Stepping Off Campus

These alumni dinners would be better if they served Molson.
Class of 1983

Ring Weekend

Bids will go on sale Tuesday, Wednesday and Thursday, October
9-11. There will be 10 p.m. and 10 a.m. p.m., and 10 a.m.
rspective. Price of bids will be $6.50 and will be sold on a
free first come, first serve basis in Slavin 317.

A free ring and a free bid will be raffled off. Raffle tickets are
available at the times bids are sold. Raffle tickets will be $1
each.

The Outdoor Grotto

The Grotto has significance to PC students as the
place where Candlelight Mesh is celebrated. Many
students want to see the Grotto used more often.

Therefore, during the month of October
Deviations honoring the Blessed Virgin Mary will be
held outdoors. Beginning Thursday, October 1 and
every morning, Monday through Friday, PC students
are cordially invited to spend a half hour (6:30-
7:00 p.m.) at the Rosary Grotto.

The Chaplain's staff invites you to come to recite
the Rosary and receive a blessing with the Blessed
Sacrament.

**Father Begley Man of Many Achievements**

By Joe Corradino

Rev. Aloysius B. Begley, O.P., was one of Providence College's best known and most honored priests. Father served the PC community for four decades in various capacities, including English professor, athletic director and Prior.

Father Begley was born in Peterborough, Ontario, in 1905. He graduated from PC in 1931 and returned to join the faculty in 1940 after having received his master's degree from Catholic University. He had been ordained two years earlier.

Father Begley is best remembered for his development of the athletic program at PC. In 1940, he was appointed director of athletics and continued in the post for the next 31 years. During that time, PC teams achieved national renown. Under his leadership in the 1960's, Alumni Hall was constructed as home for the Friars. In addition to fostering the development of national powerhouse in basketball and hockey, Father Begley added programs for cross country, tennis, golf, soccer, and indoor and outdoor track.

Many awards were bestowed upon Father Begley in recognition of his achievements. In 1969, he received the Frank Lanning award for outstanding service to sports programs in Rhode Island. The following year, he was honored by PC's Mal Club for his service to the College. In 1971, the General Assembly of the State of Rhode Island honored him by passing a resolution acclaiming his services to youth. In the same year, the National Alumni Association presented its Faculty Award to Father Begley for his faithful and distinguished service to PC. The Faculty Award has been permanently named in his honor.

Father Begley has been inducted into the Rhode Island Heritage Hall of Fame as well as the Providence Gridiron Club's Hall of Fame.

**Dorm Council Election Results In**

By Cathy Graziano

Voter turn out was good for last Thursday's Dorm Council elections. The Student Congress offered congratulations to all the new officers. They are: Aquinas—President, Joan Whalter; vice president, Mary Ratigan; treasurer, Carolyn Torrini; secretary, Nancy Donovan; social chairperson, Gerri Fair.

Dean—President, Kathy Bisegna; vice president, Alice Brochinsky; treasurer, Nancy Miller; social chairperson, Mia Buco.

Fennell—President, Mark Dempsey; vice president, Greg Hotz; treasurer, John Guarman; secretary, Brian Travers; social chairperson, Richard Gisnet; treasurer, Paul McGinn.

Georgetown—President, Brian Traynor; vice president, Roger Gistone; treasurer, Paul McGinn; secretary, Kevin O'Hara; social chairperson, Mike McGinn.

Joseph—President, Tom Bonelli; vice president, Pete O'Donnell; treasurer, Dave Sweitzer; social chairperson, George Balena.

McBennett—President, Jim Meehan; vice president, Fran Figueira; treasurer, Ken Kellaway; social chairperson, Paul Johnson.

McVey—President, Lisa Began; vice president, Sue Avila; treasurer, Cindy Prawley; secretary, Ellen Harrington; social chairperson, Laura Cullahan.

Meagher—President, Cathy John; vice president, Tracy Baldini; treasurer, Rosey Piro.

**Freshmen General Meeting**

By Maribeth Andre

Being a freshman by its unfortunate nature involves, among other horrors, being new. Consequently, we missed the annual election of class officers in January. Does this mean that the Class of '85 must endure yet another plight? As if the raising of the drinking age was not enough—how about acquiring a taste for Raymond Cafe food? Initiation into college life can, indeed, be trying. But the Student Congress, in its infinite wisdom, has devised a plan whereby the freshmen can elect representatives to aid them in their dilemma.

As the crowd of freshmen left Raymond Cafe—no doubt muttering complaints—a few ventured into '64 Hall to attend the first general class meeting, which was held Monday night at 7 o'clock. Cheryl Morrisey, who serves as vice president to the Student Congress, occupies the space of freshmen class president while it is vacant. The vacancy of this position and the unfilled ones beneath it, was the topic of the meeting.

Although the details for the election of the Class of '85 will be discussed this Friday, October 3, in the Student Congress office, a few brief information was given. The Congress was defined much like it is outlined in the Student Handbook (you know, that little blue book we all read).

**Grotto Mass Sunday**

Friar Council Knights of Columbus is sponsoring a Grotto Mass this coming Sunday, October 4, 1981, at 7 p.m. In the Dominican tradition, the first Sunday of October is observed as "Rosary Sunday." Consequently, the candlelight Mass will be followed immediately by a candlelight rosary procession around the Grotto during which the rosary will be recited. Principal celebrant of the Mass will be Rev. John A. McMahon, O.P. Chaplain of Friar Council Knights of Columbus; the homilist will be Rev. Dominic Rober, O.P., of Providence College.

Friar Council Knights of Columbus encourages all members of the PC community to participate in this candlelight Mass and Rosary procession. In case of inclement weather the location will be in the chapel. The chaplain's office has announced that the 7 p.m. Mass in Guzman and the 7 p.m. Mass in Aquinas have been cancelled for this Sunday because of the Grotto Rosary Mass.
Four Class Freeloaders?

By Karen MacGillivray
Faculty Senate Correspondent

The Faculty Senate of Providence College is involved with all the academic issues of the school. The senate sets academic policy through legislation, which must be approved by the president of the College, Rev. Thomas R. Peterson, O.P., before it is put into effect. There are 25 members of the senate from whom three officers are selected. The president of the senate is Dr. Francis P. McKay, from the chemistry department. The vice president is Dr. Marie DiMagno, from the history department. Dr. Stephen Mecca from the physics department is the secretary.

Fifteen of the members of the senate are elected as representatives from each department. The other 10 members are elected by the faculty at large. These senate members are assigned to 10 different committees during each academic year. These committees are: academic affairs, admissions, appeals, college budget, constitution and by-laws, departmental affairs, elections, faculty status, faculty welfare and library.

