Fr. Walsh, DiNoia To Leave P.C.

by Peggy Martin

The end of the year is a season of goodbyes. Among this spring's Chaplain's Office of Providence College will bid farewell to Fathers Walsh and DiNoia, who will take their leaves of absence next fall.

Fr. Paul Walsh has been appointed to the Dominican House of Studies in Washington, D.C. This new position is a great honor for Fr. Walsh, as it entrusts him with the forming of future priests in the Dominican Order. Chaplain of the school since 1967 and an instructor of religious studies for the same period of time, Fr. Walsh has become known for his low-key, even helpful, approach to any problem.

Fr. Joseph DiNoia, Assistant Chaplain of P.C., has been accepted at Yale Divinity School to work toward his Ph.D. in Theology. His leave has been approved by the Dominican Province, and is pending approval by the President of the College and the Corporation on Rank and Tenure. However, it is almost certain that next fall, Fr. DiNoia will be researching his pending approval by the President for his PhD in Theology. His leave of absence has been approved by the Corporation and the College, and is pending approval by the President of the College and the Corporation on Rank and Tenure.

At the present time, plans for the Chaplain's Office for next year are still being formulated. Fr. James Gugile, the College's new Chaplain, has been appointed to the position. He will arrive on campus in August.

In the meantime, the role of Fr. Walsh and Fr. DiNoia is a real loss to P.C., because they were both great priests and human beings and worked exceptionally well for all. Their sentiments have been re-echoed by many others.

Bog Prepares Spring Weekend

by Rosemary Lynch

Providence College's social scene will be enlivened this forthcoming weekend by the largest B.O.G. production of the year, Spring Weekend. Much planning has gone into this four-day extravaganza, last year's offering of Father Day and Senior Class of '75 association. This year, however, the new organization will conduct the election. Students will be able to vote from 9:30 a.m. to 3:30 p.m. in the Lower Level of Slavin Center.

Voters will be asked to assign two points to their first choice and one point to their second choice. The key election result will be the total number of points, not first place votes. Students do have the option not to cast one point to their second choice, but Student Congress does not encourage it.

Miss Jackson is a resident student from Sauterstown, R.I. Mr. Silvestri is a commuter from Cranston, R.I.

Tenure Question Probed

The election will be held on Thursday, May 3, at 3:00 p.m., the other option for students with I.D.'s is $1, children under the age of 12 will be charged $1.50. Concession and novelty stands managed by the Senior and Junior Classes will add to the festive atmosphere.

According to the new rules, no student will be able to seek the help of others.)

It can also be noted that the College has always been an integral part of the college student's life. Despite the many faculty and staff members who are sometimes the problem, the Educational Board and the College are always a part of their lives. This college is too small for me to believe that all of us — including the administration — have turned into numbers and statistics. While we may not agree with all corporate decisions, I do not think that the students are not considered in them. The main problem is that the corporation is too far removed to adequately assess student needs and interests. This is why the student body has such an important responsibility.

Silvestri: I have had financial experience in working with the past year's budget of The Cowl and also in spending the budget for next year's paper. Also, I work with my father in planning the financial aspects of his business.

COWL: Why did you decide to run for the Student Seat on the Corporation?

Jackson: Active participation in college community life has always been an integral part of my college experience. I have had no 'official' duties so the Corporation Seat would allow me a chance to become involved with the Student Congress and the School and Administration in a major way. I feel that any member of the Corporation should have a good working knowledge of this school and its administration. The student member should also have experience in dealing with student problems since he or she will be the only member who can adequately represent student feelings and interests. Past experience has given me the knowledge needed as a basis to fill this role.

Silvestri: I've decided to run for the Student Seat on the Corporation for two reasons: Firstly, I feel that I need to serve the student body of P.C. in a greater capacity than that offered in my present position, and, secondly, I know that I can, as Student on the Corporation, represent the desires and opinions of the entire student body.

COWL: The Providence College Corporation is basically another big business. What experience do you have in matters of finance?

Jackson: This is a value judgment I am not prepared to accept. To be sure, the corporation sees the college as a business but the idea suggested by "Big Business Corporation" is one in which this community appears as nothing but numbers and figures, and decisions are made with cold, calculated, corporate right-reason. The college is too small for me to believe that all of us — including the administration — have turned into numbers and statistics. While we may not agree with all corporate decisions, I do not think that the students are not considered in them. The main problem is that the corporation is too far removed to adequately assess student needs and interests. This is why the student body has such an important responsibility.

