**Safeguards For American Education Urgently Needed**

**National Science Foundation Honors P.C. Senior Scientists**

George F. Flynn, '37, of Warren, R.I., is the recipient of a graduate fellowship from the National Science Foundation. Three other Providence College students received honorable mention in this same national competition. Anthony Frantelli, '37, of Providence, R.I., and John D. Graham, '37, of New Haven, Conn., received their listings in physical chemistry, while Robert M. Doherty, '37, of Providence, was distinguished in the field of theoretical physics.

The National Science Foundation Fellowships are given for advanced study in the sciences and in fields where the natural and social sciences converge. These awards are intended to help students to take into consideration college transcripts, scores achieved on the graduate record examination, rank-in-class reports, confidential reports from previous teachers and the abilities of the candidates, and in many cases, plans for future research. The fellowships are awarded on an honorable mention accorded, to students considered to be highly qualified and of superior ability.

Approximately 1,000 applications were received by the Foundation this year, for fellowships which are available to any citizen of the U.S. who has demonstrated ability and special aptitude for advanced training in the sciences and who has met the requirements for graduate or post doctoral work.

Dr. Dodd, scholar, teacher, lea­
turer, author and practising attorney, emphasized the fact that Communism is a crisis which could be defeated by positive truth, but it is a failure to disseminate this evil. Although she holds Bishop Sheahan in high esteem, she felt obliged to dif­fere with him in regard to his state­ment that fifty years from now Com­munism will be forgotten. She stressed that constant and diligent effort must be made in this strategic and decisive conflict.

"Everyone knows that this (Commun­ism) is the greatest heresy that the world has ever known; however, this enemy is an organized and mortal foe, and it is you, the young, who will resolve it," she said.

The capacity audience, which filled the School Auditorium on Thursday, May 12, was held at Mary's Church, Pawtucket, was held for the Providence Elks on Sunday, May 5. The parade started at twelve and was witnessed by an estimated 5,000 spectators.

Among the dignitaries in the view­ing stand were the Lord Mayor, representing the City, Central Falls, nationally known for its annual St. Patrick's Day Parade. The spirit of St. Patrick was in the air and green streamers floated everywhere. Both the band and drill team were displaying the green. The center line of Fifth Avenue was also painted green for the occasion.

Applause greeted the band and the drill team along the entire parade route. The drill team put on an exhibition in front of the reviewing stand for the visiting dignitaries. The band supplied the music for the 10th Division of the parade.

The parade started at twelve and it was almost six o'clock before it was over. In all, there were thirty-two divisions in the parade. The parade route covered five and one half miles and was witnessed by an estimated 50,000 people in Rhode Island.

**Sophomore Event Nears Completion**

Richard DuNois and Jack Eberdt, co-chairmen of the 1957 Sophomore Weekend scheduled for May 3 and 4, have announced that the jazz con­cert will be held Friday evening, May 3, at the Rhodes Annex in Cranston. Ed Lefleau, chairman of the band committee for the concert, has negotiated with Tony Abbott and his jazz band to furnish music for the affair. The Abbott group will also furnish the dance music for the semi-formal dance Saturday evening, May 4, in Harkins Hall.

Decorations for the event will be furnished by Master Masons Brady of Central Falls, nationally known Decorator who decorated the White House for both of President Eisen­hower's inaugural balls. He will work around the winning theme, to be announced next week. Pictures for the Queen selection at the dances must be submitted to commendation committees Don Amendola or Jack Brennan, by April 16.

Calvary Revisited

Each morning during this season of Lent, students have been offered the opportunity of hearing the special Lenten Mass said in the P.C. Chapel on the campus. Every student should form the practice of attending this Mass, which in one of the finest habits acquiring to healthcare the Lenten Season. Since the period preceding the Mass is generally shorter than usual, everyone will have ample time to hear it and still be on time for their next class.

