Scholarship Competition
To Close On November 1

November 1, 1956 is the closing date for the competitions for United States Government educational exchange grants for graduate study abroad, it was announced today by James Well, Holland, Provost of the Institute of International Education, New York City. One month remains in the time to apply for awards under the Fulbright and Buenos Aires Conventions. The competitions for the 1957-58 academic year.

Scholarship application blanks and a brochure describing the overseas study awards are available in the offices of Fulbright advisers on college and university campuses. Applicants enrolled at academic institutions must abide by the submission deadlines established by their respective Fulbright advisers.

The Fulbright Act and the Buenos Aires Convention for the Promotion of Inter-American Cultural Relations are part of the international educational exchange activities of the Department of State. They will give almost 1,000 American citizens the chance to study abroad during the 1957-58 academic year. Since the establishment of the program in 1947, over 5,500 American students have received grants for study abroad.

Countries where U.S. graduate students may study under the Fulbright Grants are Argentina, Belgium, Brazil, Canada, Cuba, Czechoslovakia, Denmark, East Germany, Greece, India, Italy, Japan, the Netherlands, New Zealand, Norway, the Philippines and the United Kingdom. In the Asian countries—Burma, India, Japan and the Philippines—and in the Republic of China, only a limited number of grants are available and mature graduate candidates will have to apply for special provision in the German program for those grants to American graduate students who will serve as English language assistants in secondary schools.

Countries participating in the Buenos Aires Convention Program are Argentina, Brazil, Chile, Colombia, Costa Rica, Cuba, the Dominican Republic, Guatemala, Haiti, Honduras, Nicaragua, Panama, Paraguay, Peru and Venezuela.

Eligibility requirements for these foreign study fellowships are: United States citizenship, a college degree or its equivalent at the time the award is to be taken up, knowledge of the language of the country of application sufficient to pursue the proposed study, and good health. Preference is given to applicants not more than 35 years of age.

Final selection of Fulbright grants is made by the Board of Foreign Scholars, ten leading educators and educational administrators appointed by the President of the United States. The Institute of International Education has been designated by the Board and the Department of State to screen applications for scientific and educational work. Under the Buenos Aires Convention, the Institute makes the preliminary recommendations to the governmental authorities of the cooperating countries making the grants.

Debate To Be Held Today At 3:45 P.M.

By Howard Lipsey

This afternoon, at 3:45 in Room 200 of Harkins Hall, a debate, participated in by members of the P. C. Harrity, will be held in preparation for the entrance into major inter-collegiate competition. Mr. Shaw and Mr. Du Ponte, debating the negative side, will oppose (Continued on Page 3)

September 24, 1956

By Dick Wolfe

The Phi-Chi Debate Team of Ward sponsored by the Student Congress and involving thePhi- Chi Society of Providence College, has been held each Thursday afternoon, October 18, at Hendrick Field. Once again the Freshmen were victorious; no longer did they have to wear the beanies. This can be said to prove one thing, "in order to win, you gotta have pull." The Freshmen are now officially inaugurated into Providence College.

During last year's Tug of War, the rope was broken twice, simply because of the overburden of weight stressed upon it. Two physicist, however, went in the middle and the rope was driven Jim Pitochelli around campus. During the battle Jim was struggling, beating the rope drum, attempting to inspire his Sophomore Clas to victory.

The opposing sides were twenty-eight feet apart, the boundary line in the middle of fourteen feet. The objective was to have one side pull the other across the line into their own territory. There were to be three matches, the winner-to-be required the winning of two. The rope, nineteen-seven feet in length and of tightly woven top grade manila fiber, was one inch in diameter. Two minutes were to be allowed for each match. The first match of the day was started by starter Bill Sweeney. Chief of the Enforcement Committee, the rope suddenly gave out as the contest was under-way. At first it seemed as if the Sophomore would be leading by one, then in the last few seconds of the match an apparent victory was gained a mighty brave-be-ho and won. In the second match the Freshmen easily gained their victory. At the end of the short battle heads were counted and it was found that each side had thirty-three men! No one knows how three extra men came to be on either side, but it has since been said that two certain over-enthusiastics priests know For those who were left behind, the next day they were held on their knees Rosary by twenty-two and/or twenty-three. For those statistically minded, the rope was found to have stretched down to seventy-five percent of its original thickness and was measured to be almost one hundred feet in length. Originally tested for 13,500 pounds, it was later determined that the total force exerted by both teams on the rope equaled 3,000 pounds. Special thanks should be extended to the Beavertown Leo D. Bos, O.P. for obtaining the rope through the cooperation of the Providence Police Department.