Barbara Jackson, Corporation candidate.

Stephen Silvestri, Corporation candidate.

Silvestri: I have had financial experience in working with the past year's budget of The Cowl and also in spending the budget for next year's paper. Also, I work with my father in planning the financial aspects of his business.

COWL: What contributions have you made to Providence College?

Jackson: I have served one term in Student Congress during which time I was a member of the Ways and Means Committee and Chairperson of the Academic Research Committee. While acting in this capacity my committee and myself worked to clarify, research, and vote on a number of student concerns here at P.C. Problems, questions, and suggestions were brought to us by students and faculty alike. We were granted permission to set up joint committees with the Faculty Senate and the Dean's Office.

I present you with a number of the Class of '76 Ring Committee, the President's Ad-Hoc Energy Committee, the Student Social Council, the Aquinas Dorm Council, the Veritas Study Club, and the local member of the Freshman Orientation staff.

Silvestri: I have served on the Community of Providence College have been a Staff Writer for The Cowl. Presently I am Layout Editor of The Cowl and Secretary of the newly formed Controversy Club.

COWL: Do you believe Fr. Peterson should issue a statement of goals and policies of the College and if you do, since Fr. Peterson has not yet issued such a statement before, do you feel the students would be more involved with the President of the College, how would you, as a Corporation member, urge him to do so?

Jackson: Yes, I do. This was promised last year. Not only students but administration are calling for it. Last year, in conversation with Mr. Byron discussing the financial aspects of a three year graduation program, he explained the whole idea of economic life cycles. This type of program is needed for the College's financial endowment.

College Names New Registrar

Fr. Peterson, President of the College, announced last week that Fr. William J. Willey, Jr., a Dominican of thirty-two years standing, will be the new Registrar on June 1 of this year. Fr. Peterson, presently an Assistant Dean, will succeed Fr. Dillon.

In a memo to the administrative officers and staff department heads, Fr. Peterson praised Fr. Dillon for his many years of dedicated service to the College. "He has carried out his position as Registrar, with great effectiveness, patience, and wit."

Although Fr. Dillon is retiring from his position as Registrar of Providence College as a member of the Dominican Community.
to face if hundreds of suits were filed against it. The latter is the most likely reason for the university taking the action that it did.

Then again, some of the faculty members look upon it as being used for no other reason than being fired.

The Drans Case at Providence College has not received much publicity this year, but one can be sure that a number of professors would like to know right now what the court decision will be.

The club into the Rhode Island Chess Association, in which P.C. team posted a record of 23 wins, 15 losses and two draws, finishing second to Rhode Island College in the Minors Division. Chess team captain Jim Tattersall displayed his superior ability by leading the division with a 9-4 record. In summary, the team compiled a great record for its first tournament endeavor.

The Drans Case at Providence College, but may apply for annual reappointment until the age of 75, in other words.

The author of four books and a former German Lawyer in the United States, Dr. J. Joseph Hanley, said that in 1957 he was receiving a salary of $3,000, in other words. The salary that he said that they accepted low salaries.

To devote time to thinking and writing about your own world, to help fight hunger with your own hands, is the only true and lasting power that we possess. This is what we are about.

There are approximately five professors who are in the same position as Professor Drans. Some of them are much younger than the 69-year old French professor, and will have a number of years to prepare for their retirement. If, indeed, they are retired by the college.

The Faculty Manual states that upon reaching the age of 65, professors could be retired by the college, but may apply for annual reappointment at the discretion of the president.

Dr. J. Joseph Hanley, a Professor of Chemistry, just turned to this year and after applying to Father Peterson for reappointment, was granted it. Realistically, he could be granted it up to the age of 75, in other words. Providence College has no standard retirement age.

Corporation Candidate Express Views

statement was necessary to deal with problems arising from the present cycle and in initiating plans for the next. The Corporation realizes this need and in one sense acted on it by handing back the partial issue to Fr. Peterson's office. If the corporation strongly calls for this, Fr. Peterson will have to comply. As a member, I would strongly urge a statement.

Silvestri: There is a strong need for a statement of goals and policies of the college, and I think that Fr. Peterson should issue such a statement.

