

Monsignor Fulton J. Sheen To Lecture Before Guilds

Prominent Radio Orator
Comes to P. C. On
April 11

The Rt. Rev. Msgr. Fulton J. Sheen, well known author, speaker, and educator, will deliver a lecture at Providence College in Harkins Hall on Saturday evening, April 11th under the auspices of the Thomistic Institute. The five guilds of the Institute are sponsoring Msgr. Sheen's appearance at the College.

Monsignor Sheen is best known for his annual series of discourses on the Catholic Hour, a half-hour program sponsored on Sunday evenings throughout the year by the National Council of Catholic Men. He has attracted a great deal of notice because of his appeal to non-Catholic listeners as well as Catholic. Msgr. Sheen is also known as the instructor of such notable converts as the late Heywood Brown and Henry Ford 2nd. He has long been known for his interest in the application of religious principles to politics.

The birthplace of Msgr. Sheen is El Paso, Illinois where he was born on May 8, 1895. He attended St. Mary's School in Peoria and then went to the Spalding Institute also of Peoria. He entered St. Viator's College in Bourbonnais, Illinois, and then entered the seminary at St. Paul, Minnesota. Monsignor Sheen attended the Catholic University of America in Washington, D. C., the University of Louvain in Belgium, and the Angelico in Rome.

His ordination took place in Peoria on December 20, 1919. Msgr. Sheen has obtained the degrees of Bachelor of Arts, Bachelor of Canon Law, Doctor of Philosophy, and Doctor of Divinity. He also holds honorary degrees of Doctor of Letters and Doctor of Laws. At present he is Professor of Scholastic Philosophy at Catholic University. Among his most recent books are "Freedom Under God" and "For God and Country".

It was announced that student tickets
(Continued on Page 4)

Siezega Finishes Early Training

Another alumnus of Providence College has successfully completed two months' preliminary training at the Naval Air Station at Squantum, Mass., according to the Navy's Flight Selection Board for New England.

Edward Siezega, of Pawtucket has completed this training and moves to an intermediate base in the South where he will train for a month before he reports to Pensacola, Jacksonville, or Corpus Christi. At one of these bases he will receive seven months' further training. He will be awarded the gold wings of a Naval Aviator upon graduation from one of these. This will be followed by commission as an Ensign in the Naval Reserve or a Second Lieutenant in the Marine Corp Reserve.

Prior to his reporting for active duty as a pilot in the Aeronautic Organization of the Navy, Siezega will be granted fifteen days furlough during which he may visit his home town and college campus. Mr. Siezega received a degree of Bachelor of Philosophy in Education. He entered Class V-1 of the United States Naval Reserve prior to his entrance into Squantum.

Prom Date Is Decided

The 1942 Junior Prom will be held April 20 in the Providence Biltmore, it was announced yesterday by the Prom Committee.

According to David Joyce, '43, chairman of the committee, arrangements for securing a band are nearing completion. Representatives who went to Boston last week reported that three orchestras were under consideration: Vaughan Munroe, Harry James, and Charlie Spivak, although the ultimate choice is not necessarily restricted to this trio.

A definite announcement of the band will be forthcoming on Monday after several other bands have been considered.

Instead of the customary favors, this year will find a highly decorative souvenir program in vogue.

Phi Chi Club Shows Moving Pictures

Science students of Providence College yesterday afternoon assembled in the Physics Laboratory to watch moving pictures from the General Electric Company. The pictures consisted of three reels: the Cathode Ray Tube, Excursions in Science, When You Can Measure.

The pictures were shown at 2:30 p.m. and were sponsored by the Phi Chi Club, a student science organization. After the motion pictures the Phi Chi Club held a regularly scheduled meeting at which freshmen were admitted to the club as active members.

The most interesting film was the Cathode Ray Tube. The picture demonstrated the practical value of the Cathode Ray. This ray is commonly known as the X-ray. Its existence was discovered in 1895 by Roentgen, a German scientist. The X-ray is emitted from the negative pole of a tube containing gas. This gas is under low pressure and as the charge of electricity is conducted by the gas these very short penetrating rays are produced. These rays, according to the motion picture, travel in straight lines attaining a tremendous velocity. Because of the short wave lengths the ray penetrates the flesh and bones of man.

