Joseph McGee Wins Top Senior Office; Turnout Hits 83%

Joseph P. McGee, candidate for the top senior office, was elected yesterday at the annual election held last Wednesday in Harkins Hall.

Other officers elected include: Francis P. Flaherty, vice-president; John Tiernan, treasurer; and William J. Healy, secretary. According to Stu-

dent Congress figures 83% of the class voted in the elections.

It goes without saying that I am happy to have been elected president of the senior class. I hold this honor and consider it a great privilege to be as-

signed in such a capacity with the 83% support of my class.

With the blessings of my classmates present, I will do all in my power to prove myself worthy of the trust that you have placed in me.

I pray that during the com-

ing year I will have the wholehearted support of the student body and that in this way we can be assured of the success in our endeavors.

The Sophomore Class President, Edward Poirier defeated his closest rival, Robert O. Doherty of Shadyside, Mass. He is a graduate of Shadyside High School and a member of fresh class, and is a member of the track team.

The Arena Theatre

Under the able direction of Reverend John R. Larnen, O.P., the famed Players of Providence College are inaugurating what is to be known as the Arena Theatre. This new theatre modelled on similar experiments which have proved successful in the West and in New York is to be designed to produce the one act plays and will give wider scope to interested actors, enabling them to exercise their talents, and possibly it is possible when all efforts are directed toward one large production a year.

It will also offer an opportunity for talented young men, of whom there must be many in our college, to develop their acting abilities. It is an outlet for their talents. Many other colleges and communities are doing something similar as we have toward Yugoslavia and Tino. Not because I like him, but for the reason that he is one of the forms, if not the fact, he is the force for change in the old and the new in the Soviet Union. If we were to ignore his work, we would be doing a disservice to the cause of humanity.

For Secretary of State Acheson to continue to oppose any form of economic aid and diplomatic recognition to Spain for the reasons that Franco's regime is recognized as the "four freedoms" is sheer nonsense. It is the duty of the United States to see that the nation which it helped to create is treated fairly in its relations with other nations. We must not be deterred by the fact that she is a democratic country.

The constructive approach for Mr. Acheson and the State Department is to recognize that Spain is a democracy. To this end, it is necessary to play the democratic role of the United States toward Spain and to recognize the people of Spain as their own country.

Therefore, in sheer realism and for the common security, we should bring Spain within the orbit of the Western European countries in alliance with France and Great Britain against the threat of Soviet imperialism. In reply to the State Department's argument: the United States would comprise its most important bloc of Europe's anti-communists, and might do more to prevent the spread of Soviet expansionism in Europe. It is possible that Spain could play a select and intimate group, who do not know of the remarkable, Abbey Theatre'.

The Arena Theatre does not plan to develop another Molière or Yeats. Certainly not a Sara Allgood. But it does plan to give those with an equal taste for talent an outlet for their talents. Many other colleges and communities are doing something similar as we have toward Yugoslavia and Tino. Not because I like him, but for the reason that he is one of the forms, if not the fact, he is the force for change in the old and the new in the Soviet Union. If we were to ignore his work, we would be doing a disservice to the cause of humanity.

The Arena Theatre will be devoted to plays which are known as the Arena Theatre, a small, informal theatre. The plays will be enabled to pursue their bent, and in particular, to the lesser known playwrights. The Arena Theatre is one of the few places where plays by American dramatists are produced.

Detail Of English Program Announced

A detailed outline to aid students in carrying out the universal English program instituted by the college last year was announced by Rev. Vincent C. Dore, O.P., dean of studies. The following is a digest of it:

**Meaning**

This program means that whenever a student submits written work in any class, that work must be the best of which the student is capable. It means particularly that work prepared by a student under class of need be executed with care and correctness with regard to spelling, grammar, and punctuation. A paper that falls short in any of these will not be accepted, and the student must discover the errors, correct them, and re-submit the papers in the form to be designated by his instructor.

**Application**

This program is the written work of all students, but particularly that of Sophomores, Juniors, Seniors. Freshmen, who are still receiving instruction in Composition, are not to be penalized if their papers fail to meet the standards for work submitted in his class.

