3 WAYS TO GET STARTED FOR LIFE AFTER COLLEGE.

Reinforce your college degree and get a better start through Army ROTC. Get management training. Self-discipline. A sense of confidence. Earn the extra credentials that will set you apart as a responsible achiever. You'll also receive $2500 over your last two years in the Advanced ROTC Program. Whether your career plans are civilian or military, Army ROTC provides opportunities for both — active duty with a starting salary of over $12,000, or reserve service while employed in the civilian community.

Get started for life after college. Get started in Army ROTC.

THE EARLY START.
If you are a veteran or a Junior ROTC graduate, then you started early — probably without realizing it. That early start makes you automatically eligible to enter the Advanced Program.

THE MULTIPLE START.
Start Army ROTC during your freshman or sophomore year with no military obligation. You'll find a number of ways to get started in a curriculum that's exciting, and flexible enough to meet your class schedule and academic needs.

THE BASIC START.
Get started in Army ROTC through Basic Camp at Fort Knox, Kentucky, this summer. You'll get $500 for attending a challenging six-week camp. If your performance is exceptional, you just may qualify for a two-year scholarship as you enter the Advanced Program.

PC Grad Offers Legal Aid

By Tom McGair

Formerly a student and now a lawyer, Reilly has proposed a number of amendments to his Student Congress. The "third part of the amendment," he says, "is the one that I really care about." The amendment 

Congress Amends Ways

By Cathy John

In keeping with its plans to streamline committees and coordinate activity, the Student Congress has just approved a number of amendments to its Constitution. The changes were made to be more efficient and to aid the busy student body. The Ways and Means committee, which was set up in order to coordinate these changes, has been active in proposing amendments to the Constitution. The changes that have been approved will affect many areas of the student government, including the Constitution itself. The amendments include the following:

- The amendment to the Constitution that was adopted by the Ways and Means committee will become effective for the fall semester.
- The amendment to the Constitution that was adopted by the Legislative committee will be submitted to the Student Senate for approval.
- The amendment to the Constitution that was adopted by the Ways and Means committee will be submitted to the Student Senate for approval.
- The amendment to the Constitution that was adopted by the Legislative committee will be submitted to the Student Senate for approval.
- The amendment to the Constitution that was adopted by the Ways and Means committee will be submitted to the Student Senate for approval.

The amendments approved by the Ways and Means committee will become effective for the fall semester and will be submitted to the Student Senate for approval.

Go To College... Have A Drink!

Higher education is generally good for your health, although if you're a woman it may also turn you into a heavy drinker, according to a national study of health and lifestyle by the University of North Carolina. The study found that better-educated people tend to be healthier, eat better and ingest lower levels of harmful substances than people with lower education levels. For women, however, alcohol consumption seems to rise with education level. Nearly 10,000 people in the United States and Soviet Union participated in the study, which was carried out by the National Heart, Lung, and Blood Institute. The study was led by Dr. Suzanne Haynes, an assistant professor of public health science at UNC.

The study also found that well-educated women had lower levels of cholesterol. Education played a key role in lowering cholesterol levels among men, Haynes says.

Students from Providence College, Providence, Rhode Island, have been invited to take part in a prestigious creative advertising competition, in which they will vie for top prizes of $1,000 cash and an eight-week paid summer internship at McCaffrey and McCall, Inc., the New York advertising agency which sponsors the program. The competition, called Creative Advertising Challenge, is being conducted by McCaffrey and McCall for the second year, and participants must create an advertising campaign to promote a course or department at their school. They can compete in teams, either in writing or art direction categories. They are required to submit a complete statement of what they intend to communicate in their campaign, as well as the copy or art for two elements of the campaign: a billboard for a commercial product and a magazine advertisement. Each entry will be judged against all others in its category.

Deadline for entry is March 7, 1982, with announcement of winners scheduled for April. In addition to the top prize awards of $750 for second place, $500 for third place, and up to 10 honorable mentions will be made in each category. A total of 30 prizes are available. Entry forms and all information needed to enter the Creative Advertising Challenge are available at Providence College, in the Career Placement office, and Charles Duffy in the Library.

ROTC Offers Scholarships

Army ROTC has full tuition two and three year scholarships available according to Colonel Robert C. Stiepock, professor of military science at Providence College. "Many students feel that if they do not have scholarships or a grant that their chance has passed them by," said Stiepock. "But that's not true. Army ROTC here at PC also has and three year full tuition scholarships available." All Army ROTC scholarships are awarded on merit only. To be eligible, students should rank in the top of their class and be involved in athletics or extra-curricular activities that show leadership potential. Students don't have to be enrolled in ROTC to apply. Many new scholarships are now available to eligible PC freshmen and sophomores. Some of the more flexible scholarships offered by Army ROTC are the Commandant's Scholarship Program. The scholarship recipients will be guaranteed Reserve Forces Duty after graduation. The real benefit is that students will not be discharged because he-she can have the best of both worlds. Service in the military career field of his-her choice and fulfill one's military obligation at the same time. The only active duty requirement is attendance at Cadet Basic Course at the post of your basic three (to six month duration). "Army ROTC scholarships are about the best you'll find anywhere," said Colonel Stiepock. "If you already have full tuition, they also pay for textbooks, lab fees and up to $1,000 per year for courses taken For the twenty hour assistantship. a stipend of approximately $4,500 per academic year, is also awarded. Full-Time Program begins in September — Application deadline is May 1st. Deadline for Assistance Program application is April 15th. Those accepted into Northeastern's Two-Year Full-Time MBA Program are eligible to apply for a position as a Graduate Assistant. The Graduate Assistant's responsibilities include administrative work experience, greater access to administration and faculty, and an opportunity to participate in the educational process. Competition is keen—approximately 40% of those enrolled in the Full-Time MBA Program are awarded an Assistantship. Assignment is usually within the College of Business or elsewhere in the University in an administrative or research capacity. The assistantships are ten to twenty hours-per-week appointments, which provide all assistantship participants with tuition remission for courses taken. For the twenty hour assistantship, a stipend currently of $4,500 per academic year is also awarded.

Wave of Military Funding: 
Campuses Up In Arms

By Enoch Needham

In 1980, Dr. George Stelmach, a physics grad student at the University of Wisconsin, received a $30,000 grant to study how the brain tells the body what to do. "It has practical application to everything we do -- speech, the aging process, whether we fly an airplane or use a typewriter," Dr. Stelmach replied Stelmach, who also heads the university's Motor Behavior Laboratory.

He envisions a day when his research on reaction time in pilots will help improve the piano and the airplane -- "people who can do anything are coming back into academia in a big way."

Research money is itself a segment of the higher education budget that has grown in recent years. But Pentagon spending, "is that it sets the tone for the university. It sets the tone for foundation money, and each time leaves a woeful absence of work in other areas." But Pentagon officials in response to military funding, "is that it sets the tone for the university. It sets the tone for foundation money, and each time leaves a woeful absence of work in other areas."

"Even though they can't use the money for new professors, colleges are undoubtedly the main beneficiaries of the Reagan administration's $20 billion research budget." By Cathy John

The Pentagon's campus spending budget has increased from $46 million in fiscal year 1980 to an estimated $709.7 million for 1982 according to the National Science Foundation which monitors federal research finances. The same sum would pay the salary of 215,000 fully-tenured professors, colleges are regularly picketed the most notable symbol of the woeful absence of work in other areas.

"And for unclassified research, you can imagine that the military always has areas of special interest. The money becomes a big magnet, and for every ten applicants (for it), you'll have another ten thinking 'What does the DOD (Department of Defense) expect?'" Melman contends that "when they do this, they're not thinking about science to develop research and intellectual property."

"For example, there's no direct connection from our research to a commercialized product," Melman points out.

Similar dissent is being heard at campuses where military research has gone on for years. Demonstrations and protests in various forms have broken out at MIT, Arizona State, Iowa State, and Washington, among others. An organization called the Wisconsin Peace Conversion Project sponsored a November national meeting to form a network of groups opposed to the military spending, and helped bring the issue back to nation­wide attention last year when it picketed the most notable symbol of military research on campus: the Army Math Research Center at Wisconsin. But in 1970, when the bombing of the center killed a physics grad student and became a turning point in the college anti­war movement, the Pentagon research center had a keep a low profile.