Although urged on by their class moderator Father Reid, O.P., the Sophomore Class faltered and lost the rope pull to the Freshman who then threw away their beanies.

Frank Brennan

Frank Brennan of Waterbury, Connecticut, was re-elected president of the Student Congress following one of the most spirited campaigns in the history of Providence College.

Ninety-seven percent of the class voted and also elected President Brennan of Wilmette, Illinois, as vice-president; Edward T. Ferry of Crom­ston as secretary, and William J. Devine of Quiney, Massachusetts, as treasurer.

Brennan polled an even 190 votes in the three-weeked fight for the presidency. Brennan, running as an independent defeated Anthony De Berardino by 19 votes and Ernest Ber­grein by 26 votes. De Berardino had the backing of the Dominican Party and had held the position of president during his freshman and sophomore years. Bergrein, a new­comer to Providence College politics, also ran.

Flannery, another new face in the College's political field, had the backing of the Independent Party and polled 109 votes, just four more than independent Bob Devine, who won by a 60 vote victory. No one else made a showing. Brennan was the second highest vote getter of the last few seconds the negative side, will oppose (Continued on Page 3)

Farmers' Festival
To Be Held Nov. 16

The newly re-elected senior class president Brennan has an­ounced that the annual Farmer's Festival sponsored by the Senior Class will be held on Friday evening, November 16, and that Bob Hoyle will be general chairman of the af­fair.

The general chairman announced that Arnie Sarazen has been named chairman of the orchestra committee and Pat Girard as chairman of the fresh­ment committee. Also named were Bob Devine to head the ticket committee and Dan Jarves and Jack Carusol to head the refreshment committee.

The chairman also announced that bids will be solicited in the Department of Chemistry on Friday evening from the Chemistry majors as a function of the A. M. E. Chem­istry departments are invited to attend.

At its first meeting, the Phi-Chi Club held an election to fill the office of secretary-treasurer, and Raymond Mauer of the Physics department was elected. Edgar Civitello and Anthony Vatalora were elected as chairmen to act as creditors of the science journal, "The Enthusiast." Various other committees were also named and work throughout the year. John Graham was re-elected as Chairman of the Science Magazines. The members of the club elected, by unanimous vote, were: John E. Case, a special member and 1952 graduate who at present is a chemistry instructor at the Rhode Island School of Chemistry of Providence College. It was also decided that future meet­ings will be held on the first Mon­day of every month. All members of the Chemistry, Physics, and Mathemat­ics Departments are given the opportunity to attend.

Prior to the Phi-Chi meeting, Rich­ard Bartlett was elected delegate to the Intercollegiate Chemistry Society and Joe Smarz to represent the Phi-Chi at the American Chemical So­ciety.

A seminar by George P. Flynn was given at the meeting. Other semi­nars were given by both the Junior and Senior Chem­istry majors as a function of the Phi-Chi Club.

The Phi-Chi Club will announce the first meeting of the new year on November 16, and that Bob Hoyle will be general chairman of the af­fair.

CORRECTION

In last week's edition of the COWL, the instrument pictured was referred to as the spec­trometer. The correct title for this apparatus is polarimeter.
Poland Vs. Russia

Within the last few days the Kremlin walls reverberated with the announcement that Poland had revolted. By the very fact that this revolt took place to a certain independence is a sign of the prevalent attitude which the other satellite countries hold towards the policies of the central Communist headquarters. What repercussions this event will have on the other nations remains to be seen.

Since Malenkov has been deposed, Bulgaria, Romania and Hungary have manifested many different shifts regarding the internal and external policies of the Soviet Union. Some new and some of the old de-Stalinist changes have weakened the prestige and prestige of the Kremlin.

However, what possible good comes from this revolt lies solely in the Polish people themselves, for although they seem to be rid of Russian Communism, as such, they are now under the domination of a dictatorial government. This is for the reason that we sincerely hope that the Polish people always be deeply Catholic as well as strong-hearted and peace-loving. We continue to fight for the spiritual and political freedom which has always been the longing of the Polish people.