The new Faculty Senate meeting this year held in Aquinas Lounge on Sept. 21, 1983, Dr. McKay noted that the major portion of the legislation that had been discussed in the spring of 1983, had been approved by Father Peterson. This legislation concerned the academic affairs committee of the Faculty Senate, and the senate had no free requirements of the College.

The report is concerned with the participation of the percentage of incoming freshmen who are choosing to major in natural sciences majors that allow few free electives. It was decided that liberal arts requirements for graduation, through the addition of one more elective requirement in each of the final four semesters, would provide more flexibility in the students’ academic program, leading to a more varied undergraduate background. This five-course curriculum for juniors and seniors was approved by Father Peterson.

The report brought to Father Peterson also included suggested revision in other programs, including natural sciences, religious studies, social sciences, DWC, fine arts, mathematics, and the development of a General Degree Requirement Course Designation System was also proposed.

Father Peterson approved a continuation of a six hour credit requirement in natural sciences, religious studies, and the social sciences. The continuation of the current requirement in DWC will remain pending a thorough evaluation of the program by a special committee. He also approved the establishment of a three credit requirement in the fine arts and mathematics. In addition, plans were made for the reorganization of the physics department to include a combined plan securing energy program, an energy management concentration, a systems science instrument development concentration. Action concerning the philosophy requirements was deferred by Father Peterson, as he felt that the departmental outlines were not clear.

These revisions and suggestions agreed upon by the Faculty Senate and Father Peterson will affect incoming freshmen in the fall of 1982. Students currently enrolled at PC will be unaffected by these curriculum changes.

Elections were also held at the Wednesday meeting to select two members to the rank and tenure committee. Members of this committee must be tenured and hold a doctorate or its equivalent. Dr. Dee Portin, professor of English, and Dr. Richard Grace, an associate professor in history, were elected.

A report was also given by Dr. David E. O’Connor, chairman of the Faculty Senate, concerning faculty pay checks, new telephones for the teachers, faculty fees for the new fieldhouse, and the limit on money earned by relatives of faculty who are employed in work-study programs. Dr. Mecca reported from the Committee on Administration concerning the need for renal courses in basic skills. The issue was referred to the academic affairs committee. He also reported that a Faculty Lounge would be installed over the Christmas break in Harkins 300.

The disorder its literal translation is "insatiable appetite," but it is often a problem that engulfs a woman in episodic, manic eating binges. These binges, says Dr. Craig Johnstone, director of the Anorexia Nervosa Project, which conducted the study from Chicago, often trigger a suicide attempt. The woman will likely take a laxative or even make herself throw up to purge what she has consumed.

A siege of remorse-crash dieting would then begin, Johnstone says. The individual will then go on another eating spree.

By Beth Salessey

Although the Providence College academic calendar has been in session for about four weeks, one can still walk around the campus and discover new improvements which have been made during the summer. You will find that the campus building that underwent the most changes this year is the library.

Like most libraries in the country, the library underwent a complete renovation. The renovation included the creation of a new entrance and the acquisition of a computer system that will allow the library staff to keep track of library materials.

The library staff is currently working on the installation of a new computer system that will allow the library to keep track of its holdings. The new system will also allow the library to keep track of its patrons and the books they have checked out.

**Budget Cuts**

'Enough is Enough!'

Senator Claiborne Pell (D-R.I.) recently gave a statement today, drew the line on 'excessive' budget cuts. Declaring that the 'enough is enough.' Pell announced he would oppose additional deep cuts in essential federal government programs.

"In February, after the Administration presented its budget program to the Congress," Pell said, "I suggested several ways in which the program could and should be improved. I suggested that the reductions in defense programs were too deep, the increases in non-defense spending were too large, and the proposed tax cut was too large, potentially inflationary and would lead to continued budget deficits."

"Because of these concerns I voted against the Budget Resolution and the Reconciliation Act which slashed spending and projected huge military spending increases. I voted with reluctance for the tax reduction bill and in 1981. Of that time, I voted for the provision of a balanced budget, and given our reduction, but assured a proposal," Pell added, "that excessive tax cut was too large, potentially inflationary and would lead to continued budget deficits."

"The excesses in the Administration program are the cause of the program's current problems. The Administration apparently now recognizes this as true in the case of military spending. But to offset the excessive tax cut, the Administration intends to seek even deeper and more excessive budget reductions. If the Administration continues down that path, the result, as I have noted, will be the destruction of government programs that are essential to the economy and the well-being of the American people."

"In my view," Pell said, "the Administration's program, if pursued to its ultimate end would lead to the abdication by our government of its basic responsibilities to the American people."

"With greater moderation, as I proposed in February, I believe the Administration's program could succeed. Moderate budget cuts combined with moderate tax cuts and a moderate increase in defense spending would preserve the basic responsibilities and commitments of government, encourage solid economic growth, reduce inflation and move steadily toward a balanced budget."

"The BOG meeting some additions and deletions were made in the BOG social calendar. After a vote by the Board, it was decided that the concert committee canceled the mini concert featuring Fountainshead scheduled for October 22. Another band will be booked in their place."

"The travel committee announced plans to sponsor a weekend trip in November to Montreal. Also coming up is the Dillon Club's Spaghetti Dinner to be held in Alumni Cafe. A new ticket collection policy for the Last Resort was announced by Vice-President Kat Godfrey. From now on, tickets will be sold in half at the door to avoid the problem of tickets being resold."

"Moving off campus."
The Raised Drinking Age:
PC Social Life Dull

This is the first of a series of editorials centering around PC's new drinking policies.

by Marybeth Holland, Editor in Chief

Providing College: has not been a problem. A drinking problem. This problem has particularly devastated the social milieu of the College. As with a drinking problem, few solutions seem to be a disease, spreading throughout the body, (and, if you will) decaying the very soul of PC's campus social climate.

Diagnosing the problem: Not enough activity alternatives centered around a non-alcoholic environment for underclassmen as well as upperclassmen.

Let's examine the last few weekends' social events. The first weekend we were back to school—Labor Day—there was not one social activity planned, alcoholic or non-alcoholic. This is the first weekend that underclassmen had a chance to be at their "new" school. They didn't have a chance to interact with other students, their first "chance" to experience PC community.

"The next weekend, the BOG sponsored the first Full Union Mixer with the new drinking policy (the mealcards and the six beer limit, etc.) This did enable the freshmen to attend to enjoy social exchange. On Saturday evening there is a Last Resort Social which excludes anyone under 20 from attending with limited attendance.

"Another Saturday night with nothing to do, "I think I'll go home for the weekend."

"The weekend of the 18th and 19th was also an action packed weekend. The Friday night Red Sox-Yankee game featured underclassmen something to do; the limited tickets, only to sale out in one hour. Saturday night—Last Resort Social, that again, only the first weekend that freshmen students who are older than 20.

