Rep. Fogyarty Says Reds Propagandize Against Europe Aid

Back From European Tour, Gives Interview

"Russia has declared a war of propaganda," the Honorable John E. Fogyarty, a R. I. Member of Congress, stated in an interview at the Oval Office in Donnelly Hall.

Mr. Fogyarty, holder of an honorary degree from the college, recently returned from a 40-day, 20,000 mile tour of Europe, as a member of the Armed Service Committee of the National Legislative Representatives. The committee visited twelve European countries and discussed military, economic, political and social conditions with literally hundreds of persons.

The R. I. Representative said that the trip was something that every member of the whole trip was to witness the non-military aspect of the Red menace. "If we went out of this corridor we would have been shot down. Look around and you can see the tremendous effort to stay within a ten-mile corridor of the American city."

"And when it's too dark to see even through the plane was clearly marked as a U.S. A. military aircraft."

Mr. Fogyarty continued, "The Communists are spending millions of dollars to spread propaganda messages in all of Europe and every home propagandizing that everything is going to be all right."

Friers Plan Formal For November 5th

Cassidy, '48, Burns, '49

Named Chairmen

Joseph Cassidy, Senior Pre-Med student, of Uttbridge, and Mark Burns, Junior Business student, of New Haven, were designated as co-chairmen of the Friers' Formal which will be held in Harkin Hall the first Friday in December. This is the only campus formal of the college social season.

The orchestra has not as yet been decided but it is expected to be known some time this week. Last year the Friers managed "Twix," a Quinta, a P.C. alumnus and a Connecticut favorite.

According to an announcement from the committee, the dance will be held in the Penguin Room of the dormitory with a new innovation in color-blending, which will be advertised in the halls of Harkins. The center-piece, always the feature and stand-out will be the Frier donor. A design is said to be in the heart of the committee.

The committee chairmen are Pvt. 1st Class Edward Sullivan, Providence; Programs, Dave Barry, '49; P.C. at-large, Dave Douglass, '49, Hartford, Tickles, Joseph Flinn, '49, New Haven; Decorations, Joseph Giss, '49, Springfield; Refreshments, James Shell, '49, Waterbury.

EDWARD BEAUREGARD TAKES PRESIDENCY OF JUNIOR CLASS

Newman, Sinatra, Gauottee Elected to Office

Edward A. Beauregard of Providence, R. I., has been elected to the office of President of the Junior class. He was unopposed with Mr. Beauregard, Thomas Newman, '49, was elected to the Vice Presidentcy, James A. Sinatra, Treasurer, and Walter E. Gauottee, Secretary. The election was held on Thursday, November 8th.

Mr. Beauregard was won the Presidency with a majority of 51 votes, Horan receiving 60, and Newman receiving 69 votes. John Horan was chosen the Speaker of the House and the Vice- President won with a majority of 94 votes as compared with his running mates. Gaouttee was chosen 34.

The office of Secretary was won with a majority of 118 votes to Felix and 29 for Finn.

Ed Beauregard, a graduate of Mount Pleasant High School, was a member of the Army Air Corps for three weeks around the college. So far, the election was hotly contested, with all the candidates running to allow for adequate consideration. The election was held at a meeting of the Alembic staff and the editor urged all interested to get their contributions in on time. The minimum age is seventeen.

The Providence College Battery will be required to attend two hours of training every Tuesday night from eight to ten, and two weeks of camp training at Camp Edwards, Mass. For this training, the men will be paid by the Federal Government at the rate of $6.00 per day. Each student will receive a full day's pay for attending the training. The pay will be advertised in the campus daily.

"Russia has declared a war of propaganda," the Honorable John E. Fogyarty, a R. I. Member of Congress, stated in an interview at the Oval Office in Donnelly Hall.

There's been a great ballvaliana in football during the past few weeks around the college. So far, the college administration has seen fit to protect the students from the college administration.

In the light of past events it is probably just as well for the student body of today, is not physically equipped to withstand the rigors of a big game. It may be true that most students are combat veterans or good amateur athletes, but they lack the stamina which belonged to the P. C. footballers of the last twenty years.

Hardly anyone remembers that great off-tackle run by Hula Hips Heffy Halftack. He was the subject of Major Gordy's talk last week at a meeting of interested students. This undertaking which is now in the embryonic stage has the full approval of the College Administrative Board.

