Efficiency Key to Congress

by Danny Lebrun and Bill Dominski

Efficiency—that's the key word this year from Providence College's Student Congress. At the group's first meeting last Thursday evening at the "Red Roof Inn," Dr. Leary, director of Governors (BOG), which usually allot funds to campus organizations, failed to apportion the money because they had no record last year of any football appropriations. The money had been given at the end of the previous year. The club, therefore, needed the money to survive. After a good deal of talk, a number suggested that both the BOG and the Student Congress contribute one thousand dollars for the interim support of the Football Club. But discussion from this only led to whether the athletic bond would be enough or need two thousand dollars. Finally, after the debate, the Student Congress voted unanimously to have the Executive Board, in conjunction with BOG, investigate the team's probable life span and decide on that basis whether to hand out the money. As Mr. Kelly noted during the discussion, it is Congress policy to help any organization that is in trouble, but justifying the allocation of money to a small group of people suggests making the case for the club. Nonetheless, the question of priorities involving the football team will have been decided by the end of the week.

Other matters brought up at this first meeting of the Congress were the approval of balcony basketball season ticket holders (as opposed to chairs on the floor); the quick dispensing of perennial affairs for congressional operations (office hours, committee meetings, time and place for fiscal matters, etc.). Mr. Kelly stressed the importance of good housekeeping of files in the Congress room. It was further pointed out that both are concerned group of families and friends that there would be a noticeable change in the participants upon their return in July. To give everyone a thirty minute slide show and running commentary. He reminded them of the "inevitable "culture shocks" involved, he told them. The unity of the students, in a very clear that this year's group would undoubtedly experience something "different" in the line of change. It was further pointed out that the interim support of the Football Club...
Women's Law Caucus
Convenes in Syracuse Seidenberg Talks

SYRACUSE, September 7, 1972

Last week's women have started asking questions about the law and its expense. Why are prostitutes convicted of certain crimes while men who patronize them almost always let off? Why will employers still pay women less than men for the same work where they can get away with it? Why don't those who know their "rights"?

The answers may come — a male dominated legal system which makes very definite assumptions about the "right" sex (the males) and the "wrong" sex (the females). Despite a recent influx of women into the law schools, the number of women actually practicing law still remains small (nearly three per cent of all lawyers).

In an effort to attract more women into the legal profession, the Women's Law Caucus of the Syracuse University College of Law has arranged for a conference for all interested women Saturday, September 23 from 9-11 a.m. as part of the Grant Auditorium of E.I. White Hall at the University.

Judge Nanette Dembitz, the first vice-president of legal affairs for the Women's Law Caucus, says the program will end with a wine and cheese party.

Although the Women's Caucus does hope to attract more women to Syracuse, the primary focus of the program will be to introduce women to the legal profession as a whole. During breaks between speakers, women from the law school will be available to talk with the women who attend. Applications to take the Law School Admission Test, as well as applications from many law schools will be available.

Free day care as well as over-night accommodations for those arriving Saturday night will be available for those who need it. Women who wish to attend the Saturday night event are asked to write to the Women's Law Caucus, Syracuse University College of Law, Ernest I. White Hall, Syracuse, New York 13210 or call 315-445-3746 after 5:00 p.m.

After a hectic week of freshmen orientations, the members of the Board of Governors is busy once again. The members are needed and will be for the remainder of the semester. It is most important that this schedule be filled soon to avoid any possible confusion.

The major events committee is currently involved in which is the last little bit of the program somwhere in November. Bill Russell, of Boston College Fiat ex is scheduled to speak on October 11. Post basketball and football game parties will for the most part, sponsored by the Social Committee. Also on their agenda is a basketball game against the University at the end of November, an all night film festival, and a "lock-in" for the women.

The Finance Committee is sponsoring a bus trip to the Thruway in the beginning of the month, and a trip to the National Ballet of Canada in the last week of the month. They are now looking at some other group that will have the opportunity to perform their music scheduled for sometime in November. Their semester ac-

BOG Schedules Varied Events: Ballet, Music, Portable Circus

Executive Committee: Robert C. Godin, President; Jean Cedron, Vice President; A. Charles Schill, Secretary; Ronald Saunder, Treasurer; Ronald DuPline, Assistant Treasurer; William E. Cech, Editor; Richard Lataille, Chair of the Board; Robert Woods, Chair of the Finance Committee; Ed Kelly, Chair of the Bulletin Committee; William M. Godin, Chair of the Student Services Committee; Jay Viesner, Chair. General Committee.

