Chapter of the Alumni Association. Every year, on Parents’ Day, a scholarship is given to an outstanding member of the senior class, who after completing three years of varsity competition, must exemplify the character of Mal Brown. This award was sponsored by Mr. Edward P. Donati, class of 33.

Fr. Lennon Feted by Teachers

A celebration, sponsored by the Teachers Guild of the Thomistic Institute, in honor of the Rev. Joseph L. Lennon, O.F.M., Moderator of the Guild and recently-appointed Dean of the College, was held Sunday afternoon in the Lounge of Alumni Hall. Father Lennon was presented with an initialed desk-set and a scroll.

Laffey Named Veritas Editor

Fourteen candidates are running for the five offices of the senior class in the coming election. No political parties are involved, and all the candidates are seeking office on the individual merits.

Nominees Announced. For Senior Elections

Seniors Selected For Scholarship

The following students have been selected by the College Fulbright Committee to be advanced for consideration from the State and National Committees:

In State: Robert N. Iacono, Business Accounting; Richard D. Dooley, Political Science; David Roche, Business Management.

Last year saw three Providence College men achieve prominence as Fulbright Scholars.

Michael Fitzgerald, ’57, Letters—Muenchen, Germany.

Robert O’Toole, ’57, History—Turin, Italy.

T. Gregory Sullivan, ’57, Political Science—Frankfort, Germany.
The "Big Bad Upperclassman," a caricature common to the student body, has not only the negative connotation for freshmen who have been exposed as the "Big Bad Upperclassman," but also the students who take the role of "elders." They will be more likely to remember the frustration and helplessness extended to them.

The freshmen have found many instances of unfairness and have only too willing to lend a word of praise and encouragement to the students of Providence College for the students interested in this matter. This is an attitude taken by Providence College graduates, educated men, who should take the lead in this matter. They have received from their management, the Teamsters Union, corrective legislation to clean up the unions. The Teamsters Union has been in the spotlight for over a year. Senator McClellan has relentlessly investigated the methods and activities of the Teamsters Union and has been exposed as the "innocent" by the Teamsters Union. He has been unbalanced in his argument and has failed to correct this situation. He has failed to recognize that the Russians have surpassed us, but this calls for increased development and production rather than the view that they had an advantage over us.

The Satellite

Late Friday, on October 4, the Union in Moscow, Russia, has become an issue in the United States. It was reported that the Union has launched a satellite into outer space since then their artificial moon, Sputnik, has caused a great deal of excitement in the scientific world as well as political circles.

For the most part, reaction in the United States has been that of fascination. However, there are great many people, scientists and non-scientists, who are alarmed and embarrassed because the Russians have apparently beaten us in the race of scientific achievement. Is this event really cause for worry? Should the United States now take a defeatist attitude? Certainly not, for to think this way would be dangerous not to say idiotic. I agree that the Russians have surpassed us, but this calls for increased development and production rather than the view that we are dead unless drastic measures are taken, which was arrived at by one of our prominent scientists, I can only say that there are gross exaggerations of the truth. The news reflects the views of two individuals and these interpretations are based on the circumstances involving our satellite program. Nevertheless, we have learned that there are no new weapons, and no hunt for scapegoats. These actions are based on the work that we can no longer indulge in.

Will Ultimately Make Greater Strides

The old adage, "it is quality rather than quantity that matters," seems to be the attitude of the United States in the past. In the past it has always been her policy to strive for perfection, and in so doing she has maintained a key position in world affairs. It is for this reason, I suggest, that the United States fell to put the blame on the Communists, we will ultimately regain her stature in the near future with achievement of greater value.

The Teamsters Union

Ever since the Senate Racketee Committee began its investigation of the Teamsters Union, the Teamsters Union has been in the spotlight. Senator McClellan has relentlessly investigated the methods and activities of the Teamsters Union and has been exposed as the "innocent" by the Teamsters Union. He has been unbiased in his argument and has failed to correct this situation. He has failed to recognize that the Russians have surpassed us, but this calls for increased development and production rather than the view that they had an advantage over us.

Liking Reporter

In last week's Oval there appeared an editorial concerning the song "Artificat Fellow Traveler Around the World." This song is a compilation of songs from the juke-box and the "music" which emerges from the juke-box is a mixture of songs that are quite popular.