Reporters Recall Famous P.C. Gridmen

Hula Hip's Hennessey Halftack

All these game were held off campus for obvious reasons. The campus was busy with the usual pre-game preparations for the usual college social season. But they were governed and adhered to human rules of conduct. The more famous or informal teams played a much tougher schedule consisting of those squads who played according to the law of the jungle—the football was just an excuse for the mayhem. It was not unusual to find grass knuckles and dagger secretaries, to the interest of the various gridmen.

SENIORS — NOTICE

Beginning today, Wednesday, the seniors are to have their pictures taken for the VERITAS. A daily list will be posted on the VERITAS bulletin board, second floor. Seniors must keep appointments or send a substitute. This is a professional proposition and breaking of appointments means loss of membership in the class.
THE NEWEST MARTYR

A world which has not heeded the warnings of the past is ripe for the harvest of barbarity. Too often this world has been indifferent toward the sufferings of the past. We feel that we have an obligation to draw attention to this terrible act which must be recorded in history.

One who has been truly said to be working against the people. The inevitable consequences of such actions is a thing of the past. We have shrugged off the stories of oppression in Europe by Soviet domination, and it is becoming a thing of the past.

Bill Green, in his work, "The Two C.; The Lover," is an example of a man who has dedicated his life to the development of a true Christian ethic. He is an example of a man who has followed his studies and is shutting himself off from association with the less desirable elements of society.

Christian ethics is, one that will serve as a foundation for the development of friendships among students. By participating in extra-curricular activities, students can develop a true Christian ethic. A world which compliments itself upon the achievements of the past is being replaced by a world which values the achievements of the present.

YOUR OPPORTUNITY

There are far too many students in the College who hold an indifferent attitude toward extra-curricular activities. We feel that they have an erroneous idea as to what constitutes a well-rounded education—that is, that one who is interested in the arts and sciences is a well-rounded individual. There are far too many students who are destined to be among the leading citizens of the future. At the same time he becomes a member and helps himself to become both leading and influential in his community. He will learn to utilize his talents for the sake of his alma mater and his associates. Most important of all, he can develop the interest and skill which will enable him to have the Penguin Dances well in place at P. C. from potency to act.

The college football team is an important part of the college experience. It is a way of life for those who participate in it. The team is made for the dorm week-end. How much time must further elapse before we acknowledge that a student body is stripped of its driving force of unity, which is football interest? Is it possible to strike up a lasting acquaintance among his classmates?

In response to the many requests that have been received by the Cowl office concerning the whereabouts of the ever famous Campus Tours, the Universities and Colleges around the tact. We of the Cowl can only gather from the University of Miami at Coral the football issue, on we go to the column and express your opinion on Since you would rather read this to bring football back to the College.

To traverse the original thirteen but scale at 130 lbs.; brown-haired, blue-ure. When I catch a glimpse of the BEAUTIFUL:

FOOTBALL WEEKENDS:

ie various colleges and universities and drags. The alumni is returning to scene is ever inviting you men here at the college; it's beginning to get body floundering and turning in all one. in fact I think someone didn't unable to do their best on them. These examinations would only cause one to worry about these coming examinations, and they will be unable to do their best.

Just because other schools have them is no reason why Providence College should. The school was able to get along without these examinations before and I believe we can still get along.

P.S. Why doesn't somebody try to abolish some of the examinations we already have instead of looking for more.

I am not trying to be sarcastic, this is merely my opinion.

J. K. 48.

COLLEGE TRADITION

Editors:

As a student here before the war, I was obliged to wear a Freshman cap. I was very glad to have Free College. I was able to get along without these Free College examinations.

All our major colleges are back on peace-time schedules and are doing everything in their power to help back college tradition. It's about time P.C. and the same in more ways than one.

After all, the moral students de- not only on scholastic achieve- ment but also on activities. Years truly. I'm a VERY BAD JUNIOR.

Francis Coughlin, Senior Philo- sophy, a member of the Phi Beta Kappa, newly elected president of the Greater Boston Club, one of the larger student clubs at the organ- ization's second fall meeting last week that students from Maine, New Hamp- shire, Vermont and Massachusetts are eligible for membership. The only Bay States exceptions are Fall River and New Bedford for they are already or- ganized.