It has dropped the word "Army" from its name and moved to a more secluded part of campus. The campus administration, says Dr. Seymour Meman, who has authored several books critical of Pentagon spending, "is that it sets the tone for the university. It sets the tone for foundation money, and each time leaves a woeful absence of work in other areas."

"The worst thing about military funding," argues Dr. Seymour Meman, who has authored several books critical of Pentagon spending, "is that it sets the tone for the university. It sets the tone for foundation money, and each time leaves a woeful absence of work in other areas."

But Pentagon officials in response to military research, "is that it sets the tone for the university. It sets the tone for foundation money, and each time leaves a woeful absence of work in other areas."

KIDS NEED A RIDE

By Cathy John

You may have noticed a table set up in Lower Slavin this week with a large sign in front of it saying "RAFFLE," across from the mailbox and right next door to the BOG office. Big deal, right? Well, before you go whizzing by that table in the next two days, stop and make a discovery.

The Lifestyles committee of Student Congress is sponsoring this week's raffle to benefit The Big Brothers and Sisters organization on campus. The group has been trying for a long time to raise enough money to purchase a van which would help them transport children in and out of PC, but they have yet to reach that goal.

By sponsoring this raffle, the Lifestyles committee of Student Congress hopes to raise additional funds.

Faculty-Survey committee is eliminated. Congress members felt that the surveys do not benefit enough students to make it worthwhile, and that they should be abolished.

Food, as an official standing committee on Congress, has been an offshoot of Lifestyles for the past few years. It will be placed back under the jurisdiction of the Lifestyles committee, but Dan Sullivan, student representative to the BOG office, did not comment on the matter.

While the above proposals were made at the last congress meeting, first readings only were made. According to legislative amendments to the Constitution, formerly, Congress members were not allowed to propose amendments to the Constitution, must be read first at a general meeting and then may be read a second time and submitted for a vote at a following meeting. The Lifestyles committee is not required to be voted on at Student Congress meeting on January 31, 1982.

Dear Editor:

Back in the days when Providence was just the college on the hill, the "most important person" was the student. The student was actually divided into two major groups — the student-athlete and the student-fan. The student-fan was very vocal for the most part but also polite. In those days the alumni, the "friends of the Friars" and the students were all very supportive of their teams, but alas it seems these days are gone forever.

As any student-fan can attest, the biggest difference between the Providence basketball game and the Boston College Hockey game was the noise level. Yes, the basketball team was ahead for most of the game but still the crowd was so loud that their support was most certainly an asset to the players. Yes, the hockey team was ahead for most of the game but still the noise level was an asset to the players.

Approximately 150 student season ticket holders were denied seats for the BC game even though many of them showed up well before the 48 hour deadline. There were also 2,000 empty seats in the "alumni" section which could easily have been filled by students.

Number three is that the tickets are billed as being a good deal because the students get to see 24 games; yet unfortunately 11 of these games are scheduled during vacation period.

In laymen's terms almost one-third of the student season ticket holders were not meant to be seen by the people who are the number one purpose for this institution, the students. Even the seating at the civic center has been reduced to one end of the court (because of the repressive policy). At Schneider Arena the cheering students are herded into the upper decks while the adults sit on their hands at risk side.

As far as the ticket policy is concerned, I strongly believe that it is indeed fair. Let us review this policy. First, here are the facts:

1. As stated on the ticket, season ticket holders are refused tickets to BC games.

2. The BC game is a sellout and I was denied admission.

3. The BC game had many BC fans, particularly those in section 3, who have been known to become profane and abusive. I thought it appropriate to discuss some related issues that have arisen during the past week.

4. As any student-fan can attest, this I contend is for the main part due to the repressive administration and disregarded by our representatives, the Student Congress.

5. The student body's integrity.

6. On all other points I feel this ticket policy is equitable and specifically tries to cater to the student body's needs.

In a nutshell, what happened was this: the Ticket Office sold a certain number of BC tickets to season ticket holders. As one can easily see this created a problem, but this problem has only occurred once in this major sport.

Two days before the (2) BC-PC games the Ticket Office was deluged with requests to redeem coupons and unfortunately 11 of these games are scheduled during vacation period.

As far as the ticket policy is concerned, I strongly believe that it is indeed fair. Let us review this policy. First, here are the facts:

1. As stated on the ticket, season ticket holders are refused tickets to BC games.

6. On all other points I feel this ticket policy is equitable and specifically tries to cater to the student body's needs.

In a nutshell, what happened was this: the Ticket Office sold a certain number of BC tickets to season ticket holders. As one can easily see this created a problem, but this problem has only occurred once in this major sport.

To you that did hold coupons but were not permitted to go to the game for some reason, I say, I'm sorry, and so too is the Ticket Office. The Ticket Office has apologized for this misunderstanding and will try to avoid such an occurrence again.

It seems we've been ripped off by the ticket office. I was denied admission. There is obviously a blatant flaw in the system when season ticket holders are refused tickets to events they're paid for. Why don't they wait until the day or 24 hours before the game to sell surplus student tickets.

Sincerely,

MARYBETH HOLLAND

"Hey, I've got some student tickets, cheap."
PC Stuns Georgetown, 50-49

By Richard Testa

Joe Mullaney was standing now, his hands on his head and he broke out into a smile—a third, exhausted smile. He walked toward the Georgetown bench and looked at his former player, who had coached the opposing team, shook his head and smiled. Wow! The Friar coach had just put everything he had into Saturday night’s contest and in his first meeting against his former PC star had beaten the number one team in the East, the Hoyas’ coach do? He had to hug his old coach. In what was the most emotional game played at the Civic Center in about four years, the Friars defeated their Big East Rival 50-49. Earlier in the season, the Friars defeated their five game losing streak by nipping URI 49-47 in overtime.

PC earned the bragging rights as the best team in Rhode Island for the first time since 1977. The Friars are now 9-8, 1-5 in the conference.

Almost any coach will tell you that to answer the better team’s plays a team with superior talent. Not even superstar Pat Ewing of Georgetown could control the Friars as they matched the heavily favored Hoyas basket for basket. The score was knotted at 12 when Georgetown scored two quick hoops and went up by four. Then Billy Fields threw in a 20 footer and Otis Thorpe slammed the Friars to a tie. Not only was that particular basket important in that it tied the game, but proved to be “0-1” that he could indeed play against the “big boys,” such as seven foot Pat Ewing and Ed Spriggs. The play also woke up the crowd of 7,953.

A few minutes after Otis asserted himself, the Friars grabbed the lead 20-18 on a Ron Jackson layup with 3:29 remaining in the half. They built that lead to eight at the end of the half, 29-21. No one was getting too over-confident though. The lead stayed the same for much of the first 10 minutes of the second half and PC grabbed its biggest advantage on a layup by Fields that put the Friars up 46-33 with 9:21 remaining. Instantly Ewing came off the bench and he had been saddled with his fourth personal earlier in the half and started a slow, but sure comeback of a very good team. The first play was directed at him, he laid it in and was fouled. They brought it down to four, 46-42 with 6:30 left and it remained. At that point Eric “Sleepy” Floyd the All-American guard sank two free throws and the lead was 50-47.

PC fans show the fever during last week’s upset over No. 11 Georgetown. (Photo by Tom Bastoni)

Not even superstar Pat Ewing of Georgetown could control the red-hot Otis Thorpe. (Photo by Tom Bastoni)

Almost any coach will tell you that to answer the better team’s plays a team with superior talent. Not even superstar Pat Ewing of Georgetown could control the Friars as they matched the heavily favored Hoyas basket for basket. The score was knotted at 12 when Georgetown scored two quick hoops and went up by four. Then Billy Fields threw in a 20 footer and Otis Thorpe slammed the Friars to a tie. Not only was that particular basket important in that it tied the game, but proved to be “0-1” that he could indeed play against the “big boys,” such as seven foot Pat Ewing and Ed Spriggs. The play also woke up the crowd of 7,953.

