**Women to Lead BOG**

---

**Schiano, Gioffre Defeat Male Opponents**

Yesterday afternoon, the Providence College student body elected the officers for next year's Board of Governors. Nancy Schiano, '82, a business-management major, defeated opponent Mark "Hube" Caffrey, '82, to become the first female BOG president.

The North Bergen, N.J., native stated shortly after her election, "Next year I hope to continue to provide the diversified activities that we have worked so hard to implement this year. I will do my best to meet the needs of the students and maintain communication with the administration."

Kathy "Kat" Gioffre, '82, was successful in her quest for the office of vice-president. The Spanish-business major of Port Chester, N.Y., ran against junior Phil Drueck.

In reference to her new position, Gioffre noted, "I hope to further the success and improvements that this year's Board has achieved. I would also like to see more students get involved with the Board of Governors."

The office of treasurer goes to Gerry Yapaola, who ran unopposed.

Yapaola, a member of the Class of '83, was unavailable for comment.

The chairpersons and secretary of the BOG will be appointed by the new Executive Board of the BOG.

Anyone is welcome to try out for the position of chairperson of any of the 13 committees.

No prior BOG experience is necessary.

Interviews for chairpersons and secretary of the organization will be held on April 6, 7 and 8.

All are welcome to make an interview appointment in the BOG office in Upper Slavin, by March 30.

---

**Friars Club Elects New Members**

By Peggy Hogan

It's happened every spring for the past 53 years, and Sunday, March 22, was the end of three weeks of elections for the Providence College Friars Club.

Dedicated to service to the College, the Friars Club is highly visible on campus. They assist at Freshman Parents' Day, and Parents' Weekend courses registration, alumni functions, hockey games, Oaktoberfest, and Commencement. In addition, they are frequently seen giving tours of the campus.

Comprised of 30 seniors, 18 juniors and eight sophomores, the club must replace over half its members each year due to graduation. Friars Club vice-president Joe Coggin commented on the difficulty in electing new members. "Nothing is more disheartening than having to choose some people over others. Everyone would have been good, just by the fact that they were sincere enough to make the effort to try out."

For the newly elected Friars, their term of service to the College begins immediately.

"Congratulations and best of luck to the following 31 students: Juniors — Lou Archangelo, Janet Archer, Sam Berlin, Brigid Collins, Patty Cotiarn, Karen Duffey, Sue Duffey, Lisa Ferruccio, Kelly Keane, Laura Murphy, Jim O'Connor, Jeff Wootlid.

Sophomores — Roberta Anderson, Mary Ellen Batchelor, Celeste Bergeron, Colleen Cronin, Jane Dillm, Frank Flaherty, Mary Ann Gallagher, Catherine Braher, Tom Kucia, Dave McNamara, Jimmy Bashin.

Firstyears — Robert Casey, Kell Coleman, John Elcock, Jimmy Iaco, John Kennedy, Tom McCarthy, Lori Passman and Glen Rotondo.

---

**Congress News:**

**More Housing Problems on Campus**

During last Sunday's Student Congress meeting, Dennis McInerney, student representative to the Committee on Ad­ministration, noted that at the present, there are over 16 female resident students who have not been guaranteed beds on campus for the upcoming academic year.

There are approximately 50 beds available for males. Those figures are not steadfast, as the admissions process is not yet complete for next year.

McInerney also noted recent cases of vandalism on campus. Besides trouble in the Colonel's Corner, there has been over $2000 worth of damage on the third floor of Guzman Hall.

In other Congress news, Steve Duryea was sworn in as the new president of the Off-Campus Residence Organization.

Details are complete for the Board of Governors' Spring Week. Tickets for the week's events will cost approximately 82.

Rob Gioffre, chairman of the legislative committee noted that there are currently 46 clubs and organizations on campus. Fifteen of those clubs are currently without constitutions. Also, a new organization, the Young Americans for Freedom, was just recently approved.

---

**1981 Spring Week Plans**

By Doreen Ponolillo

Plans for Spring Week, the Providence College Board of Governors' grand finale of the semester, have been finalized. BOG president L. Joy Manning has announced the order of events for the week of April 27 to May 3.

"Entertainment Night" will begin the week featuring escape artist Mark Mazzeoello and hypnotist-comedian Bill Schoffer in '64 Hall on Monday night.