A "get acquainted outing," sched- uled for the week preceding the Thanksgiving recess, will inaugurate the club's social season. Plans are also in the making for a joint alumni and student party in Boston. The newly elected officers are: president, Dave Haylon, Junior Psychology; vice-president, Mr. William Jordan, O.P., of the science depart- ment, was starred in the title role. The Rev. Fathers George Q. Friel and John V. Fitzgerald were appoint- ed to the S.R.O. sign hanging outside the door.

In January of 1926, three years after the war, the Rev. Fathers George Q. Friel and John V. Fitzgerald were appoint- ed to the S.R.O. sign hanging outside the door. The Rev. Fathers George Q. Friel and John V. Fitzgerald were appoint- ed to the S.R.O. sign hanging outside the door.
Rep. Fogarty Says
Reds Propagandize
Against Europe Aid

(Continued from Page 1) come from America and a word is not said about that."

Mr. Fogarty said that it was a mistake to abolish "The Voice of America" program, because the people of Europe now have no way of knowing what America is doing for them. "And," he explained, "this knowledge is necessary to stem the on-rushing tide of communist propaganda."

The people of Germany fear the Russians, and with reason, since the Russians plundered and raped Germany during the first three weeks of the occupation, and the Germans have not forgotten ... "The American occupation forces are not only welcome," the congressmen said, "but they are necessary for the morale of the Europeans."

The greatest fear they have is that the Americans will be withdrawn and then it will be only a matter of time until the Russians, with their system of conscripting labor from the occupied territories, will be in command.

Mr. Fogarty ventured the statement that, if the American Occupation Forces were withdrawn, the Communists would have complete domination of Germany within two months, and that "without a shot, we would put them in power in a matter of time until they controlled all of Europe as well.

"The American occupation forces are not only welcome," the congressmen said, "but they are necessary for the morale of the Europeans."

SPORTS PANDORA

by Dave Connors, Jr.

ATHLETIC CARDS

All students of the College will be issued a special Athletic Card. This card is necessary in order to obtain tickets to the home basketball games and for admission to home baseball games next spring. To obtain a ticket for basketball games this card must be presented at the Athletics Office before each game, where it will be punched and a ticket issued. These Athletic Cards will be distributed at the Athletics Office, Room 15, Donnelly Hall during the week of November 16th. To facilitate the distribution the following schedule will be posted:

November 10—Seniors

November 13—Juniors

November 15—Sophomores

November 16—Freshmen

SPORTS PANORAMA

by Dave Connors, Jr.

ON THE CAMPUS...

With the basketball opener still some six weeks away, athletic activity and interest for the most part is centered on the intramural football league. In Division I the Shamrocks and Harps are tied for the lead, while the Squirrels and Fordham Rams are at the top in Division II.

The candidates for the Freshmen basketball club so far have not had the pleasant weather and conditions that the Varsity enjoyed during their outdoor season. Weather is of little importance now that Varsity basketball are practicing in the gymnasium.

O’CONNOR VS. HANDLEY

Last week Bob A. “Happy” Handle, the high commissioner of all organized baseball suspended the Chicago White Sox team of the American League and its general manager, Leslie O’Connor. The suspension was announced by Chandler because of the refusal of O’Connor and the White Sox to pay a fine imposed on them for signing a high school boy to a contract. Negotiations with high school players are supposed to be against the laws of organized baseball. However, O’Connor must have found a loophole in the law, as it seems highly foolish that he would leave himself open to such a suspension as has been placed upon him.

O’Connor is a lawyer and also he was for twenty years a salaried man in the late Judge Landis, Chandler’s predecessor as high commissioner. In fact, for four and a half years of Landis’ tenure, O’Connor just ran the office. Now O’Connor knows every law in baseball from A to Z. In fact he has a part in the forming of practically all of them. We rather wonder if the fine levied against the White Sox seems to indicate that he feels himself a verdict favorable to him. Once again Chandler is on the spot, he has been on numerous occasions, now being elected as the commissioner. But this is probably his most serious one. O’Connor must establish his character as a figure just as powerful as any other ever was.

SHOOT HOUTS...

Joe Louis is going into training for a few weeks, according to the Walcott daily. This week’s battle between the Red and Army should be the highlight of the day. Football, hockey, and basketball are all being played at the same time in some parts of the country. It used to be that one season ended before another started.

PRO-GRID WAR...

Commissioner Bert Bell and Jonas Ingraham of the National Professional and the All-American Football Leagues, respectively, are the key figures in another feud. This one a football verbal battle. Ingraham, head of the two-year-old All-American Conference, has challenged Bell to pit the winners of the two leagues together at the season’s conclusion in a football World’s Series.

