The Providence College Club of New York observed their twelfth anniversary last Tuesday evening. Monday evening, October 11, at the Hotel Pennsylvania in New York. Over 200 alumni, alumnae, friends, and guests were present at the affair. Charles F. Sturman, general chairman of the banquet expressed the immediate aims of the organization. "We hope, through the success of this meeting, that scholarships will be established for worthy boys in Providence College. This further hopes that through these efforts, the memories of the college will live on as long as there is such a thing as a world of today." Judge Walsh cited the importance of a Catholic education in the ultimate success of the spiritual and physical well being of man. "As far as the Alum is concerned," said Editor Doherty, "no con tribution will be refused without sufficient reason. Furthermore, no contributor will leave the Alum office learning that his article did not receive sufficient attention."

VETERANS NOTICES

Sophomores, Juniors and Seniors who have not yet claimed their copies of the 1946 Veritas must do so before Saturday, October 23. After that date the remaining books will be disposed of.

Veritas Business Manager

First Friday Club Seeks New Members

A number of Providence College students were among those who joined the men's group of the Laymen's First Friday Club of New York Island at its October dinner-meeting earlier this month. The group includes Everett Coogan and Edward McPaw of Pawtucket, seniorette Jean E. Berube of Pawtucket and Arthur Malley and Anthony Jarzombek of Providence, seniors, and Raymond Bovin of Taunton.

These students rounded out their monthly First Friday offerings by hearing an address by Rev. Peter Quigley of the Catholic University of America, on human rights and discrimination. Father Quigley is director of the Blessed Virgin Mary University and is also the religious center for Negro Catholics in New York.

The purpose of the First Friday Club is the spiritual individual to the Sacred Heart of Jesus, monthly reception of the Holy Eucharist at the First Friday of each month and annual reception of the Holy Eucharist at the First Friday of each month and annual reception of the Holy Eucharist at the First Friday of each month moderated by "Pat" O'Nofrio, Rev. Daniel F. Riley, O.F., who retired because of illness. The club invites all students to participate in this week in the Harkins Hall office of VETERANS OF FOREIGN WARS, 1054 Washington St., and will meet weekly as the hours of the former dean.

The Radio War Man, in Father Halton is often called, graduated from Providence College with the class of '94. He taught at the College before the war, but interrupted his teaching duties to study for his Masters de grees in Physics at Ohio State Uni ver sity.

He returned to the College last year and was assigned as an Instructor in Physics and Electronics. Aside from his teaching duties he is the operator of the Providence College Ham sta tion, WQWQ. Needless to say, his chief hobby is radio.

The Rev. Edward B. Halton, O.F.P., in the new Dean of Freshman. He succeeds the Rev. Daniel F. Riley, O.F., who retired because of ill health. The Rev. Halton will take over this week in the Harkins Hall office of VETERANS OF FOREIGN WARS, 1054 Washington St., and will meet weekly as the former dean.

TUESDAY, OCT. 27

The Juniors voted for their class officers yesterday at the morning assembly. The results showed that Ed Coogan of Fall River was the unanimous choice for president. Ed, who played on last year's varsity basketball team and is a member of the Friar Club, enjoyed a comfortable margin of votes over John Shea, of Valley Falls.

THE ROSARY

October is the month of the most Holy Rosary. It is a period devoted to the memory of our Blessed Mother through the sublime but simple prayer which she herself presented to the world over seven hundred years ago. It was the privilege of our Pope, Pius the Fifth, to promulgate Mary as the intercessor along with the holy Commandary of Christ and his followers, the Friars Preachers, the Rosary has been adopted with universal love and affection throughout Christendom.

A chapter which Mary gave to us has proven to be so efficacious means of bringing God's grace into the hearts of men. It seems entirely reasonable to follow the path that Pope Pius the Fifth has established for us. The emphasis on the Rosary is due to the lack of a student governing body. However, such an organization is rumored to be on its way. So... let things like this election cause us any consternation because surely there is no denying that it was a free one.