"I think I'll go home this weekend."

Now don't misunderstand, I don't mean that I'm against the administration from Student Silent Majority Please Speak Up

By Karen Ryder
Cowl Editorial Editor

You can see it in the upper lefthand corner of The Cowl's front page. The headline reads, "The Student's Voice," the essence of its meaning is that The Cowl is a spokesman by and for the students of Providence College.

Yet so many students are unaware that their input to The Cowl is welcomed. Any news, features, or sports article may be submitted to The Cowl. All the availability of space and very limited discretion of the individual sections. The Cowl has also attempted to increase student input through "The Inquiring Photographer" and the "In My Opinion" column. In the next section, students have the opportunity to express their feelings about any current issues.

And, of course, there are "Letters to the Editor." This section has been a long standing tradition in journalism.

The Cowl's mission is to provide a sounding board for the people. The editors may or may not agree with opinions expressed by the Editorial Board, yet all are welcome.

Around campus, one hears opinions expressed all the time. Whether someone is raving about the new fieldhouse or complaining about my administration, everyone seems to have something to say. So why not tell people other than your friends how you feel? By publishing in The Cowl receives anywhere from 5-6 times the number of everyone happens to take breaks from studying, or just to relax after a game of frisbee or a jog on a racquetball game.

By Ed Gregson

Proposed Cure:
1) Friday and Saturday night movies — perhaps run in '64 Hall or the Resort on Friday nights at a low cost.
2) More trips to sporting events i.e. Bruins, away basketball and hockey games, etc.
3) Weekend coffeehouses.
4) Have a 'food bar-like place open during the day on Saturday and Sunday with ice cream, soda, burgers, etc. This would provide an alternative for off-campus students alike to take breaks from studying, or just to relax after a game of frisbee or a jog on a racquetball game.

President Reagan's Plan
Harsh—But Just

"I have yet to meet anyone who likes the bitter taste of medicine, but neither have I met anyone who prefers to be sick."

Presidential Reagan's proposals which will be spread out over three years: 1) a 12 percent reduction in appropriations to government agencies and programs, including a $1 billion dollar cut in the defense budget, 2) a 6 percent cut in the non-defense government payroll, 3) the elimination of Departments of Energy and Education, 4) a reduction in Federal loan guarantees of 21 billion dollars, 5) Welfare reform measures, outside of social security, will save 72 billion dollars, 6) proposals to "eliminate abuses and obsolete incentives to the tax code, and 7) the implementation of "user fees" for federally provided services.

The President's plan will affect every segment of society and be appealed to all Americans to sacrifice.

Many Americans are saying that we have already been asked to sacrifice too much. This reaction is to be expected for the President's plan is harsh, very harsh.

There is, however, no alternative. Our economy is diseased, and has been for the last 46 years. It has only been within the last 20 years that the disease has affected us. Inflation, unemployment, huge deficits, recession upon recession are the most obvious, but not the only symptoms of this disease. President Reagan is addressing the source of the disease — excessive government involvement in the economy, and is administering the proper medicine.

I have yet to meet anyone who likes the bitter taste of medicine, but neither have I met anyone who prefers to be sick.
Budget Cuts: What is Your Reaction?

By Steve Slos

For the purpose of extracting PC reagents, Reagan's Thursday night speech appears in summary. The Reagan recovery plan consists of the following: 11 tax cuts; spending cuts; 3 regulatory relief; 2 steady consistent monetary policy. The United States has had only one balanced budget in the last 20 years. Over that time the trillion dollars has ensued. "If we as a nation need a warning—that'll be it," the President declared in his talk to the nation. Reagan appeared firm, confident, and spoke directly. He has proved to be a master in conveying his thoughts to the public and the public has responded overwhelmingly. So overwhelmingly, in fact, that Reagan was able to execute the largest tax cut in the history of this nation.

"Your voices were heard in Washington," he said and also warned of the "chorus of other voices" who declare his tax cut program isn't working. Reagan agreed briefly, "It hasn't. It doesn't start until a week from today."

Since the fiscal year has begun and the Reagan cuts are in, Reagan is confident that, "We're just starting down a road that will lead us out of an economic swamp." And, there will be further reductions—"Let me be clear, this cannot be the last round of cuts."

To curb high interest rates the government must quench its insatiable borrowing of money to pay for its astronomical deficits. As Joe Lewis said before his fight against Billy Conn, "Well, he can run, but he can't hide." Government can't hide from its foe. Reagan "will not stand idly by." Washington is braced against any interest rates than on education and medicine. To trim government the President and his Cabinet do not look upon their task as easy. But, they did ask themselves two questions. "If not now, when?"

Reagan wants to reduce government programs by 12 percent to save 17 billion dollars. Defense is to be axed by 13 percent. Non-defense must shrink by 6 percent. As an example of this Reagan is reducing the White House staff. The President is dismantling the departments of energy and education. He considers the Federal Loan Guarantee, "a form of back door uncontrollable borrowing" which "drives up interest rates." Other

In My Opinion...

Redirection of Civil Rights Movement Necessary

James Fay, '84 is concerned with growth of the Civil Rights Movement.

The movement needs new direction. It has needed new direction since the death of Dr. Martin Luther King, Jr. The marches and the rallies of the 1960s were effective in accomplishing civil rights objectives in the social and political atmosphere of the time. We are entering the 1980s and there has been little evaluation within the movement. The direction of the political and social environment has advanced 13 years while the civil rights movement has stagnated in the late 1960s.

The movement should broaden its base to include the pool of all colors. White support should be actively sought. The media will always ask themselves two questions. "If not now, when?"

The movement should redefine its priorities along these lines and become more cohesive and unified in the planning of programs designed to achieve these goals. Blacks should make a positive effort to elect black senators and governors. There are some 300 black mayors in America which is good, but what is needed are highly visible national leaders. A black Edward Kennedy or Jack Kemp as an elected national Washington appoints more on a national response to the needs of the Civil Rights Movement should be the focus of American leadership. Simply Senator Jesse Jackson would make a great deal more of a spark. He is outspoken, he speaks for the people and his presence would mean more than Jesse Jackson, head of operation PUSH. Black organizations such as the N.C.B.S.P. and the N.A.A.C.P. should remain active but should not be the top echelon figures in the movement. The leadership of black America should be in the statehouses and in the Senate.
Another Dissatisfaction with Policy

Student name withheld upon request.

This past weekend, I was attempting to buy two tickets for my roommate to the Last Resort social Saturday night. The reason I was buying the tickets was that my roommate had a bad cold at the time the tickets were being sold. Well, I tried to buy them in line for about a half hour, then the two IDs I had were checked and okayed. Then as I progressed towards the window, the ID's were checked again. My roommate then also told me they were not acceptable because I didn't have my ID.