The Board of Governors has also listed the appearance of the student concerts clubs for this semester. Each club will have one act play, Hot, of their activities for the next two months. They will also introduce to this college an entirely new form of entertainment. They will have one set of electronics and music scheduled for sometime in November. Their semester ac-

CHRISTMAS SEALS

An SOS for typos was issued by Woodside and Randolph Matney. Each week they will recruit members from the administration staff, and students of the Evening School. Encourager can be obtained at the following hours: Monday to Thursday from 3:00 till 3:30 and during the week-end.

Some very special music shows have been featured this year. On Wednesday night, Charlie Drago returns with his Jax show. So play it cool and give him a listen. On Sunday night's it's time to put on your leather jacket and some of the greatest soul groups this side of the Sugar Shack.

Throughout the day WDOM will be broadcasting news of what's happening around the campus and around town. If any organization has anything they wish to broadcast just drop us a note and we will broadcast it. Don't forget to let us know the full details about your event. Address all requests to the Public Service Director.

If you don't have time to stop down to the studio just give us a call and let us know what we have to do. If you don't have the time to work at least join us by listening to us. Remember to call 315-445-3707 at 10:30 to 11:00, and 11:00 till 1:00. WDOM is back on the air every day of the week.

In case you haven't heard, Ed Kelly has returned from his West Coast vacation, and will open the show on Thursday nights from 7:30 to 8:00. He will be followed by "Portable Music" and "Drink of the Day," with "Broadway Reviews" and "Original Music" as the main events. WDOM 91.3 Returns to the air on November 8.

WDOM 91.3 Returns to the air on November 8.

WDOM 91.3 Returns to the air on November 8.

The COWL
Signing up for Army ROTC in college is no big deal. No major commitment. All we'd like you to do is give it a try. Take the Basic Course during your freshman and sophomore years. See what it's all about. You'll find that it's only a few hours a week.

That's not going to get in the way of classes, study, sports or other activities. At the end of your sophomore year you'll know for sure.

If you decide to go on with the ROTC Advanced Course you'll be paid $100 a month during your last two years of school.

You'll also be earning your degree and commission at the same time. It's even possible for you to go on to graduate school. Then serve as an officer later. Check out ROTC now.

Army ROTC. The more you look at it, the better it looks.

CALL 865-2471.
BOG Praised

After casually perusing again the schedule of events the BOG has run already this year, a great amount of praise and thanks is in order. Seatrain had to be the highlight of many a persons week but it seemed every night there were things to do and places to go, a far cry from previous years. Sending buses to Godspell and the scheduled trip to see the National Ballet of Canada when it performs in Boston if they are indicative of what will continue, so opportunities too rare for one to reject.

Interest on the campus in this increased social fare is active and most people are responding with enthusiasm as the BOG takes the wind out of the old adage "There's nothing going on tonight except a mixer." Several concerts are planned along with the beginning of what will hopefully be an interesting speaker series. Poetry reading and plays will also highlight a number of activities. Instead of criticism a well deserved thanks is in order.

Football Club

The Football Club is in dire financial straits. Funded entirely by students through ticket sales and other student run activities, the organization as such, receives no money from the college. Last year's team, so successful on the field nonetheless was not supported to the extent that it should have been by the Student body. People on the Student body. People on the Football Club put in many hours with no recompense financially. There are no football club scholarships. It is an action totally motivated by the individual's desire to play, a noble aspiration.

The costs of running a football program are enormous and can explain the college's reluctance to directly fund such an organization. However insurance costs run along with uniform costs and other expenses and without help from the school the club is dependent on the remainder of the college community for its livelihood. As we went, would regret the death of such an organization, run by dedicated students, the Cowl urges the student body to take a renewed interest in this organization and support it as best as possible.

MEMO FROM THE EDITOR

Once again it's a drift back three years but on an optimistic note this time. Remember Beanie mixers? How about vigilante committees demanding various stupid statistics from freshmen, now only something out of the past. Instead an attitude of respect for the new student as part of the individual rather than an allowance of the academic and social, seem to assume a maturity on the individual is inducing and first week activities, both about vigilante committees demanding various stupid things keep on occurring on all fronts of college life then we may soon have a true Christian College Community.