On Tuesday afternoon, Judy Powell, former President Car­rier's press secretary, will be the guest speaker in '64 Hall.

The film committee will be the hosts for Wednesday. Featured will be two afternoons of screenings.

Art Club
Abraxas presents the movie, "Shock of the New Culture of Nature," tonight at 7 p.m. in Joseph 212. Tomorrow evening there will be a spaghetti dinner in 64 Hall at 6 p.m.

Spending the Summer in Basic Camp

Many students spent last summer traveling or going to the beach. However, some students here at Providence College are saying their summer went quite a bit differently. They're talking about land navigation, rappelling, and mountaineering exercises. Why? Because more than 1,000 of these students spent part of their summer vacation at a completely different place—a Army ROTC Basic Camp at Fort Knox, Kentucky.

Basic Camp is a part of the Army ROTC Two-Year Program, said Lt. C. Robert C. Stepovich, Professor of Military Science at Providence College. "It was set up for students to get Army experience and a taste of the life we lead. And they are paid for it."

The Army ROTC Two-Year Program is especially tailored to fit graduates of junior and community colleges and students at four-year schools who did not take ROTC during their first two years at college. If they complete camp successfully, they are eligible to enroll in the Advanced Course when they return to school. If they decide to enroll in Army ROTC, they are on their way to being commissioned as second lieutenants.

PC Prays For Atlanta's Kids

Last week the Providence College community paid tribute to twenty children of Atlanta, Georgia, who are missing or have been found dead. Many students and faculty members could be seen wearing small green ribbons as a reminder of the still unsolved tragedies. A Mass in Aquinas Chapel was also celebrated for the children.
In Memoriam
James Vincent Cuddy
PC Associate Athletic Director

Providence College suffered a tragic loss with the death of James Vincent Cuddy on Tuesday. Cuddy, 61, was well known in PC sports. During his 31 years here, he served as basketball coach, business manager, sports information director and associate athletic director. The Friars basketball team was led by Cuddy from 1980 to 1985 during which time they held a 74-44 record and participated in three national tournaments.

Cuddy, a native of Naugatuck, Conn., was a three sport star at the University of Connecticut excelling in basketball, football, and baseball. He attended Infantry Officer Candidate School at Fort Benning, Ga., and in 1944 went overseas as captain in the 82nd Airborne Division. During this period he coached the football and basketball teams in his division. Upon his return, Cuddy earned his masters degree in physical education from Columbia University in 1947.

The Providence College community will always appreciate Cuddy’s role in Friar athletics. We extend sincere sympathy to his wife Mrs. Jane (Washburn) Cuddy and his three sons, James, Paul and Michael.

Rev. Kenneth C. Sullivan, O.P.
Former President of PC Corporation

During Father Sullivan’s 31 years here, the governing board of the school, a Task Force on Co-education was formed to study admitting women and the school became co-educational in 1971.

Father Sullivan received an honorary doctor of law degree from the College in 1982. He was a native of East St. Louis, Ill., a son of the late John and Margaret (Murphy) Sullivan. His early education was in parochial and public schools there. He was a 1931 graduate of Providence College.

After his ordination in 1936, he served at two New Jersey parishes until 1956, when he came to St. Pius Church in Providence. During his nine years as pastor and prior, the parish built its new church on Eaton Street.

Pastor of St. Gertrude’s Church in Cincinnati from 1966 to 1973, he returned to Providence that year and was pastor of St. Raymond’s Church until 1979.

He leaves a sister, Mrs. Margaret Niemann of St. Louis, Mo., and two brothers, Joseph Sullivan of South Lake, Wash., and Robert Sullivan of Collinsville, Ill.

A Mass of Christian Burial was held Saturday in his church. Burial was at the Dominican Cemetery at St. Rose Priory, Springfield. Reprinted from The Providence Journal.

The entire Providence College community expresses its sympathy to the families of these great men.

You’re Invited!

WORKSHOP: HOW DO I FIND THAT SUMMER JOB OR INTERNSHIP?
If you’ve got the initiative, we’ve got the plan.

TIME AND PLACE: 2:30 P.M., SLAVIN 217, APRIL 1

SPRINGFIELD COLLEGE: GRADUATE PROGRAMS

Mr. Don Shaw will be here to talk to interested students about Springfield College’s graduate programs in Community Leadership, Guidance and Psychological Services, Physical Education, Recreation and Leisure Services, Rehabilitation Counseling, Teacher Education, and Psycho-Physical Movement (relative to Sports).