"I realize PC has to follow R.I. State laws, but it's my opinion that we're getting carried away."

My roommates were finally able to buy their own tickets (what a waste of my time). Then I heard that the BOG was asking for two forms of identification to get into the Last Resort, this after being checked twice before buying the ticket.

Another form of extinction of mating age was seen at the mixer last week — the little meal cards that were handed out to those lucky people who were 20 or older. Those were used to limit how much each person could buy. Did it ever occur to whoever had this brilliant idea, that if people were too drunk, they could drink before or after the mixer to get around their allotted amount during it? This procedure makes you feel like a freshman again, and you may decide to stay away from the social functions on campus.

Can't we Rhode Island take a single alteration to the law, where the legal age is 18 for two percent alcohol and 20 for everything else? Oh, well, we as a whole, we all have to put up with these difficulties, but we must go on, remember to bring your driver's license, birth certificate, social security number, library card, high school ID, passport, any credit cards you have, checkbook, bankbook, and most importantly, your PC ID! If you're not 20, take advantage of these weekend nights to stay in and study.

On Being a Jewish American

By Richard Meisler

Like many Americans I have questioned my parents about our family's history. Where did we come from? Where did we grow up here? Under what circumstances? Which of our ancestors came first? Where did they go? How did they manage? Were they seeking something or escaping something? I have also tried to construct a family tree. I use my parents and older relatives as sources, and I gather and record as much information as I can about my ancestors. Since my family is Jewish, many branches of the family tree end abruptly in the 1500s. I ask my father or mother about an aunt or uncle or cousin. They say "Exterminated" or "Killed in a concentration camp" or "Murdered by the Nazis." These conversations can strike terror in my heart. My American parents, my children and I differ from those dear relatives only by the historical accident that some of us survived and others did not. We can make a profit while the American history textbooks only mention the part of the story in the camp. The others were slaughtered. Occasionally, a survivor possesses the unspeakable suffering of these survivors, toward greater catastrophes.

The survivors in Jerusalem are getting older and are thinking about their own deaths. It will not be long before the Nazi death camps are recorded only in history, not in the living memories of men and women. They conclude their meeting in Jerusalem with a ceremony. Symbolically they pass their experience on to the next generation, to their middle-aged children, to my generation of Jews. In six languages the survivors are saying:

"We take this oath! We take it for our children and for our grandchildren, all of whom are president of the United Feature Syndicate, Inc.

By Jack Anderson and Joe Spear

WEEKLY SPECIAL

The House Intelligence Committee has spent the last few days looking into the activities of two notorious former CIA agents: Frank Terpel and Edwin Wilson. It's about time.

We've been reporting for a number of years that agents of the CIA and other secret agencies were involved in plots to assassinate, kidnap and murder officials and political figures around the world. The evidence is clear and overwhelming.

One thing the House Intelligence Committee has failed to do is look out for Rhode Island state laws, but it's my opinion that they're getting carried away.

It's my opinion that the BOG was asking for two forms of identification to get into the Last Resort, this after being checked twice before buying the ticket.

I realize PC has to follow R.I. State laws, but it's my opinion that we're getting carried away.

My roommates were finally able to buy their own tickets (what a waste of my time). Then I heard that the BOG was asking for two forms of identification to get into the Last Resort, this after being checked twice before buying the ticket.

Another form of extinction of mating age was seen at the mixer last week — the little meal cards that were handed out to those lucky people who were 20 or older. Those were used to limit how much each person could buy. Did it ever occur to whoever had this brilliant idea, that if people were too drunk, they could drink before or after the mixer to get around their allotted amount during it? This procedure makes you feel like a freshman again, and you may decide to stay away from the social functions on campus.

Can't we Rhode Island take a single alteration to the law, where the legal age is 18 for two percent alcohol and 20 for everything else? Oh, well, we as a whole, we all have to put up with these difficulties, but we must go on, remember to bring your driver's license, birth certificate, social security number, library card, high school ID, passport, any credit cards you have, checkbook, bankbook, and most importantly, your PC ID! If you're not 20, take advantage of these weekend nights to stay in and study.

By Jack Anderson

WASHINGTON

The House Intelligence Committee has spent the last few days looking into the activities of two notorious former CIA agents: Frank Terpel and Edwin Wilson. It's about time.

We've been reporting for a number of years that agents of the CIA and other secret agencies were involved in plots to assassinate, kidnap and murder officials and political figures around the world. The evidence is clear and overwhelming.

One thing the House Intelligence Committee has failed to do is look out for Rhode Island state laws, but it's my opinion that they're getting carried away.

It's my opinion that the BOG was asking for two forms of identification to get into the Last Resort, this after being checked twice before buying the ticket.

I realize PC has to follow R.I. State laws, but it's my opinion that we're getting carried away.

My roommates were finally able to buy their own tickets (what a waste of my time). Then I heard that the BOG was asking for two forms of identification to get into the Last Resort, this after being checked twice before buying the ticket.

Another form of extinction of mating age was seen at the mixer last week — the little meal cards that were handed out to those lucky people who were 20 or older. Those were used to limit how much each person could buy. Did it ever occur to whoever had this brilliant idea, that if people were too drunk, they could drink before or after the mixer to get around their allotted amount during it? This procedure makes you feel like a freshman again, and you may decide to stay away from the social functions on campus.

Can't we Rhode Island take a single alteration to the law, where the legal age is 18 for two percent alcohol and 20 for everything else? Oh, well, we as a whole, we all have to put up with these difficulties, but we must go on, remember to bring your driver's license, birth certificate, social security number, library card, high school ID, passport, any credit cards you have, checkbook, bankbook, and most importantly, your PC ID! If you're not 20, take advantage of these weekend nights to stay in and study.
Frosh Parents
*Make the PC Scene*

By Beth Kellacher

Freshman Parents' Day. The day on which we show our parents the PC campus, that we have finally learned our way around. This year the parents arrived and checked in at 9 a.m. and left after a buffet dinner in Slavin around 7 p.m. Throughout the day the parents tried to learn more about their son or daughter's lives here at PC.

As one passed through the swarms of parents in Slavin it was possible to hear remarks such as "I can't believe you give them a buffet like this every night!" That parent was quickly corrected and told about the food in Raymond Café.

After four weeks in college, Freshman Parent's Weekend offered an opportunity for freshmen to reflect on their new lives at Providence College. The most widely heard complaint centered around the drinking policy. Many freshmen feel that the drinking age is so strictly enforced that it cuts them off from the juniors and seniors who are "legal." The lack of social events specifically designed for those who cannot drink was also an often heard gripe.

