Committee Chairmen Selected By Heads Of Junior Prom

By Dick Wolfe

At its first meeting last Tuesday, November 20, 1958, the committee on committee chairmen, Tony Tatalli of Providence College and Ed McFadden of Newfield High School were made the announcement of the following men as co-chairmen of their respective committees: orchestra, Vic Ferraro and Jerry Camarato; tickets, Don Di Orio and Vincent Fusco; correspondence, Frank Romano and Nick Donovan; favors, Frank Pate and Jack White; and decorations, Bob Magill and Jerry Gaffney. The committee co-chairmen are: orchestra, Don Di Orio and Dan Gorman; programs, Frank Romano and Nick Donovan; correspondence, Dick Wolfe and Jack Callon; publicity, Dave Pepin and Jim Westwater; balloons, Tony Fer­رارo and D. J. Dooley; parking, Phil McGrath and Gerry Callery; committee secretary, Bob Lafaye.

This week's meeting was to start the organizing of the committees; any­ one interested in making the Junior Prom of the Class of 1958 the greatest in the history of Providence College should contact either of the co-chairmen or be present at the committee meetings, time and place of which will be announced in ad­ vance on the bulletin boards.

At press time it had not yet been determined where the Prom would be held, and what orchestra would be selected. However, in the recent Upper bulletin to determine whether a nationally known or a locally re­ceived orchestra was preferred, the final count showed that the Juniors were overwhelmingly in favor of a national orchestra. Negotiations are now underway to obtain the favors through the banks. In this way, they can be obtained cheaper than through other sources, especially if the emblem of the college is to be inscribed on the favors.

Gallo Receives First AED Award

Mr. Robert C. Gallo, '58, of Water­bury, Conn., was the recipient on No­vember 19 of the first Annual AED Award. This award was authorized by the American Heart Association during the past year by Rhode Island Alpha, F. C.'s chapter of the national pre-medical honor society, Alpha E­psilon Delta. This award will be made each year by a majority vote of those during his freshman year merits con­ sideration as an outstanding student.

Fr. Dore, Dean of Studies and an honorary member of the chapter, made the presentation and Mr. Gallo in meeting the prerequisites for such a distinction. Fr. Dore de­stressed that the award is not based solely on academic achievement. To be eligible a candidate must, besides scholastic proficiency, evidence out­standing personal interest in campus activities, and show better than average ability in leadership. Mr. Gallo was the eventual selection from among five students who quali­fied for the award.

Final Deadline Set By Veritas Staff

The final deadline for the return of articles to the Loring Studios in December 1. This deadline is absolu­tely final, as no extensions will be made. It has not been held in past years to save time and extend congratulations to the cross country squad.

P. C. Spirit

On Thursday, Nov. 29 at 7:30 p.m., the newly formed Spirit Committee will hold a combined rally in Alumni Hall. James Pilcheloh and Bob Reilly co-chairmen for this event have the task of introducing the members of the Veritas. The cheerleaders and R.O.T.C. Band will perform. It is announced that all students are invited to attend this rally which will kick off the tour in the East as well as the homecoming Carnival and to as­ tend the dance and refreshments consisting of $271.22 representing the total coverage of 98%.

Great American Tradition

Mr. Budenz illustrates a point in one of his lectures, proving that with "a knowledge of the communist line and its attitude towards reforms, all of which are really a new Stalin using Stalinist methods. He explained how this new Stalin is similar to the old Stalin's plan of the enrichment and isolation of the country, which is the one thing that is not different between the two. However, this should not make us look to despair, for communism is not inevitable as it is, but at the same time we can be hopeful."

Carolina Club Holds Dance

On the night of November 17th the Carolina Club held its popular dance in St. Stephen's Hall Rev. Benedict O. F. P., president of Providence College, presided over the dance and refreshments consisting of some of the most interesting, sandwiches, and tea. The club was served to a very enthusiastic crowd of about three hundred. Representatives of many colleges and Providence College's "womens" houses made up a large part of the attendance, indicating all were anxious to go over as a big success as proven by the large number that attended. Although to find the future the club intends to hold similar dances, once a month, the Carolina Club held its first dance Saturday, December 15th will revolve around a Christmas theme. The Carolina Club has held a number of dances, the most successful of which was held on the country, Festival. In addition, the club has shown weekly movies every Thurs­day afternoon. The Carolina Club has changed the status of the club's funds has been improved by the large number that attended. Political View Point

By Frank Brennan

The great national elections are over, and all that remains of them is the laymen's comments which can be found in all forms of "small talk". In these comments the topic always comes down to the "New America," which President Eisenhower has talked about. But most people regard this as the slogan of the "New Americanism" which may more properly be called the "New Republicanism."

