Fr. O'Neil Explains Workings Of Cana Movement At Lecture

The Cowl Movement, a program designed to provide inspiration and motivation for young people, was the subject of Sunday night's discussion in the series of six weekly lectures on law on marriage and current legal problems. The movement, Fr. O'Neil said, was a capacity audience in Albertus Magnus Hall, started in New York about ten years ago with a meeting of married couples, under Jesuit auspices, to discuss the ethical and religious aspects of life.

Author To Address Veridames Sunday

Professor J. M. O'Neill, noted author, speaker and editor of the 'Catholic World', is the guest of the Veridames Society at its monthly meeting. The Providence College Glee Club will feature as soloists, Dr. O'Neill will speak on "Catholic and American History." Ticket prices are one dollar each. Professor O'Neill is a graduate of Dartmouth College and as head of the Department of Speech in the University ofHartford and as head of the department of Speech in the University ofHartford, he gave a brief survey of the various phases of the subject of Sunday night's discussion in the series of six weekly lectures on courtship and marriage currently being held at Providence College. The student body at St. John's Church, Providence.

The movement, Fr. O'Neil said, was a capacity audience in Albertus Magnus Hall, started in New York about ten years ago with a meeting of married couples, under Jesuit auspices, to discuss the ethical and religious aspects of life.

Attendance at thirteen hundred and eighty-one Masses for the intention of the Pope and the Holy Father, who is being granted by the students of Providence College, for the intention of the Pope and the Holy Father, who is being Renton and the students here at Providence College.

Corporation Head Claims Opportunities Exist Today

The head of one of America's leading radio industries told members of the Ship and Scales Club last week that the young men of today have the same opportunities for success that he had.

Frank M. Folsom, president of the Radio Corporation of America, was the expounder of this optimistic view toward the future at an open meeting of the graduate business group.

The young man of today has at his disposal the same 'breaks' that his father had, Folsom said. As testimony of this fact he cited himself as an example along with his three predeces- sors in the business who rose from near obscurity to top positions in one of the nation's largest corporations.

A presentation of the self-made man, Folsom told his audience, "The opportunities are here today as great as they ever have been. You have the chance of a lifetime," he warned, "to make some kind of contribution to the life ahead of you. If you want to have confidence, you have to give confidence."

During the discussion period that followed, Folsom asserted that television is the most fabulous thing of our life. Possibilities are unlimited.

Fortune In Backyard Awaits All, Says Science Lecturer

Would you like to have forty-five thousand dollars? Without leaving your back yard you can have that sum and at the same time you will be helping your country. How? It's easy. Just dig down one mile on the average house lot, extract all the uranium which will be found, and sell the five tons of it to the Atomic Energy Commission which will reward you for your efforts.

The only drawback to the entire plan is the fact that you will have to pay for the mining operations and also that you will have to find and analyze the uranium which will be found and sell the five tons of it to the Atomic Energy Commission which will reward you for your efforts.

In a slide illustrated lecture, Dr. Fleischer, Chief of the Investigations Section, Geochmistry and Petrology Branch, traced the history of the comparatively young science of geology, stating the role that the Europeans and Americans played in its development. He also reviewed the editor of several chemical publications, he gave a brief review of the relative amounts of the elements which constitute the top ten million miles of the earth and the number of them which compose the most common known element - iron.

Methods for determining the age of the earth with spectroscopic and colorimetric measurements were illustrated and discussed. In addition, the lecture outlined the formation of America's natural resources. Dr. Fleisher outlined the development of natural resource council and new methods for detecting ores.

The Rev. James W. Hackett, O.P., is a member of the board of the Rhode Island section.
The Sad Saga Of A Sorry Sph. Or, Woe To J. Doe

By LEO FRANCIS McPIKE, JR.