However, there were many more positive comments than negative. Both the parents and students were very impressed with the new fieldhouse. One father was heard to remark, "It's extraordinary for a school of this size."

Most freshmen seem to be enjoying their new life at PC. They are beginning to meet people and get adjusted to Civ. Although many complain about the lack of things to do, almost all have compliments for the BOG Coffeeshops in the Last Resort.

Throughout the day, the parents attended seminars scheduled by Father Stuart McFhail with the help of Kevin West '83, Kathy McGinley '82, Dave Boudreau '83, and Jim O'Casey '82. These seminars helped explain the many opportunities available to students here at PC. One of these seminars focused on student government. The Class of '85 will be electing its officers on Tuesday, Oct. 8. Another new service in running for elected office is asked to get more information from any member of Student Congress.

There are many activities offered for those who do not seek an elected office. The Board of Governors chairs committees all of which need the support and input of the entire student body. The Student Congress also has committees open for the participation of every student. Throughout the year the Athletic Board runs many intramural programs. Watch for signs as to when and how to sign up. The best way to improve your game is to practice every chance you get at PC is to get involved.

There are many things to choose from and your help is greatly needed.

---

Jobs: An Easier Way

Concerned about finding a job after graduation? Now there's a new campus service that can put your resume in the hands of over 10,000 employers both here and abroad.

Career Placement Registry, CPR, is the new service's name and it is being introduced this semester on over 1,500 college and university campuses across the country.

Career Placement Registry gives students the opportunity to record their personal and academic credentials in an international direct-access database. Potential employers are able to research the on-line system for any or all of the following: prospective employee criteria: college, degree, major, minor, grades, occupational and geographical preference, citizenship status, test experience, language proficiency and special skills.

The data students enter into the CPR system in searchable via the Dialog Information Service. Over 10,000 companies in 44 countries currently use Dialog for information retrieval. CPR enables these employers to match the best qualified candidate to any job opening. Liberal Arts graduates, for example, may easily be screened by personnel directors for trainee programs through the use of the system.

For a fee of $8, students may enter the CPR data base for a six month period. All data entered into the computer will be returned to the student for verification.

Later this year, CPR will be expanded to include college alumni and executives who are or have been in the work force. This will allow individuals to enter their college credentials, work experience and desires for employment. It will further enable present students to continue and update their CPR entry after graduation for as long as they desire.

Initial response to CPR from students, college placement officers and employment recruiters around the country has been extremely favorable. "At last," said one, "the career field has found the technology to handle professionally the exchange of information." Declared a student, "The fee is less than the postage I'd spend sending out resumes!"

The Devil Made Me Do It

By Sue Robertson

There are devils. They are present, and have always been so. We are not speaking of devils in the sense that your brother or sister is a "little devil," but in the true theological sense of the word. The Catholic faith has an example of perfection in God, and conversely, there is that which represents the imperfect: the devil. Monday evening, Fr. Mahoney, chairman of the religious studies department addressed his audience at the Last Resort on the subject of devils and demons.

Fr. Mahoney's most basic statement was, "There are devils." The audience was aware of the fact that throughout our lives, temptation will always be present. One reflection made by the speaker was that ease does not come with age. Lucifer, Zealouston, and other fallen angels realize it is impossible to cause direct harm to God. Their objective: to get at God through his creatures. While that just happens to be so.

How do we know when one is possessed by the devil? Maybe we are simply dealing with a person who has a psychological sickness. Fr. Mahoney explained some of the basic steps in the procedure for exorcism.

If one suspects that a person is possessed, at first one might call a priest. Not all priests have the power to exorcise, and therefore a few arrangements must be made. Since there is the possibility that the person might have a psychological disorder, the priest first would suggest the person see professional help. If a doctor can find no explanation for the patient's behavior, the case goes back to the priest. The priest would then execute his powers of exorcism in an attempt to free the person from the devil.

This process consists mainly of prayers. Even if there is a question of doubt, prayers can do no harm to the situation. Fr. Mahoney did not go into exact detail, but his brief explanation was very informative.

What are some signs of possession? Well, there are many, but Fr. Mahoney gave three basic examples. If a person acquires an understanding of an unknown, difficult language, there may be some questions. A member of the audience raised a question concerning charismatics, the gift of tongues, and how one can distinguish between that and possession. Fr. Mahoney explained the differences as being in the manner, tone, and message. Charismatics would experience love, while the voice of the devil would be evil.

Another sign is knowledge of hidden facts. These are facts that would seem impossible for that person to know on his own. The third example given by Fr. Mahoney was the possession of unusual physical powers.

We all see these exhibitions of power by the devil. This hot shot is only trying to impress us. He knows he cannot rank with God, so he tries to win votes by means of the spectacular. God’s presence is omnipresent, but less flashy. The devil may be able to touch the body of God's creatures, but he can never reach the soul.
Steve Stacks For Reynolds

By Judy McNamara
This past summer, Steve Ferrara of the Class of 1982, became involved in a very beneficial internship with R.J. Reynolds Tobacco Company in Providence. Through the help of Mr. John McElroy of the PC Counseling Center, Steve was able to set up an interview with the assistant district manager of R.J.R. Mr. Peter Writer. After going through the interview process, Steve was awarded the position of sales merchandiser for the first half of the summer. Originally, Steve was awarded a 20-hour position which was changed to 40 hours after the company observed Steve’s diligent performance in his first week. His job consisted of traveling to four different territories in Northern Rhode Island, Fall River, Seekonk, and the Attelesce. Steve visited various supermarkets, drugstores, independent retailers, liquor stores, etc. in main duty was making sure that the actual products were properly stocked. He was also involved with special promotions for the public as well as advertising the product and resolving any conflicts with merchants about the product.

The second half of the summer Steve received some actual sales experience. Steve feels this is an extreme asset in his quest for future jobs. Steve worked with the Reynolds’ vending program receiving “hands-on” selling experience. His job basically involved increasing independent retailers volume of R.J.R. products. Steve made sales presentations to vending machine owners, endorsing the company’s products and better informing retailers about the benefits R.J.R. provides.

The overall experience proved invaluable to Steve because it allowed him the opportunity to test his selling ability, something rather dormant in his current pursuits unless they have practice and time to develop personal techniques. Reynolds gave Steve the chance to earn more than most first year interns. He also learned a skill which only through practice and experience could be acquired.

Steve notes another valuable aspect of the experience, “I broadened my horizon within the business world. I have learned interviewing techniques that have incredibly made me more competitive in the business world comfortable.”

Steve even called the resident of R.J.R. Industries in North Carolina one summer’s night. He wanted to reward Steve for his name to him and hopefully increase his business company. He discussed various career opportunities as well as learning more about the company.