The picture reel, titled "Excursions in Science" dealt with the ability of the physicist to direct the passage of electric currents by sound. This was demonstrated by operating an electric train; the operator with his voice producing certain sounds was able to set the train in motion or bring it to a halt.

The control of electric current in this manner is popularly known as the "electric eye."

The third film, "When, You Can Measure," explained the intimate

(Continued on Page 4)

VERIDAMES

The Veridames Society requests that the students whose mothers intend to be present at the Tea Sunday afternoon will leave their mother's name at the information booth today.

FROSH PREPARE FOR GAELIC HOP

John Young Is Named
Chairman of Arrange-
ment Committee

Ireland, the land of Saints and Scholars, will be the theme of the annual Frosh Hop which will be held on the eve of Saint Patrick's Day, March 16. The theme will be expressed by a Friar and a Freshman as the centerpiece of the decorations. An Irishman will furnish the music for the dance as Tiny Quinn makes a return appearance at the sole social activity of the freshmen.

The arrangements for the dance are under the direction of John Young who was elected chairman of the committee at a meeting held yesterday. Assisting Young are George Coyne, William Mee, John DeFalco, and the class officers: Joseph Anlauf, president; David M. Tracy, vice-president; Robert McGovern, secretary, and John C. Carragher, treasurer.

Dress for the dance will be semi-formal as that term is interpreted at the College. The rumor is well founded that those who attend the function will not only have a good time but will enjoy themselves without worry for the next day.

CO-EDUCATION

Spiking rumors that Providence College will go co-educational this Fall, the Very Rev. John J. Dillon, O.P., president of the College, declared during the past week that this and other rumors concerning the financial difficulties of the College were "just rumors."

Father Dillon stated that the College is financially sound and that it will remain in such good condition. "Of course we need money; any college does," he said. "We need money to continue going ahead and to expand," he concluded.

La Pleiade Will Discuss Debussy

The meeting of the La Pleiade Club yesterday was featured by an address by M. Emile Jacques. The talk, given in French, was devoted to a consideration of the historical development and literary significance of the original La Pleiade Society in France.

For the benefit of those who found difficulty in following everything that was said, the speaker from time to time embellished his remarks with a succinct resume of what had been said and an outline of what was to follow.

In his talk M. Jacques traced the development of the French literary movement through the Middle Ages up to the Renaissance. Against this historical background he projected his consideration of the aims and purposes of the Pleiade Society.

He concluded with an observation of the manner in which the college Pleiade Society might most satisfactorily emulate their worthy successors; in general, by the mental and cultural uplift of its members; in particular, by the fostering of an appreciation for French literature and life.

At the meeting next week an address will be given by John Gerhard, '44, on the subject, "Claude Debussy and Impressionism". The talk itself, in English, will be supplemented by the playing of several Debussy recordings which will best illustrate his association with the impressionistic form of musical composition.

Friar Quintet Meets State At Kingston Tomorrow

Women's Society Tender Reception

A group of women interested in the welfare of Providence College is organizing a Women's Society which will be known as the Veridames.

The objectives of this organization shall be to furnish material help to the College itself and to provide opportunities for the social and cultural development of its members.

The Very Rev. John J. Dillon, O.P., president of the college, is anxious to see this organization grow and prosper and he would like the support of every interested woman in Rhode Island and the neighboring states.

A reception to Rev. Fr. Dillon in the form of a tea is being planned for March 1, at 3 o'clock in Aquinas Hall.

The meeting on Sunday will be to discuss future plans and to choose officers for the club.

Biology Club Holds Meeting

Members of Albertus Magnus Club were entertained last evening at their regular meeting with moving pictures in the Physics Laboratory. The pictures shown were "Tuberculosis" and "Reproduction Among Mammals."

The picture, "Tuberculosis," explained in detail the clinical processes which a patient of Tuberculosis must undergo. It was explained that after the X-ray plates show the presence of Tubercular germs in the lung, the lung is collapsed. Although the average individual suspects that this process is a rather complicated and very hazardous operation the principle involved is merely a "stab in the back" with a tube through which the air in the lung is removed.