This special Mass is possible by the curtailment of the 9:30 A.M. class, which will only continue as long as the attendance frequently, those who have not made an honest attempt to be present at the Mass should certainly be late. Up to now, the attendance has been satisfactory. If this continues, we might look for improvement. Students are to be reminded once again that it is truly worthwhile and in taking advantage of this opportunity.

What Is Knowledge...

What is this great object, knowledge, which all men strive for in our modern day? Is it the more learning of facts, figures, places, names, and being able to repeat them when asked for, or nothing more than that person's use of learning? It must be made very clear that knowledge is not the collection of information, but the necessary to knowledge, is mere memorization, without having any idea of what the information means. A person can be trained to repeat the most intelligible information, but this is not knowledge, for which the object must depend on learning from his students. It is at the college-level where a student must do his own thinking and come to his own conclusions, not learn in the manner.

Knowledge is an enlargement of the individual's understanding and consciousness of the subject and the readily understands the relationship of what he has learned with other subjects. He under- stands every aspect of the object, and thereby the individual is able to draw his own conclusions from the information presented that a person reach his conclusion through reasoning. He should also accept the conclusions of another without first going through a reasoning process of his own. It is important to realize that the only true knowledge is that gained through one's own experience, and all other knowledge is secondhand and second best.

Knowledge is the result of the proper use of learning. There is power and strength in knowledge. It is the true weapon of men. It is the true weapon of men. It is to be used wisely. It is also the true weapon of men. It is to be used wisely.

Knowledge is built upon knowledge. It must be made very clear that knowledge is the true end of learning. Learning, though it is the most easily attainable. A young man should make the most of the opportunity and fill the time he has available to develop his knowledge. It is important to realize that the knowledge at hand is not the best possible knowledge. A student should dare to desire to know exactly what information the photographer editor of the VERITAS was hired to sign a contract with a certain state.

A Free Man...

When a prospective student applies to Providence College he is usually given the opportunity to be informed of the aims of the college in the bulletin he will find that Providence College is to develop a free man. This is to him, to the time, as he goes on through life, its meaning will become very clear.

We are taught a perspective at P.C. the importance of one thing in relation to another. Here is the rule of this perspective, that two things can have a specialized knowledge about a certain subject and in so tightly as to make the students, who are like men who cannot see the forest through the trees; they take one tree and rip it away from the whole background. Students are made to realize its relation to all the other trees which go to make up the forest.

We all hope for success and fortune, but we are made to realize that wealth of material need not be the only purpose for our lives on earth. We have a higher purpose and that purpose is to give the person who can realize this fact that we have heard and been taught, then we are free men.

In Passing...

We followed up our interest in "The Angels of the Library" and learned from Father Hunt that the Providence College library, which we had judged only on the basis of information that we have musical angels are copies of the angels in the border of Fra Angelico's "Annunciation" listed in "The Library Weavers." No date can be assigned to them without resorting to modern photographic art-detective methods, such as radio- active-carbon count. If the money were available to the members of the Pyramid Players about a list of appointments to the Providence College newspaper, who have worked diligently with the Providence College Press Association, and the drill team made a very good impression as they marched down Fifth Avenue. It is interesting to see that the Providence College represented on the many other college teams.

There is no question but that the Providence College newspaper, who have worked diligently with the Providence College Press Association, and the drill team made a very good impression as they marched down Fifth Avenue. It is interesting to see that the Providence College represented on the many other college teams.

Nebulous Notions

The City of New York, especially the area around the City College, is being a rumor that Ophelia, who was said to be interested in the book, is about to appear in the new Ophelia, who was said to be interested in the book, is about to appear in the new Ophelia, who was said to be interested in the book, is about to appear in the new Ophelia, who was said to be interested in the book, is about to appear in the new
Contesting Orators Enter New West Point Debate Tournament

The University of Vermont will be the scene of the eighth region of the West Point National Invitational Debate Tournament; the eighth region embraces New York State and all of New England. Providence College will be represented in this year’s tournament by Frank Shaw and Thomas Blessington, with Milo St. Angelo as the alternate.