TIME AND PLACE: SIGN UP AT THE COUNSELING CENTER. APRIL 6

GRADUATE SCHOOL PANEL

This meeting will cover the process of choosing and applying to graduate, law, medical, or other professional school.

Juniors, be sure to be there!

TIME AND PLACE: 2:30 P.M., SLAVIN 110, APRIL 8

Providence College Counseling & Career Planning Center

CLASS NOTES

1981

Bids for Commencement will go on sale Monday, March 30. They will cost $88 and must be paid in full. The week includes a slide show at Rhodes on the Pawtuxet, a day on Block Island, and a Commencement Ball at the Park Plaza Hotel in Boston.

1982

Bid are on sale for Springfest. It will be held at the Shamrock Cliff Hotel in Newport on Friday, April 24. The evening will include cocktails, dinner and dancing with "Second Society." The cost is $25 per bid.

1983

Rings will go on sale in April. A deposit of $40 will be required.

1984

The freshmen will hold a mixer with DJ Peter Walsh, ‘81 on Friday, April 24, in Slavin Center.
Editorials

PC Formals

How Far Can We Go?

Recent trends surrounding formal dances and social occasions sponsored by the classes and organizations here at Providence College has caused considerable concern by members of the student body. Because of the effects of these trends, the Cowl Editorial Board feels the situation is worthy of comment.

First of all, bids for most of these events have greatly increased in price. For example, the last year's commencement bid was $15 and covered three days of events. In addition, most formal bids now cost in excess of $25, whereas last year many cost less than that amount. This inflation has caused a rise in costs. The Editorial Board of the Cowl questions this rise for a substantial increase in expenses. Planners of future events should keep in mind that many PC students are on a tight college budget and cannot afford to attend these more expensive activities.

Secondly, the Cowl Editorial Board urges the classes and organizations to take a long, hard look at their choice of locations for these formal bids. Recently the trend has been to hold formals at the Sheraton Islander and Shamrock Cliff in Newport, and the Park Plaza in Boston. While we realize the obvious attraction of such elegant hotels, we wonder about the negative consequences of their distance.

Both Boston and Newport are approximately an hour away and necessitate the use of a car for transportation. Since most students do not have a car, this creates a situation which unfairly penalizes the less fortunate student who cannot afford a car. Therefore, must borrow someone else. The solution of providing buses to a formal has little merit, since it is unrealistic to expect students to get dressed up and then board a school bus with their date. The recent '81 Days Party did use school buses, however, it was a singles event.

Also, with the price of gasoline hovering around $1.50 a gallon, the cost of driving to these formal bids greatly increases their overall cost. This means that students not only have to spend $25 for a bid but they have to pay $15 for gas.

The most serious consequence of these far away locations is the "drinking and driving" factor. Many times these formals turn into drinking occasions that force a student to drive a long distance in an intoxicated state. While, in some cases, it exemplifies the irresponsibility of students, it is a reality and must be a consideration when planning an event. This safety factor should be the number one priority of those who plan these formal bids.

For this reason, the Editorial Board of the Cowl urges, that in the future, the amount of formal bids at great distances from the college be kept to a minimum. Extravagance is high price to pay for the safety of the PC student body.

Morning Shines In the Last Resort

The Last Resort, located on PC's Lower Campus, has become a very popular and frequent place on Friday and Saturday evenings. The Resort does offer other services, however. The Editorial Board of the Cowl would like to recommend that Providence College students try one of these other services, a new breakfast alternative which is the Last Resort Morning Coffeehouse.

Every morning, Monday through Friday from 8 a.m. to 11 a.m., the Last Resort is open for coffee and tea and many different sorts of breakfast pastries. The Resort provides a very nice, casual atmosphere; students can walk in and out as they please. For the student who lives in an off-campus apartment and is walking to class, the Resort is very convenient and can be used for that quick something to eat for breakfast before class.

The Board of Governor's has done a commendable job in its use of the Last Resort. However, many students are not aware of the Resort's Morning Coffeehouse. The Editorial Board of the Cowl feels that if students would give the Coffeehouse a try they would find it to be a very pleasant and inexpensive way to start off the morning.