What to write about? There's a real problem. You can spend too much time before you even start. Whether it's an essay, a term paper or a story, you can scratch around for an idea for so long then your head aches. You've got to find an idea, or more than one. Eventually, you'll find some, reject some and consider others. Pick an idea out of the many that are whirling around in your mind. Pick one out, grab it, then tie it down before it gets away.

Your idea might be one that's optimistic or pessimistic. It all depends on how you feel, your frame of mind. If you're optimistic, you'll write about this great life or this great country of ours or that great guy. You might be accused of wearing rose-colored glasses. If you're pessimistic, you'll say that this or that is wrong, he's wrong or the world's wrong. Then you'll be wearing dark glasses.

Suppose you get an idea about the future and you mean it. I mean jobs, security, salaries, things like that. You've heard people say that every college graduate will be a dime a dozen, or that there's a lawyer on every corner, or that "hucksters are nearly unmercifully underpaid". You get dis­couraged when people talk about the next war or the coming depression. Those things are bad but things that are close to your daily life are worse. If you get the idea that the marking system, P.C. style is dishonest or that the method of teaching is wrong, you feel resentful. All these are very dis­couraging ideas. That's pessimism.

But suppose you're optimistic. You think about the future in terms of wonderful, revolutionary inventions, of tremendous progress in science, in­dustry and human affairs. You think of the marvels of atomic energy for peaceful purposes, of course which will give new life to the living. With continued thought, you might include ideas of interplanetary travel and flights to the moon as distinct possi­bilities in your lifetime.

With these ideas, the world changes tremendously in your eyes. Progress brings on the change, progress needs talent and brains to bring out its benefits completely. You get an idea of the job opportunities that are com­ing for the ambitious and resourceful and for the mediaeval age. These are very encouraging ideas. That's optimism.

But no matter whether you're op­timistic or pessimistic, you need ideas. And you need to start to get some ideas. The ideas don't come, you can think for hours with no result. You can ask yourself a hundred times, What to write about?"
PHI-CHI SOCIETY PLANS FOR YEAR

A meeting of the Phi-Chi club was held recently for election of officers and to make plans for the coming year. The business meeting was conducted by Vin Stasek, '49, who was elected last year as president. Candidates for the remaining officers were voted on at this session. The electees were: Al Loeffler, '50, vice-pres.; and H. L. Dooley, '51, secretary. It was also announced at the meeting that plans were being formulated for the annual meeting of the science and chemical societies of Providence College. Brown University, and R. I. State. The first group meeting was held last year at Brown, and this year the Phi-Chi Club is destined of playing host to the other societies. The invitation has already been extended and only their official acceptance letters the commencement of definite plans for the occasion.

For the information of freshmen and new students, the Phi-Chi Club is an organization composed of those students who are majoring in physics or chemistry. It has a twofold purpose, one of sociability and mutual aid, and another of added extra-curricular information relative to their field of study.

In addition to the social aspects of their meetings, many of their gatherings feature motion pictures as visual aids in the understanding of scientific methods and procedures, both for cultural and academic background. In addition, minor lectures and other pertinent information relative to their field of study.

The Providence College Friars basketeers reported to Coach Larry Drew yesterday for the initial practice of the 1948-49 season. The Friars open their season in approximately six weeks with Assumption College.

Drew starting his third year at the helm of the Friars faces the task of getting his squad into playing shape as soon as possible, with what the comparatively short time before the opener.

Coaches were announced yesterday for the upcoming season, with the few days Drew plans to swing into high gear with plenty of scrimmaging on the program.

The Friars face one of the longest and toughest schedules in the college's history during the coming campaign. Twenty-four games have been scheduled, with ten being listed for Providence and the remaining 14 on foreign courts.

The Friars have the Holy Cross Crusaders in the third game on their schedule here in Providence. This is one of the highlights on the 24 game slate.