The rest of the picture dealt with treatment of cases by the staffs of institutions which handle Tuberculosis patients. The picture described the advantages of a clear, dry atmosphere on a consumptive's respiratory apparatus.

The other picture, "Reproduction Among Mammals," concerned itself with biological functions of the mammal as they affect their offspring.

Before the motion pictures were projected the Club held its regular meeting. Plans were envisioned for a roller skating party to be held in the near future.

GIBLIN LEAVES

Joseph P. Giblin, '43, of Providence left yesterday to enroll in the Coast Guard Training School, now under the wartime direction of the Navy.

In his Freshman and Sophomore years Giblin was active on the Cowl staff and was later made Exchange editor. He left this post to accept the position of campus correspondent of the Providence Journal.

Active socially, Giblin was also a member of the Veritas staff.

REPORTERS

There are still a few reporter positions open on the COWL. Those who are interested report to the COWL office today at 12:30. Previous experience unnecessary.

Varsity Aim For Second Win Over Ram Basket- ballers

Probable Starting Lineups	
PROV.	R. I.
McCommon f	Rutledge
Marone f	Shannon
Zabek c	Modzelewski
Drew g	Applebee
Reilly g	Cure

By JOHN A. DILLON, JR.

Sallying forth into the lair of the vaunted Rhode Island Rams, the Providence College Friars face their supreme test tomorrow afternoon, and then return to engage Holy Cross in the Auditorium on Tuesday.

State, perhaps the hottest team in the East at the present time, has been pointing for this game ever since the night that it was completely outplayed and thoroughly trounced by the Friars. Lead by the record-smashing Stutz Modelewski, the Rams boast a galaxy of basketball brilliants who rate on a par with some of the best players in the nation.

Bill Rutledge and Earl Shannon, former Pawtucket Redjackets, are without doubt two of the most spectacular yet hard working forwards ever to represent the school, while Bob Applebee and Armand Cure, who have labored in the shadow of their stellar mates, would not look out of place on any college team.

The fact that the contest is to be held at Kingston is also extremely important, for a highly partisan gallery and the familiar court may well be decisive factors in State's favor. The Friars will have to rise to their greatest heights if they expect to be on top when the final whistle sounds.

After this gruelling tilt the Crotty-men face an equally dangerous foe when they meet the Holy Cross Crusaders on Tuesday. The latter team, which proved in the hectic State battle that it was no "flash in the pan", has rapidly risen to a place near the

(Continued on Page 4)

Staff Members In Defense Council

Two members of the Providence College administration were among the appointees to the Providence Civilian Defense Council which was re-organized last week.

The Very Rev. John J. Dillon, O.P., president of the College, was named Director of the Welfare Division. The Rev. Vincent C. Dore, O.P., received the position of Information Director.

Father Dillon also heads the Educators group of the Rhode Island Committee of the State Defense Savings Staff.

JUNIOR DEBATERS

At a meeting of the Junior Debating Union yesterday, Andre Mandeville, acting chairman of the society, revealed plans for a vigorous debating schedule. At present these plans must await concrete evidence that there is sufficient interest among the students to warrant making arrangements with other colleges and universities for future debates.

It is planned tentatively to schedule debates with freshman teams representing other accredited institutions of learning.

SPORTS

FRIAR FORCES BOW BEFORE GYMNASTS

Marone and Zabek Shine in Losing Cause

Pinning a double defeat on the court forces of Providence the Gymnasts of Springfield College gained sweet revenge in the form of a 52-46 win over the Friar Varsity and a 63-41 verdict over the Frosh.

Duplicating the feat of the Dominicans who had come from behind to trip them earlier in the season at Harkins Hall, the Gymnasts overcame the Friars' first half lead at the beginning of the final period and forged far ahead never to be threatened.

The Friars had little trouble getting men in the clear but their shooting was uniformly poor throughout the contest. The game was marked by rough play, the Springfield club being charged with 11 infractions and the losers, nine.

Bob Thompson was outstanding for the victorious five while Capt. Horace Marone played one of the finest games of his brilliant career in a vain attempt to stem the tide of defeat.