In addition to the student body, the Editorial Board believes that PC's faculty might enjoy the Coffeehouse. The Resort is located between Howley and Koffler Hall and could be a nice meeting place between the social sciences and the business world.

From the editor's desk...

The results are in and all of the new members of the Friar's Club have been chosen. They are all members of the PC student body and, therefore, deserve their fellow students' support. However, each year at this time an ironic situation develops. Many students who could not wait to get into the club, now, after not being chosen, have nothing good to say about it.

This is extremely unfair to the many hard working members of the Friar's Club who are forced to put up with these negative comments from their fellow classmates. They put many hours into working, checking at social occasions, ushering at sporting events, giving campus tours and helping out in many places throughout the PC community. Being a "Friar" is not a glamour job. Rather, it is one that requires dedication to serve the College.

Under the direction of president Jimmy Eloc, the Friar's Club has greatly improved its image here at Providence College. Hopefully, this new group of "Friars" will carry on in this tradition.
Let's Try it the Military Way!

Dear Editor:
May I suggest the adoption of the words "plebe" and "cadet" to replace the sexist words "freshman" and "upperclassman," respectively, in our collegiate vocabulary? These words are non-sexist and present a simple solution to the problem of bias brought up in last week's Cowl. These words are also currently being used in the co-educational institutions of the military of this country.

Sincerely,
Bernard T. Loughran, Jr.

How Far Is Too Far?

Dear Editor:
How far is this women's liberation movement going to go? Sorry girls, females, opposite sex, or whatever you want to be called at this time, but the suffix "men" is used as a universal term. In my opinion, and the majority of opinions, this suffix does not imply sexist terminology.

The only solution I can offer for removal of these so called "sexist" terms is a first year student for "freshman" and third year student for "upperclassman." I would rather be called a freshman or upperclassman instead of these other terms but what do I know, I'm a "male."

Upperclass MAN
(Name withheld upon request)

Counseling Center Notes

Are you thinking about graduate school? You may be asking yourself some of these questions: Is graduate school appropriate for me? What undergraduate school really like? What can I do to increase my chances of acceptance? How do I choose a school? What kind of financial assistance is available? When should I apply? What are the GRE, MAT, GMAT? Which one should I take?

If you are a junior you might be asking yourself some or all of these questions as your last year in college becomes more of a reality. It's not too early for sophomores to begin considering graduate school. If you are a senior, it's never too late.

In order to help you get the information you need to decide if there is a graduate school in your future, the Counseling and Career Planning Center is sponsoring the Graduate School Forum on Wednesday, April 8, 2:30 p.m. to 4 p.m., in Slavin Center 110. A panel of administrators and faculty will share their knowledge, experience, and expertise in the area of graduate admissions both from a general point of view and the specific vantage of the various academic fields that will be represented.

If you are at all considering continuing your education after the bachelor's degree, you should take advantage of this opportunity.

DID WE DETECT SOME INTEREST?

If so, join the COWL Staff—stop by Slavin 109 today!

Inquiring Photographer

Do you feel formals are becoming too expensive and too far away?

Just a reminder:
All “Letters to the Editor” must be signed by the author. No letters will be accepted without a valid signature.

Drop Us a Line!

Remember to wear a green ribbon as a memorial to the children who have been murdered in Atlanta.

CLaire Cerni '83
"Yes, for one thing it's dangerous to have to drive very far after a night of drinking.

DOUG WILCOX '91
"I've never been to one because I can't afford them.

JoAN DALY '82
"In my situation it hurts, because my boyfriend doesn't usually pay or drive. I do!"

MARGHARTY '82
"Find me a date and I'll let you know."

BARBARA BARGAAT '82
"I think it's too expensive for what we get, but it doesn't affect me personally, it affects my boyfriend."

Madeleine McCoy '82
"Yes. A lot of people can't afford it. I think the price of Commencement is too much for what's offered."

Features

JOSEPH HALL
First Annual Banquet

Thursday, March 19, St. Joseph's Day. Joseph Hall held their first annual dinner dance in '64 Hall.

The idea was introduced by Brother Kevin O'Connor, head resident of the hall. With the combined efforts of Brother Kevin, Rev. Gino E. Bondi, O.P., Paul Murphy, dorm president Joseph D. Murphy, director of food services, all the men in Joe's and various others a very special night was planned at very low cost.