ATTENTION FRESHMEN

The Counseling Center Staff will hold a Make-up Session on Thursday, September 21, 1972, in Harkins Hall Auditorium, at 12:30 p.m. You are encouraged to attend if you failed to participate in the tasting during Orientation Week. Counseling Center Staff
The Dump Singer’s Manifesto

Dan Lebran

"I’m proud of you, PC. Soon, with all the diligence on the part of you all, the campus will be the most beautiful in the world. Only through the concerted efforts of the student and faculty dumps has this great achievement been accomplished. The campus must be cleaned up hurry and please — throw some trash away in the lounges and generally make Mess! Success is around the sewer! And to think, the PC community has done it all. I am so proud of you, Providence College!"

These laudatory words heaped upon us and coming from the head of the Campus Dump Committee were an impressive PC is setting in un­sanitary circles. The debits shrewd about campus — beer bottles and cans, food wrappers, newspapers and the like (of course) — strips the lounges to near nakedness, a simple joy to see, and the useless destruction of school property. For example, a new dorm elevator that lost its line of sight was torn down again as well as dirt pathways that once were punctilily carpet-like — which allowed a glimpse of the inefficiency and sloppiness. Yes, we must work hard for the representation of PC as a standard of great school campus; this is, therefore, the praise that we deserve. In its latest tabulation, the CDC magazine itself, though only ten percent of our community partakes in the CDC, is therefore the praise that we deserve.

In a recent rebellious attempt to continue dumping, a Mr. I. M. Square requested equal time. Mr. Square, representing the practical efficiency: "How would you like if someonesteal uncover a trash barrel full of waste in your concept? Or perhaps上报 trying to break down a door? Would you go out to see who made the noise and proceed to have a friend of your choice get that what’s your doing every day."

In the interest of our answer, Mr. Square was put into the clutter and CentOS this campus, a disrespect that inevitably stems from a lack of concern among the PC and friends and classmates included. The responsible actions must be taken, everybody, "Are you blind?"

After this fanatical outburst, Mr. Square was of course immediately finished Poor, complete and whole. But back to the good news: Continue dumping, raping, and stealing. The President will evilese the desired responses. Remember the CDC is nothing without you.

Elton’s Best

Joe Osborne

If what the pollster tells us correctly, the upcoming election with between sixty and sixty-five per cent of the vote cast, we can say that we have scored the largest landslide victory in American political history. To date, Lyndon Johnson rolled up the largest per cent total in any election. When Humphrey defeated Goldwater in 1964, he received 49.5 per cent of the vote. In fact, in the last fifty years of American political history, there has never been another instance when a candidate received more than fifty per cent of the vote in 1968, 1980, or 1984 as PC in 85.4 per cent of the vote. It stands to reason that if a candidate receives such a total of the vote then it is an indication that he is doing a job and that an election is merely a vote of confidence in that candidate.

The only other time that would indicate that the populace approves wholeheartedly of what the candidate has done surely the cases of FDR in 1936 and LBJ in 1964 prove this theory to be correct.

In 1980 there was hardly any way for FDR to be beaten; his record was up the largest. We were all in mind that there is a lot of anti­FDR votes. On the ability in 1960 election proceeded such incidents as trying to pack the Supreme Court, the likelihood of another administration, marked by the 1960 election, was highlighted by social security and public works projects, harmful to the American people that they demonstrated by his overwhelming victory.

In the other instance, after the shocking announcement of death of John F. Kennedy, PC was in the midst of the presidency and showed American confidence in the political power that had been demonstrated only briefly in our short history. The only other time was, fitting enough, during the first term of JFK, when the new legislation in the areas of health, education, and social security and welfare, Lyndon Johnson showed Americans what they could do when he was in the White House.

With the combination of many legis­lation projects and Kennedy's death, the many Kennedy sympathizers who voted for him, LBJ was able to take back the plurality and per cent total in American history. As a result, there was a sudden control of the country and steer it through the turbulent times. It seems to me that Johnson warranted the support of the electorate.

It is here though that the question lies; Does RNM with Johnson’s record deserve such a large plurality that he has? Yes, we cannot deviate from the deletion of George Wallace as a vote getter adds to the vote total but not when the people have come under control. The President tells us that people are voting not because they want the public works but because the President gives them the right to vote.

Richard Nixon and his many aides have accomplished a feat which is not within the CDC’s nature. They have, in the short period of time since the China trip, completely changed his image and subsequently the issues of the campaign.