All in all, Steve feels that his knowledge of the business and the functioning of the business world has been immensely increased. He is looking forward to making the best of his summer.

Add experience to your degree
You’ve changed a lot of opinions since you entered college. You know a degree may be the door to a future career. But, you know a degree is no guarantee.

Today’s job market demands more than a degree. Corporations look for “take charge” attitudes in their new executives. So get a head start on that. They’re competing with you for the best and brightest.

A MYC ROTC provides a head start in leadership and management experiences With Army ROTC, you don’t just read about it. You do it.

It’s not too late to take charge. You can acquire leadership skills in two years.
To add experience to your degree contact

The RAI Committee

By Marty Mulroy
Who really runs the Rat?
The Rat was the convenient place to go while living on campus, especially cold winter nights after a session at the library, but now for many of us former patrons of the Rat, Louise, Brad’s, or Geistes is more convenient (closer) to us.

The Rat has nothing more to offer than an outdated menu and a few other local PC hangouts. They do, however, provide a good place to sit down and veg out for a vacation but a whole year both overseas. Some of the parents students' parents were both comfortable and fun.

The area of the Rat itself, excluding the backbar or game room, is leased by the College to a corporation called Club 21 Inc. The original of Club 21 Inc., in an interesting scenario, was a backbar in Rhode Island was 21. At that time, the state refused to grant a license to a college per se, but through the institution of Club 21, the Rat came into being. It was originally a club for private club for only card carrying students who paid a nominal fee to become members. As the school grew, and the legal age lowered, the policy was changed and the Rat was opened to all PC students of age.

Currently, the Board of Directors of Club 21 Inc., consists of Father Duffy as chairman, Father McKenzie and Alumni, Mr. Lynch, and Mr. Hanley. They, in turn, hired Angelo as a salaried employee of Club 21.

Club 21 is not a profit-oriented venture. The entire income is returned to the student body of the university. This makes of the club a non-profit corporation which benefits the students of the university. The profits are used for improvements on the campus or for the entertainment of the students. The students Sunday night, there were mixed emotions. The students' parents were both enthusiastic and saddened to send their sons and daughters overseas. Some of the parents who had been to Europe said that they would be glad they could offer their children the chance to experience another culture because they themselves had benefitted immensely from it.

For those students who will be leaving at the start of next semester, the excitement and fear has yet to set in, but as the time for departures draws near so do the nerves. They are, however, ready to take part in a new adventure that will broaden their horizons and make some dreams come true.

BON VOYAGE, STUDY HARD
By Mary Little
All of us have heard at least once from a Civ professor that “When we go to Europe...” we have to see this or we have to do that. Most of us know that we’ll probably never go to those places we’ve studied about or if we do we might be too old to appreciate them.

However, there are those who are making their own and every Civ Team’s dreams come true; they are going abroad not just for a vacation but a whole year, both for and against spending a whole year abroad and telling everyone being offered the opportunity of a lifetime, however, on the other hand, they have very comprehensive feelings about leaving home and friends for an entire year. The students’ parents were both enthusiastic and saddened to send their sons and daughters overseas. Some of the parents who had been to Europe said that they would be glad they could offer their children the chance to experience another culture because they themselves had benefitted immensely from it.

For those students who will be leaving at the start of next semester, the excitement and fear has yet to set in, but as the time for departures draws near so do the nerves. They are, however, ready to take part in a new adventure that will broaden their horizons and make some dreams come true.

Concerning last Saturday’s reception held for parents and students Sunday night, there were mixed emotions. Libra
Sept. 23 through Oct. 22
Using your sense of fair play, you will speak up against an injustice that might have gone unnoticed. This act of kindness may find you on the thick of a collegiate prank or a dorm of the opposite sex. Be as pleasant as you seem.

Scorpio
Oct. 23 through Nov. 21
Look out Scorpio, this week proves to be a trying one! Your sense of insight will come in handy when dealing with people at work. Be careful, though, a friend might try to put something over on you when least expected.

Sagittarius
Nov. 22 through Dec. 21
Your insatiable capacity for knowledge and experience will be some familiar faces. Good week to hit the night club.

Capricorn
Dec. 22 through Jan. 19
You are a true pillar of patience this week in regards to an annoying classmate. Watch out for those Raymond Café desserts or you may be rolling home come Thanksgiving!

Aquarius
Jan. 20 through Feb. 17
Come down from the clouds, Aquarius! You appear to be preoccupied with small details. Take the time to make a friend and feel better about yourself. Your silver tongue will prove an asset in class.

Pisces
Feb. 18 through March 20
The pressure is finally off this week, Capricorn! After a trying few weeks, take the time to go about a few at the fieldhouse. Someone will present a new idea for the weekend. Keep your mind open to all avenues!

Tom Chapin charms audience.

Tom Chapin
Seeks A Career Of His Own

By Jean Ludwig
This 6'5" man, full of smiles, gave his heart to Providence College through his singing on Thursday night, September 24 between shows. I got a chance to talk with him as he munched on a burrito from Mural and sipped on a glass of Angelos beer.

He's hard in a family of 12 and he's 25 years old. To all of you interested young ladies he is also married and living in Brooklyn Heights, New York, with his wife and four children, Abigail Rose, Lily Elizabeth, Jessica and Jonathan.

He seems to be a very fun-loving guy who enjoys sports because occasionally during the interview he caught a bit of the soccer game and made some interesting comments. He also said that he really enjoys playing at colleges or just "where the people are responsive" because it is a "more human existence" than the concert scene. Although he would rather play colleges, he is doing some opening acts soon. For example, he’ll be opening for Air Supply and Cliff Richards this year.

Tom is really interested in building up his own career. He would like to "grow in both writing and performing." He says that he has not been overwhelmed by Harry's death. Tom has taken on a "work harder attitude" in order to accomplish more. He is determined to build his career for himself, he is not merely following in his brother's footsteps, although he says that he has been "inspired" by Harry's death.

The Chapin family has brought much musical happiness into the world and Harry's abilities will be sorely missed. Tom's extreme love for his brother was brought out in his performance with his band and with his tears as he sang the song from Harry's memorial service, he began to cry. Tom also sang Cat's in the Cradle at the 10 p.m. show and I, for one, thank Tom for the wonderful memories.

Tom's driving force, to him, is "outward and upward." He is extremely involved in the World Hunger Crisis. He is the second highest money raiser for that cause, the first being his brother. Harry Tom wants to "find my own relationship to the cause. I can't just step into Harry's shoes."

Although Tom had a television show up until 1976, called "Make a Wish," he says that he doesn't miss TV and he'd much rather make public appearances.