As a Corporation member, I would urge the President to issue a statement of goals and policies on the grounds that the statement will clarify the administration's position and goals for the entire community. Also, a statement of this nature will serve to open communications between faculty, students and the administration by alleviating the confusion which is present when either the faculty or the students seek the administration's stand on any issue.

COWL: What avenues will students have to bring their opinions?

Jackson: All present means of communication and in addition I would urge for some type of seminar to educate students on corporate activity and functions while bringing student problems and ideas into the open.

Silvestri: I plan to seek student opinion rather than waiting for students to try to plan to see me. In addition to posted office hours in the Congress office, I plan to be on campus from 8:00 a.m. until 11:00 p.m. daily as I have always been. It would take longer for a person to walk from Chapin Hall to Slavin Center than it would for me to drive from my house to the college. I also plan to use the new computer in compiling reports of polls which I will take when important issues arise. Otherwise, a student needs but to call or see me and I will talk to that person's suggestions and work to achieve the desired result.

COWL: The Spirit of '78 has been described as a revolutionary one. What major or minor changes with regards to the College would you, as a Corporation member, propose?

Jackson: This question really can't be answered since it would be impossible to tell anything like that until one gets to feel the Corporation's attitude. The Corporation has the final say in any College matter so it is important to realize the total needs of the community. My major concern lies with the initiation of a three year graduation program and a Rhode Island Consortium. Both these goals are essential if P.C. is to remain a competitive school.

Silvestri: Growth is the key word, as changes at the college are concerned. This college must maintain its search for the best educators. New departments must be organized to suit the student's needs. Also, the administration's stand on any issue must be revised and changed to serve the student's needs. The college must maintain its search for the best educators. New departments must be organized to suit the student's needs. When seated on the Corporation, I plan to use the development of the college both physically and academically. In authorizing the changes in the college, the Corporation must have student opinion concerning procedures and dates concerning procedures and dates of changes in the Board this year, the Board felt it wise to outline the duties of the positions open according to the revised Athletic Board by-laws. Nominations for President must be reviewed; and if deemed necessary, candidates shall be interviewed. The term of office will be held within the next two weeks. Anyone interested in running for office may pick up applications in the Student Congress office before Monday, May 6. Answers to questions concerning procedures and dates can be obtained through the Congress. Because of the many changes in the Board this year, the Board felt it wise to outline the duties of the positions open according to the revised Athletic Board by-laws.

COWL: The Spirit of '76 has been described as a revolutionary one. What major or minor changes with regards to the College would you, as a Corporation member, propose?

ONCE UPON A TIME — Confessions Of A Pitcher

by Henry Golembeski

Equality in America has always been a value which many of us are fighting to achieve. To me, being one of the cornerstones to the American Dream. While being a value that the Constitution of the first amendment to the Bill of Rightsremely important to this country, and thereby the country of the American Dream. While being a value that she believed was something that was beyond her reach, she was determined to make it happen. Previous to the late sixties, minorities groups, women, and older individuals had a hard time obtaining admittance to these bastions of higher education. In recent years, greater allowances have been made with respect to minority groups. The only group to have been left out of this trend has been the older Americans, those who are thirty years old and over.

But this trend may be changing. It was announced last week that Jean Miele, a 34-year-old woman, will be a student at Providence College. Miele was a high school dropout from Mt. Pleasant High School in Providence. The only question is why is the first woman to graduate from Providence College? Miele accepted at a medical school. Mother of two, and the wife of John Miele, the owner at Maceli's Restaurant, Ms. Miele has a biology student in the day school of Providence College.

Dropping out of Mt. Pleasant High School she became a hairdresser and a Clairvoyant. After graduating from the Art Institute of New York in Hair Styling. Working as a hairdresser, Miele decided to buy a tandem bicycle and travel throughout the Mediterranean. She applied for admittance to Classical High School (a college preparatory school) in Providence, but was strongly discouraged by the City of Providence School Board. Miele was advised to attend high school equivalency classes at Central Night School. Undaunted and desiring a real diploma, Miele applied to Providence College and was accepted.

Determined to attend medical school, she was again strongly discouraged by the American Medical Association. However, Miele chose to attend Brown Medical School not because of her sex, but due to her "over the hill" age of 26. She subsequently applied for admission to Providence College and was accepted.

As a concerned student in a position of responsibility, I have sat back and thought, "What is going on in this country?"