A few minutes after Otis asserted himself, the Friars grabbed the lead 20-18 on a Ron Jackson layup with 3:29 remaining in the half. They built that lead to eight at the end of the half, 29-21. No one was getting too over-confident though. The lead stayed the same for much of the first 10 minutes of the second half and PC grabbed its biggest advantage on a layup by Fields that put the Friars up 46-33 with 9:21 remaining. Instantly Ewing came off the bench and he had been saddled with his fourth personal earlier in the half and started a slow, but sure comeback of a very good team. The first play was directed at him, he laid it in and was fouled. They brought it down to four, 46-42 with 6:30 left and it remained. At that point Eric “Sleepy” Floyd the All-American guard sank two free throws and the lead was 50-47.

After a few turnovers the score was the same but there were only 38 seconds left. Those last few seconds took 18 minutes to play. With that period of time left Otis, playing host his game of the season defensively and actually smiling during the contest, committed his fourth foul and the Hoyas’ guard Fred Brown was sent to the line. He missed the first shot of his one-on-one opportunity and Otis was fouled. Then followed the most bizarre finish of any contest this season. PC failed on four tries to convert on the first shot of one-on-one opportunities. This allowed Georgetown to have the ball for four possessions within this 38 second period. They connected on only a layup by “Sleepy” with three seconds remaining. Too late. Bedlam. Otis ended up doubled the totals of the heralded seven foot Pat Ewing and Ed Spriggs. The play also woke up the crowd of 7,953.

The Friars never gave the Hoyas an easy path back into the game. They tied the score at 45-45 with 4:11 remaining. At this point in time URI had no foul troubles. They decided to put pressure on the Friars inbound passes. And they wanted them to throw a lot of missed shots.

The Friars don’t have any Big East contests this week. They’ll play Dayton, away, tomorrow night, televised locally on TV-12. Then next Monday night, on the Big East game of the week, they’ll entertain Connecticut at the Civic Center. UConn beat Georgetown and Villanova last week. They’ll be tough. But now not only do Ron Jackson, Otis Thorpe and Jim Panaggio know they can play against the iron of the Big East—they know they can win. It should be an interesting February.

Sincerely,
Kevin Burke
Sports Editor

This year’s edition of the Sports Special is the result of a marathon effort on the part of just about everybody connected with the Cowl. I would like to thank the people who made this edition possible.

First off, the folks that put the words on the page. my sportwriters: John Brandolino, Richard Testa, Christine Merlo, Kenny Alber, Chris Lydon, Peter DiBiasi, and Toby Shea. I am also indebted to my photo editor Barry Bruyette and to Tom “I need more film” Bastoni. Both of them photographed and beyond the call of duty and provided this newspaper with some of the finest sports pictures that I have scene here at PC.

Next, I would like to thank Pat “Doonesbury” Harrington for his usual top quality graphics. Thanks also to Vera Chwostyk, the layout editor. Vera’s dedication, coupled with that of Kathy Bisenga and Liz O’Donnell, provided all the typing needed in order to put this special together. Lastly, I extend special thanks to my leader, my editor MaryBeth Holland. Oh yes, she’s a knucklehead and a little crazy at times, but somehow MB makes it all worthwhile.

PC fans show the fever during last week’s upset over No. 11 Georgetown. (Photo by Tom Bastoni)
A Look Back At The Success of Joe Mullaney

By Richard Testa

Joe Mullaney was one of the most successful and influential basketball coaches during his college coaching tenure in the mid-’60s through the ’70s at Providence College. His story is told through this document, which includes interviews and narratives about his coaching career and legacy. The text reflects on his success at Providence, his impact on college basketball, and his role in shaping the sport during a critical period in its development.

The 1959-60 Providence Basketball Team.

Mullaney’s return—his 1981-82 Friar team.

The following is an interview with the Friar’s coach Joe Mullaney, who expresses what this year’s basketball team’s performances have meant to date. Along the way he makes his opinions known on other aspects of college basketball:

COWL: How do you feel about the team’s play so far this season, offensively and defensively?

MULLANEY: Well, you’re never satisfied, that’s for sure. Most coaches of college basketball teams feel like they’re more than likely more disappointed in the defensive side of the game, because it’s more of a question of just applying certain principles in positioning. I just think defense can be learned and played well and sometimes I feel like we’re not playing quite as well as we could.

COWL: Are the players developing as you expected them to under a new coaching system?

MULLANEY: Yes, I think we’ve done a good job of development. I think that there’s natural individual development. Some fellows have reached a certain level of competence and it kind of remains there. I think some of the players on this team have room for development for sure. And we’ve worked real hard with the team with a new coach, I think it’s a little bit of an adjustment for us all. We’ve got a lot of good players and we really need to just get a couple of players up the court and stuff and what we’ve got to do is to get in a position where they can win.

COWL: As you recruit students to fulfill their expectations...is it important to me...to get kids ready...for the things that we’re doing here?

MULLANEY: It’s really...I wish we had won more. We’ve had a couple of games down the stretch — we put ourselves in a position where we could win and we didn’t play that well...So it’s really important for kids to...to get kids to handle the ball and get ready for the things that we’re doing here.

COWL: What do you feel about the Friar team this year? Is there a lot of potential for this team to do well?

MULLANEY: Well, there’s a lot of potential for this team to do well. We have a lot of good players and...and I think that...we’re really disappointed in the offensive part of our game. We’ve been working very, very hard at it. We’re just not doing it the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’ve got to work on that.

COWL: Can you describe the kind of team you think we will have this year?

MULLANEY: We’re going to have a team that can play with anybody. We’ve got some good players and we’ve got some good depth. We’ve got some good players who can score and some who can rebound. We’ve got some good players who can pass and some who can shoot. We’re going to have a team that can play with anybody...We’ve got a lot of good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game. We’ve got some good players and we’re just not using them the right way. We’re not really getting the ball in the right position and we’re not converting the shot. We need to work on that and we need to work on the defensive part of the game.
Mullaney Continues...

COWL: What do you think of the new jump ball–alternate possession rule? The rule eliminates the jump ball at every point of the game except the beginning or the ending of an overtime period. At every other jump ball situation the teams switch taking the ball out of bounds — thereby alternating possession.

MULLANEY: I have no objection to it. I know people seem to be concerned about it, but I have no problem with it. I don't like the phase, which has been already noted by so many coaches that they'll probably change it, where you can force a jump ball by playing good defense. If it's the other team's turn they get it, then it's unfair. They should alternate legitimate jump balls (the instance a team players from both teams have a piece of the ball). The team that causes the fifth-second violation should get the ball. There's no reason there should be a jump ball anyway.

All-Possessions is fair, equitable, and takes out the possibility of the jump not throwing it up right which happens 99 percent of the time. If you steal the tap you're probably going to benefit by cheating. If you have the bigger man, you should get it every time. If it really was a good thing, the jump, they never would have taken it out. You see, they used to jump after every basket. Every basket, you'd go to mid-court and you'd jump. And obviously it was unfair that they got rid of it, but they said, well, we'll do it at the beginning of the game and at the beginning of the half, just to keep it in. And then they did for a couple of select things and even that was unfair. It's still unfair. It's just how many times it's unfair.

"Geez, we're really hanging in there and are underdogs every game. I remember when I played with a Celtic team back in 1956, and it was the worst Celtic team ever."

with people and in the lower classes, too. We all seem to need something. Obviously we would be a school that a young man would look at, say, and probably have a better shot in Providence."

A few years ago, Missouri was last in the Big 8, but she returned from the conference tourney and an automatic berth in the NCAA tournament. Since this Automatic bid is true for the Big East, have the teams interested in their ability and are you gearing your efforts to that weekend in March?"