Tom used to be a teacher at a street school and dreamed of being a professional basketball player but he chose music as his life's work. He definitely made the right decision. He got us to clap our hands, stomp our feet, sing along and even shake our keys. For those of you that missed Tom Chapin, you missed an experience of a lifetime. I thank Tom Chapin for transmitting his love of music and family on to Providence College and also just for leaving some of himself behind.

AT THE OCEAN STATE PERFORMING ARTS CENTER
Field Hockey Falls to UConn.  
Record at 1-2-1

By Peter DiBiasi

On Thursday, September 24, the University of Connecticut brought their field hockey team to Providence. Coming into this game Connecticut was ranked second in the nation, a ranking they almost lost.

The game was scoreless after the first half. Both teams were playing well, but Providence College appeared to be dominating. Connecticut got on the board during the first overtime, but their lead did not last long. Twenty minutes left in the game Donna Salvo scored on a penalty corner, as she was assisted by Paula Mantsho. The contest was tied at 1-1 in the end of the overtime.

Neither team was able to take advantage during the first overtime.

Then came sudden death overtime, but the Lady Friars defense was able to stymie Connecticut. After the two overtime periods, Connecticut was eliminated. Stark, for example, may say or think "What about the enslavement and slaughter of our forefathers?" When blacks talk about slavery, white groups may grow restless as they think about the chapters of oppression in their histories.

But it is stupid, an absolute dead end, to allow such correspondences to predominate. There is no point in discussing the question of which group's suffering was worse. They were all bad enough. If, after generations pass, these discussions continue to divide us, we increase the chances that new disasters will occur. Unity and the unwillingness to be divided are our best protection against future victimization.

Blacks and others have slavery in their histories, and have endured attempted genocide. Our problems are not unique, and our events will be conditioned by the details of our past, so we must expect to have different reactions. But we must struggle, at all costs, to ensure that these differences bring us closer and create bonds. If gdb open or widen between groups with tragedies in their past, each of them loss stronger bonds than the tendency to prevent new atrocities.

Our past must be about anti-semitism and other poisons of the mind.

★ THIN

(Continued from Page 4)

The affliction has much in common with the end of a run time, widely publicized anorexia nervosa. Yet bulimia is more difficult to detect. Johnston says, "because most women afflicted maintain their normal weight, it's harder to see the drastic weight loss anorexia produces. There's no obvious emaciation in this case."

"Once a young woman gets involved in this vicious cycle, she definitely needs psychiatric help," Johnston stresses, noting bulimia can have devastating effects on vital body chemical and the urinary and intestinal tracts.

The doctor blames the increasing frequency of both bulimia and anorexia nervosa on "the cultural pressure to be thin in America. It seems to be a basic ingredient in our social ethic. Everyone's at it." Johnston suggests that bulimia and anorexia nervosa may be two sides of the same coin, "like the two faces of fortis.

But it is stupid, an absolute dead end, to allow such correspondences to predominate. There is no point in discussing the question of which group's suffering was worse. They were all bad enough. If, after generations pass, these discussions continue to divide us, we increase the chances that new disasters will occur. Unity and the willingness to be divided are our best protection against future victimization.

Our problems are not unique, and our events will be conditioned by the details of our past, so we must expect to have different reactions. But we must struggle, at all costs, to ensure that these differences bring us closer and create bonds. If gdb open or widen between groups with tragedies in their past, each of them loss stronger bonds than the tendency to prevent new atrocities.

Our past must be about anti-semitism and other poisons of the mind.

there concrete actions and issues, arising in our history and now brought to a person to act on this legacy in a meaningful way?

I believe that there are several important answers to these questions, and that Jewish Americans happen to be particularly well-versed and thus important. We have great political freedom. Like other Americans we have freedoms of expression that are denied to millions of people in the world. We are, moreover, citizens of a large and powerful nation, and as such, we can aspire to influence.

In future columns I will deal with two particular areas of action and concern: anti-semitism and other bigotries, and the Middle East. Before I conclude these introductory thoughts, however, I must add one more comment.

A disaster of monumental proportions, like the Nazi attempt to destroy the Jews, should not separate people but bring them together. It was made possible for one to blame the artificial distance placed between groups of people by attitudes of bigotry, that allows Jews to talk about the Holocaust, I sometimes see others growing

Field Hockey Falls to UConn.  
Record at 1-2-1

By Peter DiBiasi

On Thursday, September 24, the University of Connecticut brought their field hockey team to Providence. Coming into this game Connecticut was ranked second in the nation, a ranking they almost lost.

The game was scoreless after the first half. Both teams were playing well, but Providence College appeared to be dominating. Connecticut got on the board during the first overtime, but their lead did not last long. Twenty minutes left in the game Donna Salvo scored on a penalty corner, as she was assisted by Paula Mantsho. The contest was tied at 1-1 in the end of the overtime.

Neither team was able to take advantage during the first overtime.

Then came sudden death overtime, but the Lady Friars defense was able to stymie Connecticut. After the two overtime periods, Connecticut was eliminated. Stark, for example, may say or think "What about the enslavement and slaughter of our forefathers?" When blacks talk about slavery, white groups may grow restless as they think about the chapters of oppression in their histories.

But it is stupid, an absolute dead end, to allow such correspondences to predominate. There is no point in discussing the question of which group's suffering was worse. They were all bad enough. If, after generations pass, these discussions continue to divide us, we increase the chances that new disasters will occur. Unity and the unwillingness to be divided are our best protection against future victimization.

Blacks and others have slavery in their histories, and have endured attempted genocide. Our problems are not unique, and our events will be conditioned by the details of our past, so we must expect to have different reactions. But we must struggle, at all costs, to ensure that these differences bring us closer and create bonds. If gdb open or widen between groups with tragedies in their past, each of them loss stronger bonds than the tendency to prevent new atrocities.

Our past must be about anti-semitism and other poisons of the mind.

Assumption Clips Friars

By Joe DeFilippo

Despite a great offensive performance Saturday, the Providence College gridders lost a heartbreaker to Assumption College 20-18. The Worcester crowd saw the Friars accumulate 261 total yards of offense but score up only 18 points. They were held by three failed two-point conversions which proved to be the edge.

Assumption got on the board quickly with a 70 yard scoring drive, capped off with a 3 yard run. This well executed drive consisted of short passing and traps. The kick was converted and Assumption was out in front 7-0.

Providence answered with a 21 yard pass from quarterback Prentiss to Dooley. Dooley continued to move the ball until he was hit on a territory, disaster again struck. Quarterback Chris Lamendola was hit while throwing a pass and injured his shoulder. He was removed from the game and was replaced by sophomore Mark Dooley. Dooley continued to move the ball and wanted the ball and was intercepted. This ended it for Providence and they were sent packing with their second loss in as many weeks.