This week we will look at the outstanding Republicanism and the problems that they will hold during the next four years.

Texas—Top Politician

The most promising of the new blood is Vice-Presidential Richard N. Nixon. Mr. Nixon has been a topic for strong controversy since he has taken over the party. But Nixon is looked upon by the party as a newly outstanding work in foreign fields. There is a strong feeling that he is the Republican's top man in 1960. Many people seem to neglect the fact that he might be the top man in 1968. It has been said that for years the government of the United States has a very good possibility of becoming a static organism, but it will not be stifled. If events take their natural course, it looks as though the people would accept a Republican President especially with an Eisenhower on the back.

Lack of Youth

The one thing that the Republicans lack is youth. The power of the party is in the hands of men who should be planning pensions and Social Security. Many men are coming up the ladder. President Eisenhower has been wise in deciding to group the nation's problems into the right areas. It is a political line in which the government of the United States has a very good possibility of becoming a static organism, but it will not be stifled. It looks as though the people would accept a Republican President especially with an Eisenhower on the back.

In Taying

By Dave Pepin

In the past week a few things have tried to be at least a bit on the humorous. Today a washout will be made to accomplish such our friends in the "Tag Day" will impress upon the readers the seriousness of the "Tag Day" movement. At the head of the list is Thomas Murphy, the former Providence College president, who inaugurated the idea of "Tag Day" and who gave a host of talented and great individuals. Meanwhile, the contributions have been refined in its ten years of existence and was in demand in hotels and clubs. Swing emerged in many areas. Its "centers" were Los Angeles in the West, New York in the East, and Chicago between the two extremes. The one thing that the Republicans lack is youth. The power of the party is in the hands of men who should be planning pensions and Social Security. Many men are coming up the ladder. President Eisenhower has been wise in deciding to group the nation's problems into the right areas. It is a political line in which the government of the United States has a very good possibility of becoming a static organism, but it will not be stifled. It looks as though the people would accept a Republican President especially with an Eisenhower on the back.

Singular congratulations are expressed by the Providence College for the success of the "Tag Day" campaign. The result of the campaign is in. In the last 30 years the campus has tried to be at least a bit on the humorous. Today a washout will be made to accomplish such our friends in the "Tag Day" will impress upon the readers the seriousness of the "Tag Day" movement. At the head of the list is Thomas Murphy, the former Providence College president, who inaugurated the idea of "Tag Day" and who gave a host of talented and great individuals. Meanwhile, the contributions have been refined in its ten years of existence and was in demand in hotels and clubs. Swing emerged in many areas. Its "centers" were Los Angeles in the West, New York in the East, and Chicago between the two extremes. The one thing that the Republicans lack is youth. It looks as though the people would accept a Republican President especially with an Eisenhower on the back.
Thirty Seniors Inducted Into National Honor Society

The National Honor Society for Students of Catholic Colleges and Universities, of which the Theta Chapter at Providence College is a part, held its annual meeting on November 14th, 1956.

The meeting was held in the Guild Room of the college and was attended by many members of the college community. The meeting was called to order by President John Hanley, and the roll call was taken. The minutes of the previous meeting were read and approved. President Hanley then introduced the various officers of the society and presented them with their certificates of office. The Treasurer presented the financial report, which showed a surplus of $500.00 for the year.

The business of the meeting consisted of the election of the officers for the coming year. The following officers were elected:

President: John Hanley
Vice President: Thomas J. Smith
Secretary: Joseph A. Murphy
Treasurer: Anthony J. Hickey

The society reviewed its activities for the year and discussed plans for the coming year. The officers outlined programs for community service and educational activities. The society also discussed the possibility of initiating new members.