MULLANEY: Well, I think the thing about the tournament, I haven't been given it then to tell you the truth, but I was thinking the other night that if one of my teams years ago was in this situation right now, around the middle of the schedule ahead, in the independent situation where you had to win 19 or 20 games to get into a tournament, it would be tough going out of there — they'd say 19, it'd be tough! Right now, our record hasn't been good in the league, we are a tremendous disappoointment to everybody from the standpoint of what was expected and not enough given or produced. Ricky would not be winning a lot and yet we have the opportunity to knock off some pretty tough clubs ahead, in a good league, where people are still looking at us and are interested. In the old days with this record, they didn't care whether you were winning or losing. We're playing teams that people are looking at and saying, oh will they beat them, we're on TV a few more times; plus at the end of the season, it's a very exciting weekend where there's an awful lot of people watching for us to do well. We've had a couple of teams in a tournament over three days, where you can do some business. (I will not go on time.) Now I'm not saying I'm looking forward to it, I'm not looking forward to it, looking at it as another exciting weekend of basketball where we're involved in, we have a chance. In the same business, catch a team that beat somebody and see how far we can take it. But to say I'm sitting here pointing for that — well, we're going game by game really.
Jim Panaggio
Weight: 180
Height: 6-3
Position: Guard No.20
High School: Cardinal Mooney
Player. Co-captain. Led team in scoring, and also led team in assists and minutes played. Currently an English major.

Marlon Burns
Height: 6-8
Class: Sophomore
High School: Dartmouth
Weight: 205
Position: Forward
Hometown: South Dartmouth, Mass.
Scored 1,191 points in high school. Burns has overcome anemia to be one of the Friars' key big men. He is the second tallest on the team, his size will add to the team's rebounding potential. Had a .540 shooting percentage last year. A business management major who was contacted by more schools while he was in high school. Is one of the most improved players on the team, who will see a great deal of playing time this year.

Ron Jackson
Height: 6-7
Weight: 205
Class: Sophomore
High School: West Roxbury
Position: Forward-Guard No.5
Hometown: Roxbury, Mass.
Jackson also played for the East Coast Nationals. Can play in the back court.

Carl Hill
Height: 6-1
Class: Sophomore
High School: Princeton Country Day School
Weight: 190
Position: Guard
Hometown: Trenton, N.J.

Jim Cholakis
Height: 6-5
Class: Sophomore
High School: Albany
Position: Forward-Guard No.30
Hometown: Albany, N.Y.
Good all-around athlete. Jim will play baseball for Providence this spring. Earned four letters in high school. Strong points: his jump shot, size big enough to play up front, and flexible enough to be put in back court. An early injury has kept him out of the line-up this year.

Sean Canty
Height: 6'7"
Weight: 215
Class: Sophomore
High School: Proctor Academy, Tabor Academy
Position: Forward
Hometown: Dover, Ma.
Sean Canty, the aggressive 6'7" forward for PC, will be a big asset to the team this year.

Class: Junior
Height: 6'1"
Weight: 180
Class: Sophomore
Hometown: Brockport, N.Y.
The team's best defensive player. Co-captain. Led team in minutes played (840 a year ago) and also led team in assists and minutes played. Currently an English major. Panaggio will provide ball handling and passing skills to the team this year. He has spent last two summers with a Christian missionary team. A few of the countries that he has played in are Panama, Chile, Columbia, Egypt, Spain, France and Greece. He led missionary team this year. He has spent last eight points against Arizona was his high this year.

Carl Hill's experience from last year has given him a great advantage for this season. Carl started in all games as a freshman, averaged 3.0 PPG, and tallied 58 minutes played.

Hill, a 6'1" guard, came to PC from Princeton Country Day School in New Jersey. His quickness and shooting ability will surely help the team this year. As a freshman, Carl scored 12 points against Arizona.

At Princeton Country Day, Hill scored 1,041 career points and led the team to New Jersey State Championships. He averaged 16 PPG, and 4 assists as a senior.

Carl turned down scholarships from other big-name basketball colleges such as Maryland, Wichita State and Wake Forest. His 67 percent free average leads the Friars so far this year.

Ron Jackson came to Providence after two years at Rixbury Community College, where he was a Junior-college All-American. At Rixbury he scored 1,208 points his first year and 2,631 last year. In his first six games at Providence he has averaged over 14 points a game, and had 26 points at Arizona. Jackson also played for the East in the U.S. Olympic Committee's National Sports Festival in Syracuse this summer. Jackson is a Business Administration major. He is a fine outside shooter and is big enough to play up front, but can also play in the back court.

**HOKEY**

(Continued from page 10)

Big East rival 50-49. Bartner in the week Providence had snapped their five-game losing streak by nipping URI 49-47 in overtime.

"I'd like to see this place become a pit. A pit enthusiastic. Now that we've got a goal and we're trying to create this interest, let's get the right thing going. I put a plea out to all the fans, please let's get the Friars going. I put a plea out to this interest, let's get the right enthusiasm. Now that we've got a goal, let's not be vulgar in the language clean and yell louder than ever.

Cutting out the bad language doesn't mean that maniacal cheering must come to a halt. It means we should keep the language clean and yell louder than ever.

Just the fact that the problem has brought to the attention of Gavitt and his top management shows that the crowds are making an impact on the games and they are being heard.

And as the Friars inch closer to the playoffs with 10 games left at Schneider Arena, they crucially need that student wildness in the stands. Because if everything works out, we could all find ourselves cheering at the O'Connell Center in March — where this year's Nationals are being held.

That Providence Journal article on the Providence-PC game back in December concluded in an appropriate way. "But the night belonged to the Friars." It stated, "And their to very vocal, very loyal fans."

Well, there will be many more nights like that one — but this time we'll be bigger and better than ever.

Look out Schneider, here we come!

By Tom O’

After the Cross Country team’s successful season last fall, The Cowl went to its many sources to come up with the following brief biographies about those runners who made it happen.

Captain Ray Trescy - Known to others as a dedicated runner who would do anything for the well-being of the team. Next major event after Bermuda is the Big East Indoor Marathon. Hard to get him to speak his mind. No

Steve Bins

flavor to the locker room. Looking forward to his senior year when he will prove how patient he is by living with two other teammates. Where do you get your money? Paul “Pac-Man” Moloney - Feels indoor is his most productive season. Thinks he gets off to a good start by “blooemning” up at the Dartmouth Relays. On any given Friday or Saturday (or Monday, etc.) night, can be seen at the Rat driving people crazy who would like to play just ONE game of PAC-MAN. He and teammate Steve Seaver have been known to disappear for at least an hour playing one game. Feels he makes a significant

brendan Quinn

contribution to the well-being of almost every team member by buying them an occasional pit-cher or two, or... Wishes the Nationals were held in Wichita every year, as he considers it one of his favorite places to race. Jimmy “Cow-les Eyes” Fallon - Providence College has had a great influence on him. His running has turned around 100 percent since he came here as a freshman. Familiar with the line, “There is no room at the Inn.” Does not get out too often because he would rather concentrate on his studies. He and freshman Richard O’Flynn will live together with Brendan Quinn next year; he hopes he can get Brendan to make a few of the decisions. Another of his favorite

Rich O’Flynn

saying is, “Honesty is the best policy.” Very good at impersonating Brendan Quinn. Charlie Bregy - Missed an eventful weekend at Dartmouth to run the Ras. They were all equal men on the line. Still looking for his room in Fennell. Enjoys walking to music; and if you want to say something to him, say it to his face. He always gets his man.

Geoff Smith

longer a factor in the “Bachelor of the Year” contest; feels it is not as important as it used to be. Plans after graduation include publishing a book describing the difference between a “quality” runner, a “hack,” and a “jogger.” Likes the window closed and the radio left alone.

Ray Trescy

When you ask for a favor, you never have to ask twice; three again maybe. Favorite saying include; “Who is Steve Seaver?” “Has anyone seen Brendan?”

Paul Maloney

Johnny McLaughlin wants his four seconds back.

Chris Lydon - What’s wrong with him now?

Frank Male - You are wasting your money.

Steve Seaver - Who am I?

Ray Trescy

Celebrity status for Paul Moloney and Steve Bins.

Steve Bins - Did NOT run the Manchester Road Race on October 22, 1982?

Frank Male - Where were you on the night of Friday, January 22, 1982?

Chris Lydon - What’s wrong with him now?

