Need Of The Home Stressed Must Exemplify Man's Love

Last Sunday evening marked the third in a series of Marriage Forums, talks to be given here at Providence College. Dr. and Mrs. Paul M. Thompson spoke to a near capacity audience on the topic "What Is Home?"

Mrs. Thompson, mother of five children, began her talk by defining the home as an aloof place of the affections. She said that a Catholic woman view her home as such and accomplishes this through her affection toward her husband and family. Mrs. Thompson also stressed the need for giving her home its heart and wholeheartedly to, then to her husband and children in that order.

In order to accomplish this task of being a good wife and mother woman must possess the ability to love and to a cold heart, and must also have a pristine knowledge of the family's needs, talents and limitations. Above all, she must be faithful not only in affections but in every action of her life."

The professor stressed the need to defend the home against dangers and to keep its true character. The modern day. Mass civilization, outside pressures, the social philosophy, the greed of the day, the need for giving her love freely to the faith and also exemplifies the home love closely elevated by grace.

March is vocation month, and it is not coincidental that it is also that of Saint Joseph. It is during this time that we pray especially that God will send laborers into his vineyard. And, who could better impress upon them and lead them closer to Jesus and Mary than Joseph, who was close to them himself.

We in this country have been blessed with a great number of vocations. There has truly been a remarkable increase in the number of people desiring to serve the Church, the same way that the Jesus did. But, we do not have enough Priests, Brothers, and Sisters to adequately take care of the needs of the Church. There has truly been a remarkable increase in the number of permutations.

The band played "Happy Birthday" while sitting on the floor in the union of the Holy Father, St. George, while the students were at the Providence College, and the music was played by the band of Ray McKinley and his Glenn Miller band. The band started to play and most important, we should make use of the available spiritual means. Pasquato, of course, is the Mass and the Sacraments. We have abundant opportunity to attend Mass, receive Communion, and to receive Penance. Besides the early morning Masses, there is a Mass of ten which fits into everybody's schedule. Private prayer is of great importance, and in this matter we should especially recommend ourselves to the need for giving her love freely to the faith and also exemplifies the home love closely elevated by grace.

Eucharistic Fast

The following regulations con- cerning the fast before Communion are especially as follows:

1. Water never breaks the fast.
2. Solid food and alcoholic liquids may be taken up until one hour before the reception of Holy Communion.
3. Non-alcoholic liquids may be taken up until one hour before the reception of Holy Communion.
4. Those regulations apply to Masses at 7 a.m., morning, afternoon, evening Masses.
5. Since those regulations are the definition of the Church's approval in use we them is not required.
**Letters To The Editor**

Editor:

A reply to our letter of March 4 seems to indicate a failure to comprehend the content of that letter.

We did not object to any instance of communism, although we do not approve of such sanctity as we do possess was not less than to admit that we are not the only ones who are interested in this primary determinants of her approving communism. Two other items were subsequently mentioned, and certainly in the order of preference and protection of a fixed morality.

Miss Dobb's main theme is absorbed in the presentation of her lecture and consequently should not have been so abruptly closed. It is said that a talk is only as good as the listener receives from it, and we wish to point out that if the kernel of the discussion was "For the Effects of the Moon on Polar Bear" was the most interesting and worthy of the "Why don't you see the speck in thy brother's eye, and also the beam in my own eye?" Why not praise the object of our desire.

_The Cowl_ March 27, 1957

**Political Viewpoint**

By Len Claghorn

The Committee, is focused on Senator John L. McClellan's select committee investigating racketeering in labor unions. Chief target of the committee is the Teamsters Union. Chairman of the Committee is Senator John F. Kennedy. It is expected that this will be a key issue in the upcoming election.

James R. Hoffa of Detroit is officially ninth vice-president of the Teamsters Union, and head of the Central Board of Trustees. Unofficially, he is considered a likely candidate for the presidency in the near future. Hoffa has been under investigation by the Committee of accepting a bribe from the owners of a gambling establishment. He denied the charge, and is facing Grand Jury charges. The next week, Attorney General Robert Kennedy will present tape recordings making deals with two labor racketeers. All this led to the appearance of a comeback for Mr. Hoffa. Furthermore, the Committee has a large number of uncomplied agreements, which are supposed to act so. It is not too surprising to us that most of these agreements have been signed when the communique was taken out of the house.

The British Empire has a distinctive character, especially provided by the Liberal college. "But when they are supposed to act like the states law which forbids the president to attend an assembly during a period of non-attendance. He is also protesting his innocence.

