Blood donations received will be used for the wounded in Korea.

The entire process of giving blood takes about 45 minutes, with a wait of about 10 minutes required for giving blood only five minutes.

In order to maintain enough regulations any person between 21 and 59 may donate blood once every two months, with total donations not to exceed five times a year. Persons 18 and 19, except those who are married or in military service, must have the consent of parents or guardians.

Congress President Praises Improved Committee Work

A marked improvement in the work of the Student Congress was praised by William McMahon, president of the Student Congress at the sixth meeting of that body, held last Thursday.

While noting the work of the com-
mittees, and in particular the action of the Ordnance Committee in clearing the bulletin boards, McMahon said that he would not serve again as chairman, should he participate in their work.

A motion by Junior Representative Marshall that a suggestion box be placed in the corridor of Harkins for the greater participation of the students in the work of the Congress was dismissed. It was finally decided that no more space was available such a facility would be installed.

Senior Representative Murphy asked for an investigation of the Wood-
scot Club with a view of suspending it due to lack of activity. The proposal was referred to the legislative com-
mittee.

Murphy also reported that the special loan and federation commit-
tees had made progress. A memorial, asking the legislature to establish a new committee to show the administration the possibilities of establishing student bodies.

The bill of participation for the regional clubs has been accepted by the club president, Murphy stated and is now being returned to the clubs for final approval.

Why a Parking Problem Is Cited

Not one of the major causes of the parking problem was improperly parked in the lot and taking up more space than necessary. A COWL reporter counted 18 such violations on Monday morning at 9:30, 9:45, the same reporter counted over 20 such violations. In addition, there were, on both mornings, an equal number of minor violations which contribute additional difficulties to getting in and out of the parking lot.

According to a reliable source, if the current Student Congress plan to re-
ceive congestion in the lot (the plan is explained on page one) does not meet with the cooperation of the student body, cars which are parked poorly—as, for example, will be tagged and subject to heavy fines.

Hoppin' Around With Happy

By Bob Fimnner

This week I am forced to deviate from my regular type of column in listing a letter which I received in the mail box during this past week. The letter reads as follows:

"Comrade Editor:

It is pretty good this COWL — I am liking red decorations at Christmas, but recently I am opposing agitator in favor of Happy Simonovich. I can see in making deductions this Happy, that Russian did not consent some of world's great

entertainments when everyone is knowing Russians envied everyone thing. Is asking this Happy to stopping please is making Uncle Joe feeling very disturbed.

Signed:

"Vorwarc Georgi Simonovich"

Is this a threat? Am I a marked man? Must I now be accompanied by a body guard wherever I go? Are the Communists after me?

If the answer to the last ques-
tions is affirmative, Mr. Simonovich, I must tell you that you have not struck fear in me. I am going to con-
tinue my crusade against Communism at all costs. I am prepared to take on you or others of your ilk to con-
tradict my principles, even Uncle Joe. I do not wish to impress people that I am gifted with the so-called 'poten-
pen', but I shall resort to such means if the occasion demands it. In closing I would like to bring your attention the phrase used in the new movement, "concentration." "They can get me, but they can't get a whole newspaper.

Three PC Students Represent College At Council Meeting

Failure to hold a quorum prevented action on the revised regional consti-
tution of the New England Region, NFCCS, at the council meeting held at St. Aimee's, Manchester, New Hampshire, last weekend.

Representing Providence College at the weekend meeting were Robert El-
kin, chairman of entertainment for the regional congress,ugh, and the other F. C. P. delegates led the fight against any new sections in the new constitution, championed by Robert Smith, chairman of the regional council by allowing commission chairman to be vice-president. Action on this measure was tabled until the night of the "Frisks," when it was discovered.

Evaluation of commissions by Cath-

erine Cahill, regional vice president, rated the Formative Commission, held at the Providence College, as poor. It was not noted, however, that activity of the commission had improved since the last council meeting.

A recommendation was passed at the council that the four regional commissions (Press, Radio and Forensic) be removed from their present status, and that an advisory council be set up to review the work done by them improved by the end of the year.

Preparations are being completed for the Annual All-College Boxing Bouts, which will be held on April 4, at 8 p.m. in Harkins Hall.

There will be from eight to twelve bouts ranging from the 110 to 220 lb. classes. Pete Larch, coach of boxing, and a member of the Rhode Island Boxing Commission, will referee the bouts. Trophies will be awarded the winners and medals will be awarded the losers.

A squad of approximately thirty men has been doing roadwork, near bag punching and calisthenics in preparation for this meet. Coach Larch said that he is well pleased with the condition of the fighters. He also stated that he hopes to have members of the U. S. Olympic Commission on hand, in order to judge and title the fights.

Complete pairings for the bouts will be announced in next week's Civiax.

The matches will be played for $20 a side. Tickets for the "smoker" may be purchased for fifty cents at the Athletic office or from any member of the University Club. It is urged that students save their tickets for the "smoker" as the price of the tickets will be double the price of the "smoker".

Critic Calls "Terror In The Sun" Product of Poor English Novelist

By Henry Griffin

English writer, Cecil Roberts's latest novel Terror in the Sun, which was published last winter, is, by actual count, his nineteenth effort in that genre, so far as I can say with the utmost refinement that it shows its age neither poorly. The plot and characterization are stereotyped, the sentiment mushy, and the dialogue seldom goes beyond the Agatha Christie level, yet to all this I must admit that it is at no instant irrelevant, through some inexplicable alchemy, the book does manage to raise to the state of mediocrity.

The story revolves about the problem of a certain Stephen May, who we are informed by the author, is a great painter. When we first meet him he is on the verge of committing suicide, as a result of the release of circumstances which should not happen even to a member of the Royal Academy, to which post, by the way, his British creator inevitably appoints him.