Their record now stands at 1-2 and they host Roger Williams next week.

Golfers 3rd in Big East

Reprinted from the Providence Journal

St. John's University, with a score of 664, captured the Big East Golf Championships last Saturday at the Colony Hills Country Club. The Bednuts, who were edged by the Friars in last year's tournament, had the individual winner this year in Mike Diffley, who shot a 144 total. PC finished third this year with a score of 632. The Friars had two men in the top ten places, as Rob Deruntz' 155 tied him for fourth and Mike McGinn, who shot a 106, finished tenth.

The University of Connecticut was second to St. John's with a score of 617. Other scores were Villanova 666, Georgetown 661, Boston College 666, Seton Hall 692. Syracuse University did not compete.

Women Netters Bow to BU; Swat Northeastern

By Connie Lescing

After defeating Bryant College last week by a score of 7-0, the PC women's tennis team went on to defeat Boston University Saturday in the annual meeting of the teams. Unfortunately, that match, played on Thursday, Sept. 26, was also the last time they would play for the doubles team, Andrea Corcoran and Melanie Murray.

As a result of these three matches, Providence finished the season in third place, meaning that they would be up against very stiff competition from Villanova, who finished second within their pool. The Wildcats dealt PC a 14-4 loss with PC having four teams. PC had to contend with Princeton, West Virginia, and Rutgers in their pool. Friday night, the Lady Friars overpowered Princeton 8-1, 15-1, 14-5, 12-15 and 10-15.

Over the past weekend, the Lady Friars volleyball team participated in the Temple Invitational in Philadelphia. The tournament consisted of four teams, each pool having four teams. PC had to contend with Princeton, West Virginia, and Rutgers in their pool. Friday night, the Lady Friars overpowered Princeton 8-1, 15-1, 14-5, 12-15 and 10-15, but fell to the hands of West Virginia 15-17 and 15-12.

While Saturday morning losing 0-10 and 15-13, PC's performance Saturday, the Lady Friars volleyball team participated in the Temple Invitational in Philadelphia. The tournament consisted of four teams, each pool having four teams. PC had to contend with Princeton, West Virginia, and Rutgers in their pool. Friday night, the Lady Friars overpowered Princeton 8-1, 15-1, 14-5, 12-15 and 10-15.

Although the team was disappointed with the loss, the Lady Friars still had a solid performance. Their record now stands at 0-1 and they will host Roger Williams next week.

Smith, Binns Win
Harriers Outrun UConn; Win 79th Consecutive Meet

By Chris Lydon

The Providence College cross country team began another season in typical fashion last Saturday, extending their con­secutive dual meet winning streak to 79 with a victory over UConn at Storrs. Pacing the Friars in their victory were sophomore Geoff Smith and freshman Steve Binns, both from England. They covered the rugged 5 mile course in a record 27:56.

Following close behind, juniors Paul Moloney and Jimmy Fallon crossed the finish line together in 28:04. and sophomore Charlie Breagy sixth in 28:44. Rounding out the top seven with sophomore Charlie Breagy close behind. By the four mile mark, the top four places were assured, and the victory over UConn, ranked third in New England, became a certainty.

In the same poll, Providence was ranked first in New England, garnering all 25 first place votes. Coach Bob Amato, who held out seniors Ray Treacy and Brendan Quinn, and freshman Richard Flynn, (1Flynn, can now look forward to this week’s pentangular meet hosted by Boston College, against Northeastern, UMass, and URI. In order to keep the runners fresh, two or three boys will be held out of this meet as well.

The pattern of the race developed by the end of the first mile, where Providence held six of the top seven places. Moloney and Fallon had opened a 20 meter lead on Smith and Binns, with Mulligan and Breagy close behind. By the four mile mark, the top four places were assured, and the victory over UConn, ranked third in New England, became a certainty.

Intramurals
Organization Spells Success

By Tim Farrell

Once again it’s intramural athletics time and the fieldhouse provides ample space and facilities for even greater participation this year. The team sports offered, flag football, volleyball co-ed and water polo, will be open to men and women. There will be the usual tournaments: raquetball, tennis, golf, swimming, weightlifting and wrestling. The dates for these and other events are scheduled by the Intramural Athletic Board and are posted on the Lower Level bulletin board across from the mailboxes, and the fieldhouse bulletin board.

The Intramural Athletic Board, who our athletic facilities, has sworn to handle the increasing student participation. The Board consists of elected officers with Bascetta and Frank Slavin along with appointed members from each class. Representatives are Jose Shaw, Anne Dinatale, and Jim Gould; sophomores Phil Moran, Sandra Roberts and Maria Adams; juniors Kevin Flynn, Bryan Jones, “Do” Toland, and Jim Spinello; seniors Greg Canale, Mike Kelleher, Rich Ferraira and Laura White. If you have any questions concerning intramural sports contact the members of the Board at the Intramural office. Room 203, in the fieldhouse. If you are interested in becoming involved in the intramural scene contact Mr. Alaimo in Room 311, Alumni Hall.

On Monday, September 28, flag football kicked off a brand new season. Father Peterson should be given credit for granting Raymond Field for all football activities. As it stands, ten games will be played in the space of two playing fields. Students are certainly encouraged to step forward with any suggestions to better the Intramurals. Otherwise, just be on the lookout for your team’s next scheduled game!

Friars Bow to URI, Gain Revenge On UNH

By Bob Ryan

Last week, the PC booters were engaged in two hard fought battles against URI. Both teams entered the UNH and the UNH Wildcats. URI, ranked number 19 in the nation, would certainly prove to be a very tough game for the Friars. Sporting a 2-0 record, the Friars rose to the occasion, and played URI as closely as possible. At times, this reporter felt the Friars just might pull it out. The first half of the game was up and down as the two teams traded scores and fought to gain control. Both teams came out flying in a very physical and penalty ridden second half. The game remained deadlocked until 7:34 of the third quarter when Ram booter Mark Cookson collected a loose ball and fired it in the upper right corner which proved to be the winning tally. The Friars continued to apply pressure in the Ram half of the field, but due to tight coverage, were unable to capitalize. With this loss the Friars record dropped to 2-1.

On Friday, the Friars traveled to New Hampshire to face a strong UNH team. The Friars held on throughout most of the contest despite many opportunities. The game remained scoreless until Friar forward Jay Skeleton broke the ice with a 12-foot blast with 2:53 left in the game. The goal was a result of a beautiful crossing pass from Brian Murphy.

PC netminder Frank Morris was a standout in both contests as he turned aside a total of 23 shots and managed to reserve a 1-0 shutout against the Wildcats. The Friars’ record now stands at an impressive 3-1 mark.