The song "Artificat Fellow Traveler Around the World" has caused great deal of excitement in the scientific world as well as political circles.

The seniors, too, who can't use the library, find this a welcome way to assist at every opportunity. They are encouraging the cordial smile, the "How ya doin' Joe?" Maybe the seniors, too, are finding it considerably more fun and energy.

There are so many people, scientists and non-scientists, who are alarmed and embarrassed because the Russians have apparently beaten us in the race of scientific achievement. Is this event really cause for worry? Should the United States now take a defeatist attitude? Certainly not, for to think this way would be dangerous not to say idiotic. I agree that the Russians have surpassed us, but this calls for increased development and production rather than the view that we are dead unless drastic measures are taken, which was arrived at by one of our prominent scientists, I can only say that there are gross exaggerations of the truth. Will Ultimately Make Greater Strides

The old adage, "it is quality rather than quantity that matters," seems to be the attitude of the United States in the past. In the past it has always been her policy to strive for perfection, and in so doing she has maintained a key position in world affairs. It is for this reason, I suggest, that the United States fell to put the blame on the Communists, we will ultimately regain her stature in the near future with achievement of greater value.

Teamster officials handcuffed by Hoffa's men instead of truck drivers, it is not too surprising that he was elected by an overwhelming number of votes.

Corrective Laws Only Solution

It is our belief that rank and file members of the Union are apparently not able or, at least, unwilling, to correct this situation, since there has been relatively little opposition voiced. As for the idea of other Unions in the AFL-CIO using "strike-breaking" as a means of economic warfare, the end result would be very objectionable, and dangerous to the entire system of organized labor. It is only a matter of time before one of the major industries is presented with an anti-labor bill, and it's unlikely that these teeth are sharp enough to rid Unions of the Jimmy Hoffa's and Dave Becks.

THE COWL October 16, 1957

Threatened by a possible strike by the Teamsters Union, the United States didn't begin work until 1954. The statement that unless we can catch up fast the Russians will move from 'superiority to supremacy,' which was made by one of our prominent Senators, or the conclusion that 'we're dead' unless drastic measures are taken, which was arrived at by one of our scientists, I can only say that there are gross exaggerations of the truth. The news reflects the views of two individuals and these interpretations are based on the circumstances involving our satellite program. Nevertheless, we have learned that there are no new weapons, and no hunt for scapegoats. These actions are based on the work that we can no longer indulge in.

Accidents Of Birth...

The situation which has developed in the southern parts of our country is one which has brought shame to our great nation, and made us look foolish in the eyes of the world. If we made a stand against the accidentals, we would almost be foolish. Color, after all, on a purely philosophical basis, is only an accident. The person who passes judgment on others on the basis of it, does not degrade the one whom he judges, but only himself.

Of course, to be entirely fair, we must admit that the South does have a great problem. The question of integration involves more than the "we're white, they're black" issue that the extremists and white supremacists wish to make it. In many parts of the South the colored people are not financially or educationally on a par with their white neighbors, because they have not had the opportunity to be. On the other hand, few, if any, concrete steps have been taken to give these people the rights, nor privileges, granted them by Christian principles and the Constitution of the United States.

While integration does not have to be a sudden sweeping change, progress must be made constantly, even of a piecemeal character. If the situation were not serious, we would make a stand against the situation and take the lead in this matter. This is an attitude taken by Providence College even from its earliest days, indeed even when some places still exist. So, before we judge too harshly let us examine our own backyards, and remove all vestiges of prejudice from them. It is the college and colleges who set the pace, and we all must take the lead in this matter.

Third Order Elects Officers

The college chapter of the Third Order of St. Dominic held its first meeting of the year in Aquinas Hall Chapel on Friday, October 4th. Immediately after Benediction of the Most Blessed Sacrament which closed exposition for the First Friday, Father McBrien, Chaplain of the College, addressed those in attendance, explaining the purpose of the Third Order.

The Dominican Third Order, he said, gives to those living in the world the opportunity to lead a more perfect Catholic life. It makes them members of the Dominican family and sharers in the prayers and good works of the whole Order. From these additional graces the Third Order Dominican receives the strength not only to improve his own life, but also to have a solitary influence upon the lives of others. The vocation to the Third Order of St. Dominic, therefore, is truly apostolic.

