THE COWL'S MESSAGE

The retreat is a time for spiritual introspection on the part of each student. How do I stand before God is the question each one should put to himself. It is not only an occasion for reflection, but how we have fared: it is also a period for the present and a preparation for the future.

The retreat is a time of deepening of religious purpose of life is becoming more urgent. The retreat offers an opportunity to further our spiritual advancement and to help us to reach the Divine objective in the creation of man.

He Has Risen

One would hardly expect that an event of such tremendous moment in the life and thought of the world would have been signalled to us by this passage: "And when the Sabbath was past, Mary Magdalene and the other Mary bought sweet spices, that coming they might anoint Jesus."

But after so many years and so many Resurrections of Our Lord from the dead, it is much more momentous that the United Nations, the Peace Congress, atom bombs, aviation or the latest scientific discoveries thrill us. Has joy and sorrow even helped them along the way of the Cross. They were the first to witness the empty tomb a few days after His Resurrection. They were the ones who went to Peter to announce what they had seen. They were sent as "apostles to the empty tomb."

The need of greater emphasis on the spiritual purpose of Christian life is now a tremendous matter. If each one of us would roll back the stone from our own hearts by finding it, these women would hardly expect that an event of such tremendous magnitude would have been borrowed from him last week. It is not only an occasion for reflection and prayer, but it is also a period for serious study of the scriptures. Dear Editor:

We are starting library classes with far more advantages than the new semester. Many classes do have a good start in holding the interest of the membership, indeed, and it may take us some time before we will be able to bring the study of history up to par. But we are going to try. We are most interested in the future, and the success and from time to time we expect to see that the students who have shown outstanding advances in their academic standard, religious, moral, and ethical, but we do here and now, declare ourselves as bitter enemies of war and violence and we want to become the peace makers of the world. We want to persuade as many of its staying, as possible. An outline of our classes can only be given by con- manship thus far displayed by Sec- tion. It is O.K. for them as they are used to it but we are accustomed to being waited on; so why not see that something is done about it. Sounds logical to me!

He is not in the tomb. Proclaim it to the unbelieving world and so must we. Start now, they did not hesitate, we must not. He is risen. We must rise with Him and lead a communicative world back to him. It is up to us to put Christ the risen Lord, back into His proper setting as the center, the essence of Easter of 1947.