At the conclusion of the meeting, President Hanley thanked all who had attended and wished them success in their future endeavors.
Coach Mullaney's Friars To Tangle With Greyhounds In Season's Opener Dec. 2

By Ed Lombardi and Dale Faulkner

Coach Joe Mullaney's veteran dominated Providence College basketball five inaugurates its 1960-61 campaign Sunday afternoon in a home affair against Assumption College.

The varsity court fray, listed for 2:30, will be preceded two hours earlier by the meeting of the fresh- men basketball squads of the two schools.

Accompanying the entrance of Providence College will be a sort of regal splendor. The reason is that the Friars are state champions and possibly one of the best quintets in New England. We are justly proud of a team that compiled a 15 win 8 loss record last season which incidentally was the finest since 1942-43.

The main reason for this sudden upswing of Friar fortunes is one Joseph Mullaney. Coach Mullaney arrived on the scene after P. C. had compiled a 8-13 mark the previous campaign. After a rough beginning, Mullaney slowly molded his men into a well-knit unit which reached its climax in the victory over Notre Dame.

With last season's 15-5 record and a second straight appearance in the New England N. I. A. A. tournament, Andy Lack's Assumption force is likely to give plenty of trouble to the experienced Friars. The Greyhound school compiled Providence to a tune of 80-37.

Tough Schedule

This season, the Athletic Depart- ment has endeavored to line up a schedule which is both challenging and suitable for the schedule for us. Although St. John's and Notre Dame will not be on hand, Adelphi, St. Francis, Fordham, Loyola, Brandeis, and Stony Brook all will make their initial appearance in Alumni Hall. Coach Mullaney has been working with his eleven unit and will have them ready to give a good account of themselves.

For the benefit of those who did not closely follow the fortunes of last year's Mullaneymen, we took the trouble of gathering the following statistics. High scorer for the season was Mike Pascale who netted 330 points for a 13 point average. Mike also scored the most points in one game (28 against B. U.) which threatened the all time P. C. mark of 34 set by Henri Ethier in 1947. More important is Mike's value at the foul line. He was successful in 41% of his attempts, giving him the lead in that department. Mike will bear watching during the present campaign for his 897 points is within striking distance of Bobby Moran's all time P. C. mark of 1253 points for a college career. Frank Tirino, who was second to Pascale in scoring, led the team in field goals with 182. Coach Mullaney compiled Providence to a tune of 80-37 last year.

Coach Mullaney

Tallest men—Ritch 6' 3" Schementi 6' 5"

Smallest man—Tirino 5' 9 1/2"

Average Height—6' 2"

Coach Mullaney

With such a season "under our belts" we are eagerly looking for- ward to one twice as successful. This can be accomplished if the student body shows that they are 100% behind Joe Mullaney & Co. We can make a good start in this direction by turning out this Sunday to root them on to victory over Assumption.

Standing From the Scorebook

Our team averaged 70.3 points per game while our opponents scored 67.9 points. St. Francis scored the most against us (91). Our highest total was 88 against Notre Dame. Of the teams returning to our schedule for a second straight year, we hold an 11-4 margin. The dubious honor of having the most personal fouls called against him belongs to Lionel Jenkins.

That long-awaited hour is rapidly approaching. There is a feeling of expectation and optimism in the air. The pride and joy of Providence College has in recent years become Greyhounds of Providence College, and the student body is now in full swing. The first game of the season is scheduled to take place on Saturday afternoon, and the team will be ready to face its first opponent, the University of Notre Dame. The game is expected to be a close one, and both teams will be battling for victory.

Coach Mullaney, with a year's experience, knows his team well. He has put together a strong squad, and the players are eager to prove themselves on the court. The team is led by senior Mike Pascale, who has been in the starting lineup for three years. Pascale is a versatile player, capable of playing both forward and center positions. He is flanked by junior Kevin DiMasi and senior John Wood, who bring experience and leadership to the squad.

The Providence College basketball team has been building momentum throughout the fall season. The team has been practicing hard, and the players are determined to make a strong showing in the upcoming season. With the addition of Pascale, DiMasi, and Wood, the team has the potential to be one of the stronger squads in the conference. The games will be a test of the players' abilities and the team's cohesion. The players are looking forward to the challenge and are eager to show what they can do on the court.

New Basketball Rules Aim At Holding Down Tall Man

By DAN DIVER

The 1956-57 basketball season will feature several important rule changes, a few lesser revisions, in addition to the usual minor modifications.