The P.C. first-year men were completely outplayed for the first time

(Continued on Page 4)

INTRAMURALS

The aggressive Freshman Heavies took the measure of the Sophs 36-28 Wednesday night in the final contest of the regularly scheduled heavy-weight games. Under the play-off system which matches the first and second place clubs, the Frosh and second-year men will meet Monday for the championship of their division.

In Wednesday night's encounter the Sophs got off to an early lead and left the floor at the half boasting an 11-10 margin. The freshmen started rolling in the second period and took the lead never to be threatened. Joe Bruno and Bill Foley were the high point-makers of the clash, each garnering 10 points. Lou Siy and Jack Wilson chalked up 8 markers apiece for the losers.

In the first game of the evening the Soph Lights snowed under the Freshmen 30-6. Striking at the very beginning the upperclassmen rolled up a huge advantage and were never in danger. Ed Avery set the pace for the victors hooping 10 points.

All-tournament teams will soon be announced. The two championship quintets will receive medals.

INTERCLUB TOURNAMENT

Entries for the third annual Interclub Basketball Tournament must be made before next Thursday.

Teams entered in the tourney should watch the sports page of the COWL for further announcements concerning schedule and regulations.

Frosh Win At Newport

Ethier Stars in Charity Bill

Gaining an early lead the P. C. Frosh successfully withstood all attempts of De La Salle to reduce this advantage and defeated the Newporters handily 39-26 on Wednesday night in a game played at Newport. The contest was part of a charity doubleheader held for the benefit of the Red Cross War Chest.

Ethier, Paglaroli, Barchi, Sowa, and Lee all played important roles in the Friar Frosh triumph, their sixth of

In winning, the first-year men defeated one of the better high school aggregations in New England. The De La Salle team, entering the game with a long winning streak, could not match the closing half drive of the Freshmen, particularly after the loss of their key forward, Bob Allen.

Ethier, with 12 points, was the game's high scorer.

All Star Boxing Bouts to Be Held In Harkins Hall

Championships To Be Decided on Thursday Night

The eagerly-awaited All-Star Boxing Bouts will be held next Thursday night at 8:00 o'clock in Harkins Hall. This event, which will be an annual feature of the Providence College athletic program, bids fair to be a huge success.

Elaborate plans have been made to convert the hall into an arena for the night with full-size ring and good seats for everyone. If the enthusiasm displayed by the boxers is any indication of the P.C. students' interest in the fistic game, the auditorium should be filled to capacity on the big night.

On Tuesday afternoon the elimination bouts will take place in Guzman. Winners of these matches will be paired for the championship set-tos two days later.

Thursday evening, seven bouts are planned. The victors in these contests will be crowned "champs" in their respective classes. In addition to these thrill-packed matches, Paul Roshka and Pete Louthis, both former Golden Glovers, will tangle in the main event

WHAT! A girl training men to fly for Uncle Sam?

• The name is Lennox—Peggy Lennox. She's blonde. She's pretty. She may not look the part of a trainer of fighting men, but—

She is one of the few women pilots qualified to give instruction in the CAA flight training program. And the records of the men who learned to

fly from Peggy show she's doing a man-sized job of it. She's turned out pilots for the Army... for the Navy. Peggy is loyal to both arms of the service. Her only favorite is the favorite in every branch of the service—Camel cigarettes. She says: "They're milder in every way."

DON'T LET THOSE EYES and that smile fool you. When this young lady starts talking airplanes, brother, you'd listen, too... just like these students above.

AND WHEN she calls you up for that final "check flight," you'd better know your loops inside and out. It's strictly regulation with her.

YES, and with Instructor Peggy Lennox, it's strictly Camels, too—the flier's favorite. "Mildness is a rule with me," she explains. "That means Camels."

Flying Instructor PEGGY LENNOX says:

THIS IS THE CIGARETTE FOR ME. EXTRA MILD — AND THERE'S SOMETHING—SO CHEERING ABOUT CAMEL'S GRAND FLAVOR

The smoke of slower-burning Camels contains

28% LESS NICOTINE

than the average of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself!

• "EXTRA MILD," says Instructor Peggy Lennox. "Less nicotine in the smoke," adds the student, as they talk it over—over Camels in the pilot room at the right.