Shaw and Blessington, who have teamed up on the affirmative in the Tufts Invitational Tournament and on foreign nations College Invitational, will debate the Barristers, will accompany the, teamed up on the affirmative in the continue direct economic aid to Angelo the negative in the recent Brooklyn Father John Skalko. moderator of Thomas Blessington, with Milo St. positions will be defended alternately tournament by Frank Shaw and i will be represented in this years rounds of debate on the national embracing New York State and all of day. and conclude with two final

New Leader For WDOM

John Encell, former station manager of the campus radio station WDOM, has recently appointed James Sheahan, ’59 of Woonsocket, R. I., as the new station manager for the forthcoming year.

Jim, a history major, has said that his primary goal is to improve the quality of the station, but he is hoping to broaden the carrier current by adding like music and other programs to the station’s current programs. He also wishes to increase the stations’ audience and attract more listeners to the station.

The station has recently been granted permission to operate on a frequency of 1030 KHz, which is lower than the current frequency of 1550 KHz. This change is expected to increase the stations’ reach and decrease the amount of interference from other stations.

During the upcoming year, the station plans to increase its programming to include more local events and community services. The station’s focus will be on providing a diverse range of programming to meet the needs of the campus community.

The station’s future plans include expanding its programming to include more local events and community services. The station’s focus will be on providing a diverse range of programming to meet the needs of the campus community.

Calendar

The week of March 19th will be filled with exciting events on campus. The first event of the week will be the annual Spring Ball, scheduled for Friday, March 22nd. The ball will feature live music and dancing, with a delicious dinner served by the campus dining hall.

On Saturday, March 23rd, there will be a charity run to support local homeless shelters. Participants can sign up at the registration table located in the campus center. The event will begin at 9:00 AM and end at 11:00 AM.

The week will conclude with the annual Spring Festival, scheduled for Sunday, March 24th. The festival will feature live music, food, and games for all ages. Admission is free, and all proceeds will go to support local community organizations.

In addition to these events, there will be a series of guest lectures and workshops scheduled throughout the week. All students and faculty are encouraged to attend these events to learn more about current issues and topics in their fields.

Foley was the only one who twirled a no-hitter against the Plains. They bore the bulk of the voters (Harry McNamara, Gene Scannapieco, John DePalo) and placed fifth in this same race.

DORN STANDOUTS: Relaxing recently were members of the Foz A. C. Providence 1957. The League Magnetic Road Race at Storrs, Connecticut, above are Frank Ioveni, Wayne Trikkie, and Mike Donahoe. Standing in the invitational 2 mile run. The final results of this match are not known as the team left before the match opened.

Two freshmen also performed between bunting for a hit and bunting for a sacrifice. He demonstrated the value edge on his rivals. Scannapieco blazed to the front with 1 in each section being a final in itself. Actually run in ten different sections. The final results of this match are not known as the team left before the match opened.

Tommy Cahill's jump shut with eleven seconds remaining in an overtime period gave the Foz A. C. Providence 1957. The League Magnetic Road Race at Storrs, Connecticut, above are Frank Ioveni, Wayne Trikkie, and Mike Donahoe. Standing in the invitational 2 mile run. The final results of this match are not known as the team left before the match opened.

After the half time talk by Coach Ford, the Foz's victory ended a two year reign that lasted until the end of the season. The components of the Providence 1957. The League Magnetic Road Race at Storrs, Connecticut, above are Frank Ioveni, Wayne Trikkie, and Mike Donahoe. Standing in the invitational 2 mile run. The final results of this match are not known as the team left before the match opened.

Major league teams do not spend thousands of dollars each year and receive little in return for nothing. When they are prodded pushing and prodding, out, get inside right away—one can't afford to catch cold." There were a few of the remarks expressed by the highly thought of Providence College baseball coach Bill Harrington." The team managed to prepare and opened the second season under his guidance.