This bias exists despite claims made by various psychiatrists that there have been a general increase in women over men with a type of "mother image" on their side.

To alleviate this problem, many medical schools are endeavoring to change the situation and are extending boundaries to the barriers against women. Included in these steps are the creation of special internships and scholarships for women to give them to their families.

Unfortunately, they stand off the deans dim light on the Momentous Event. After all, how will the students on the Providence College campus react? Will the faculty accept them? Will the students accept them? Will the students write them off as a joke? The faculty and students are sure to be interested in the outcome of this situation. In the end, the question is, "Will this be a success or a failure?"

In the meantime, I would like to return to the story of Providence College. The only question is why is the first woman to graduate from Providence College? Miele accepted at a medical school. Miele was advised to attend high school equivalency classes at Central Night School. Undaunted and desiring a real diploma and not simply an equivalent, Ms. Miele attended St. Patrick's High School in North Providence and was granted admission to the mellow age of 26. She subsequently applied for admission to Providence College and was accepted.

Determined to attend medical school, she was again strongly discouraged by the American Medical Association. However, Miele chose to attend Brown Medical School not because of her sex, but due to her "over the hill" age of 26. She subsequently applied for admission to Providence College and was accepted.
Letters to the Editor ...

Dear Editors:

Shocking! Outrageous! Scandalous! I refer to your coverage of the visit of Dr. Hunter S. Thompson to the college campus. I do not understand how a semi-respectable paper such as the Cowl could waste valuable news space and the time of cub reporters Bob Trudea and Donald Whittle. As any literate person could tell you, Thompson is an alcoholic drug fiend whose literary and journalistic efforts are noted only for providing outstanding examples of poor quality work.

What is especially galling is that on the same day that cub reporter Trudea was skulking around Slavin pun with the drug fiend, the noted columnist William Buckley was giving a speech in one of the small offices in the library. Your paper failed to cover this momentous event.

While Thompson refused to reveal the reason for his visit, Buckley was honest and open. He came to present an award to the college student body as first in the nation to support the candidacy of Gerald Ford for President. Said Buckley, "Although there was some confusion on this point in the national media, I know for a fact Providence College students did not demonstrate against Mr. Ford. This is clearly support for his candidacy to the highest office in the land."

Your article on the Thompson visit coupled with your failure to cover the Buckley speech has left many with doubts that this noted writer even visited our fair campus.

Sincerely,
Mark S. Hyde

Dear Editors:

You force me to break a vow I made during a Novena to St. Philomena on the sixth anniversary of St. Sebastian's being slowly baked alive on a very hot griddle, which was never to write another letter to the Cowl. This as a result of Charlie Goetz' refusal to publish my last missive suggesting that the college administration to a man, be committed with all deliberate speed to forced labor at the nearest indigence granting scarpular factory. The proposal wasn't sufficiently discipline oriented for Herr Goetz' esthetic tastes.

However, since Philomena has been discontinued, and Charlie has left the band, I feel released to alert you that I'm nominating you for a Pullet Surprise for the recent egg you laid in the special Cowl hype that detailed my exploits both at Alma's Mater and her distant (illegitimate and Protestant) Lotus Land cousin.

To further show my appreciation, a contribution has been sent in your name to the Madalyn Murray-Oscar Wilde Memorial Trust Fund to purchase for St. Agnes' foot, one of Ruby Keeler's red patent leather tap shoes, so the pious pedant can dance itself to eternal damnation in the great Busy Beaver. Ballroom in the sky.

As for being a Catholic, I wouldn't have missed it for a trip to Limbo. Enclosed is a more recent photo taken during my recent participation in a national Mary-like dress crusade sans Clean Gene, who has fallen into relative obscurity.

By the way, there was a fantastic shot of my ass making the back room rounds of the wire services, how come you didn't pick up on it? Never mind, I understand.

Keeping you in my prayers, I am,

Sincerely,
ROBERT OPEL, D.D.T.

Dorm Option

Proposed

by Craig Watt

Dorm students at Providence College have been selecting rooms for the 74-75 school year. Although the room selection system is one of the most efficient in the state, there is one area in which it is removed from the procedures begin with the premise that each individual may remain in the same room from one year to the next. The only way to be sure that a student will remain in the same room is for that student to receive a low lottery number and eliminate his availability. The system, as it stands, bends the rules of lottery system fairness and class integration. The mixing of Freshmen, Sophomores, Juniors, and Seniors provides a unique balance found in no other system.

