Mortimer Adler Addresses
Thomistic Guild Members

Addresses a World-Wide Community As Solution
For a Permanent Peace

Holds Peace Possible

International Law and Peace

Henry E. Peters, O. P., an official of the Catholic University of America, and the Catholic University of Louvain, Belgium, the last month, told members of the Thomistic Guild of Providence College last fall that a durable and lasting peace upon earth is possible only through a permanent peace for the whole world. "General agreements are for an
architect," Mr. Adler said. "Peace treaties are a means to an end because they are not adequate to the past. These are not adequate
bunals and international laws belong to natural limits to power," he said, "where political power commen-
surate with its political authority and single sovereignty, a sovereign govern-
ment with political power commensurate with its political authority and with an economy as unified as the sciences as a means of guaranteeing the freedom.

Mr. Adler spoke in the lounge of the "University of America," at a formal meeting of the various guilds of the Thomistic Institute. He introduced the concept that a world government is possible only through a permanent peace for the whole world. The speaker attempted to prove his thesis by the certainty from prin-
ciples, in the context of the political context, as far as an
architect. "There are no natural limits to power," he said. "The natural limits are as far as an
architect." (Continued on Page 4)

NOMENCLATURE

An Important Student Assembly

The Joint College Procurement Board will visit the College today and tomorrow. An important student as-

attendance is manda-

Now... To speak here this morning.

Chairman

John W. Sormasti of Providence, elected chairman of the Prov-

ence College Junior Prom.

Haloween Hop to be sponsored by Sophomores

Note: Decorations are arranged for To-
night's Dance

An amusing aspect in the transition of the Harkins Hall will take place tonight when the second-year men of the col-
lege hold their annual Sophomore Hop.

It is interesting to find out where the beaux and belles deposit their scrap. In keeping with the Hallowe'en spirit the centre piece will be a huge cauldron rendered with surrounding MacBeth-

now. This theme will give in addition to an eerie atmosphere, a note of patriotism. All attending are urged to bring old keys and compacts and cast them into the kettle. The precious metal so collected will be do-

Studens Aid as Fuel Estimators

About 50 Providence College stu-
dents volunteered their services as fuel estimators for the heating boards. They were assigned to eleven different boards in four different localities comprising six boards in Providence, two in Pawtucket, two in Woonsocket and one in Smithfield.

Volunteer Student Teachers Wanted

During the past week Providence College received an appeal from the Providence Volunteer Office for stu-
dents to teach various subjects for one period a week. Boys signing for these jobs should gain valuable experience in the teaching field.

Volunteers are also needed to teach model airplane building to a group of boys for one afternoon a week from 4 to

Volunteers are also needed to serve as aide-tutors to help with all office work during student programs one evening a week.

War Bonds

COMPACTS AND KEYS
The fact that our country is, at the present time, engaged in an international war has, without doubt, changed the life of every student at Providence College just as it has affected almost everyone in America. There is nothing that can be done about it, but realize that we do. Realize, too, that we all must make some sort of sacrifice toward the war effort while we calmly await our call to duty. But this condition can be carried to extremes. There is no need for people to go around with the thought of war constantly before them—eating, sleeping, and working with only the war effort in mind. Everyone has a special responsibility toward the war effort, and we cannot afford to lose heart or to lose courage.

A COLOSSAL GOSZIP
By Jack Brady
I heard by the grapevine that three P. C. students crashed a Brown fraternity party two weeks ago. The Brown boys, to their credit, told the guests to leave. They were not interested in drinking alone, and perhaps they thought of the millions of dollars spent to educate them. They thought that if they used the beer that they paid for, they would be able to come home and tell their parents that they were making the best use of the money they were spending.

John Dillon can be seen at any West High football game this fall. He is another fantastic player from Cranston. He is still the same studious, serious type. Everyone knows that he is the best student in his class, and that he is going to be a success in whatever field he chooses. It is a great feeling to have a student like John Dillon on the team. He is a great inspiration to everyone.

The Soph Hop tonight has reached a happy climax. The whole school is looking forward to it, and everyone is excited about the party. The music will be great, and the dancing will be fantastic. The food will be delicious, and the drinks will be plentiful. It is going to be a great night, and everyone will have a great time.

Prospects Appear Good

COACH ED CROTTY

Monday.

The Athletic Office announced this week that November 25 was the absolute deadline for makeups in physical education. In order to secure the credits for the course, those who have missed classes for any reason must make up the time.

Thursday and Fridays are the only days on which makeups can be made, and only on those days will the credit be devoted to the Junior team.

Students in various branches are reminded that a failure to show their ability might well be raised to first positions on the Varsity if their skill shows their ability.

Because of the new first year rule, members of the Varsity can at any time be devoted to the Junior Varsity teams if he was started. All students are eligible to show their ability.

Selections must be placed in your score of the Boston College -Georgetown contest. The Chemists' forces.

Both clubs are as yet undefeated in league competition. The Chemists' loss was the first Chemist offensive play decided the contest. The Chems

The Interclub Championship will be at stake next Tuesday afternoon when a power-packed Guzman Hall eleven will meet a strong Chem. Club team which has been gaining momentum with each victory.

Guzman has come to from behind yesterday afternoon to defeat a courageous No Name Club by a 24-6 score. Guzman will go into next week's clash as oddson favorites but an upset might very well be in the offering. In the Chem. Club victory over Senior Lit. the first Chemist offensive

Neither team scored again until late in the third quarter, when Dillon intercepted a Coton pitch on his own 45 and, aided by a fancy block by Cottam, scrambled 55 yards down the side-line to put the runners out in front. This incidentally was the first time that the boys from Guzman had been scored upon.

The light but game No Namers protected their lead until late in the third quarter when Big Dave Tubridy fumbled back to the defenders 45 and shot a perfect strike to Drew in the end zone.

Guzman forged ahead early in the final period on Foley's 50-yard shock to Carberry in the end zone. Vasilauuskas converted on an end sweep. A bad pass from center soon after contributed two more points for the winners in the form of an automatic safety.

No Name team in yesterday's feature game. Coming from behind late in the third quarter the well-drilled Guzman eleven overwhelmed a fast-tiring No Name team in yesterday's feature game.

Harrington's 40-yard aerial to Frank in the first period had put the runners out in front. This incidentally was the first time that the boys from Guzman had been scored upon.

Les Brown Has His Own Share of Hard Knocks

Leader Left Duke University in 1936

Les Brown, who brings his orchestra to the Providence College Junior Prom on November 23, has taken more than his share of hard knocks since he came out of Duke University in the Spring of 1936, with an enthusiastic crew of classmates bent on making their mark in the music world.

"The real turning point," Brown says, "came in the winter of 1940 when we were booked into Mike Todd's Theatre-Cafe in Chicago for four weeks. The job was one all of us enjoyed and it gave us the necessary spark and the courage to carry on. We did so well as a result, that we stayed for four solid months. That was our warm-up and all that important airtime was just what we needed."

Before that date, however, it was almost impossible to obtain good musicians for the union scale rates. Brown hesitated to make too many promises in advance. "I think we need a lively discussion period followed Dr. Adler's address."

ADLER ADDRESSES THOMISTIC GUILD

(Continued from Page 1)

"The summer of 1938 was the low point of my life," he continued, "but is a result of the Providence Branch of the Alumni Association, Chairman of many Alumni Affairs."