At the time this is written, Teamster President Beck has not yet appeared before the Senate committee. But he has engaged former Senator James H. Sherman and former Attorney General Robert Kennedy in private conversations. The time it is written, there are trying to find out where Beck has accumulated his greatest wealth. A lot of questions are being asked about Mr. Beck before the committee finishes.

The Democratic nomination worries. The Democrats are fearful because the public has long associated the party with organized labor. They are also afraid of the influence the investigations will have on union members, who can see that some of their leaders are distributors of communism. Republican leaders, meanwhile, are worried because both Hoffa and Beck are strong opponents of President Eisenhower's re-election. The one who will benefit most out of the probe, it appears, is Attorney General Kennedy. If the committee continues in the spotlight for a long period of time, it appears that Hoffa and Beck will be on the list of the Democratic Vice-Presidential nomination at the 1960 or 1964 national convention.

**Nebulous Revelations**

By Len Claghorn

Members of the Junior Men's Latin class, working with their spinning wheels, were seen to be very industrious when the class took time to set up their looms and prepare the thread. We wonder if anyone can remember a time when the students were so industrious. The class is working very hard, and it appears that they are working in a disciplined manner. The work is very well organized, and the students are very cooperative.

We also wonder if anyone can remember a time when the students were so industrious. The class is working very hard, and it appears that they are working in a disciplined manner. The work is very well organized, and the students are very cooperative.

We also wonder if anyone can remember a time when the students were so industrious. The class is working very hard, and it appears that they are working in a disciplined manner. The work is very well organized, and the students are very cooperative.

**Gentlemen's Conduct**

Since the founding of Providence College, the students have been among the most intimately associated with the Providence College student. Cardinal Newman once defined a gentleman as a "man, who resists and yields to the direction of the government of others." A week ago, the entire student body was invited to attend a lecture in Alumni Hall, to be given by a prominent and well-known speaker. This is a man who respects and yields to the direction of the government of others. Therefore, the student body must be able to attend such a lecture without any interference or outside pressure.

The students turned out in good numbers, owing to the fact that a good many of the tickets were being collected upon admittance, for the purpose of checking attendance of the students who attended and of those who did not. It is neither paradoxical that attendance for such an entertaining lecture should be taken, so as to force students into attending. This is a procedure that one could expect to prevail in case of a lecture or a high school, but hardly in a college where students are supposed to act like the students. It is, therefore, that their intellects either through the medium of the classroom or the extracurricular, extra-curricular lecture, especially provided by the college administration. However, "boys will be boys," and the collecting of event tickets will be necessary until that percentage of puerile students learns to act as college men ought to. The lecture was held in the Providence College gentlemen was put in jeopardy owing to the fact that some of the students were desirous of private conversations. It is not only a sign of bad manners on the part of some students, but an external display of disrespect towards a speaker.

This editorial is not intended as a satirization of the students for such an offense; it is offered as a constructive criticism and should be accepted as such. However, the problem does exist, and its solution lies in each individual's taking heed to a morsel of correction. So, if the hat fits, please wear it.

**Evaluate & Distinguish**

Even the most observant observer could have very easily discerned an air of criticism—most genuine—owing to the evaluation of the P.C. campus. These rash and contentious judgments are not at all unimportant, for it is the true reflection of the minds on the campus. The students(prog. to continue)
By Len Clingham

It seems hard to imagine how P.C. students survived those long, almost prehistoric days before the opening of Alumni Hall. Campus life for some students seems to revolve around this magnificent building. Among these are the "ping pong" majors, who seem to be forever around the two ping pong tables in the student lounge. Education would be fun if you didn't have to waste all of your time attending classes.

We are really fortunate to have Alumni Hall on our campus. Within its four walls are everything from RCYC classrooms to a pristine golf course. You can have a meal, mail a letter, get a hair cut, or drink an exam without having to go outside into the cold, cold air. The only things that are missing are a swimming pool and a bowling alley. I suppose there are good reasons for this, but it is too bad that money and space for them couldn't have been found.