May The Best Man Win

At the beginning of this school year, it was the desire of this newspaper to maintain a bi-partisan viewpoint toward the two major political parties, the Democratic and the Republican. But a few weeks ago, when Adlai Stevenson, the Democratic candidate, came to Providence, the COWL, made arrangements with the Associated Press, to have 12 votes on the floor during this year's meeting. The voting will be on the floor, as is the custom. The voters will be chosen by the state, this 12 votes for Eisenhower. Connecticut and Massachusetts will follow suit as they receive their allotment, 7 for Stevenson and 5 for Eisenhower, and will send Democrat Dodd to the Senate, and Massachusetts will have a Democratic Governor and a Republican Secretary of State. Give 24 electoral votes to Ike and 4 to Adlai. New York will elect Democrat Wagner, but vote for Ike and the same goes for New Jersey. Pennsylvania, Illinois, Michigan and California will elect to either way, but Senator Duff seems to be a drug on the Republican ticket, and it looks like Adlai in the Quaker state. Ike 41; Adlai 32. Maryland is a good Stevenson state, while neighboring Virginia will go Republican for Stevenson; 3 for Ike. Ohio will go Republican. Eisenhower broke the "Solid South," four years ago, but he won't do it this year. Stevenson looks like a good bet to win all of the 900 electoral votes of the 12 southern states offer.

It will be interesting to see what the fate of the Democratic organization is. The Pyramid Players, it would seem, are on the march again in any event, the state will go Republican along with the others.

Political View Point

I know this might cause a great deal of distress to the readers of the COWL, but as said in the last column, I'm going to pick the Republican party, I'm going to write this column simply to indulge in a number of social events which add to the happiness and pleasure while acting out a change from the grueling study-pattern. And lastly, through the clubs' functions, the members are given the chance to do some civic work. This, in turn, develops ambition and stamina which are essential traits of a successful individual.

It is evident, from the academic and social viewpoint, that the Pyramid Players realizes more than amply justify their existence.

Letters to the Editor

To the editor:

I sincerely thank every student who takes the time to read this column, but hope that every individual senior will be of assistance to their elected officers in any manner whatsoever to achieve a completely successful year both for Providence College and the Class of 1957. I am certain that by the able leadership of our present Senator Wayne Morse, we will be a class that will be remembered by both the faculty and students.

Robert L. De Costa

The Pyramid Players, it would seem, are on the march again in any event, the state will go Republican along with the others.

Letters to the Editor

To the editor:

I really only think that is important to a dramatic organization. Its directors must exercise care in the selection of productions, keeping in mind the general tastes of their audiences. Any dramatic organization must provide a certain amount of creative ability is required. A dramatic group is one of the places where creative ability is nurtured and developed, the degree to which its development grows is limited only by the participation of the day's of Teddy Roosevelt. The same type of coverage to the Republican vice-president will take this state and neighboring Indiana. Illinois will freeze, but Senator Duff will do it again . . . but with some difficulty. This, however, is possible that an election will be won or lost due to oratory. Conceivable, that is.

May The Best Man Win

At the beginning of this school year, it was the desire of this newspaper to maintain a bi-partisan viewpoint toward the two major political parties, the Democratic and the Republican. But a few weeks ago, when Adlai Stevenson, the Democratic candidate, came to Providence, the COWL, made arrangements with the Associated Press, to have 12 votes on the floor during this year's meeting. It will be interesting to see what the fate of the Democratic organization is. The Pyramid Players, it would seem, are on the march again in any event, the state will go Republican along with the others.
Drill Team Announces Need For Members

Sergeant Matthew Leporecci has announced that there is a need for new members for the Providence College R.O.T.C. Drill Team. Freshmen R.O.T.C. students are asked to look into the advantages offered by being a member of this organization.

Last year the team was the Rhode Island Intercollegiate Drill Team champions defeating the Brown Naval and Air Force teams and the University of Rhode Island Army ROTC units by a considerable margin. By doing this, P. C. gained the Adjutant General's Trophy which is retired by any team that wins the competition for three successive years.

It should also be noted that past members of the drill team who have gone into the advance course are high ranking cadet officers.

This year, the drill team is planning to parade on Veterans' Day in Providence, at the Mardi Gras in Woonsocket and on St. Patrick's Day in New York.

The drill team is headed by Cadet Second Lieutenant William Russo, a graduate of Rogers High School, Newport, R. I. He is assisted by Cadet Master Sergeant Gerard Corrado, a graduate of Sayville High School, Sayville, N. Y.