John is an average student at Rhodes College. He has a reputation as a quiet, reserved person, but he falls in love with a girl, Sally, who is dating someone else. John is在一旁, observing and listening, but he doesn’t dare to act on his feelings. One day, Sally and her date, Joe, are asked to a dance by a group of friends. John decides to go to the dance and see if he can do anything to win Sally’s heart. He finds her at the dance, talks to her, and they begin to flirt. Joe and Sally areasley talking, and John feels left out. He turns to Joe and says: "Seniors always make like they know all the an-

John goes all right for a year and a half. Then he gets the job he wants—$300 a month. He unrolls it. It's a winding petition. The guy that rented it was nice enough though. I asked him what work who has the slightest contact

Joe Donovan and the big secret is out. It's a tough rap for John. Now he's got to do something, but he

The grapevine works all day through.

The editors of the Cowl this week renew their monthly appeal. We don't mean financial help (the Cowl has plenty of money), and we don't mean promotional help (the Cowl is one of the most popular publications in Providence), we want real help—real help who has something better to do with his time? This is the day to drink a lake of beer. Let less import-

SLAINTE
Well, what do you know, Friday is St. Patrick's Day again. The day of each Irishman's dream, the day of his saint, and the day he wishes he could have some more help.

THROW OUT THE LIFELINE

the minds of most of us. However, even though we are inclined to be skeptical concerning the "Shamrock Stone," we must admit that the Irish by being inherently and socially proud of their lineage, even though most of them have never seen the "Shamrock Isle," have lived up to the Gaelic tradition that he who hath Irish blood in his veins will forever cherish the memory of the "Emerald Isle." When queried concerning the above statement, the below named students replied as follows:

WILLIAM DARBY: 31. I believe that the main reason is the psychological bond that exists between those of Irish descent in this country and those of the "Mother Country.

JOHN D. (Special Student): From the 5th century the Irish have good cause to be proud who consider their Irish and tribal veins will forever cherish the memory of the above named students.

JACOB YOUNG: 32. Despite the fact that most of the Us have not been to "Shamrock Isle," he is inclined to believe that the several reasons, among them the fact that Ireland has an ancient and valiant clanship, and that England, despite its weakness, is unsolvable to prevent the Irish from attaining their independence.

For generations we here in America have celebrated St. Patrick's Day along with the Irish-Americans in honor of the patron saint of Ireland and the Irish-Americans in America have celebrated St. Patrick's Day. We must admit that the Irish by being inherently and socially proud of their lineage, even though most of them have never seen the "Shamrock Isle," have lived up to the Gaelic tradition that he who hath Irish blood in his veins will forever cherish the memory of the "Emerald Isle." When queried concerning the above statement, the below named students replied as follows:

JOHN E. O'Connell (Special Student): The Irish are a people who have to honor the accomplishments of the above named students. March 19 is the only real holiday that Irish-Americans have to do to the Irish and Irish-Americans.

THE SOCIAL PRESSURE AGAINST ALCOHOL

Attention, all you P. C. students: If you are interested in being a participant of the "Social Pressure Against Alcohol" and send it to the Intergovernmental Appeal for the Surplus of the pictures of 1949 Commencement, etc., because we did not believe that they applied to our class and we wished to devote the space to more pertinent pictures. However, it would be nice to have a supplement showing our Commencement, our Senior Ball, our Cup and Crown Day and all other pictures pertaining to the graduation activities of our class.

It can easily be done if you want it. We would like to charge $1.00 for this supplement which can be added to the 1949 and the 1950 Veritas, as provided by Wales Henry and Frank Tally, 505 Washington Street, all in the R. I. School of Design Museum, on the night of March 16 and will run until June 20, 1950. Mail to the contest secretary, Box 3342, Merchandise Mart Station.

Rules for the contest are as follows:

1. The contest is open to full-time undergraduate student registered in a college or junior college in the United States or Canada for any term of the school year 1949-50. No student who has written professionally is eligible.

2. The general theme of the contest is "Social Pressure Against Alcohol."

3. Entries must deal with that phase of the theme and each writer shall select his own title.

4. The contest is to be judged on the following factors: clarity of expression and accuracy of facts, submission of the class before we commit ourselves to this course. The Co-Editors

Questions Posed to Senior Class

Would you be willing to subscribe to a supplement to the Veritas if we took the trouble to have it published? In the 1949 Veritas we have written lamentations about the pictures of the 1949 Commencement, etc., because we did not believe that they applied to our class and we wished to devote the space to more pertinent pictures.