The most important innovation drawn up by this year's rules committee is one which focuses on preventing tall men from dominating the court by cutting down the height at which the ball can be thrown by a player in the act of shooting.

A number of minor and technical changes have also been made in the rules code. Rebounders on a foul shot can no longer place a hand below the vertical plane or cylinder of the front court from which the ball was tipped. The hit has been previously legal to extend a raised foot across the plane of the line, and thus when the ball hit the rim, one could legally swing his body in front of the reboun ding opponent. A noted exponent of this manner of circumventing the present rule was Bob Bramham, former of the Boston Celtics.

Still another rule change regards the jump ball in the front court. A held ball is now called anywhere in the front court if a closely guarded player holds the ball and is unable to throw or pass for a point with reasonable speed after the foul. In past years the ball was not considered to be in a jump ball situation until a player touched the ball. Thus the foul committed on a jump before the ball was touched was a technical foul. This year's rule is in play as soon as the ball is touched by the ball handler, though time does not begin until the ball is touched and then stopped... in an effort to round out the top five, Joe Stapleton of the Engineers of Worcester Polytechnic Institute, 284; Dave Harrington, a 277. and Jim Shunney, last year's top man, had a 276. Most of last year's team is returning, four of us being back from the last year's team... the boss of Cincinnati's powerful Indians will have attained his life-long ambition and added another thrill to an already exciting career.

Frier Marksmen Victorious Over Worcester, 1397-1380

The Friar Firemen are off and blasting again, this time the victims being the Engineers of Worcester Polytechnic. In their first match of the new year, the Friars showed a good offensive passing and defensive play, with some very fine shooting and understanding plays. They forced the Engineers of Worcester Polytechnic to take foul shots many times but not before they had opportunity to round out the top five. Joe Stapleton of the Engineers of Worcester Polytechnic, 284; Dave Harrington, a 277. and Jim Shunney, last year's top man, had a 276. Most of last year's team is returning, four of us being back from the last year's team... the boss of Cincinnati's powerful Indians will have attained his life-long ambition and added another thrill to an already exciting career.

Pucksters Meet U.S. Olympic Team

By Gerry Murphy

The world's best boxing hock­key team left little doubt in the minds of the 170 spectators at the Rhode Island Auditorium that they intend to return the world championship to the United States. The team, which needs for Russia and the champion­ship trophy, outlived the combined forces of Brown, Providence College and the Rhode Islanders by a score of 2-1.

Against the Friers, the scoreboard read five times before they had received some stiff opposition. The Friers showed the passing attacking and as Tom Eckel­son said, "We tried to pass to the boys showing and think they'll come along all right."

A thing to remember is that, due to his many pressing duties, he was unable to see last sea­son's P.C. student body sometimes after Christmas and that perhaps at that time he will be able to see his team. He called Temple the best defense team that, though another tight race can be expected, the Reds are the best. He revealed that he is slated to ad­dress the National League man­agement that the year's rule is in play as soon as the ball is touched by the ball handler, though time does not begin until the ball is touched and then stopped... in an effort to round out the top five, Joe Stapleton of the Engineers of Worcester Polytechnic, 284; Dave Harrington, a 277. and Jim Shunney, last year's top man, had a 276. Most of last year's team is returning, four of us being back from the last year's team... the boss of Cincinnati's powerful Indians will have attained his life-long ambition and added another thrill to an already exciting career.

Intramural Notices

Students interested in participating in the Intramural exercise and baseball teams, the Providence College has been advanced to De­cember 5.

Albertus Magnus Club Elects New Officers

At a recent meeting of the Albertus Magnus Club composed of junior and senior biology majors, the members elected officers for the 1956-57 school year. The newly elected officers are as follows: Melvin Goldenburg from Providence, to the office of president; John Boyd from Pawtucket, to the office of vice-president; John Killen from North Attleboro, Mass., to the office of secretary; and John Mibusar, from Millburn, New Jersey, to the office of treasurer. The moderator of the club is Father McGonagle.

Mr. Goldenburg announced that the date of the annual banquet is set for December 3, at Oates Tavern.

By Dale Faulkner

Cambridge, Mass., Nov. 24.—The Charles, Vodka, Tom Collins and Yale whiskey cocktail were served at Harvard's Johnson house to Yale's Ivy League kings in the wind-up of the New England football-social season.