Freshmen seem to be receiving the best deal. All incoming Freshmen are assigned rooms. They take up a certain number of "good" rooms. "Good" rooms, of course, mean different things to different people: a particular view of the city from McVinney, the amount of sun a room receives, the high ceilings of Jones's, the size of the rooms in Guzman (3 man), or the privacy of Chapio.

Sophomores and Juniors generally wish to live with friends in their same floor. Some wish to room with their floor. Seniors who still have un-shunned the off-campus alternative usually want as few energetic Freshmen around as possible. Yet with all the sound policies the Resident Board offers, it is odd that the option of a student to remain in a given room from year to year is not included. It must be the present aversion to an altered system that the proposal of the room system is many and open to debate, but it seems only too simple to amend the present options.

Chess

(Cont.)

competition. The club expects to expand its membership greatly in the fall. Depending on the size of the club, there could be three or four teams affording all members the opportunity to play tournament chess improving everyone’s skills. The club this time is planning to hold another tournament in June. First semester next year a major tournament may be held, possibly attracting a master to add glamour and prestige to the event.

On the following day, Friday, May 3, the campus will have the
pleasure of hearing the sounds of John Sebastian and Heavy Metal.
Location for the concert is Alumni Gym. Tickets will be sold to students at $3.50, all others will be charged $3.50. Tom
Banisch, Major Events Chairman of the BOG, remarked that; “John Sebastian is an incredible show.”
Tentatively scheduled for the same night is the nationally-
acclaimed, Jerry Walis and his Oldies Review, to take place in the
Rathskeller. If this comes through all brew lovers will be happy to
note that the price of a pitcher of beer will be reduced for the event.
On Saturday, May 4 the campus will be serenaded by a local band
from noon until nighttime. As of yet, the choice of the group is in-
definite. Beer and a barbecue will accompany the music, giving
resident students a relief from the
culinary delights of Raymond Cafe. The band will be set up in
front of the Slavin Center.
The fun and games intended to
amuse the Groto Beachers have been
confirmed for this date. At the flip of a
coin that same time also, the Intramural Awards
will be presented on the Slavin steps.
Continuing the activities that evening, the PC Football Club will
host another PC Playboy Club in '64 Hall. The PC Bunnies will be
present, in addition to the en-
trancing voices of Domenick
and liquor. Music will be provided for
dancing.

The weekend activities will be
rounded out by an Outdoor Wooden
Navel. Because the Navel was
closed for fire safety reasons, this
will probably take place between
Raymond and Joseph dorms.
The hilariously-debased George
Carlin was originally intended to
cullum the weekend’s activities by his appearance Sunday evening.
Unfortunately, the community will not experience this man’s mar-
velous raunchy act due to a
bureaucratic slip up. Carlin was to be pre-empted by a Max com-
memorating the 70th anniversary of the death of St. Thomas Aquinas.
The BOG, out of respect for the
great Dominican theologian,
cancelled Carlin. Some time after the
cancellation the Ad-
ministration postponed the Aquinas functions to October.
Hence, no Carlin, no Aquinas week.
Most students are unaware of the
importance of a successful Spring Weekend. As Mr. Banisch put it;
“Since we (BOG) have it, we don’t
wont be able to have anything else.” If Spring Weekend is not
successful, there will be little to
look forward to next year, at least
socially. There could be a
regression to the degenerate state we witnessed last semester.
Kurt Forester, BOG President, urges all students to participate in the activities planned. He par-
ticularly emphasized the necessity of the Sebastian concert going off
well. This concert, Forester explained, will affect the future of any
conserts at PC. If people do not
show up, concerts on this campus
may soon be extinct. As Mr. Ba-
niche said, “These concerts are
valuable. By showing interest, we can tell people to want that concerts. If everybody would come out, the student body will be
interested, it will help us (BOG) to
put on more concerts. To have more concerts you should support
the ones we have.”

Dean Smashes at Cell
by Popodopoulos Golembeski
(Professor of Theatre)
Mr. Golembeski had promised Mr. Clark of the
Theatre Arts Department that he would
never write another review as
long as he was a student at
Providence College . .. well, so it goes.)