Yes, there is less nicotine in the smoke...extra mildness... but that alone doesn't tell you why, in the service...in private life... Camels are preferred.

No, there's something more. Call it flavor, call it what you will, you'll find it only in Camels. You'll like it!

BY BURNING 25% SLOWER than the average of the 4 other largest-selling brands tested—slower than any of them—Camels also give you a smoking plus equal, on the average, to 5 EXTRA SMOKES PER PACK!

CAMEL
THE CIGARETTE OF COSTLIER TOBACCOS

HONOLULU HUMDINGERS!

(Taken from 'Sol Pluvius' A Daily Cartoon in the Honolulu Advertiser)

Sol Pluvius is stocking his air-raid shelter with food for an emergency. He explained, "I'm laying in a lot of onions and limburger cheese. It may make me unpopular, but I'll have more room."

"The restaurants have had to make a lot of adjustments because of the war," Sol remarked. "By the way, if a restaurant supplies a bomb shelter for its patrons, should it make 'em pay a cover charge?"

"Uncle Laulau takes his gas mask wherever he goes, because he says carrying it is going to help him reduce where he needs to most," Sol disclosed. "I dunno, though; I notice the mask only slaps you on one side."

"Uncle Laulau thinks his financial troubles are over now that people are being urged to pay their bills with checks," Sol announced. "He says that when the checks begin to bounce, he'll have papers to prove he ain't hoarding."

"Well, in case I wanna go to work on Sunday, it's perfectly legal and doesn't break any law, according to the military governor's recent order," Sol observed. "Someone's always taking the joy outa life!"

"The blackout and curfew have simplified Island social life," Sol Pluvius remarked. "Used to be when you gave a cocktail party from 7 to 9 you never knew when people would go home. Nowadays you give a pineapple swipes party, and the guests either have to stay all night or leave before 9 p.m."

"Now that the mail has finally arrived," Sol remarked. "We'll have a new supply of magazines which we won't be able to read because of the blackout. Uncle Laulau, who hasn't much brains but is pretty good with his hands, says he's gonna take up braille."

Sol Pluvius has finally got the water pumped out of his air-raid shelter, and advises others with similar trouble to do the same. "I just got mine fixed in time," Sol said, "There was one of those midget submarines in it."

"I just found out the real reason why we have daylight saving. It's so that the next time the Japanese attack at dawn, they won't catch us napping."

"Well, it ain't much fun around Hawaii these days, with the prohibition, blackout, gas rationing and so forth, but I'm sticking for the duration anyway," Sol announced. "I wouldn't for anything miss the celebration we'll have when it's all over."

"The new curfew rules put out by the military governor state that after 8 p.m. you cannot walk abroad," Sol commented. "Well, the girls I know don't like to walk at any hour."

"Besides getting his 1942 license, every car-owner has to buy a \$2.00 Federal Tax Stamp to stick on his dashboard," Sol observed. "And that's only good until June—then you get stuck again."

MSGR. F. J. SHEEN TO LECTURE HERE

(Continued from Page 1)

at a reduced rate will be available for a limited time. Mr. Lionel J. Landry is in charge of student tickets. Appointed to complete arrangements for the lecture are the following members of the Guilds in the Institute: Nurses Guild, Miss Mary O'Gara, Miss Mary Dolan, Miss Rose Frantantuono; Teachers Guild: Miss Mary Eagen, Miss Marita Coughlin; Public Service Operators Guild, Miss Elda Venturi; Doctors Guild, Dr. John J. Donley, Dr. John L. Beaszler, and Dr. Peter J. Harrington; Lawyers Guild, Judge Francis McCabe; Hon. Edward F. McElroy; Hon. John Henry Griffin. Mr. Lionel Landry is representing the student body on the committee and the Rev. Robert E. Brennan, O.P., director of the Thomistic Institute, is serving as chairman of the speakers' committee. The committee announced that service men will be sent tickets on request for Msgr. Sheen's address.

PHI CHI CLUB SHOWS MOVIES

BOXING BOUTS AT HARKINS HALL

(Continued from Page 3)

of the evening. These two boys have been working side by side coaching the entrants in their daily workouts, but all this co-operation will be forgotten when Pete and Paul stand toe to toe in the feature bout.