For two and one half years PC has been the man who had shaved up at a formal dinner party in his best sport shirt and tie. Richard Nixon was indeed a misplace man. He seemed to be one of the type that for that less than one half of the people who voted in 1964 for him. Complaining the Mitchell image, the President blundered repeatedly through his term in office. Starting with Haywood and Cardwell, Nixon’s back ing of the people for changing, and then, the people the public heeded. The historic campaign, the call to the country, the people, the President was sick for the President errors.

If things continue as they are going, Senator McGovern is, in a very insignificant, tributary to say, PC will continue to walk in the same path. His record; the fact that PC has been able to take into the East coast and to say, PC has been able to take the primary in the Midwest. PC has been able to take the primary in the Midwest. PC has been able to take the primary in the Midwest. PC has been able to take the primary in the Midwest. We have not been as PC

Land Purchase Desired as Chapin Hall Opens Again
by Douglas R. Bourdon

Once a nationally known children's hospital and today a research hospital and care facility, the land which Providence College owns is of great historical importance. Its story is inextricably linked to Providence College. The story begins with Chapin Dormitory. The first dormitory at Providence College was built in 1907. It was a three-story building located on the campus of the College. It was constructed to house the students of Providence College. The dormitory was named after Dr. George C. Chapin, the first president of the College. The dormitory had a long history of use, but it was eventually replaced by a new dormitory in 1972. The new dormitory was named Chapin Hall.

Chapin Dormitory was first established in the 1900s as a hospital. It was later converted into a dormitory for the students of Providence College. Chapin was one of the first dormitories to be built on the campus of the College. It was constructed to house the students of Providence College. The dormitory was named after Dr. George C. Chapin, the first president of the College. The dormitory had a long history of use, but it was eventually replaced by a new dormitory in 1972. The new dormitory was named Chapin Hall.

Track cont'd.

they had been top competitors on last year's team. However, he cautiously remarked that ten of twelve lettermen would be returning. From this group of ten or so runners Coach Amato is counting on two sophomores to lead his team—Tom Smith and Chick Kasouf. Smitty was number two man on last year's squad behind Speck and is expected to have no trouble moving into the number one position. However, Chick Kasouf and the rest of the friar runners will not be far behind. As Coach Amato emphasized, "Our top five runners must be very close. This is the key to a successful team. At the beginning of the season I hope to have the top five men within sixty seconds of each other. By the New Englands I want an even smaller spread of about 35-45 seconds between the first and fifth men."

After reviewing the roster it seems that Coach Amato has the talent to accomplish this difficult spread. In fact, Mr. Amato feels that the top five spots on the team the top five men score in a cross country meet are still up for grabs. Besides Chick and Smitty, Dennis Swart—indoor mile ace. Mark Harrison—an extremely strong runner. Brian "sliver"—a New England class s—miler. Bruce Derrick—a tough competitor. Mark Ambrose—the gutsy captain. Mike Koster—greatly improved over last year. Mike Griffin and Jim Geauchan coming off serious injuries. Bob Potter and Kevin Kenyon—both in good condition. Mike Carroll are three promising freshmen who will make up the remainder of the squad.

It is this combination of experience—particularly the leadership of Captain Mark Ambrose—and youth which Mr. Amato feels is necessary for a successful team. This leads to my next question—just how successful will the team be? After reflecting for a moment a moment Coach Amato jokingly exclaimed — Very. He began by discussing some of the teams the Friars would be competing against noting that Harvard, Northeastern and U Mass were the top 3 teams on our schedule. "We must all meet the teams before the New England Championship meet. However we are not going to train specifically for those meets, especially since Harvard and U Mass are on Oct. 3. This is too early in the season for my runners to be in peak form. If they peak then, they may go downhill by the New Englands in November. So we'll meet there in preparation for the New Englands. Don't let me wrong, we will be ready but we want to peak for the New Englands — not until definitely though, U Mass, Harvard, and particularly Northeastern are the teams to beat."

From here there was only one question left to ask Coach Amato — the most difficult one — will P.C. repeat as New England Cross Country champs? "He turned to me, smiled, and confidently exclaimed, "YES." It won't be easy, but I have confidence in my team. I never have assembled a group of runners who want to win more than these. Even if they drop a dual meet, they'll be ready for the New Englands."