“The Man Who Came to Dinner” should probably be
retitled “The Day Who Came to Dinner,” for it
was mostly through the crusty
crude performance of Dean
Cunningham as the crotchety Sheridan
Whiteside that made Vincent
Clark’s production of the Moss
Hart and George Kaufman play
a rousing success at the Friar’s Cell
this past week. Either Mr. Clark is
in severe academic difficulty and is
buying himself out by providing a medium for Father
Cun-

performance given daily by PC’s
finest in the infirmary.
Catherine Wolfe’s performance of
an axe murderer turned Emily
Dickenson should prove to no end
that she should be included in a
certain Northeaster Catholic
college’s English Department.
And Jim O’Connell as the absent-
minded, refugee German scientist
who emigrates from Argentina to the
U.S. to study cockroaches
should be enshrined as the patron
saint of entomology for his per-
ance as a researcher.

But credit must go to the people
who made the story line the suc-
cess that it was. Alex Tavares,
Lynn Slavin and Chris Donahue
played substantial roles and it is
to the other credit of the Theatre Arts Department that these people will be associated
with the Department next year.
especially Ms. Tavares. In the past
few years this writer has written
Ms. Tavares improve and mature, and
it is a sheer joy to see her finally
come into her own.

And last, but not least, notice
must be taken of Don Higgins,
Art Pacuita, Bill Dennis, and
Vincent Clark, not just for their
work on “Dinner,” but for their
continued work over the past years
in bringing theatre to what it is
now at Providence College.
There are many scattered reports, and to the
expected improvement of
Williams and ‘lava that give rise to
high hopes for next year.

This writer would like to
conclude by publicly thanking Coach
Roby for his help in getting out
these scattered reports, and to the
team members, especially Art
Williams, who looks pains to explain
the situation and for the help he
gave whenever he could
throughout this year. Team
elections were recently held and
Tom Hogan was elected captain,
Mike Banisch co-captain and
treasurer, and Steve Ciavola
secretary, and the nucleus of a team which should
fare very well next year.

With 600 being a perfect score
since each shooter shot twice, the
top four scorers were Tom
Hogan’s 344, Randy Robbins’ 356,
Art Williams’ 319, Steve Ciavola’s
310, Chris Bishop’s 454, and Mark
Latham’s 440. A notable ac-
complishment was Tom Hogan’s
sixth place finish in the overall
standings. All of these shooters
shot comparable to or better than their average scores of the past
season, and should be congratulated for saving their best
effort for the end.

In overall standings the Friars
finished fifth in a field of eight. The
Coast Guard, 4. Dartmouth, 5.
Providence, 6. M.I. T., 7. U.R.I.
and 8. Considering the rela-
tively slow start and the im-
proving competition, the fifth place
finish should not be considered disappointing. Individually, Tom
Hogan finished fourth with a
seasonal average of 272.8. Randy
Robbins finished sixth with a
267.6, Art Williams twenty-
seventh with a 256.83, Steve
Ciavola forty-seventh with his
245.6, Chris Bishop fifty-fourth with a
229.4, and Mark Latham fifty-
ith with a 224.6. Among those are many low scores. Charlie Quirk had a
303 average and Mark Manfreda had 195.3.
But credit must go to the people
who made the story line the suc-
cess that it was. Alex Tavares,
Lynn Slavin and Chris Donahue
played substantial roles and it is
to the other credit of the Theatre Arts Department that these people will be associated
with the Department next year.
especially Ms. Tavares. In the past
few years this writer has written

Friar Nine Sweeps Three, Ups Record To 9-6

by Peter Smyth

The baseball Friars of Providence College finally got it all together in last week's action with lopsided victories over Assumption, Springfield, and Holy Cross in raising their record to 9-6. The Friars outscored their three opponents by putting 26 runners across the plate while the Friar pitchers were excellent in limiting the opposition to a mere 3 runners.