- All themes must be on regulation theme paper, 8½ by 11 inches, with wide margins between lines. If themes are typed, they must be carefully typed and neat. A theme of any type must be as neat, uniform, as good as the best.
- All black or black-blue ink must be used.
- Deletions, insertions, corrections in the final draft are not permitted, and any erasures must be made as carefully as possible on the paper, if they are maintained.
- The style of writing should be that expected of college students, or that which would employ when writing to a prospective employer or client. Slang, abbreviations and idioms are not kept in keeping with work on the final draft.
- Correctness in spelling, grammar, and punctuation are demanded. Remember that teacher is obligated to accept a paper which is prepared with handwriting which contains any resemblance of carelessness. Evenly spaced, as well as errors, is sufficient reason for rejecting a paper. The burden of submitting satisfactory papers lies entirely on the student.

Further information and instructions concerning this program will be periodically to implement this program.

P. C. PILGRIM DUPED BY PEDDLER; BARGAIN PARKER REALLY P. ARKER

(This is the third in a series of articles by the only P. C. student to make an F.P.C.C. pilgrimage. It tells what happened to the writer with the author's experiences in dealing with many peddlers. These peddlers do not stop the streets of all the major cities of Europe.)

By A. W. Gelfuso, ’52

Because of the influx of tourists, the peddlers have become very expert at street-peddling. Two days ago, a street-peddler received a tremendous boost during the past summer. In all the major places of interest these side-walk merchants lay out in wait for gullible tourists. They do not hesitate to buy anything from things to watch over obscure literature.

One day I was walking outside the Louvre, Paris, a man approached me holding out some postcards and when I shook my head he cast an appreciative eye on my wallet and tried to sell me a small package in his copper hand, grinning "Flirtch pictures!"

These peddlers drive a hard bargain and seem to be masters of the psychology of human nature. My first encounter with one resulted in much embarrassment on my part. A group of us were sitting in a sidewalk café near the Palais de Velasquez when a man came by offering souvenier brace-lets for 50 francs ($1.00) each. Although we knew he was not a friend and I decided to display our bargaining powers. After minutes of haggling we succeeded in bringing the price down to two for one franc, only to find that we had pulled off the deal of the century. We counted our notes, all the while the peddler was grinning like Cheshire Cats. We should have been more alert, I am sure, because he was smiling quite happily. When we proudly displayed our trophies to our guides—

Harriers Downed By H. C., Fresh Gain Revenge, 15-40

By John Salesse

Although Dick Johnson led the pack to the finish, the Providence College varsity was defeated by an improved Rhode Island State College team in a cross-country run at Kingston last Friday morning.

The P. C. freshmen more than evened matters by solidlybounding the Rams with a perfect score of 15 to 40. This was probably the first time in the known history of track at R. I. that a yearling squad was beaten. Without placing one man in the first five finishers, another score gave the freshman team in cross-country.

The Friar contingent was led by members of last year's freshman team, namely, Johnson, Jim Gannon, Herb Waters. Johnson's winning time over the four mile course was 21 minutes and 9 seconds—a time good enough to give him team victory. Big John Sullivan had a field battle all with the ultimate victory being decided in the winning minutes of the last half. The first half ended in a 6-6 tie with Alexander and Delan leading their respective team-mates. The winning TD was scored by O'Dea with Ferguson adding the extra point.

The Friars 15 to 40. This was probably the first year in the sport of cross-country that a yearling squad was beaten by the varsity.

The defending champs, La Salle, got their first defeat of the season by the Friars 27 to 21.

It has been announced that the student athletic ticket books are now being sold from 10:00 to 1:00 each day at the Providence College Student Union.

Fitness and Ability Found In Fresh Team

By PHIL GRIFFIN

Last Tuesday, over fifty freshmen greeted Coach Hal Martin's call for basketball tryouts. The group contained plenty of height and ability. In fact, it contained enough of each to suggest that Martin should not have any trouble filling positions in five or six positions on his team.

The P. C. baton carriers off to the first generation of trackmen to leave the P. C. It didn't take very long to realize that we have a very good club. The boys on the squad for the most part are experienced in varsity competition, the spirit is excellent and they are most enthusiastic as a whole.

When they line up for the star of this game most factors will be to their favor. They will not feel as though they were going to battle an aggregation of gods, or even a team composed of superior beings. They will do the things they have been doing. The Crusaders are just five ordinary ball players who have been thrashed.