Mike Arpin - Where were you on the night of Friday, January 22, 1982?

Johnny McLaughlin - Based on data and statistics, on paper, one of the greatest coaches in school history. Sharp mind for details.

Paul Maloney

Johnny McLaughlin wants his four seconds back.

Coach Bob Amato - Based on data and statistics, on paper, one of the greatest coaches in school history. Sharp mind for details.

Ray Trescy

when you ask for a favor, you never have to ask twice; three again maybe. Favorite saying include; “Who is Steve Seaver?” “Has anyone seen Brendan?”

Rich Mulligan

and “Paul, you are in a hole.”

Jimmy Fallon

with him because he is such a good driver. Sprints for practically anything, except red lights.

Ass’t Coach John Trescy - Back again! What a source.

Mike Arpin - Where were you on the night of Friday, January 22, 1982? Mike Arpin - Where were you on the night of Friday, January 22, 1982?

Chris Lydon - What’s wrong with him now?

Frank Male - You are wasting your money.

Steve Seaver - Who am I?
Women in Sports

Impressive at 12-4
Mullaney Jr. Ladies Hoop Thriving

By Christine Merlo

With the present record of 12-4 the Lady Friars are definitely an improved team. Last year's basketball team ended their season with a 17-12 record. The reason for the success of this well experienced coach, Joe Mullaney, Jr.

As a child, Joe Mullaney, Jr. was surrounded by basketball. His father (Joe Sr.) was a great basketball player and coach. "My dad never pushed me into playing basketball like some parents would. Whenever I wanted to play basketball, he would be willing to drive me to the park and help me practice." Coach Mullaney graduated from PC in 1978. A three year varsity player, he played under Coach Dave Gavitt (Mr. Gavitt is now PC's athletic director), as a guard. Coach Mullaney's team qualified for the NCAA playoffs. Mullaney is considered the PC basketball team of 1977 to be one of the top five teams in the nation. That year the PC Friars, who entered the NCAA playoffs at 24-1, lost to Kansas State by one point.

After graduation, Joe took a coaching job with the Warwick Veterans' High. Later he became involved in the RI CETA program (with which he is still involved) and accepted the position of assistant coach of the men's basketball team at RIC. In 1980, the position of head coach for the Lady Friars basketball team was available. Although Mullaney had never coached a women's basketball team before, he liked the idea of becoming the head coach. If he could become head coach he would be able to develop his own style, and since women's basketball is slightly different to the rules of men's basketball, he thought he would apply.

"My first year was a difficult transition for myself as well as for the returning players because most of the team had been accustomed to Coach Tim Gillelde's system of coaching. I think at times, it's hard for the freshmen to adjust to my system of basketball. They don't get the opportunity to play much, but in practice, their playing is very valuable because they push the consistent players into practicing much harder."

Coach Mullaney sees a lot of improvement in this year's team. "We are a smarter, hard working team. It seems as though we get better every day." He feels as though the team has a lot of spirit and that most players are playing with complete confidence. "These factors make it hard for any team to beat." According to Coach Mullaney, another reason why the Lady Friars are doing so well is because of their strong defense. Last year the team concentrated on only one type of defense. "Once teams knew our defense, they could take advantage of it and score very easily. This year we use different types of defense, according to the style of basketball our opponents play. If a team discovers our style of play, we always have different types of defense to fall back on. Good, consistent defense is important for winning games; our defense keeps us in the game."

In order to win games, Mullaney says the Lady Friars have to play a certain way—they have to work hard and be selective in their shooting. "When we played Rutgers and

Lynn Sheedy

A Return To Action

By Christine Merlo

As assistant coach of the Lady Friar's basketball team, Lynn Sheedy has been able to continue her impressive career in basketball. Lynn, a 1980 graduate from Providence College, has a love for playing and coaching women's basketball. She was a four year starting point guard for the Friars and, in her last year, had accomplished a great deal. In her senior year, she scored over 1,000 points for PC, which was named PC's outstanding female athlete of the year for her involvement in not only basketball but also field hockey and softball. In her senior year, Lynn led her team to the Division I Northeast Regional Tournament. According to Lynn, she vicinity in the tournament and the 22-7 record achieved by the team that year was due to the unselfishness of the team members. Today Lynn's remarkable records of 1261 points scored between 1976-80 and 37 assists between 1976-80 still stand.

When Lynn graduated as a social work major, she was given a try-out with the Iowa Cornets (they picked her in the 5th round of the draft). But, because the team folded before she got to play, the Nebraska Wranglers decided to have her try out. Unfortunately, she was cut in the first round.

"At that point I didn't know what to do. Then one day, the athletic department called me and asked if I would like to become the assistant of coaching for the Lady Friars. Although I had never thought about coaching as a career, I decided to give it a try."

Lynn feels coaching is similar to social work in that in both positions you work with a group of people. "In coaching basketball, I'm helping the players develop their skills, and also I'm there if someone needs a friend."

At times, Lynn misses not being to play on the team but, she confesses, there are more talented basketball players among women today, because girls are starting to play at younger ages. "Every year the incoming freshmen seem to have more talent, so when I graduated I knew there would be good players to take my place. But, I have to admit, I miss running and exercising with the team."

This year the Lady Friars show great improvement. According to Lynn, the team has a lot of leadership, comaraderie and togetherness. "They work together as a team; it's great to see it."

Lynn's job consists of helping the team practice. She feels she has a very good knowledge of the game. Also, Joe has adjusted well in allowing me to practice players who's not demanding of them, and they respect him. Lynn's hectic schedule is very demanding. She credits manager Laura Callahan with making her job a lot easier.

Although Lynn says she'll never pursue playing basketball again, she does feel she may be in coaching for a few more years.

Lynn feels very fortunate to have had a successful year. "I'm glad I chose coaching as a career because in my first year I learned a lot about myself. I learned it takes special qualities to coach. Lynn says she will probably stay in coaching as long as she knows she's offering something to the players and the game. Her primary goal in coaching is to do the best she can, and to help the players not only as ball players but also as people.

Announcement
Intramural Hockey

Those captains who failed to attend the intramural hockey meeting on Wednesday, Jan. 20, 1982 should consult with someone in the Athletic Board office (Rm. 203 Fieldhouse). All teams not represented at the meeting will not be scheduled until they make an effort to obtain the new rules discussed.

Intramural Athletic Board
For the past ten years, Providence College cross country has established itself as one of the most successful programs in the country. There have been many great runners who have gone through PC, who are successful today and out of the sport. The nine athletes below are some of the best ever to come of PC, and this accompanying short biographies will give the long-time cross country fan a chance to see what these stars are doing now.

Mick O’Shea (1973-1977)—the first of the so-called “Irish Connection” at PC. Competed for Ireland in the 1980 Olympic 5000 in Moscow. Currently works in Boston where he is still active in the sport. The Irish Connection also training to prepare to run back his cross country title. Collected six All-America awards while at PC.

The 1975 team, led PC to a fourth place finish in 1977, when he finished second in the cross country championships in Limerick. Then repeated the following year in Limerick while a student. Now works for the Export Board of Ireland, where he is a marketing advisor in the clothing area. Currently training to prepare to run back his cross country title. Collected six All-America awards while at PC.

Planning to return to the U.S. in April to compete in the Boston Marathon. Ranked as one of the premier marathons in Ireland right now.

Another one of the two that took third and fourth place in the country. Works as an accountant in the Milton Bradford offices in Ireland. Currently not as competitive, may some of his former teammates; but still running.

Danny Donnelly (1975-1978)—One of the best runners ever to come out of PC. Two-time All-America. As a senior, finished 2nd in the World Cross Country Championship in Paris. Now lives in Boston where he does promotional work for the local running stores.

Finished 12th in the National Cross Country Championships held last fall. One of the best road runners in the country; training now to make the American team for the World Cross Country Championships.

Larry Reed (1975-1980)—Currently works as an accountant for the University of New Hampshire. Trying to come back strong in 1981. Has hampered his training since graduation. When healthy, a fine road runner in the New England area.