In conclusion, I would simply say that if the Friar runners stay healthy, no one will wrestle the championship from the grasp of this team. They are just too strong!

The Providence College Intramural Athletic Association has announced its formation of intramural touch football and tennis programs. The registration period for football runs from September 18 to September 24, and tennis is being offered October 1 to October 15. Forms are available in the Athlete's Equipment Room, Room 111, in Alumni Hall. Chartered clubs are requested to enter in advance, while freshmen and others are invited to organize teams on a concentration basis or representing a dorm or dorm floor. The roster limit is twenty men. In each competition, one hand-touch rules will apply for all intramural sports. All rosters must be in the Intramural office no later than 5:00 p.m. on September 27.

One question mark does exist, and that is the finding of a suitable field to play on. Several areas are under consideration and a site will be chosen in the near future. However, there is a strong possibility that the intramural schedule will have to work around any athletic teams using the field picked by the Intramural Office. With this in mind, rosters must be submitted by 4:30 p.m. for each day's team be fielded. As soon as space becomes available, a tournament is slated to get under way in the early fall. The contest will be open to all PC students, except those who have been members of varsity teams. Exemptions have until September 22 to register and they must present a complete class schedule on a class schedule card. Cards are available in the Equipment and Training Rooms in Alumni Hall. The first schedule of matches will be posted in Alumni Hall on September 28.

Forms are available in the Athlete's Equipment Room, Room 111, in Alumni Hall. Chartered clubs are requested to enter in advance, while freshmen and others are invited to organize teams on a concentration basis or representing a dorm or dorm floor. The roster limit is twenty men. In each competition, one hand-touch rules will apply for all intramural sports. All rosters must be in the Intramural office no later than 5:00 p.m. on September 27.

One question mark does exist, and that is the finding of a suitable field to play on. Several areas are under consideration and a site will be chosen in the near future. However, there is a strong possibility that the intramural schedule will have to work around any athletic teams using the field picked by the Intramural Office. With this in mind, rosters must be submitted by 4:30 p.m. for each day's team be fielded. As soon as space becomes available, a tournament is slated to get under way in the early fall. The contest will be open to all PC students, except those who have been members of varsity teams. Exemptions have until September 22 to register and they must present a complete class schedule on a class schedule card. Cards are available in the Equipment and Training Rooms in Alumni Hall. The first schedule of matches will be posted in Alumni Hall on September 28.
Friar boosters Joe Cabral, Emilio Mazzola, and Larry Witt prepare for "Kick off" game with Merrimack, Sat., Sept. 23, 1:30 p.m.

Coach Doyle Optimistic in '72; Action - Conditioning - Teamwork.

by Joe Caruolo

Realistically optimistic, that's the tone of the '72-'73 Friar soccer season. Coached by Bill Doyle in his fifth season at the helm, the team appears ready to kick off the season in full gear. Here's why:

With 12 returning varsity players as a nucleus, the Friar soccer forces are led this year by senior team captains Jim March and Dave Kacergius, both three year veterans. Other returning varsity players include Larry Witt, Kevin Haveri, Xavier Montenaz, Mike Pizzaro, Mike Suffiletto, Peter Shields, Jim Morgan and Tim Gilbride. With personnel like the above, no team in the league should be able to surprise the Friars in any tactical maneuver, but the question of success lies in the ability of the new varsity players to adapt to the tougher intercollegiate competition.

From what I have observed thus far in practice, the draft of freshman soccer players should produce a high calibre exciting brand of soccer. Coach Doyle stated, "They've all played high school ball for three or so years, or all have a good basic soccer sense. Comparing this group to my initial year's freshman, they simply have more to start with. A little emphasis on certain fundamentals and conditions will develop their potential in no time."

"New" to the Friars are Mark Cohen, Bob Bedard, Dom Diglio, Joseph Cabral, Kevin Dorgan, Carlos Indin, Walter Felag, Steve Logan, Mike Madden, Brian Smith, and Polino Ferroco. 72 prospects Don Mekieke and Sandy Farrel (both sat out their freshman year) are eligible this season and hope to pull down a spot on the starting roster.