Danforth Foundation Invites Applications From Seniors

The Danforth Foundation, an educational trust fund in St. Louis, Missouri, invites applications for the sixth class (1957) of Danforth Graduate Fellows from college senior men who are planning to enter graduate school in September, 1957, for their first year of graduate study. The Foundation welcomes applicants from the areas of Natural and Biological Sciences, Social Sciences, Humanities and all fields of specialization to be found in the undergraduate college.

President Robert J. Slavin, O.P., has named Rev. Vincent C. Dore, O.P., as the Liaison Officer to nominate to the Danforth Foundation two or not to exceed three candidates for these fellowships. These appointments are fundamentally "a relationship of encouragement" throughout the years of graduate study, carrying a promise of financial aid within prescribed conditions as there may be need. The maximum annual grant for single fellows is $1800; for married fellows, $2400, with an additional stipend for children. Students with or without financial need are invited to apply. A Danforth Fellow is allowed to carry other scholarship appointments, such as Rhodes, Fulbright, Woodrow Wilson, Marshall, etc., concurrently with his Danforth Fellowship, and applicants for these appointments are cordially invited to apply at the same time for a Danforth Fellowship. If a man receives the Danforth appointment, together with a Rhodes Scholarship, Fulbright Scholarship, or Woodrow Wilson Fellowship, he becomes a Danforth Fellow without stipend, until these other relationships are completed.

All Danforth Fellows will participate in the annual Danforth Foundation Conference on Teaching, to be held at Camp Minisink in Michigan next September.

The qualifications of the candidates as listed in the announcement from the Foundation are men of outstanding academic ability, personality congenial to the classroom, and integrity and character, including serious inquiry within the Christian tradition. All applications, including the recommendations, must be completed by January 31, 1957. Any student wishing further information should get in touch with our liaison officer.

final selection of candidates for study within their borders.

Awards under the Fulbright Act are made entirely in the currencies of participating countries abroad. This Act authorizes the use of foreign currencies and credits acquired through the sale of surplus property abroad for educational exchanges. The awards cover transportation, expenses of a language refresher or orientation course abroad, tuition, books and maintenance for one academic year. Awards under the Buenos Aires Convention include transportation provided by the U. S. Government, and tuition and maintenance allowances provided by the host governments.

Switch to WINSTON America's best-selling, best-tasting filter cigarette!
If the Irish from Notre Dame have a losing season, or one or two bad seasons in a decade and a half, the old Notre Dame alumnus will stick to the club. "That when on top, the only way is down," but, I, one of the institution's most ardent fans, will place most of the blame on the for­ mer mentor Frank Leahy. To knock Frank Leahy of late is out and out, but no less than eight of the first twelve seniors are the club's best ball clubs in the first five games. In past seasons the seniors had fast mobile linemen, whereas this year the Sooners always have had fast good-faking fullbacks in '53, to note: a deceptive quarterback in '53—Ed Crowder, now Ed Harris and Jay O'Neil; Swift, ground gaining valuable experience in '53, to note: a deceptive quarterback in '53—Ed Crowder, now Ed Harris and Jay O'Neill; Swift, ground gaining valuable experience in '53, to note: a deceptive quarterback in '53—Ed Crowder, now Ed Harris and Jay O'Neill; Swift, ground gaining valuable experience in '53, to note: a deceptive quarterback in '53—Ed Crowder, now Ed Harris and Jay O'Neill; Swift, ground gaining valuable experience...
Sullivans Shines in Novice Meet

Jim Sullivan's eleventh foot vault mark vaulted him in the Harry Coates Intramural Field Day Sunday at Hendrick Field. After clearing the eleventh mark, the hunky freshman failed in three successive tries at the twelfth foot standard.

The meet featured a mixture of varsity and novice material. Don Fahey and Eddie Aron divided honors in the 80-yard low hurdles and the 80-yard dash. Fahey and Aron took first place in the two heats of the low hurdles, while Aron won out in the dash event.

Don Fahey and Eddie Aron divided honors in the 80-yard low hurdles and the 80-yard dash. Fahey and Aron took first place in the two heats of the low hurdles, while Aron won out in the dash event. Trading Sullivan in the pole vault were Tom Concilio and Hugh Sullivan. Pete Carratini and John Walsh finished onetwo in the ankles the 80-yard dash, while Tom Kersey chased victorious in the narrow broad jump try. Carratini and Walsh were runners-up in the broad jump event, while Anne signed Carratini and Jerry Aron for shot put honors.