John Treacy (1974-1978)—In addition to being a member of the great 1975 team. Back in 1973, Back then, the Irishmen made up the majority of the team.

Mike Byrne (1974-1978)—Another of the fine runners to come from Ireland; currently working as a sales manager for Philips Ireland. Scoring member of the team in all four years here.

For Oona Mulligan, this has not been her best year due to injury. There was a time during the cross country season when she was one of two healthy scoring members of the team. Injured at the moment, she is hoping to come back to have a fine outdoor track season. Marcia McCreight is one athlete who has gone unnoted in her fourth years at PC. When she came here as a freshman, she became one of the best high jumpers in school history, and has maintained that success all over her four years here. In addition, Maura also ran cross country in the fall.

Julie McCrorie, a sophomore, finished 18th in New England as a freshman on the cross country team last year. This year she had to miss the meet because of injury; but appears to be healthy from as she qualified for the indoor 3000 at the Dartmouth Relays. She has also proved to be a fast road runner; as she and Brian Dillon (PC ‘81) combined to win the jaunt title at the prestigious Trevera Twostone in Central Park.

The two freshman distance runners on the team this year are Nick Gordon and Dan Dillon. Nancy missed much of the cross country season with ligament damage in her ankle, and Julie also became injured at the end of the season. Both are working hard to get back. As they set themselves, both showed great promise and will undoubtedly be valuable assets to the team in the future.

Two people who have excelled on the track are junior Jean Fiore and freshman Liz Noble. During the indoor season, both take part in three events. Jean competes in the 200 meter dash, the 4000 meter relay, and the 4x400 meter relay. It was her leg in the 3000 at Dartmouth that led the Lady Friar relay team to victory. Liz competes in the two relays with Jean; but her major event is the high jump. At Dartmouth she qualified for the women’s regionals in West Virginia in March.

Coach Mark Skinkle deserves credit for molding the 1982 edition of the Lady Friar track team. A fine judge of talent and a patient man, Mark has helped the runners develop slowly and with confidence. He has learned to let the runner in his own right, with a real belief in the marathon. To all members of the women’s indoor and outdoor track teams, back in the upcoming seasons.
Women’s Hockey Undefeated

By Kenneth Alber

The Women’s Ice Hockey team remains undefeated, starting off this semester right where they left off before the holidays. The Lady Friars defeated Princeton 6-4, Brown 10-1, Yale 8-0, and BU 12-2. As those scores indicate, the ladies are quite an awesome force. That, combined with their 9-0 overall record, has kept the Lady Friars atop the coaches’ poll since last November. Throughout the season, PC has

Coach Marchetti

outscored its opponents by a phenomenal total of 78-15.

Freshman center Cindy Curley paced the Friars with six goals and eight assists in those four games. Right behind her was Jackie Gladu who has scored seven goals and six assists thus far in the semester. Seniors Mary Ellen Riordan and Susan Duffy were credited with 10 points apiece over those games.

Offensive prowess is not the only strong point on this club. Over the entire season, the Lady Friars’ defensive unit has only allowed an amazing total of 135 shots on goal (an average of 13.5 shots per game). Goalie Barbara Luther, who has been the recipient of such fine support, has also played superbly between the pipes. An undefeated season is entirely possible but PC still must face arch rival UNH at home. In order to accomplish such a feat, the Lady Friars will need a total team effort in every game.

Alexis Sgabbi—Forward: Alexis is the third of four exceptional seniors on this year’s club. Earlier this season against BC (four goals and two assists). Debbie Kirrane—Defense: Debbie is the only senior on this year’s defensive unit. She has shown much improvement in her years at PC and currently anchors a solid backline.

Jackie Gladu—Forward: Jackie is currently the leading scorer for the Lady Friars with 30 points. Last year, she was second on the club in that department. We can expect two more years of high scoring from Jackie as she is only a sophomore.

Kathy Kelly—Forward: Kathy is in her second year of action for the Lady Friars. This is only her fourth year of competitive ice hockey. Kathy has been an instrumental player this season and is one of the more aggressive players on the team.

Mary Beth Hannon—Defense: Mary Beth, currently a junior at Assabet Valley before coming defensemen. She is one of the key members on defense and should remain so for two years to come.

Barbara Luther—Goalie: Barbara stepped in this season and became the number one goaltender. She has played very well as can be attested by her 1.24 goals against average. Being only a sophomore, we can look forward to two more years of excellent goal tending.

Maribeth Crook—Goalie: Maribeth, also a sophomore has been the backup this season. She has seen action in four games thus far this year and is very capable in case Barbara gets injured.

Sue Duffy—Center: Sue is currently in her final campaign for PC. She has always been a consistent scorer for the Lady Friars. This year is no exception as she is third on the team in scoring.

Mary Ellen Riordan—Center: Mary Ellen, also in her last season, has been a fine scorer throughout. She currently ranks second in career scoring and is also an excellent two-way player.

Leslie Matthews—Defense: Leslie has also played superbly between the pipes. Last year as a freshman Leslie led the defense in scoring. She is currently enjoying another fine season. She is one of the key members on defense and should remain so for two years to come.

Barbara Luther—Goalie: Barbara stepped in this season and became the number one goaltender. She has played very well as can be attested by her 1.24 goals against average. Being only a sophomore, we can look forward to two more years of excellent goal tending.

Maribeth Crook—Goalie: Maribeth, also a sophomore has been the backup this season. She has seen action in four games thus far this year and is very capable in case Barbara gets injured.

Sue Duffy—Center: Sue is currently in her final campaign for PC. She has always been a consistent scorer for the Lady Friars. This year is no exception as she is third on the team in scoring.

Mary Ellen Riordan—Center: Mary Ellen, also in her last season, has been a fine scorer throughout. She currently ranks second in career scoring and is also an excellent two-way player.

Freshmen Profiles

Cindy Curley is currently the second leading scorer on the team with 13 goals and 15 assists for 28 points. She’s a strong skating center and was selected the MVP of the Cornell Invitational Tournament which PC won just this weekend. Cindy is from Slow, MA.

Karen Kay played with fellow freshman teammate Cindy Curley at Assabet Valley before coming to PC. She’s a playmaking wing who serves on the penalty killing unit and comes from Marlborough, MA.

Kathy McElHannan comes to PC from Newton South High School in Newton, MA. Kathy is a hard working right wing who makes things happen when she’s out on the ice.

Barbara Luther is a native of Fair Lawn, NJ.

Sue Passander is a transfer from the University of New Haven who has proven to be a strong asset this semester. Sue was chosen to the All-tournament team at The Cornell Invitational Tournament and centers a hard working line on the squad. Sue’s hometown is West Haven, CT.

Help cure cancer write now.

Thanks to your help, the tide is beginning to turn.

The past ten years have brought new discoveries in chemotherapy.

And new diagnostic techniques that mimic the “eyes” of X-ray equipment with the “brains” of computers. And successful new programs of combination therapies.

And there are promising reports coming in from research laboratories all over the world. We now have everything we need to save about half the people who get cancer.

Please don’t quit on us now.

Lamoriello’s Six Struggling

By John Brandolino

His office is a comfortable hideaway with all the frills of a modern apartment. A giant video screen recorder sits at one end of the room, and a leather couch rests at the other. If you were to ask Providence College President Lou Lamoriello what his most prized possession was, he almost certainly would point to the framed cover page of a 1980 "Hockey News" magazine. The copy has a picture of Wayne Gretzky on front, but slightly to the left, in bold letters it reads: "Providence Wins E.C.A.C.!

"Yes, I think they do. Now. That’s one of the reasons they came here. But it’s a transition. Think of it this way, we have put a half-dozen freshmen on a team that everyone is expecting a lot of. Yes, we are defending E.C.A.C. Champions and when you are champs, everyone is mentally ready to play you."

"I feel very good about my players as far as academics is concerned. Fourteen players have made Deans List. We have a 2.92 average overall, and that’s the best ever. Those are the kinds of things I look at and it says a lot for them."

What does Lou Lamoriello see different about Providence College than any other school? "What, to him, makes it unique?"

