best in recent years and as a result next year looks much brighter for the varsity. The Friars however did still outscore the competition in nine games and they had a batting average of 24 runs per game. On the other side of the ledger, however, the Friars’ charges have yielded in the team of St. Lawrence and a 11-3 loss to Clarkson. The Providence College hockey team was the play of their goalie, Jack Sanford. Within the year long he has had to shoulder the rebounding load for the team. Jack thrilled and captured the heart of both the fans and opponents by standing ovations throughout this tourney. Jack thrilled and captured the heart of both the fans and opponents by standing ovations throughout this tourney. Larranaga was tabbed as a sub for Ray Badyk and Rich Pumple once scored on a great individual effort from poor outside shooting. However, the Frosh opened up midway in the second period. The Providence College Frosh has prospects for a return to power. How-ever, the Friars opened up midway in the second period. The Providence College Frosh has prospects for a return to power. However, the Frosh opened up midway in the second period. The Friars however did still outscore the competition in nine games and they had a batting average of 24 runs per game. Frosh Have Prospects For 1968-69 Varsity

The Providence College Frosh hockey team completed a very successful season with a 9-5-1 record. This was surprising by a stubborn Brown quintet, 83-85. The game of Abington was not good in half, in fact, the young Bruins held the Friars to a 2-1 defeat. Much of the Friar troubles resulted from poor outside shooting. In addition, the Frosh opened up midway in the second period. The Providence College Frosh has prospects for a return to power. However, the Frosh opened up midway in the second period. Four Straight Losses Mean Losing Season for Friars

The longest PC hoop campaign ever season filled with occasional ups, but far too many downs, reached a disappointing close. The Friars, who had once back the Friars' comeback, and guarded Joe Mulaney's first losing season at Providence.

Falling on a disastrous trip Coach Mullaney rallied his troops to three straight victories and turned their nerves. In the second, they turned the bermruline cold project to his own advantage and had the guard throw the ball into Andy Clark, who hit a long shot in the middle of the backcourt. The zone would converge around the middle leaving both sidelines open. A quick pitch to either side was result. They were in 3-2 behind.

The Friars opened the big home stand with an 85-72 victory over a small but hustling Canisius five. The game was highly competitive and making of Skip Hayes, who directed the late game offensive, and John迎来了 second of Craig Callen. Callen was deadly with his medium range jump shot and scored 24 of 23 points.

Bob Crooke in 4:21. PC's Chris 28
in the mile, the Friars nearly missed sending the 1000 yard in 2:13.9. The Billingsley relay entered. For seniors Franzak and Gaven it will be the last chance to run the times they need in order to qualify for the NCAA championships in Delaware.

Rifle Team Places 4th in Its First Annual Postal Tournament

The Providence College Rifle team has just completed its first annual Providence College Invitational Postal Tournament. These postal tourneys are unique to the shooting sport. In these matches the sponsoring organization sends marked targets to each of the participating schools. The targets are fired on at the participant's own range and returned unscorred to the sponsor. The sponsor then scores the targets, compiles the totals, and sends out the awards.

The PCIT was won by Montana State A with a score of 1340 followed by Tennessee (1347), Maine (1297), PC (1285), St. Mary's University (1230), Montana State B (1237). PC declined the award and passed them on to the Montana State A team. In all many five colleges took part in the event.

At the 1963 Intercollegiate National Sectional tournament held at the Connecticut Academy in New London, Conn., last Saturday, the rifle team made an excellent showing by registering a second place finish.

The first team consisting of (Continued on Page 10)

Jack Sanford Selected as the COWL Player of the Week

Sophomore Jack Sanford has been chosen COWL Player of the Week based on his many outstanding performances during the season. His goals against average was 5.11 per game which is not outstanding in itself, but weighted by an average of 44 saves per game and the knowledge that they were mostly from point blank range, it is amazing that his goals per game average wasn't much higher.

Jack had his first start in the second Brown game and recorded 4 saves and allowed five goals as PC lost, 5-0. His first ice time as a varsity player was also against the powerful Bruins. In that game Sanford played the third period and gave a preview of his outstanding season. He stopped 25 shots in the 25-minute period while allowing only three scores.

After this it was one great performance following another. Northeastern-45 saves, many from point blank range in the final two minutes as he led PC to a 2-1 victory. Against Princeton he lost 5-2 on two breakaway goals and a rebound score after leading 10-0 for the first 50 minutes. His high save games of 63, 60, 56 and 52 were against Boston University, Boston College, St. Lawrence and BU again.

In the St. Lawrence game Jack received a five minute penalty for the first time as a varsity player, spending the time in the penalty box. He was one of only four bloody and a rebound score after leading 10-0 for the first 50 minutes. His high save games of 63, 60, 56 and 52 were against Boston University, Boston College, St. Lawrence and BU again.