Concluding a powerful three game fade out, Jordan Oliver's Eli's fell on the local, while the kernels of both institutions looked in liquor filled eyes.

Yale's football finish, with a commendable 8-1 campaign mark, was a fitting climax for an outland quintet, that for three varsity seasons and a fresh man term had raised havoc with Ivy contemporaries.

Denny McGill, Al Ward, and Steve Harvards' Johnnies bowed to Yale's football force, finishing with an apathetic display of Ivy line breathless.

Ackerman was his usual self as he finished up arguing over the prepared plans.

"We want to stand up to the academic, we want a football team." Mr. Budenz pointed out.

Besides having written four books among the IAESTE members as well as the Universities of

American colleges Institutions send students to IAESTE's program last summer. The 58 American students who participated in IAESTE's program last summer went to 13 European countries. The 58 American students who participated in IAESTE's program last summer went to 13 European countries. The 58 American students who participated in IAESTE's program last summer went to 13 European countries.

"In the first "formal" opportunities Open for Summer Training, International Engineering Students Association, 1 East 67th Street, New York City, 23, N.Y., has announced that 56 foreign engineering students for the 1957 summer went to 13 European countries.

The American academic institutions sending students to IAESTE's program last summer were: Belgium, 1; France, 3; the Netherlands, 5; Norway, 1; Spain, 1; Sweden, 9; and Switzerland.

Other countries participating in the IAESTE program are: Canada, Sweden, England, Portugal, Turkey and Yugoslavia.

The American students were in the following fields: mechanical engineering, 12; chemical engineering, 9; electrical engineering, 7; commerce, 5; civil engineering, 4; electronic engineering, 3; physics, 3; architecture, 2; liberal arts, 2; industrial engineering, 2; chemistry, 2; air transportation, 1; metallurgical engineering, 2; material handling, 1; aeronautical engineering, 1.

The 58 students represented 24 American colleges Institutions including the largest numbers were Purdue University, 8; Ohio State University, 7; Cornell University, 6; University of Rochester, 5; Columbia University, 1.

IAESTE was organized in 1948 by universities and technical schools in 13 countries in Western Europe. Its aims are to train advanced students of engineering and technical schools in the practical problems and to provide better engineering students with opportunities for international understanding and good will among these potential leaders.

Today, as in the past, IAESTE has 22 member countries, including the United States and Canada. Over 2,500 students in these countries participated in more than 450 visiting students from other member countries. The program has grown steadily in its eight years of activity. A pamphlet describing the program can be obtained from the Institute of International Education.

of those American workers hapticed as Catholics retain their loyalty to the Catholic Church.

one good reason for this persistent movement, who wish practical training abroad, is the fact that at critical times in the history of the American labor movement there sat in the chair of Peter pions who understood the needs and aspirations of the American workers in particular.

Cort cites the refusal of Pope Leo XIII in 1891 to condemn the Knights of Labor, the leading labor federation on that day, and the publication in 1891 of the encyclical Rerum Novarum, "which, in a sense, explains the very nature and character of Catholic Socialism," Catholics have put their faith in the belief that the value and effect of the two great encyclicals.

"The on the plus side, Cort cites the achievement of Catholic labor schools, chapters of Catholic Trade Unions, sections of the Young Christian Workers, and Catho- lics are unsung, who "inspired a movement, who "inspired a whole movement, who "inspired a whole

"It is a comforting thought for Catholics that it was one of their best— the devout and humble Philip Murray—who could supply leadership strong and sure enough to the poor in the slums of America."

"It is a comforting thought for Catholics that it was one of their best— the devout and humble Philip Murray—who could supply leadership strong and sure enough to the poor in the slums of America."

Mr. Budenz, who works in the field of labor relations, points out: "Our workers and their leaders must handle their job flaky as well as the universities of Catholic education. The Friar entry capsized while in third race was well under way when the Friars gave a good account of themselves. The weather rapidly reaching the freezing point, competition was started early in the morning.

The first race had no sooner began than the entry was called a no contest. The race went on anyway and the Friar entry capsized while in third race was well under way when the Friars gave a good account of themselves. The weather rapidly reaching the freezing point, competition was started early in the morning.