HUSTLE..."What more can I ask of my boys but to hustle. My primary interest is to have my kids hustling 100%." This statement keys my interest to the fact that the soccer team is practicing on a double session basis. Seven in the morning and at two thirty-three in the afternoon. A total of three and one half hours is spent in pre-season in an effort to prepare the club in the best possible way. The team will utilize this time that we expect to run a full ninety minutes. Its vitally important to have the entire team - reserve or not - ready to run when called on," explained Mr. Doyle. From my own observation, the Friars appear to have re-claimed that combination of hustle and ability. They have shed themselves of that hesitation, the killing millisecond that allows the opposition to get that off-set advantage and lead the play.

Captain Jim March re-emphasized Coach Doyle's sentiments, "The team has a good attitude this year. We are scoring in practice, something we didn't do last year. Sure double sessions are rough, but we should be able to run hard for the entire game. The team wants to win. I think we're ready."

Walter Felag and Mike Madden will be the two freshmen shocking for the goalie position this year. Paul Sciera, last year's starting goal tendler will not be returning. With Paul's absence, a key position has to be filled. Felag (a Warren native) and Madden (nearby St. Rancis, Mass.) will need game experience, a fact that might be touch and go in the early season.

A.C.T..."Attitude, conditioning, and team work spell success," stated Coach Doyle. "With our old field the tentative sight of the new hockey rink, we have been moved to the baseball diamond. As far as Hendrickson is concerned, the field condition is excellent but the size of the field is what worries me. We have to get the game conditioning pushed in the limit to compensate the decreased field size and to stay in shape for away games."

The team is strong on the bench this year, probably stronger than any bench in four years. Emilio Mazzola, a sophomore halfback, ineligible last year, looks to work regularly in this year's line up. A sure ball handler with a booming shot on goal, Emilio lends new punch to the scoring threat P.C. must pose to win.

Preseason warmup is limited this year as the Providence boosters must only the German high school squad that is touring the Eastern United States this fall. This year's slate runs from Saturday, September 23 to November 10. We open with Merrimack and close with Fordham, this year's only addition to the schedule. Both, incidentally, are home games.

A good defense and scoring offense will be the key to success. The vets, eager to erase the '72 stale, and the Frosh, equally eager to prove their mettle, add up to an exciting ball team to watch. Hopefully, if we are free of injury, the team will deliver a strong performance with you the support. Attendance is always well received. Be there Saturday, September 23, at 1:30 as the Friars take on Merrimack at Home.

The schedule is as follows:

- Oct. 23 at Western N.E. 1:30 p.m.
- Nov. 4 at St. Michael's 2:00 p.m.
- Nov. 12 Bentley 1:30 p.m.

All home games will be played at Cronin Field and all games will be broadcast over WDOM.

P.C. Griddler Colonial Champs; Look to Repeat 6-1-1 '71 Mark.

by Bob Phillips

Coming off an extremely successful 6-1-1 season, the P.C. Griddlers seem to be looking towards the upcoming campaign rather optimistically. The team has been bit fairly severely by graduation. Last are All-Conference running back Vin McAvoy, tight end Buch Murray, defensive tackle Bill Magnante, and center Jerry Marrella. Also lost from last year's squad is co-captain linebacker Kevin Dorgan. However, Dorgan has returned to Providence to assist Coach Chet Hanewicz as a member of the coaching staff.

The losses look like a pretty tough obstacle to overcome. It would seem that the loss of McAvoy, one of the finer running backs in Providence history, would especially be a severe blow. But still the team looks towards a successful season.

Why? Well one of the biggest reasons has to be the return of senior Jay Sinatra, McAvoy's running mate of a year ago. Also returning is starting quarterback Brian Carey, a junior. Other offensive standouts include: 

- Sophomore running back Sal Giocolo, counted on to take McAvoy's spot, center Carmen Mortino, tackle Dave Lambertson, and wide receivers John Travonle and Sal Gulino.

The defense is headed up by defensive back Paul Brown. Paul led the E.C.C.F.C. in interceptions last season including an incredible five in one game against the University of Hartford. Other defensive standouts include: defensive back Ted Fitzgerald and tackle Mike Deans.

Another interesting note is the return of offensive tackle Billy Cowl. Cowl was a huge player for training at C W Post. This year Cowl returns to Providence and is welcomed as an addition to the squad.

The schedule is as follows:

- Sept. 23 at Worc. State 8:00 p.m.
- Sept. 29 U of Hartford 8:00 p.m.
- Oct. 6 Marist College 8:00 p.m.
- Oct. 14 at Stonhill 2:00 p.m.
- Oct. 20 Assumption 8:00 p.m.