The Cross will in so many words, boast of potential All-Americans. It is possible that they will turn out one, but it is unlikely. We will be for us to remember that we have a great ball player in Jim Schiffm. This boy will match anything the Cross can offer.

So on March 3 it should not be too big a surprise if Coach Cuddy and the varsity should turn the tables and come home with a victory.

By Charlie Sakany

The past two weeks the Friars have been engaged in serious drill in preparation for their opening game on December 2 against Antigonish College.

Following this initial contest there will be 15 more games and then a very big one. On March 3 the Black and Gold will engage the Crusaders of Holy Cross in Worcester. This will be time to win. If the boys can win this game, and there is no reason why they can't, the college will have the greatest season in its history.

In past years the P. C. teams have suffered many defeats at the hands of the Crusaders. Some of the encounters were close, others were not even contests. This year the story should be different. The Crusaders will have a very good club. The boys on the squad for the most part are experienced in varsity competition, the spirit is excellent and they are most enthusiastic as a whole.

When they line up for the star of this game many factors will be to their favor. They will not feel as though they were going to battle an aggregation of gods, or even a team composed of superior beings. They will do the things they have been doing. The Crusaders are just five ordinary ball players who have been thrashed.

It should also be remembered that these same players were members of the championship team of two years ago. This team was desig- nated to regain their title.

Gunman 12—Sr. Science II 12

Backup of the highest individual team score thus far, the Crusaders had an outstanding year in the middle position. With every member of the team scoring for the Crusaders, the season was a success at will. There seems to be no doubt now that they are going to be the team to beat.

The Cross will, as in past seasons, have filed their entries for the firstofil.. Students are looking forward to this event with great interest.

FIOUR TEAMS ENTERED IN FIRST ECAC RUN

According to a report released by the Eastern Catholic Intercollegiate Athletic Conference, four teams have filed their entries for the first running of the Eastern Catholic championship. The meet will be held Saturday, November 10, at Alumni Park, South Park, New York City. It was an- nounced by the Rev. James A. Carey, director of athletics of the Board of Education in New York City, and chairman of the Board of Governors of the Eastern Catholic Conference.

The five teams entered to date are Saiden, St. Peter's, Brooklyn College, Seton Hall College, and Siena College.

The Providence College squad will include the newly formed varsity team as well as a fine crop of successful freshman squad. Siena College seems to be the team to beat with C. P. C. since the Indians are also entering for the first year in the sport of cross- sprints. The 1950-51 season marks the first year in which the Eastern Catholic Intercollegiate Athletic Conference will be functioning.

Remember, the first Friar home basketball game is December 6 at Mount Pleasant gym.
"Old Master" Talks Open To Public

How old is an Old Master? In a series of fall lectures at the Museum of Art, Rhode Island School of Design, Dr. Katharine Neilson, Acting Director of Art, plans to discuss the subject under the title "Old and Modern Masters: Four Traditions in Painting." Correlating her talks with a loan exhibition, Five Modern Masters, to be shown at the Museum for one month beginning October 25th, the lectures, scheduled for 1:30 p.m. on Thursdays instead of Tuesdays as was done last year, are open free to the public and will be held in the Museum's small lecture hall. Dates and titles of individual lectures are as follows:

The loan exhibition, on view from October 25 to November 26, will be stressed as well as related original works in the Museum's permanent collection.

Student-Aid Needs Safeguards, Ewing Says

Washington. D. C.—(F.P.)—Federal student-aid legislation ought to follow certain general lines, "although, of course, all final decisions will be up to Congress," declares Federal Security Administrator Oscar H. Ewing. It seems to me that such a program could make a gradual beginning, and grow only as fast as it could remain sound. For example, it might be advisable to limit the initial program to $100,000,000.

"Further, the program should have safeguards to prevent Federal control of education. Properly drafted legislation will make these safeguards as solid as granite. And these safeguards will be provided!" He believes that a well-rounded program would include scholarships for undergraduates, fellowships for graduate students, and loans to all students. Scholarships might carry a stipend of $600 a year, although fellowships ought to be somewhat larger.

"As for the loans, easy terms of repayment, at a low rate of interest, might begin four years after graduation. However such details are worked out by Congress, the Government's part in a loan program might be merely the guaranteeing of the lending agency against loss."