Father McBrien pointed out that the spirit of the Third Order Rule is to remain a student of worldliness; a whole-social life is certainly compatible with this spirit. At this first meeting, schedu­led for the Third Order of St. Dominic, members were distributed among the prospective members in order to determine a committee to meet in the future. Anyone who is interested in learning more about the students’ Third Order group is likewise invited to make his schedule known to Father McBrien in the Chaplain’s Office, or to Father Jelly.

Blazer—To Have Or Have Not?

The Providence College Student Congress is currently devoting its attention between the selection of a school-wide opinion poll, and the direction of activities marking the termination of freshman beanie period.

The student poll, which will enter its final day this Friday, is being conducted in an effort to weigh general interest in the wearing of a blazer here at P.C. Future action regarding the controversy will hinge on the results of the opinion sampling now in progress. A ballot box and supply of answer forms will be provided at the front bulletin board on the second floor of Harkins Hall.

The student body, Father McBrien pointed out in addressing the student body, is invited to be present at the election of officers to be held in the Chaplain’s Office, likewise invited to make his ballot and supply of answer forms will be provided at the front bulletin board.

Cranston

The first meeting of the Cranston Club was held at the Saint Paul Council, Knights of Columbus Hall in Edgewood. A brief outline of the activities of the club held throughout the year was given. A request for a Friday night stag dance was submitted to the social chairman of the Student Congress, and plans for the annual November turkey raffle were discussed. The committee for the raffle was appointed and consists of Ed Maggiore, ’58, Harold Bonner, ’60, Tom McQueeney, ’61, and Tom McQueeney, ’60. Also representatives for the intramural athletic council were chosen.

All meetings will be held on the first Tuesday of each month at the K. of C. Hall, and a movie will be shown at each meeting if possible.

Freshmen Will Attempt To Overthrow Soph Opponents

Tomorrow afternoon the annual tug of war between the freshmen and sophomore class will be held at Hendricken Field. All freshmen are urged to attend, as a victory would mean the doffing of the traditional beanies. Everyone freshman should participate in the event, or at least get out there and cheer the class on. The class of 61 has a P.C. tradition to live up to. Vin Perrault, setting president of the freshman class, sums it up in these words: "To freshman class has ever lost the tug of war. Keep the tradition alive. Overwhelm the soph's with your fine spirit and willingness to win. You can win, you must win." Vin also let it be known that all freshmen should attend in order to field the best possible team against the sophs. It will be a mark against the class, which has thus far shown fine spirit and enthusiasm, if the sophomores emerge victorious. One hundred percent freshman attendance would assure a better chance for victory. If the class loses, the fresh must wear their beanies for one more week.

The following rules concerning the event have been announced:
1. An equal number of freshmen and sophomores will oppose each other.
2. All freshmen must wear their beanies in order to participate.
3. No cheat of any kind may be worn.

The Congress has also stated that if the freshmen are victorious, a Liberation Dance will be held this Friday night at Har­kins Hall. The freshmen must wear their beanies in order to participate. The date of the event has been announced.

Carolan Club Opens Social Season

The Carolan Club’s “Autumn Festival” will officially inaugurate the Providence College social cycle for 1957. Tony Abbott is not a new figure on the Providence Campus, having played here last year at the Carolan Club Dance, the Friars Formal, the Sophomore Class Dance, and several others. He recently completed a tour of New England’s top night spots. The dance areas will be decorated with crepe paper, pumpkins, and corn stocks.

Harriers Host To U.R.I. To Seek Initial Victory

Still seeking their initial win of the year, Providence College's cross-country forces are due against the University of Rhode Island tracksters Friday.

U.R.I., traditional State rivals, were beaten in their two starts, once by Fordham University. The Rams headed by Sophomore Bill Wilson included Hugh Cushman, Ed French, Tucker Wright, and Tom McIntosh as leading Harriers.

The meet will take place on campus at 3:30 Friday afternoon and finish at Hendrick Field.

Pucksters Prep For Tough Year

Looking ahead to the 1957-58 hockey season, Coach Tom Eccleston's P.C.'s hockey performers are due for a more rigorous slate than their 18-game schedule of last year.