However, it would be nice to have a supplement showing our Commencement, our Senior Ball, our Cup and Crown Day and all other pictures pertaining to the graduation activities of our class.

THE COWL, WEDNESDAY, MARCH 15, 1950

MONOGRAM CLUB BOXING SMOKER TONIGHT

By John Salesses

Tonight the Monogram Club will run its annual smoker in Harkins Hall auditorium. The first prize of a twenty-five dollar bill will be awarded to the winner of the heavyweight championship bout. Pete Louthis has been working these past weeks training as good a group of boxers, if not better, than those whom we have seen the previous years. The powder will climb through the ropes in the wire, but we are ready to go.

Seven bouts in all are listed. They will include the featherweight, lightweight, junior welterweight, middleweight, and the bantamweight matches.

The new division, that has been added in recent years, has seen many fine fighters. Four fast-moving O'Gara's are listed. Two will meet off for the first two bouts on the program. There is no match in the first fight. Vin DiNatale will square off against Johnny Izzi. Wall Chiofu has drawn Jerry Gibber. And Art Daghli will challenge Dick McKillop for the second featherweight clash.

The third fight will be a get together for lightweight. Art Daghli will encounter Dave Boscia and the lightweight matches have been listed with Jim Cote or Oscar Peters meeting Jerry "Gibber" Hanrahan. In the fourth bout and Bob Fort will take on Bill Magee in the fifth section. The middleweight division will be represented by Vin Callahan and Armando Antonucci. The final fight on the card has Leo McCarthy meeting F. C. Crean for a fine middleweight encounter.

Many recall that several of the fighters who are on tonight's program are former Monogramsmen. These men are Bill Magre, Frank Kilbride, Oscar Peters and Leo McCarthy.

The winner of each bout, as were done last year, will be decided upon by the Rhode Island Boxing Commission. For the entire program, it has been stated that we will have representatives here as officials for the boxing program.

The fights will be run according to the collegiate boxing rules. An innovation that is added is that the boxers will wear the intercollegiate shirts, which represent their respective schools. Each school will consist of three rounds with each two minutes long and one minute between rounds.

In the previous years, a full house is expected as many non-college people are interested in attending the fights and many already have reserved their own seat of good. The price of admission for students is 35 cents and 75 cents for non-students.

Pete Louthis, who will referee, has for hopes for a surprise addition to the program that would make it well worth while for everyone present in Harkins Hall to enjoy.

CAPTAIN GERRY MCGURKIN PROVIDENCE COLLEGE TRACK STAN FROM ENFIELD HARTFORD

BROWN STOPS P. C. FROM 15 WINS LOSS OF LOZOSKI AND NISSEL FELT

By Dick Beaudet

Saturday night, the Friars ended a successful season on a sour note, outscoring Providence College & University, 66-54. This brought the season record of 14 wins and 5 defeats. This year's club came in fine 14-8 record in comparison to last season's poor season of 15 wins and 5 defeats. This year's club came to Providence after taking a record season of 15 wins and 5 defeats. This year's club came to Providence after taking a year in Harkins Hall. Those who attended were not disappointed. Hal Martin is not too optimistic for Providence College basketball team.

The third fight will be a get together for lightweight. Art Daghli will encounter Dave Boscia and the lightweight matches have been listed with Jim Cote or Oscar Peters meeting Jerry "Gibber" Hanrahan. In the fourth bout and Bob Fort will take on Bill Magee in the fifth section. The middleweight division will be represented by Vin Callahan and Armando Antonucci. Martin Calls Squad For Baseball Team

Preparations for the coming baseball season are in full swing at the Providence College baseball team. Under the able supervision of Coach Hal Martin, the squad of last year's varsity have been conditioning themselves indoors for the past two months. The season's outlook has been comprised in calistenics and running exercises.