To many, Alumni Hall is synonymous with the cafe during the day and the gym at night. The crowd of students that show up for home basketball games is evidence of how much it has done for school spirit that many remember to keep on the rubber runways and off the sarcastic floor. The word means "very sacred" in week, this idea struck me quite forcibly. I could not help thinking how to her do it. Possibly I am unrealistically optimistic. Four Friars Receive All East Hockey Honors

By Dale Foulk

Four members of Providence College's 1956-57 hockey team placed on the New England College All-Star choices last week. Snaring honors from Tom Eccleston's successful sextet were linemates Lou LaFontaine, who played on the second All-East Team; Joe Barile, who was Hometown Men's selection. The balloting was conducted by fifteen college coaches and five sportswriters in the New England area. In addition to the naming of the All-East stars, the coach chose Conney Wistand, veteran Harvard mentor, Coach of the Year. Harvard, who split two engagements with P.C. in the beginning he was unable to acquire a Bostonian, at that time, called it the hardest hit ball in his career.

The Senior Business quintet, in addition to the naming of the A. A. All-Stars as Coach Ray Meandros started play a very fine five game defense. At 11:42 of the second half the score was tied at 40 and win two games in one day. Ritacco, who had a double shut-out until the second half the score was tied at 40 and win two games in one day. Ritacco, who had a double shut-out until the second half was dominated by the snapshooting of Larry Connelly and Al Grande. substituting freely, the N.B.A. boys built up a 27-18 intermission lead. At a great percentage while the N.B.A. All-Stars were sensational off the boards and 52-35 Pat Grady

The American Association All-Stars came from a 20 point half time deficit to score 21 points in the second half for an 81-76 victory over the National Basketball Association All-Stars in the Dorn League's annual classic. The game started off slowly with the N.B.A. team spotting a 24-5 lead after the first quarter of play. With Coach Bob Crippen building up a 27-18 intermission lead on the Al Grandie.

In the spring of 1936 the Bosox's Jimmy Foxx hits a foul drive down the left field line that lands in the parking lot. After watching three slow races is to give the distance men a chance to engage in a bit of competition. The most exciting game in Friar annals was played against Brown's Phi Delta Gamma. Eddie Stack's two run single to center field tied the Friars 5-8, before 4,000 spectators. Eddie Stack bags the Washington Senators. Visiting Meiji University of Tokyo, Japan, beat the Friars 8-4 on Memorial Day.

THE COWL, MARCH 27, 1957
SPORT SILHOUETTE

By Ed Lombardi

The record for the 900 yd. dash (1:16) in Maine. Not one to remain idle, Jerry plays intramural basketball and softball as well as being a member of a host of campus clubs. He is president of the Metropolitan Club, and an active member in the following organizations: Ships and Scales, Sigma Chi, and Monogram. In 1955, Jerry appeared on the winning team of any other first week in Nov. to the first week in April. As for Joe, himself, he plans on entering the business world in sales. This former truck driver could be figuratively said to have shot his way through school. Good luck, Joe.

You smoke refreshed
A new idea in smoking...all-new

- menthol fresh
- rich tobacco taste
- most modern filter

Think of a Spring breeze blowing over fresh, green grass and you'll have a good idea how refreshing all-new Salem Cigarettes taste. The freshest taste in cigarettes flows through Salem's pure white filter. Rich tobaccos and new surprise softmints...menthol-fresh comfort. Try Salem—you'll love 'em.

Salem refreshes your taste
**Round and About...**

(Continued from Page 2) the unproven hypothesis that, too, was educated in the public schools, and my father and many of my friends were in public education. Many there are some Communists in the system, and in this connection may be the minority and the same thinking of high school teachers that is a strong counterbalance to them.

Most likely, Miss Dodd was quite sincere. I sympathize with Father DeNola in trying to make her premises for us to try. As far as I can think that this could possibly be a new conceptual technique. By having them derive it from the redefinition of the stereo-typical role of these women, we might even be able to remove the stereo-typical role of the plural audiences. I admit this is unlikely, but not out of the realm of possibility.

In his "Book of Lost Men of American History," Stewart Holbrook gives us an account of some Americans who made the country what it is today—great men, really great men. This country is a land of these will really inspire us to greater deeds. "Joe won't eternally inspired to rush over to the R.O.T.C. department and join up."

For all of us have Robert Gibson Johnson. Mr. Johnson's contribution to this country was not his words, but his work. As a teacher, he truly appreciated. In the deep and dry south century, the tomato was thought to be deadly poisonous. In his travels, Mr. Johnson worked to prove it was not, in a spirit of true patriotism, to do what everyone else thought impossible. Thus, the great American, started on its eventful journey.

**Improved Spelling Dearly Necessary According To The Present Status**

**SPELLING COURSE NEEDED** (ACP) — The University of Connecticut DAILY CAMPUS urges a new compulsory course — spelling — and gives some reasons why.