"What we have at Providence is the Dominican Father Atmosphere. The Dominican father foundation. I’ve been through it. (He graduated here in 1963) There is just something that they have that’s an intangible thing. The students, here, realize how fortunate they are. They can, at any time, get individual attention. They are individual persons. At any time they have the warmth of someone if they needed it. 24 hours a day. It makes this school special, and it’s something you’ll find everywhere around the campus."

Chill Out! Schneider "S" Fans—A Bit Much

By John Brandolino

It was a wild, wild Wednesday night at Schneider Arena on December 15th, a game that stands out in the minds of those who attended.

No, it wasn’t an action-packed game with numerous fights and last-second goals. In fact, it was a game that stood out in the minds of those who attended.

What really made that night special for the Friar home hockey fans who generated more noise then a Boston Garden section S and T—who have used probably every cheer and chant available to their team on.

For all of you who have ever been to a Friar home hockey game, you’ve visibly noticed the loyal group of student regulars—standing in sections S and T—who have used probably every cheer and chant available to their team on.

However, the problem is that, the Friars took an easy 7-4 victory last-second goals. In fact, it was the student fans who generated more noise then a Boston Garden period to take a 5-2 lead.

In their last two games, the Friars leading scorer—Mike Bolstad contributed two scores to that total in the first period. The Friars enjoyed a 4-0 early lead.

For the rest of the game (after that, Athletic Director Dave Rosetti reasoned that if we did positive things, there would be more students leading cheers (many of the adults, kids and priests who were totally disabled offensively. But in the middle period, the Friars went 9:30 without a shot on BU goalie Cleon Donkakis, and they couldn’t produce their first shot on net in the last period until about the 6:00 mark.

Richie Costello added a long Power-play goal with 1:16 left for the final of 5-2.

One disappointing result of the trip: Senior goalie Scott Fiske suffered a pulled hamstring early in the match and will be inactive for awhile.

Sunday, Providence met with Boston College on Sunday at Schneider. Both were interested in a home game with surprising outcomes. At Boston College, the Friars talked about an early lead.

By Dr. Richard Melzer

I must begin this column by saying that I lived through the Vietnam era of my country's history. Like thousands of others, I was horrified by the brutal war we conducted. I felt frustrated and guilty because of the apparent futility of attempts to protect and change our policy. I approach the politics of war and peace, therefore, with a sense of the enormous limits and constraints on the prospects that ordinary people will be able to exert influence. Yet such a perspective should not lead to silence of passivity. Realism does not necessarily imply apathy.

The question of what it means to be a Jewish American leads inevitably to matters affecting Israel. After the Nazi slaughter of the Jews, a Jewish homeland won its independence. Israel is both the symbol and reality of a return to which Jews did go, and could go in the future, for security in a world that demonstrably does not care. Most American Jews have a philosophical and emotional commitment to Israel, and it makes sense that we do. We are Americans because of decisions made by our ancestors a few generations ago. Had they made other decisions, many of us would have suffered and perished in the catastrophe in Europe that contributed to the creation of Israel.

It is in the context of a deep emotional affirmation that American Jews must deal with Israel's actions, even when they become dangerous, war-like, and destructive. This is what is happening now in Israel. Israel bombs a densely-populated section of Hebron, killing 70 and wounding 190, most of them civilians. We are told that they are trying to destroy guerrilla headquarters. Just as the U.S. was attempting to do when it invaded Grenada, as well as in Vietnam.

In Southeast Asia, Israel pushes further into the left flank of the Vietnamese revolutionary forces. Just as Vietnam is to ordinary people what Lebanon was to the guerrillas. Lebanon, believing that just a few more missiles will buy the safety it needs. Yet small groups of desperate terrorists will always reach their targets until they win, or some accommodation is made with them, or at least with their people.

Sad. We watch Israeli officials on American television, rationalizing and stretching the truth. It has a familiar ring, and we realize that the tone and the style are the same as those used by American officials when they were attempting to justify our actions in Vietnam.

How are American Jews to respond to these events? What is our role?

One begins by recognizing that Israel is a small country, surrounded by enemies, always in danger of destruction. One must recognize, too, that some of Israel's enemies have explicitly adopted a strategy of terrorism against civilians. There have been hundreds of murderous attacks on Israeli children and ordinary citizens in buses, on streets, in market places and schools.

Honesty compels the admission that, until now, Israel's response has been inadequate. Retaliation against terrorism has become ever more brutal. Israel's actions now seem not to be retaliatory at all, but to use terrorist attacks as the occasion to launch major military offensives. The painful truth seems to be that Israel seems willing to buy short-term security, through the use of its military might, at the expense of longer-term prospects for reconciliation. This is Israel's military and foreign policy, and it turns out to be good domestic politics, as we learned in our Vietnam period, hawks have an important advantage in an election in an embattled country.

One can only look with sadness and horror at a country whose enemies are drenched in the blood of innocent people taken actions that will inevitably kill large numbers of civilians. One watches in disbelief as each step forward in the peace process is accompanied by two steps backward toward military solutions which will, as we learned in Vietnam, prove illusory. Every time progress is made in the three-way Camp David process, an attack in the Middle East, and this is an opportunity of enormous magnitude.

Jewish Americans find themselves in a country that is Israel's important ally in a hostile world. America is vital to Israel's survival, and thus has influence over her. Here at home, it has been very difficult for American Jews to be even mildly critical of Israel, for the Jewish vote is powerful and not to be taken lightly. Israel's dependence on the American Jewish community by winning its support in the United States, it is as if Israel would seek peace, perhaps even a little more fervently than other countries.

What is the crime of Carlos Galván, the Jesuit priest, and unidentified Christians who are targeted for summary execution? While the Guatemalan government denies knowledge of the murders, there is no hesitation from official sources to label these victims as "subversive.

That explains how such things can happen in Guatemala. It does not explain how they can be ignored in the United States.

The death of thousands of persons each year in Guatemala to preserve the wealth of a few businessmen and generals does not have to go unnoticed or unprotested. In October, a month-long Guatemala teach-in is scheduled on college campuses coast to coast. There probably won't be a lot of advance publicity in the major news media of this country. Find out about the activities in your area and plan to attend. If you can, please urge someone else to do it yourself.

**Mondo Learning**

By Suzanne McKenna

When I returned to my seat, the Friars had taken the lead. It seemed great that everyone was jumping up and down like that for the end of the third quarter. What I thought.

My amazement, people started leaving with hats and coats and scarves. How could they leave after the third quarter! After all, PC had taken the lead. It was right around then that I heard a ridiculous rumor that the game was over but very acceptable to peer pressure. I, too, put my coat on and followed the crowd.

It was not until the next day that someone who had watched the game on television explained to me the mysterious happenings in the last minute. Earle and the Friars had reached a tie and had had to go into overtime. That really blew my mind away. The worst part is that I didn't even realize that the game was over in the last two minutes of the game. I didn't notice the clock ticking or the Minutemen having the lead. Mondon has to live and learn.
The Writer's Home

The writer's home he salvages from scraps of days, like dead skin on the mattress, or a callous on his hand, like dust, from slips of dreams blown clean as beans, from love a crisp as sheets, and from collapsed ideals as comfortable as cushions by the fireplace.

There are metaphors disguised as statue owls and images dressed up just like themselves, in frames. He tames a few and gets them to behave, to set and stand, like floors, like walls. Then he heaps his goods together, these hexametric lanes, a stair he likes to climb, a pepper jar, his reasons, rhymes, a rocking chair, signs, symbols, and with such reckless care, he finds a way to rearrange his room, his place, his space. He hopes it might appeal to those who seek no shelter, so when it's neat you know he really doesn't mean it.

Then, he invites you over. Usually, you don't come.

Some Ice Is Nice!

By Judy McNamara

How many times did you fall down Saturday night? Now if you didn't wear your ice skates to the Last Resort, Louis or the Pembroke party you probably fell at least twice and if you're in the PC majority you fell anywhere from ten to twenty times. Pitting the Last Resort, one could only hope to see a more perfect collegiate scene in his or her lifetime. A cool, crisp writer's eve, a friendly snowball fight and on Monday, half the campus wearing back braces or toddling about on crutches. Could this be the work of Mikos blender ready an' waiting to chipping away on Eaton Street, or move from a secluded little world of comfort and ease.