Cost was cut down because of various donations. Many of the items in the dorm, especially those from Branford, Conn. pitched in with delicious tomato sauce from home. Father Bandi exercised his hidden talents as a chef and boiled up pounds of pasta. Mr. Murphy donated salad dressing and tablecloths. Many girls assisted in the cooking. It was a great joint effort by all.

In honor of St. Joseph's Day, the "Good Joe" award was given to Rev. Robert A. Morris, O.P., who was very influential in the decision made to keep Joseph Hall a men's dormitory. Chris Tubridy also presented Father Morris with a special scroll for his efforts. This effort was especially important to the freshmen and sophomores living in the dorm presently. Most of them hope to return to Joe's next year.

President Paul Murphy feels that the guys in Joe's exercise a certain sense of pride in their dorm. The spontaneous nature of Thursday night and its overwhelming success exemplifies the pride. Everyone pitched in and made it a night to remember.

D.J. Peter Walsh provided music in a chronological fashion from the '46s up to the present. Everyone danced the night away. When people work together like those in Joe's, a great night can be organized for only $7 a couple.

Plunkett Returns

By Judy McNamara

The Class of 1963 is pleased to announce that Jim Plunkett this Friday evening in Alumni Hall from 9–1. Jim Plunkett is a very well-known sing-a-long entertainer who loves his roots and his music.

Jim, a native of Somerville, Mass., right outside of Boston, now resides in Stoneham, a suburb on the outskirts of Boston.

He has made entertaining his life and puts a lot of time and effort into getting better and better.

Jim spends long hours in his studio practicing old songs as well as learning new ones. He is also very much interested in photography and slide shows. His equipment holds over 5,000 slides at once. Jim enjoys incorporating his music into a sing-a-long slide show. This was very successful at PC a few years ago. Jim tours colleges all over Massachusetts and Rhode Island.

A Semester at Sea:
A Floating Education

By Mark McBurney

Mark Twain once said, "Don't let schooling get in the way of your education." That essentially is the philosophy of the Institute for Shipboard Education, my home for the next few months.

The ISE, more popularly known as "the semester at sea," is a semester abroad program under the auspices of the University of Pittsburgh. This program puts maximum emphasis on in-person experiences, but on the true philosophical sense of the word. It seeks to make that knowledge available to its students through a most reliable device, travel.

The setting of this floating college? A 18,000 ton cruise ship. In four months, the S.S. Universe will ply the coast of South America to the west of America, stopping in Cape Town. Then turn east to Africa and Asia, stopping in Cape Town. In all, there are ten ports of call made. Once docked, there are numerous opportunities for side trips, most notably Angel Falls in South America, Victoria Falls, a safari in Africa, a visit to the Taj Mahal, Mount Everest and Peking in Asia.

When the ship is not in port, classes are conducted by 50 professors and doctors. Due to the desirability of such an experience, the Institute can afford to be extremely selective in its choice of faculty members. The results are astounding.

Numerous Fulbright fellows, two former U.S. ambassadors, and a host of assorted specialists and masters in their field are all part of the journey. The quality of the faculty cannot be overemphasized.

The student body is also intensely screened. The students are diversified, extremely motivated and very capable. Every faculty vital for a normal, healthy college life is on board. These include a library, video room, volleyball and basketball courts, a bar as well as a disco, pool and movie house.

At 26 years of age, the students are on board in the prime of their lives, having the time of their lives, experiencing the best this life has to offer. Through it all, only one question remains unanswered. Is there life after college?
Aerobic Dancing: Latest Intramural Activity Makes A Big Hit

By Judy McNamara

If you have not heard about the latest in intramural activity, then you're missing out on a very special opportunity. Diana Cowels of Newport, R.I., has been teaching aerobic dance for the past three weeks at Providence College.

Miss Cowels graduated from the University of Iowa with a degree in dance. She also has a Masters of Fine Arts in dance from Connecticut College.