Of the boys who have been working tirelessly to get in the best possible condition. Nick Budnowski and Georgie Barbarito have been particularly impressive. Lou Siy, Paul Regis, and Tony DelGiudice have also displayed marked improvement over the past three weeks. The entire group of candidates has worked so enthusiastically that it is difficult to select individuals for particular praise.

Coach Ed Crotty, who has labored untiringly for the success of the bouts, announced yesterday that tickets for Thursday night's card may be obtained from any member of the Monogram Club.

FRIAR QUINTET MEETS STATE

(Continued from Page 1)

pinnacle of New England basketball material.

The Friars will have to keep a close watch on Steve Murphy and Chief Scondras, while the ever dangerous Bones Hamilton, whose excellent play almost turned the tide against State, will certainly demand special attention. In the back court the Crusaders have two very efficient guards in Curran and Ruggiero; the latter, whose slight build is very misleading, was particularly effective in the doubleheader engagement.

Providence cannot expect a pink tea in this game either for the Cross has both the height and weight to back up its shooting and floor work. The Crottymen, however, are bound to have a change in the tough luck which has hounded them of late, and such a change, combined with heads up playing, could easily snatch two victories from the fire.

Upon these games depends the success or failure of the entire P. C. schedule; two victories would once more send the Friars to the top of the heap and compensate for previous upsets.

As an added treat for the basketball fans at next Tuesday night's program the powerful Friar Frosh quintet will engage the Rhode Island College of Education five which has compiled a very creditable record over the past season.

FRIARS LOSE TO GYMNASTS

(Continued from Page 3)

this season in the curtain-raiser of the evening. Led by Henri Ethier the Frosh battled the Gymnasts on fairly even terms for the first 20 minutes but fell before the second half onslaught of Springfield.

DORM DIARY

By JERRY COLLINS, '44

It's not news when a student brings an apple to the teacher but it is news when a prof peddles pomes to a pupil. Perhaps it's just the mendicant coming out in a certain member of the faculty who lives at the dorm. The good Father was seen the other night going from room to room asking the gentlemen if they would care to partake of his generosity. Of course everyone said yes. There was only one catch: to date no one has received an apple. Foiled again.

Shades of the past—"Chippo" informs us that he had a long, and we do mean long, letter from "Moe" Buchard, now one A in the Army at Fort Warren, Wyoming. Moe says things aren't half bad; contributes his own quotable quote, "Anything goes when the whistle blows."

Thoughts while trying to think dept:

Ross Muenzen and his summer tan—marvelous things, sun-lamps. Those old Irish ballads sung in the halls by John Yockers. The Merry "Macs" making their weekly trip to New York. "Hopalong" and Rollo the "boor" getting ready for a test, as usual. Louie Siy faithfully practicing what "Patsy" told him—ask Elmer. Gene Hannlon covering the East to attend proms—ditto John Flynn. McGill extolling the virtues of Jacobs Ladder. "Danny" Mitrano joining up to "Keep 'Em Flying". Congratulations, Dan. Joe Anlauf in deep reverent dreaming ideas up for the Frosh Hop. Phil Roy squiring lovely gals around the campus of a Sunday afternoon. He even picks 'em up with station wagons no less. Dan Murphy being sure he gets his favorite seat at dinner. Joe Vaghi discussing the relative merits of the La Scala and Metropolitan. Basil Fitzpatrick discussing the relative merits of the Savoy and the Arcadia. The "Giant Jeep", otherwise Dave Turbridy, rushing to get to work on time. And Paul Connolly can get it for you wholesale. The sparkling whistle of the "Gen" over the campus at eventide. All the Freshmen wondering what to do of a Saturday night now that Pius is closed for Lent. Kowalski being asked if someone gave him cigars for Christmas. Jack "The Jaw" Grady being asked if he were half Indian; and saying yes. Stevens the Mad Scientist deliberating over the pros and cons of moving into the Inner Sanctum—he wants to ask Raymond some questions on metaphysics. Pete Corato heartbroken because three of his little, green men were drafted. Frank "Globe" Trotta giving pointers to Paul Roshka on the art of self defense. Time out for lights out, Yours truly.