The New Hampshire coach and holder of a long-term relationship with Fredo Skiper, Casey Stengel, explained to the players the differences between batting for a hit and batting for a sacrifice. Hanlon came to a close Saturday at the Providence College Games at the Providence Armory. The final results of this match are not known as the team left before the match opened.

FRESHMEN MEDLEY TEAMS
The Providence College medley teams will be two freshmen medley teams. In the sprint medley (220, 440, 660, 880) Ed McNamara, Gus Scannapieco, Wally Cook, and a fourth runner to be announced later, will perform. Scannapieco and McNamara will double up in the half mile and 220 yard medley.

Trophies in both matches. After the half time talk by Coach Ford, the Foz's victory ended a two year reign that lasted until the end of the season. The components of the Providence 1957. The League Magnetic Road Race at Storrs, Connecticut, above are Frank Ioveni, Wayne Trikkie, and Mike Donahoe. Standing in the invitational 2 mile run. The final results of this match are not known as the team left before the match opened.

The indoor season in New York City to an end this Saturday night, at a city hotel in the country, with the annual running of the Connecticut Relays for the second year. Representing Providence College in these finals will be two freshmen medley teams. In the sprint medley (220, 440, 660, 880) Ed McNamara, Gus Scannapieco, Wally Cook, and a fourth runner to be announced later, will perform. Scannapieco and McNamara will double up in the half mile and 220 yard medley.

A Visit With the Baseball Team Monday, March 18th, 1957.
Frosh Trackmen
Top Killes 44-39

By Bob Baggeri

The Frosh Frosh trackers, definitely handicapped by inefficiency in numbers, nevertheless made their only appearances upon Hendricksen Field's board track, a notable one, by defeating Mount Pleasant High school 44 to 39.

Six men did all the scoring for Providence and of that number, four accounted for 38 points between them. Arthur Hewes won a double-victor. He just nipped teammate Bill Horridge in the mile after the two had run neck and neck all the way. Hewes' other victory came in the 100 yard dash.

Jim Sullivan was the top point getter for Prore's. He amassed a total of 12 by winning the 45 yard high hurdles, placing second in the low hurdles and high jump and gathering a third in the shot put. Ed McNamara ran a fast front race in winning the 600, and earned a second by trailing Hewes in the 1000.

The Frosh Frosh trackers, definitely handicapped by inefficiency in numbers, nevertheless made their only appearances upon Hendricksen Field's board track, a notable one, by defeating Mount Pleasant High school 44 to 39.

Six men did all the scoring for Providence and of that number, four accounted for 38 points between them. Arthur Hewes won a double-victor. He just nipped teammate Bill Horridge in the mile after the two had run neck and neck all the way. Hewes' other victory came in the 100 yard dash.

Jim Sullivan was the top point getter for Prore's. He amassed a total of 12 by winning the 45 yard high hurdles, placing second in the low hurdles and high jump and gathering a third in the shot put. Ed McNamara ran a fast front race in winning the 600, and earned a second by trailing Hewes in the 1000.

**Summary**

The main reason for station inactivity, and thus a fall in station’s reputation, prompted in order to discover the reason behind the station’s inactivity. The main reason for the scent broadcasting was perhaps the lack of necessary equipment. But in the spring of 1954 the campus radio station received from the Elks Lodge 14 of Providence a gift of a desk and chair; the desk being especially equipped for transmitting apparatus. With this donation, hopes were strengthened for more frequent broadcasts in the future. Under the management of Neil “Hitty” Voglante, the 1949-50 station was improved, and in April of 1950 the station was changed to 740 kilocycles, and operated as usual from 3 to 8 p.m. each Monday, Wednesday and Friday.

Early in 1953, WDOM was moved to Aquinas Hall, at which time the program format consisted of recorded musical shows, transmitted public service shows, news and news shows. The station meanwhile offered a variety of music, news, and sports, and semi-classical as well as modern music. In February of 1953, WDOM was increased to 600 kc, and has brought a diversity of programs to the students on campus:...