Miss Cowels has danced all over the country, and is a professional dancer and choreographer. She directs her own dance studio in Newport. Also, she teaches part time at the Newport school system. In October, a Halloween Party for St. Mary's Orphanage was held. Catherine Greaber '83 Cowl Photo by Steve d'Arrigo

Miss Cowels has done choreography for the PC Rhode Island College, Roger Williams College and now at PC. Miss Cowels has done choreography for the PC basketball cheerleaders and various television shows. She is involved in singing-dancing telegrams, and teaches dance in the Newport school system. Recently, she finished a dance concert with four other girls for the arts Council in Newport. Miss Cowels is constantly on the go because dance is such a special part of her life.

She teaches many people with her talent and has reached out to over 200 PC women. When Diana initiated the aerobic dance class at PC, Jerry Alaimo, director of athletics, and herself, estimated about a 50 girl turnout. Instead of a faltering participation, the crowd expands weekly. The girls pay $5 a piece for eight weeks of classes, with two classes per week. They meet every Tuesday and Thursday from 4:30 to 5:30 p.m. in Alumni Gym.

Why is there such a big turnout? Miss Cowels explains that aerobic dance is a physical fitness program for fun, energy and dance. She uses popular music and the workout turns into an enjoyable hour of activity.

Besides all this, aerobics is a cardio-vascular muscular, metabolic and emotional "conditioner." The exercises tune certain sections of the body, and the different routines concentrate not only on trimming but also on balance and coordination. It conditions you totally. It helps your flexibility, your posture, your spirit, etc. It even helps to relieve tension after a rough day.

For Diana, it is a principal rhythmic activity that she makes fun for everyone.

Miss Cowels teaches the class on the Heathcords so all the girls can see her. She skips and slides and pops up and down changing records. She is a woman full of energy and charisma who finds it challenging to teach others with her talent. Miss Cowels hopes to teach aerobics again next semester at PC. The next time around she will probably put some limits on the number of participants so that she can offer more personal attention to the girls.

Thanks, Miss Diana Cowels, for providing a special intramural activity that so many PC girls enjoy.

Thanks, Miss Diana Cowels, for providing a special intramural activity that so many PC girls enjoy.

Catherine Greaber '83

Catherine Greaber '83

The Editorial Board of the Cowl has chosen Catherine Greaber of the Class of 1980 for Student of the Month. Catherine is an accounting major from Atlanta, Georgia. Besides her superior academic record, Catherine finds the time to take part in a lot of special activities at Providence College.

She is the vice-president of the Pastoral Council and recently helped organize the food fast for Ash Wednesday. Fasting took place in Raymond Cafeteria as well as off-campus students. The Pastoral Council also aids in activities conducted by the Chaplain. Rev Thomas Kettle, O.P. For example, the Pastoral Council assisted with the Mass for Atlanta children and the distribution of green ribbons.

Aside from Pastoral Council, Catherine is also a member of Circle K which is a sideline of the Kiwanis Club. Circle K is in the process of being rebuilt presently. It is a club that provides service to the community. In October, a Halloween Party Parry for St. Mary's Orphanage in Providence was held. Catherine was just initiated into the Friars Club. As if all this activity were not enough for Catherine, she is also a member of Ladies' Auxiliary of the Knights of Columbus, a very notable organization at Providence College. They are now in the process of planning a fund-a-thon to sponsor the St. Vincent Home for children.

Catherine also assisted in the skating program for the Meet Street School. This program was held every Tuesday over the winter months from 10:30-11:30 a.m.

Finally, Catherine was just initiated into the Friars Club. Catherine is an accounting major from Atlanta, Georgia, to Providence, R.I. PC is very fortunate to have such a talented, active, sacrificing student. Thank you Catherine Greaber, for traveling 1,000 miles to make PC a little bit better place to be.

Spring break is little more than two weeks away but already many PC students are getting ready for their vacation in Florida. For those who are planning their first trip, Florida offers a wide variety of entertainment.

Tourist attractions dominate the state, being led by the world’s most popular, Walt Disney World. Located near Orlando, it features many adventures centered around the “Magic Kingdom,” where fantasy comes alive.

Among the rides that shouldn’t be missed are: Space Mountain, Big Thunder Mountain Railroad, the Haunted Mansion, Pirates of the Caribbean and the Country Bear Jamboree. Space Mountain is one of the most terrifying roller coasters you’re bound to ride, as it simulates a rocket ride through outer space.

If you have extra time, you can enjoy swimming in River Country or explore the shops in Walt Disney World Village.