Under the tutelage of Eccleston, now in his second year at the helm, the squad has already started workouts in preparation for their opened against American International College on November 30.

The Friars have once again accepted an invitation to appear in the Boston Arena Christmas Tourney to be held December 27th through the 29th. Although losing their opener in this tournament last year to a strong Boston College sextet the boys rebounded to win their next two encounters, by drubbing Northeastern 3 to 2 and Dartmouth 8 to 2. These two wins enabled them to place third against a field of six teams.

Looking ahead to the schedule for this year is not complete as of yet, there is the assurance that the Friars will appear in a good number of home games. This may be looked at advantageous due to the fact that they were undefeated in six home encounters last season.

**A Stab In The Dark**

Phil Jackman sits atop the COWL football "experts" this week due to his perfect picking performance in the previous week's "guessing game." Jackman went through the ten games unscathed. Behind Jackman in a three way tie were Eddie Lombardi, Dale Faulkner, and Jim Westwater. That trio missed on two of the games. Gerry Murphy fared the "leastorme five" on missing only one of the contests.

**INTRAMURALS**

As of Monday, Mr. Louthis, Director of Intramurals, Authorization was still waiting to come from club representatives for entries in the Touch Football competition.

Games will go on this week, though, with the following slate:

Wed. Oct. 16 Ship and Scales I vs. Boston Club

Ship and Scales II vs. New Haven Club.

An intramural cross-country meet will be held sometime in November. Information on this meet is asked to sign up with Mr. Louthis.

**Sports Extra**

Providence College's basketball, who started pre-season drills last week, is being reviewed in the 1957-58 Basketball Annual, put out by the Dell Publishing Company.

In one of P.C.'s rare appearances in a national sports publication, the basketball team is mentioned in a general rundown of 130 of the week's collegiate basketball squads. Capt. Donahoe grabbed an individual picture and was chaired against one of the East's top sixty players.

Johnny Egan, '61, is in the New England High School New England High School Tournament. Egan, who paced his Weaver High, High School, was quintet to the championship of that tournament last winter, was also one of five New Englanders to prepare for the next time to prepare for the magazine's All-American team.

Last week's U.R.I. BEACON carried a pair of items of particular interest. One was an introductory article concerning Ernie Calverly, new Ram basketball mentor, guiding P.C.'s powerful fresh- men to an annual final win last year, Calverly assumed the U.R.I. coaching chores from Jackman.

The second interest-attracting story was that of Billy Von Wayne, who was the nation's top foul shooter in his junior year at U.R.I., is particularly remembered for his performance in leading the State squad to an uphill win over P.C. in All-Pro Small College Ball.

Von Wayne is one of a host of rookies in the Celtic camp seeking a berth with pro basketball's kingspins.

Speaking of NBA newcomers, at first glance the Knickerbocker's apparently boast a number of good, sure, and helpful transfers. Included in the group are Willie Gardner, Mel Hutson, Mike McLaughlin, Terry Tyras, Guy Sparrow, and Larry Friend.

**Scoreboard**

**AT RANDOM:** Wasn't P.C.'s large delegation from Notre Dame High in West Haven, Conn., overjoyed at the showing of fellow grad Nick Pietrosante in Saturday's Irish win over Army? For that matter weren't throngs of N.D. fans thrilled at the key victory? Phil Jackman, who turned in a perfect showing in last week's COWL column "A Stab in the Dark," predicted Monday night that he'd go unbeaten through this week's games. Let's wait till Saturday.
Jackman: Irish

"Man In Society" New College Radio Series

Besides being Armistice Day, November 11 contains another significance. It is the harbinger of a new radio series entitled "Man In Society." Under the auspices of the sociology department, this series will consist primarily of discussions concerning sociology and its nature and extent. Such topics as the nature of sociology, the nature of the family, the various types of society (normal, criminal, abnormal, etc.) will be discussed at length.

The comprisal of this panel show are members of the Providence College faculty. The Reverend Fathers Ryan, Murphy, James, and Fitzgerald are regular members of the series.

Dominocrats Elected

On Monday, October 14, the Dominicite Party of Providence College was swept into office in a landslide victory over its four independent men opponents. A little more than half of the Sophomore Class voted and thus the Friars were out to complete one leg on state championship action.