Hal Martin is not too optimistic as to the future of the baseball team. He feels that the base figures to be rough, and the loss of some of the regulars will hurt the team. However, he is sure that the bats which characterizes P. C. team will be at least as good as last year. The series of games this year will be a good test of the squad.

PREPRACTIONS FOR THE COMING BASEBALL SEASON ARE IN FULL SWING AT THE PROVIDENCE COLLEGE BASEBALL TEAM. UNDER THE ABLE SUPERVISION OF COACH HAL MARTIN, THE SQUAD OF LAST YEAR'S VARSITY HAVE BEEN CONDITIONING THEMSELVES INDOORS FOR THE PAST TWO MONTHS. THE SEASON'S OUTLOOK HAS BEEN COMPRISED IN CALISTENICS AND RUNNING EXERCISES.
By JOE LAUGHLIN

The dorm league came to its end Wednesday night with the most thrilled-packed game of the season. Both teams exhibited the high brand of basketball which enabled them to complete in this final contest—a contest which was to determine upon which team the dorm crown would rest. Both teams had been striving to receive this opportunity and were determined not to let it slip by. As the final score, 49-47, certainly reveals, at no point in the contest was the outcome determined not to let it slip by. As the final score, 49-47, certainly reveals.

At no point in the contest was the outcome determined.

In the overtime, it was The dorm league concluded the season with one win and four losses in their final five games. On Saturday, the Freshmen looked to Brown, 55-51. In their other outings the Freshmen were set back by Maristopolis, 87-76; throned, 105-58, by Rhode Island State, and checked by R. C., 57-46. Their only successful start was against the Clark Freshmen who they downed, 52-39.

During a rather dark season, the Freshmen have gained valuable experience which will be a great asset to the boys who will go to the varsity next season.

Coach Martin has also produced some outstanding talent in the form of Beaver Power and Bob Pregemland. These two boys have led the Freshmen through the season. Beaver displayed sparkling ball handling and all around know how, while Bob's offensive versatility and fine rebounding has made him a prospect to be reckoned with. Pregemland collected 34 points in 25 games for an impressive average of 1.3. Power showed a season total of 234 for an 11.1 average.

Though not outstanding, such boys as Redi, Kearney, Bel, and Wilson contributed to the league's reputation. These boys always gave their best while on court. Redi Redi while not appearing in all the games managed to gain third place for the season scoring followed by Kirby.

In an experimental basketball league, the Freshmen will agree that their league will not win all their games, they have mustfully been the only team to participate in the ball, producing many talents and always holding the interest of the spectators.

There wasn't any in the refrigerator, so we could all go back to sleep, Dad said. I went to drop a quarter in the slot when, to my surprise, a blind man came in all smiles. I said, "What are you doing here?"

"I work for the store," he said. "I need that quarter to get back my job." I gave it to him, and he said, "Thank you." Then he went on his way, with a big smile on his face.

"I've seen a lot of things in my lifetime," he said, "but this is the first time I've actually seen a quarter." I smiled and went on my way.

"I hope you're happy," I said to him. "I'm happy," he said. "I've never been happier." I smiled and went on my way.

"I've seen a lot of things in my lifetime," he said, "but this is the first time I've actually seen a quarter." I smiled and went on my way.

"I hope you're happy," I said to him. "I'm happy," he said. "I've never been happier." I smiled and went on my way.

"I've seen a lot of things in my lifetime," he said, "but this is the first time I've actually seen a quarter." I smiled and went on my way.

"I hope you're happy," I said to him. "I'm happy," he said. "I've never been happier." I smiled and went on my way.

"I've seen a lot of things in my lifetime," he said, "but this is the first time I've actually seen a quarter." I smiled and went on my way.

"I hope you're happy," I said to him. "I'm happy," he said. "I've never been happier." I smiled and went on my way.

"I've seen a lot of things in my lifetime," he said, "but this is the first time I've actually seen a quarter." I smiled and went on my way.

"I hope you're happy," I said to him. "I'm happy," he said. "I've never been happier." I smiled and went on my way.