Last year's season's august rivalry with the Exord of Saw, capt. a year ago, and Ray St. George, filled the bill and prepared for their first workout. Also reporting were several players up from last year's Frosty quintet, one of the best in Providence College history.

Among those who reported yesterday were: Captain Charles Brennan, Captain Mike Kelley, John Kelty, Dennis McGuirk, Edward Purse, Joseph Blake, Edward Monney, Raymond Galina, William Higgins, Alex Becker, Arthur Weinstock, William Abel, Joseph Stefani, Walter Loncoli, Thomas Orr, Donald Dowd, Edward Congdon, and Rike Edwards.

Intramurals

(Continued from Page 10) displayed a well-balanced attack as Dolan, Donnan, and Robbot each threw a touchdown pass. Dwyer was high score, tallying 15 points on 2 TD and 3 PTA. Donnan and Robbot registered the other Flyer's touchdown. The passing combination of Alexander and Mac Donald tried in vain to keep the Jokers in the game. Mac Donald registered their first TD on a pass from Alexander. Later on the latter scored the second on a pass from Mac Donald. Fontaine scored the Jokers' extra point.

Dalmatians 32 — Taunton Club 6

The Dalmatians registered their second consecutive 32-0 victory as they overpowered the Taunton Club on Friday. Holy led the Dalmatians attack as he put on a great display of passing ability. He tossed for four of his team's five touchdowns. Carroll headed the scoring parade as he garnered three six-pointers, two on passes from Holy and one on a return of an interception. Malloy and Leon- gan each caught a touchdown pass from Holy. The extra points were scored by Malloy, Paff, and McGuay.

Alums — Hard

The Alums were awarded a forfeit victory over Harps on Friday as the Alums were unable to gather a full team.

Flyers 13 — Club 212 0

With Dolan leading the way, the Flyers edged out Club 212 on Thursday, 13-0. Dolan passed to Cunningham for the Flyers first touchdown, and added the extra point himself. Donnan garnered the second six-pointer. Club 212's vaunted passing attack failed to materialize as the Flyers covered the Club's receivers exceptionally well.

New Haven 26 — Jokers 12

A game marked by brilliant passing by both teams, New Haven whipped the Jokers, 26-12. Passes by D'Ambrosia to De Palma accounted for all but one of the Jokers scores. De Palma and Dempsey caught D'Am- brosia passes for touchdowns, while Chapman and Garcia registered touchdowns on DePalma passes from the latter.

DONELLY HALL CHIEF

Continued from Page 1) the Fathers could bring a suitable coach to P.C. Possibly, Harry Coutts would be adept to the job; not to overlook Larry Dave, Hal Martin, or Pete Loughlin.

The schedule can be realized only after the joint cooperation of Father Kevin, the faculty, the COWL, and the student body.

Here's hoping that this letter blows the dust off 11 P.C. uniforms and fills them with fighting vigor!

Sincerely.

John Beiley, '32

Alburtus Magnus Society
Plan For Future Meeting

Plans are underway for the welcoming of new members into the Alburtus Magnus club. William Stevens, club president, stated that a social will be held early next month which "butter" will be offered to new members if the affair compares with past socials conducted by the almonds.

Newly elected officers for the year were as follows: William Stevens ’48, Danbury Conn. president, John Lonergan ’49, Providence vice-president, Dick Cutler ’50, Providence secretary, Tom Regan ’49, Lowell Mass. treasurer. Members of the Ways and Means committee are Jim McCormick, Charlie Woolsey, and Tony Francisconi.

President and Registrar
Attend Meeting In Chicago

The Very Reverend Robert J. Slavin O.P., President, and the Rev. Daniel M. Galtier, O.P., Registrar, recently attended a meeting of the Executive Committee of National Catholic Educational Association, at the Hotel Congress in Chicago. Father Slavin is a member of this Committee arranging the national convention to be held in the Spring. Father Galtier, though a member emeritus, was pressed into service because of his many years of experience with this Association.