For the circus lovers, there is Circus World which is located about ten minutes from Disney World. It features a variety of circus acts, as well as numerous thrill rides.

Another popular part of Florida is the West Coast. Many beautiful beaches line the Gulf of Mexico and offer a change of pace from the overcrowded beaches in Daytona and Fort Lauderdale. Some of the more interesting spots include Ft. Myers, Sarasota, Tampa and Tarpon Springs. Tarpon Springs is a historic Greek settlement near Tampa that features many different shops.

Sarasota is the home of Ringling Brothers Circus. The Ringling Museum features memorabilia of the famous circus in the original family mansion. For the sun worshipers, Longboat Key has some of the finest waterfront in the Sunshine State. Tampa, one of the fastest growing cities in the South, is the hub of the West Coast. It is the home of the Tampa Bay Rowdies soccer team and the Bucs football team. However, its biggest attraction is Busch Gardens. The “Dark Continent” as it is called, gives you a chance to go on a safari without going to Africa. Its numerous rides and shows make it a day’s worth of entertainment.

For the beer lovers there is a tour of the Anheuser-Busch brewery.

Lastly, there’s Miami, but then there has already been enough publicity on this city. In reality, it still is a nice place for a vacation—especially Key Biscayne which is located right off the coast and is connected by a causeway. It is basically one of the less spoiled places in the area.

In closing, one tip about a trip to Florida is bring lots of $$$.

Volleyball Team Struggles for Playoffs

By Jay Skelton

It was a tough night for the PC volleyball team as they hosted Bryant College last Monday night. The tournament-bound Friars did not play up to par; their game was dominated by BC Indians, who played their best, taking the match in three games.

The team struggled with their serve, getting only a 14% serve rate. In addition, they were unable to block the ball effectively, only blocking 1 out of 10 BC shots.

The Friars were also outmatched in the offensive department, managed to build a lead within two sets, but ultimately lost in three sets.

Defensive plays by Rick Fagan and managed to clinch within two sets at 11-9. However, that was the closest they got BC went on to win, 15-16.

The Friars now sport a 64 record and will have to regroup for next season's challenging season at U-Mass. Captain Dana Johnston continued, "We were there to beat them and there was no way we could lose." concluded senior Paul Stasiuk.

As Steve Anderson said of the Clarkson game, "We didn't play our best. We just ran out of gas. A kick across field in error caused a score that Babson should have never gotten." in the 8th term.

Championship Season Comes to An End

Tech Surprises Friars: Huskies Roll 7-3

The Friars went into Friday night’s NCAA quarterfinals expecting to face some stiff competition. “Any team you play at this point is a good team,” said Coach Lou Lamoriello. But what Providence didn’t expect was a fast skating Michigan Tech to come in and capitalize on just about every break that came their way. “We certainly didn’t have a good game,” admitted Lamoriello, “but we sure don’t get a bounce our way as far as the second and third period went. And it seemed everything they (Michigan Tech) did, they got a goal on!”

Losing before a sellout crowd at Schneider is tough, but losing 7-3 is worse. The winner of the two-game quarterfinal is decided by the squad who produces the most goals in the series. PC found themselves down by four scores going into the second contest. It’s difficult to defeat the strong western Huskies, let alone by at least four goals. They easily won their last eight games which helped them climb to second place in the WCHA playoffs.

Bright spots for Tech were Rich Boehm, their junior leading scorer (Boehm missed the last three weeks of the regular season, but still was on five of the seven goals against the Friars on Friday.) two Swedes — Mike Lauen (Prolonged playing time) and 24-year-old Dennis Hjelmquist — and awesome freshman Bill Terry from Ontario. This talent was all brought together by college hockey’s winningest coach ever, John MacInnes (259-239-30.)

Michigan Tech jumped out to a lead they would never relinquish when they scored on their first two shots on net. The first came just 10 seconds into the game. Bill Terry controlled a face-off to the right of Mario Froux and then sent a high shot past goalie Stiles waiting at the point. The 5-11, 200-lb. Stiles then let a rocket slap go that found its way to the net. At 7:10, Mel Pearson made a nice backhand move around Proulx to make it 2-0.

The Friars worked well in the first period, where no team seemed to dominate. What the Friars couldn’t do was control the puck in the Huskies end; this led to numerous fast breaks against the quick Tech forwards. It was on such a break that Rick Boehm got his third goal of the period at 16:29.