There are a number of compulsory courses, some that serve their purpose and some that don't, but there is none that does the pedagogical job of the student body. We speak of the course in elementary spelling and the problems in spelling today.

A frequent reference made today when discussing the educational training of American students concerns the prevalence of poor spelling in high school and college grades. And judging from our own dance, but found no evidence of any wrong doing.

President Lipsey asked that the committee had refused to approve the constitution of the proposed P.L.C. club. After much discussion, the Congress voted to recommit the bill to committee.

**What's it like to be AN IBM SALESMAN?**

Selling to management is perhaps the best training for management, and it's the reason Gene McGrew joined IBM. Today, he possesses a thorough practical Business Administration education, responsibility, an excellent income—all at age 27. Read about an unvaried career.

**The Spillane Influence**

(ACP)—Just about everybody has tried his hand at doing a parody of Mickey Spillane and sometimes the results are pretty tiring. However, the fact that this is the Ivory Tower edition of the University of Olive Daily, amazing to particularly since it has the advantage of an O. Henry-type ending. It's called "Quench Me, Deadly!"

It was a warm, stagnant night. No breeze moved the leaves. And very late. Silently he moved along the sidewalk past blackened dormitories. The orange rays would never be able to penetrate the faceless, an annoying pang in the pit of his stomach.

For a quick glance behind, he approached the half-open doorway of a signboarded building. He paused, fumbling in his pocket. Then, making no sound, he entered the door latelier and was enveloped in shadows. A solitary click. Then silence.

Suddenly, there were shouts from inside: "Theft! Robbery!" A fist slammed against the darkness, cutting solidly, maully with its target. A grunt, muffled grunts. The following blood intruder! Beer at that violent curse split the air. A fist, a wedge, a thrust against his feal leg muscles; and there was a shout, pleading cry. Then it was over.

For a moment he lingered in the darkness, listening. Then he shuffled hastily down the street, his snow kimono blowing like the snowisation given off by the street light. It illuminated his face. But it didn't keep him off the street. For he walked dejectedly down the street and into the night, seeming not to know where to go, what to do.

Later in the week, maintenance work was repaired on the electrical mechanism of the large red machine so that it would operate properly, disrupting the battle of Cowl Cola whenever a borne was inserted in the coin slot.

President Lipsey asked that the Congress reply to the "Letter to the Editor" which recently appeared in the 

The schedule for the election of Student Congress members for the year 1935.

The new wing to Harrins Hall will be dedicated February 7th, 1929 by Bishop William A. Bickey, D.D.

The first issue of the COWL was on Saturday, November 16, 1933.

There were only 65 degrees conferred upon graduates at the 7th commencement at Providence Colleague.
Barristers... (Continued from Page 3)

Barristers' representatives, Frank Shaw and Tom Blessington, clashed with eight of the 24 teams entered into the east region of the West Point National Invitational. Scene of this contest was the college cafeteria. It was necessary to select five representative teams from the New England-New York area, was the University of Vermont in Burlington on Lake Champlain. The PC teams defeated the affirmative and the negative propositions alternately; in upholding the negative against Fordham College of Education the Barristers scored their one decision, a very close one. It was the top team in the regional tournament, and will be accompanied by the next four best teams of the area to compete with debating teams from the nation at West Point during Easter week. The title of national champion is at stake.

Two PC teams travelled to Worcester last evening in a return match. The next home contests, to which the student body and the general public are invited will take place in Alumni Hall on Thursday, April 4th, when the Barristers meet R. I. C. E.

In Passing... (Continued from Page 3)

Taking their cue from you, enter the cafe you find them sitting in the same place. Only four at a table however, any more are taboo. It serves as an excellent meeting place, though, even if you can't get a good cup of coffee. Just find a table and sit down, eventually all of your friends will be by.

I could continue on much longer about the general exercise room, but just like to stress that I'm not criticizing all the cafeteria employees, just the system of intramural sports, but about the general exercise room and eventually all of your friends will be by.

Freedom... (Continued from Page 6)

If I have any left, I won't. I would just like to stress that I'm not criticizing all the cafeteria employees, only a few. It doesn't require any more effort to be polite, and the effect is much better.

JUNIOR NOTICE

All those juniors who have already received their class rings have until Friday to make any adjustments that may be necessary. Those who have yet to pick up their rings have four days in which to make alterations after they receive them. All arrangements are to be made through the BOOKSTORE.

In passing... (Continued from Page 3)

The date for the blessing of the rings is tentative, but it will be made known as soon as it is definite.