On Monday, Assumption was in town for a game postponed from April 9. But, the Greyhounds wished they had stayed in Worcester on that sunny afternoon as the Friars exploded for five runs in the first inning and went on to drub Assumption 8-2 behind the steady seven-hit pitching of southpaw Dave Meyer. The Friars wanted no time in pleasing the several hundred fans who showed up at Hendricken Field as they scored four of their first inning runs before Assumption starter Mike Pellietta could retire a batter. Tim Boyle and Steve Allietta hit back-to-back singles and a walk to Barry Sullivan loaded the bases. Ted Barrette promptly hammered a double to right to score Boyle and Allietta. Co-captain Ken Sheehan singled to left to score Sullivan and Barrette before Pellietta was relieved by Tim Gingrass in the fifth. Ken Sheehan doubled home Sheehan for the fifth Friar run of the inning. Providence added another tally in the second when Ken Sheehan doubled home Barry Sullivan who had singled. The final two Friar runs came in the fourth. Steve Allietta singled and moved to third on a double by Ted Barrette. Allietta scored as Ken Sheehan grounded out to second and Barrette scored on a single by Steve Hardy. Assumption scored their only two runs in the third on four consecutive singles, but the confident Meyer settled down to thwart any other Greyhound rallies as he did not allow a runner past second for the remainder of the game. Meyer posted his first win against two defeats as he struck out six and walked four.

The following Thursday, after a one day postponement, the Friars travelled to Springfield College where Freedomst Mike Cuddy's three-hit pitching and sixteen-hit attack carried the Friars to a 12-1 victory for their fifth win in the past six outings. Cuddy, a North Providence native, struck out seven and walked four in evening his record at 2-2. He lost his bid for a shutout in the fourth as Springfield pushed across an unearned run. Joe Marcoccio, a Freshman from Warwick, led the Friar attack with four hits and five runs batted in. Fall-to-back doubles for one run and an error by Barry Sullivan added two more Friar tallies. Hot-hitting Joe Marcoccio doubled in the eighth and scored on John Schiffner's second double off the leg of Steve Lebru, the third Crusader out, and migrated to still another hit by Joe Marcoccio for the final Friar run. With this the Friars have now won six of their last seven and have a season record of 9-6.

This past Saturday at Holy Cross, junior right-hander Phil Welch hurled the Friars to a 6-0 rout with a classy three-hitter. With this shutout, Welch lowered this E.R.A. to an amazing 0.35 as he has given up but one run in 25 and two-thirds innings. With co-captain Tom Anasti out for most of the season with arm trouble, Welch is now the ace of the Friar staff and touch of the Friar success will rest on his shoulders. In the Holy Cross game, Phil struck out seven and walked only one batter and never allowed a man past first base. Welch, who started off slow this year with elbow problems, now owns a splendid 3-4 record.

The Friars were actual no-hit for the 5 and one-third innings by starter Mike Falco. Here, Ted Barrette belted a triple to score Barry Sullivan to get the Friars rolling. In the seventh John Schiffner and Bruce Vieira hit back-to-back doubles for one run and an error by Barry Sullivan added two more Friar tallies. Hot-hitting Joe Marcoccio doubled in the eighth and scored on John Schiffner's second double off the leg of Steve Lebru, the third Crusader out, and migrated to still another hit by Joe Marcoccio for the final Friar run. With this the Friars have now won six of their last seven and have a season record of 9-6.

At this point in the season, four Friar starters are batting over .300. Fresh second baseman Joe Marcoccio, who was eight for fifteen last week, leads the team with a .419 average followed by Barry Sullivan, .382, Ted Barrette, .364, and Steve Allietta, .353. Sullivan leads the team in RBIs with sixteen, closely followed by Ted Barrette with fourteen. Sullivan also leads the team in hits with 21. Steve Allietta has scored the most Friar runs of the season with a total of sixteen. An impressive figure for the Friars is that they are batting .287. 387 as a team while Friar pitchers have held their opposition to a measly .171 average.

Phil Welch, leads the pitchers in most categories as he must. He leads in innings pitched with a 25 and two-thirds, least runs scored against with just one, most strikeouts with 24 and the fewest walks with but three. His 0.35 ERA ranks him nationally in that category.

The playoff possibilities for the Friars looks encouraging. They can afford to lose three or possibly four more games and still be in the District I tournament competition. If the Friars continue to play as well as they have been, they are a cinch to be invited into the NCAA tournament. If the Friars continue to play as well as they have been, they are a cinch to be invited into the District I tournament competition.

Next week, the Friars will play a single game on Wednesday at Assumption, a doubleheader at home against Brown on Saturday, and a twin bill on Sunday at Dartmouth.

Friar Sharpshooters Are Shelled

by Jim Travers

This past month, on March 9 and 16, Assumption, a doubleheader at home against Brown on Saturday, and a twin bill on Sunday at Dartmouth.

Friar Sharpshooters Are Shelled