Frosh Basketball

Since preliminary practices commenced a week ago, the frosh basketball squad have undergone daily ball duty hours. The Black and White yellings are slated to inaugurate the Rhode Island season on Dec. 2, in a home test against Assumption College.

In addition, another threat for first place honors in the frosh division is another point is made available to the team. The Frosh is Jimmy Caldeira, who has finished right behind Hanlon on five occasions and has won one meet.

The Providence College freshmen, according to the manager, will run against the Boston University Froshmen prior to the varsity meet. The Froshmen will be entered by McNamara, Walsh, Krajewski and Gederman.

Almeida

(Continued from Page 4)

most disagreeable exhibitions I have ever seen, both from the standpoint of quality and general interest. This year, Martinez returned to the Rhode Island Auditorium and fought his way to the forefront during the course of the evening.

In the varsity race, Bill Hanlon and Rod Boucher were the first and second finishers once again. Moreover, both runners came home under the course record set earlier in the season by the Rams' Tom McNichol.

Bill's time for the 4-mile course was 25 minutes and 14 seconds, breaking the former standard by 26 seconds. Despite the two performances at Hanlon and Boucher, the Friar's margin of victory was slim. Rhode Island took the next three places before Don Carey came in sixth. Then the Rams turned seventh and were anxiously awaiting the arrival of their fifth man when Bob Williams and Al O'Brien appeared to snuff out any further Rhode Island hopes.

The freshmen, in registering their first victory, had it all over the Rams as they placed seven men in the first seven positions. Kerry McIntyre and Ed McNamara had an added impetus for victory in the presence of their former La Salle teammate, George Cushman, who was running for Rhode Island. However, Cushman was victorious, but he was immediately followed by McNichol, McNamara, Walsh, and Krajewski for the Frosh. With Gederman finishing eighth, the freshmen completed their conquest.

Summary

Varsity

 Providence Rhode Island
 2. Boucher 4. Hampson
 3. Flynn 5. Kelly

Freshmen

 Providence Rhode Island
 1. Hanlon 2. McIntyre
 2. E. McNamara 3. French
 3. Walsh 7. Wilson

It seems that in a presidential election year, all parties and candidates involved would try to present to the voters all the pertinent facts — or half the facts, as they proclaim. However, in many recent instances one can feel that they have tried to hide many of the fake facts with cries of "Look at the Record." Since the Republican Administration has not been at the record in their quest for another four-year golfing display, I don’t think that—let’s look at all of the so-called Republican accomplishments which are supposed to be in the record.

The GOP brags that the highest prosperity peaks in American history were reached under the Eisenhower Administration. And, of course, from that argument the conclusion could not be denied, for the record shows that since 1952 General Motors profits were up 118%; Big Business profits up 61%; meanwhile the farmer’s income is down 26%; Small Business profits are down 52%; farm prices have decreased 18%. If you can saw how this, It is Republican prosperity.

Then Charlie Wilson and Company have tried to prove that we are running our business of running our government.

Vice-president Nixon claims, "Our New Deal is not a government run by per­
sonality except in wartime..." But the facts in the record show that in the peace-time years of the New Deal, Republicans spent only about one-third of today’s defense, and yet unemployment was down 52%; farm prices have decreased 18%. If you can saw how this, It is Republican prosperity.

For instance, the Demo­
crats spent only about one-third of today’s defense, and yet unemployment was down 52%; farm prices have decreased 18%. If you can saw how this, It is Republican prosperity.

Now that we have seen all of the great oldPost WW II Propaganda of the GOP let us take a look at just what the Democratic Party, and its candidates say about two issues which, in the Republican mind, touch each and every one of us more than any other.

Turning to the problem of that mighty waste, the Republican Administration has taken a most reasonable ap­
proach. In a recent speech, Gov. Stevenson demonstrated that the dangers of these Atoms and Hydrogen weapons extended far beyond the military, into the arena of peace-time use. He showed, that because of the development of these experiments these explosions leave in the atmosphere, and the possi­bility of these elements finding their way to the earth, that a grave problem exists.