The Friars lone score in the first period came on a powerplay scramble by Mike Bolstad. After one the score was Huskies 3, Friars 1.

The second period was disastrous for Providence as the Huskies rallied for three goals in just three minutes. Boehm found Mike Lauen streaking down the right wing side just 1:17 into the middle period to make it 4-1. 21 seconds later Michigan led by four on another steal by the Swede Johansson. The disenchanted fans witnessed PC’s poorest segment of the match. It started at 4:16 of the same period when Tim Walters faked Proulx to make it a degrading 6-1. After that the Friars struggled defensively to contain the Tech Blitzz. For about 10 minutes Providence fell back in their own zone and had trouble setting up even in a power play advantage. (10:08)

The Huskies enjoyed the five-goal lead until five minutes into the last period when John Sullivan capitalized on a two on one break with Gaus Orlanda. This lifted the spirits of the home team but only for about 96 seconds. It was then that Nick Schwartz knocked in a rebound off a screened shot to boost Michigan Tech by five again. John Sullivan got his second of the period with a mere 10 seconds left in the game for the final 7-3 defeat. “It’s still not over,” said a calm Lamoriello after the game.

“Here we have another night, you know we’re too mature to throw in the towel.”

But, then again the Huskies are not ready to lean back on a four-goal lead either. In fact, Coach MacInnes believes his team did not play to their potential and hopefully they would improve their performance on Saturday. “I didn’t think we played as a unit,” commented MacInnes. “We capitalized on a few opportunities and I think that is the difference in the game. We got to where we are because of a good defensive game and I’d say we only played about a C-game tonight, on defense.”

Schneider Arena now quieted down. The “Never Say Die” Friars faced the impossible odds of making the big comeback. Michigan Tech had picked up their last momentum, and now began to control the NCAA game which had been all Friars for almost two periods. With 3:45 left in the game, some pretty passing by the Huskies found center Ron Zuke all alone on Proulx’s right side for the eventual game winner.

Perhaps the rest of the game is not important, because now the Friars can look at a very successful season and a bright future.

The end of the game found the fans waiting, standing and cheering for a return of the champions. As the team poured out, senior Steve Evangelista carried the Championship Cup around Schneider Arena, the loss to the Huskies seemed very far away.

Senior Paul Statiusk said of the season, “We have beenrad. two games against Michigan Tech.

A third period of the final game opened with PC ahead, 4-3. Shortly thereafter, a Scott Klettenhorr double deflected off of Mike Toppano’s stick for a two goal lead.

Schneider Arena erupted as fans sensed the Friars might pull another Boston Garden miracle.

Colucci and Gouin combine on a weak offense.

Fans Support Friars to the Very End

By Thomas Woodford

Following a string of victories and an ECAC championship, the Providence College hockey season came to an end in the Schneider Arena last weekend, in two games against Michigan Tech.

A third period of the final game opened with PC ahead, 4-3. Shortly thereafter, a Scott Klettenhorr double deflected off of Mike Toppano’s stick for a two goal lead.

Schneider Arena erupted as fans sensed the Friars might pull another Boston Garden miracle.

Round Robin and Babson Match

Start off Rugger’s Season

As the Ruggers of Providence walked off the field two weeks ago in Cranston, they left an impression on URI. Brown’s get the Providence Rugby Club that could be called more than just good. Meeting URI first in the round robin competition, PC didn’t expect to fair well. URI has been known as a strong team with consistent players. With scores by Both Leyden and Tom Colucci and Gouin combine on a weak offense.

For the fans in Schneider Arena Saturday night, that was more than enough.

Looking ahead to next year, sophomore Steve Anderson foresees even larger conquests for the Friars from a young team, a lot of young kids coming in, and not too many leaving. Of course the loss of our seniors will hurt, but the coaches scouting may fill some of the voids,” Anderson said.

It has been an exceptional season and a bright future for the Friars can look at a very successful season and a bright future for the fans in Schneider Arena Saturday night, that was more than enough.

Looking ahead to next year, sophommore Steve Anderson foresees even larger conquests for the Friars from a young team, a lot of young kids coming in, and not too many leaving. Of course the loss of our seniors will hurt, but the coaches scouting may fill some of the voids,” Anderson said.