For what promises to be its best ski trip season ever.

Already, there has been one trip to the slopes which was a tremendous success. That trip took place two Saturdays ago on January 16 to Killington, Vt. The turnout was very impressive; 47 ski enthusiasts had a great time skiing in near perfect conditions. Although it was a bit on the cold side, it didn't seem to stop the students from enjoying the trip a bit. Besides, when the chair lift rides and moggie bumping tires you out, there is always the friendly lodge which can rekindle anyone with a few relaxing beverages.

The next trip that the club is planning is not a day long excursion but a week trip during February vacation, the 15th through the 19th. The resort is at Smugger's Notch and it is a pretty good deal.

The trip consists of five days of skiing in condominiums, free pool use, and sleeping accommodations in healthfully at approximately $10 to $12 per day. This deal is a terrific bargain and interest has been building. So, to find out more about the PC Ski Club trip to Smugger's Notch, make it a point to attend the important meeting on January 27, at 7 p.m. in 14 Hall in Upper Slavin.

Ski The Weekend Away

By Don Martin

With the best winter for skiing emerging, the Providence College Ski Club is getting ready for what promises to be its best ski trip season ever.

Already, there has been one trip to the slopes which was a tremendous success. That trip took place two Saturdays ago on January 16 to Killington, Vt. The turnout was very impressive; 47 ski enthusiasts had a great time skiing in near perfect conditions. Although it was a bit on the cold side, it didn't seem to stop the students from enjoying the trip a bit. Besides, when the chair lift rides and moggie bumping tires you out, there is always the friendly lodge which can rekindle anyone with a few relaxing beverages.

The next trip that the club is planning is not a day long excursion but a week trip during February vacation, the 15th through the 19th. The resort is at Smugger's Notch and it is a pretty good deal.

The trip consists of five days of skiing in condominiums, free pool use, and sleeping accommodations in healthfully at approximately $10 to $12 per day. This deal is a terrific bargain and interest has been building. Exercise to Success

Susan Turgon and Cathy Ryan, two PC seniors are holding exercise classes on Tuesdays and Thursdays from 4:15 to 5:15 in the activity room. The "old girls' gym" in Alumni Hall, Sue and Cathy have worked in exercise and figure salons for several years. They have gained their experience and their fitness from places like Gloria Stevens, Total Women and Light and Lovely.

Susan and Cathy have learned that exercise is both fun and satisfying. Their classes will consist of a combination of stretching, exercising and aerobics with the goal of working every muscle and shaping up those flabby waistlines. So far, about 30 girls have signed up. The cost is a low $15 for 8 weeks and 16 classes. Sue and Cathy look at their classes as a great way to share what they have learned with fellow students as well as having fun and earning a little pocket money for their efforts.

Last week the classes began and all members enjoyed the brisk exercising and background music. Anyone interested in trimming down stop by the gym Thursday afternoon and sign up with Cathy and Sue. Until then stay slim.

Two Way Street Returns for '82

By Judy McNamara

On February 26, the Providence College Ski Club will gather together for one final time before Commencement. This is not just another event. It is an evening of tradition, friendship and beginnings. It is the beginning of the 82 days until graduation countdown and what better way to begin counting than with Two Way Street where it all began.

Back in October of 1978, Rob Giovinco, Laura Foley and company, organized their first of a string of successful events bringing the now renowned Two Way Street to PC. Thinking back to freshman year, one remembers that first mixer; all those now not-so-new faces, the excitement, the expectations, the path ahead. On February 26, before the class embarks on many different journeys in various directions, it is time for one last '82 event, the Two Way Street grand finale. Seniors only.

This is it. The countdown begins and the 82 days party is the place to be when that clock starts ticking the calendar away. The Marriott ballroom will provide the atmosphere for Two Way Street's special appearance. They have broken a previous engagement in order to perform one last time for the Class of 82. So be there Friday, February 26, from 9-1. Dress is casual and tickets go on sale Thursday, January 28, from 9:30 to 3:30 in Lower Slavin.

"82 DAYS PARTY"
FRIDAY, FEBRUARY 26, 1982
featuring
"TWO WAY STREET"
from 9-1
at the Marriott Grand Ballroom
Tickets are $5.00 and are on sale starting
Thursday, February 28, in lower Slavin
We came here as a last resort.

(Continued from page 10)

Who are you? Mary who?

One cannot even fathom the possibilities: what love has been born while hands chapped under soapy water? I think kindly on an old friend, forced by economic woe to the terrible "pits" of Raymond Cafe who there encountered, perhaps pregnant with the smell of a thousand sloppy joe leftovers, the true answer to all the desires of her young heart! Their future promises the happiness of marriage and the bliss of doing their dishes once again together! Can you honestly tell me that washing dishes is any less romantic than poetry?

Now consider the Alembic. PC's literary magazine, flooded this year with hundreds of masterful literary works, and a few out-literary works. PC is a wealth of closet poets! While reading the submitted work, I came upon a poem so inspired, so beautiful, so passionate that I was nearly moved to tears!

Granted, I also came across a small number of works which convinced me that their authors, should they ever try professional writing as a career, would end up washing dishes to pay the bills. This poet had captivated me; I walked for days, catch phrases of the poem dancing in my head, marvelling at their beauty until I was finally driven to seek out the poet and ask this student to indicate the source of inspiration for the poem. Unrequited love? A provoking glimpse of nature?

The reading of a great literary work? No, dear readers, none of these answers were given me. Hands hungrily engaged at the task of scraping the burned Kraft macaroni and cheese off the bottom of a dirty pot were the same hands that moments later scribbled down such beauty! Once again, my conviction that the washing of a dish and the writing of poetry or prose are related has beenundeniably confirmed.

There is no doubt that dishwashing is an imperative to art, yet not all such writing has been beautiful and kind, and in fact, (believe it or not!), some has been harsh and critical! Upton Sinclair, social reformist and propagandist of Socialism, did dishwashing as the root of much writing this week's "Thoughts".

Dear R&P,

Our floor is the noisiest on the whole PC campus. I think the kids on the floor don't even know the meaning of the word quiet hours. I don't even think they know the meaning of the word quiet. They have no respect whatsoever if he is there in the afternoon or three in the morning. We...continually...ask...them...to...keep...it...down...but it doesn't do a thing. But if we might decide to make a little noise, even if it is during quiet hours, they're the first to come knocking at our door telling us to shut up!

Needs Some Peace and Quiet

Dear R&P,

If talking to them yourself doesn't help, try talking to your RA. That is what she's there for, to keep order on the floor. If that doesn't work try speaking to your head resident. Don't try giving them a dose of their own medicine. Trying to do the same thing makes you just as bad as they are.

Dear R&P,

What do you have to say about a good friend who went out with the guy you like behind your back?

The Friar Forecast

By Jean Ludwig

Aquarius
Jan. 21-Feb. 19
Be on the lookout for a back stabber but all isn't bad because things will turn out for the best. Money will be tight this week, so spend wisely!

Leo
July 23-Aug. 22
This is your week to make others happy so get in contact with old friends. Problems will work themselves out so stay confident and keep busy.

Virgo
Aug. 23-Sept. 22
The beginning of the week looks rough but things will improve greatly by the weekend. Friday will be your best day so start your weekend out with a bang.

Libra
Sept. 23-Oct. 22
Look forward to Thursday — by then your mind will be clear of all obstacles. Keep in close contact with your loved ones.

Scorpio
Oct. 23-Nov. 22
This week will bring about some absolutely fabulous changes in your life. Set your mind on any goal and you'll be able to achieve it.

Sagitarius
Nov. 22-Dec. 21
Cupid's arrow will pierce a heart this week so keep your communications open. Give lots of love to others this week because it will be returned ten fold.

Capricorn
Dec. 22-Jan. 19
Stormy weather is on the horizon in your love life but things will be smoothed out by the end of the week. Have fun and concentrate on yourself and your happiness.