Gov. Stevenson then proposed a world­
wide plan of control in the testing of Atomic and Hydrogen weapons, and the Russian premiership last week responded in a letter to President Eisenhower, suggesting the pos­sibility of such a proposal. However, the present Republican Administration brushed this off as propaganda. It would seem that the great military leader is willing to meet his foe in discussion of the terms and proposals, merely because the first suggestion was made by his political opponent.

Concerning the draft, Gov. Adlai Stevenson outlined a plan for the complete revamping of our Selective Service System. His proposal would provide for an army with more strength than today’s, composed of highly professional and highly trained volunteers. To reach this end, an incentive would have to be added. An incentive could be provided in one way by $25 billion dollars now being expended to the draft system. Other measures which would promote this type of an army, exist in the revamping of our systems within the armed forces, and the change in the work­
load of the men in the service. It seems strange that the military genius of World War II, is unable to foresee any army better than his.

These are the things around which Adlai Stevenson and Estes Kefauver have built their campaign. Their proposals of Governor Stevenson make sense to anyone broadly enough to look at the two sides of the question before forming an opinion. As Adlai Stevenson said on this most recent of his television broadcasts, "Sheep picked up a baa baa blanket. The herd of sheep is another thing the Republicans brag about. The Eisenhower Administration extended coverage to over 10 million persons. However, the vot­er, when tuned to this month’s debate, sees that 86% of Senate Republicans voted in opposition to the extension of health coverage to more than 36 million poor women from 65 to 62, and the benefit age for disabled persons from 65 to 50. Thanks, for a Democratic Team.

About the GOP claim of prosperity, Secretary of State John Foster Dulles summed this up nicely in a speech to Congress—April 25, saying, "In Korea there is an armistice but there is no peace... in Vietnam there is an armistice but there is no peace..."
Kingston, R.I. (I.P.)—Broadening of the engineering curricula at the University of Rhode Island has been approved by the College of Engineering faculty, it was announced here by Dean T. Stephen Crawford. In line with recommendations of the American Society for Engineering Education, the University of Rhode Island curricula will also place more stress on certain studies in science, especially in modern physics, Dean Crawford said.

"The trend in engineering education is toward including more liberal arts courses," he stated. In addition, "the monumental developments of the last few years in nuclear energy have made the study of this subject basic to engineers.

The revised URI curricula stipulate required electives which would result in from 18 to 24 credits of liberal arts subjects or more than one semester's work of the four-year degree program. "Of the so-called liberal studies in the humanistic-social field, at least a half year may be selected from the courses in history, economics, political science, literature, sociology, philosophy, psychology, foreign languages or fine arts," Dr. Crawford said.

"All curricula will contain at least the equivalent of an academic year of mathematics and basic science, about equally divided. In addition, about one year's work in the engineering sciences will be included, and a half year's work in engineering analysis, design and engineering systems."

More than 400,000 Americans now living are proof that cancer can be cured. Guard your health by having regular health examinations, urges the Rhode Island Cancer Society.

Q. Why Are Viceroy's 20,000 FILTERS Made From Pure Cellulose?

A. Because cellulose is a soft, snow-white material... the same pure, natural substance found in many of the good foods you eat every day.

Only the exclusive Viceroy tip contains 20,000 tiny filters made from pure cellulose—soft, snow-white, natural—twice as many filters as the other two largest-selling filter brands.

That's why Viceroy gives you...

The WDOM schedule for the next few weeks includes broadcasting times that vary from 6:15 to 8:00 P.M. Students interested in radio work and those who have been chosen for the staff will have the opportunity to meet and become familiar with the others who will be working during the broadcasting period. The basis of the courtroom action revolves around the hitherto little known but important case of Regulation, which states that certain circumstances may arise in which the relief of duty of a commanding officer of a ship by a subordinate officer becomes necessary.

The play asks the question: "Was Lt. Maryk justified in relieving Capt. Pat O'Flanagan of command of the submarine "Sundowner" when he felt that the situation was unsatisfactory for efficient operation of the ship?" The play is presented by the Players of the station and is being featured in the following timeslots:

- **6:15—SIGN ON; Twilight Serenade**
- **7:00—Music**
- **8:00—SIGN OFF**
- **6:15—SIGN ON; Music for Relaxing**
- **8:00—SIGN OFF**

The schedule is subject to change, and interested students are encouraged to attend or participate in any capacity they may be able to.