The Redmen of St. John's were here two years ago and paced by All American candidate Dick Duckett and Bob Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen

The Quantico Marines will be on the schedule for the first time as well as St. Bonaventure, both are away games. St. Francis of Pennsylvania is listed for a return clash here. Fordham and St. John's come back to River Avenue in an attempt to repeat their easy victories of a year ago at P.C.'s expense.

The Redmen of St. John's were here two years ago and paced by All American candidate Dick Duckett and Bob Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen

Beginning with this week and extending to March 1, 1958, the sports talk of this campus will undoubtedly deal with Joe Mullane's basketball squad. This year's edition held it's first official practice Monday, the earliest date possible. The Friar hoopsters will open their campaign on Dec. 1 in a home match with Fairfield.

Following Fairfield, the Friars launch an offensive at Keeney Gym in an attempt to repeat their victory of a year ago over U.I.I. The Rams will be featuring an almost all new cast, headed by a new coach. Ernie Calverley is his name and it sounds vaguely familiar. From Kingston the locals will proceed to grace Marvel Gym with their presence and thus complete one leg on state championship action.

A.E.D. Holds Meeting

On Friday, October 18, the A.E.D., the national honor society for pre-medical students, will sponsor an informal dance at Harkins Hall from 8:45-10 p.m. Lenny Pezza and his band will provide the music for the affair.

The Quantico Marines will be on the schedule for the first time as well as St. Bonaventure, both are away games. St. Francis of Pennsylvania is listed for a return clash here. Fordham and St. John's come back to River Avenue in an attempt to repeat their easy victories of a year ago at P.C.'s expense.

The Redmen of St. John's were here two years ago and paced by All American candidate Dick Duckett and Bob Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen Duckett and Parenti they proceeded to down the Mullaneymen

The Crusaders of Holy Cross will pit P.C.'s guests the night of February 18. P.C. roosters will remember the jam packed gym two years ago (I parked my car at La Salle Academy) when the top tea ranked Crusader team played here. Fired up after their Notre Dame victory the Friars were out to make things unpleasant for our visitors. The huge crowd saw the amazing Tommy Heinsohn held to a stand still in the first half and exploded only after John Ritttle fouled out at the beginning of the third quarter. Last year the Holy Cross team repeated their victory at Worcester.

Hoosiers In Preparation For Approaching Season

The unpredictable Southwest Easts Rice, Texas A & M, Texas Christian, and S. M. U., are picking a winner there is no mention of California's sue...
The Saint Thomas More Club, an organization for Pre-Law students at Providence College, held its first meeting of the year on Monday, October 3. The main order of business was the election of officers for the coming year. Those elected include: President, Frank Pate, '58; Vice-President, Edward Breggia, '59; Secretary, Leonard Clingham, '59; Treasurer, John Dwyer, '59; and Parliamentarian, Gerald Pouliot, '58. Rev. Philip Sheahan, O.P., is moderator of the group.

After brief acceptance speeches by the newly-elected officers, the meeting was adjourned. While only juniors and seniors are eligible for active membership, freshmen and sophomores who are interested in the Legal profession are invited to attend the meeting. Activities tentatively planned for the year include addresses by prominent guests, and a dance in the Spring.

(Continued from Page 1)

Many there were who left his rubbing table with problems solved, and the courage to face those which lay ahead. He had a humble, unassuming humor which pervaded those with whom he came into contact. Although not a student of psychology, he had a thorough understanding of the nature and problems of young men. Many there were who went to confession and the other sacraments because of the understanding and urgings of Mal Brown.

Providence College has indeed been fortunate in having a man of such outstanding characteristics on its campus. When Mal died in 1939 from a combination of typhoid and pneumonia, all who knew him had sad and heavy hearts. When he was laid out in Harkins Hall, a terrible stillness filled the place that had once been alive with the echoes of his laugh. The floral pieces of such sports greats as Birdie Tebbetts and Hank Soar went unseen through the tears of the many mourners. The local press estimated that besides Mal's family, 75 priests, many nuns, and the athletes from twelve years back, there were 1800 people (not to mention the thousands who were there in spirit, but who couldn't get away from their jobs). This is truly a testimonial to the beautiful soul and life of Mal Brown.