“Whitey”

Due to inclement weather and the postponement of several games there was no action in the intra-mural football league last week.

This week will bring several important contests. The outstanding contest pits the undefeated Harps against the likewise spotless Fall River Club.

DIVISION I (Upperclass Men)

Shamrocks... 2 0 0
Harps... 2 0 0
Pre-Morals... 2 1 1
Fall River... 1 1 1

**The Theatre**

By Art Poutray, '48

Sock and Buskin, the dramatic group at Brown University, has undertaken a series of George Bernard Shaw plays which are to be presented to the public this winter. The first of the series, "St. Joan," was presented last week and seems to have been well received because it was well presented. If you of any you did see it you will remember the huge head that Mr. Shaw has to be seen.

The young man is one of the finest in stock and Buskin and this was his first performance of any note. He was from the service eight or ten months ago. The brothers Nason, Robert and Richard, are veteran members of the stage and account for the polish it manifests. A playwright, which may or may not be one of the night's plays. The next of Shaw's plays is to be "Androcles and the Lion," and will be seen some time this month or next I believe. The readings started Monday and as yet the cast is still forming. However, I feel quite certain that they will offer a good evening's entertainment. The capacity of the Brown theater isn't very great, so plan to get tickets early if you plan to go. I'll have more information about Androcles as soon as the cast takes shape.

The Auditor is an auditorium this winter. Last year the group presented, "A Doll's House," and several other plays ranging from mythology to satire. Although they are not a professional company, they have as much polish as many summer companies and a good deal more originality. The director of the group is a playwright, which may or may not account for the polish it manifests. A list of the plays they are to offer has not yet been published but the selection last year was good and, in all probability, will be as good this year. I expect to see it and will have more on this in a later issue.

Recalls P.C. Football

(Continued from Page 1)

Now he was just a normal human being.

Pogo Pigfinklegion stands beside anyone who plans any pigeon pusher that the school produces. This is his life work for Pogo was seven feet tall and measured six feet from shoulder to shoulder. His narrow head came to a sharp point handy for drilling holes in a line. His great breadth caused linesmen to take wide detours to nail him in a line. His great breadth caused line workers to use him as a ladder. As luck would have it, a sudden freeze solidified the field. The Friars and the Blue Devils had their team down. It was a damp and muddy field and the Friars had acquired webbed feet as a result of their wet running. They ran amok in the mud. The muddy field grounded Pogo for the first half. As luck would have it, a sudden freeze solidified the field. The Friars were unable to move with their legs, which had acquired webbed feet as a result of their wet running. They ran amok in the mud. The muddy field grounded Pogo for the first half. As luck would have it, a sudden freeze solidified the field. The Friars were unable to move with their legs, which had acquired webbed feet as a result of their wet running.

Douglas Elected By Newport Club

Richard Douglas, a Junior, was elected president of the Newport County Club at a recent meeting. Others elected to office were: Vice-president, Thomas Hyder, a Sophomore; secretary, John Farr, a Freshman; and treasurer, Peter Bazemore, another Freshman.

Douglas appointed two committees, one for the drawing up of the club's constitution and another for the promotion of social activities during the coming year. On the constitution committee are: Ray Garcia, Robert Flashey, Paul Barber, and Austin Vogel, all Freshmen; and Junior, Francis MacKinnon, a Sophomore. Hyder is chairman of the committee and is member of the social committee.

The members are presently making tentative plans for sponsoring a dance during the early part of December.

For Funds In Grotto Campaign

(Continued from Page 5)

Five whooped the verdict in the last 10 seconds of play, 39-37.

Last year he was used as a utility player by the Friars during the early stages of the campaign. Later on, however, as his shooting and passing improved and he became accustomed to Coach Drew's system, he was used more frequently. He is the stockily built type and is exceptionally fast. No one player by the Friars during the early stages of the campaign. The basketball squad turned out-in the organizational plan of the College unit. All personnel would be enrolled in the "Series 10" extension course if they desired. Upon completion of this course, approximately year at the minimum, and demonstrating proficiency in unit training, officers would be eligible to apply for Reserve or National Guard commissions.

The regulation for the College unit and the features incorporated, are many. All individual cases and group units will be answered at tomorrow's meeting. The meeting place is Room 221. The time is three-thirty.
